INTRODUCTION TO ART (Fine Arts)

Credit: 0.5

Grade: 9-12

Prerequisite: none

Description: This course is a foundation for advanced courses in the art department. Its purpose is to expose the student to basic art concepts and processes. Units of study include Introduction to Art and Aesthetics, Line, Shape Form, Value, and Color; Space and Texture, and Movement.

WORLD ART (Fine Arts)

Credit: 0.5

Grade: 9-12

Prerequisite: Introduction to Art 1 or the recommendation of an instructor with an approved portfolio

Description: Students will explore art techniques such as drawing and painting as well as get introduced to clay and sculptural methods. In addition, we will work with a variety of art materials such as fiber arts, printmaking, collage, and much more. While creating art, students will learn about what inspires artists from all over the world (i.e. Native- American, Asian, African, Hispanic, and more). This course offers a lot of choices and will continue to teach design concepts through art-making while providing cultural learning opportunities. Come travel the world and make some art!

FOOD FUNDAMENTALS (Practical Arts)

Credit: 0.5

Grade: 9-12

Prerequisite: none

Description: This introductory semester course exposes students to the relationship between food science and nutrition principles for health and wellness. Activities include food selection, food preparation as well as the care and storage of food. The main focus of the class is the study of food accomplished through written work and supported by lab experiences, class notes, written assignments, and evaluations. This class serves as the foundation for ALL upper-level Foods classes.
