

**Elizabethtown Area School District  
Scope & Sequence - Quick Reference**

---

**Department:** Science

**Course:** General Zoology/General Botany

**Grade Level(s):** 10-12

**Course Description:** General Zoology and General Botany is a survey of the plants and animals living in Pennsylvania. Students will study concepts related to Aquatic Ecology, Forestry, Soils and Land Use, Wildlife and a Current Event component. Lab components of this class consist of tree identification, bird observations, stream studies, soil texturing and reptile & amphibian identification in an outdoor setting. This class prepares students for the Pennsylvania Envirothon if students desire to compete on an Envirothon team. The overall goal of this class is to have students become active participants in nature and to develop environmental stewardship.
