**Green Bay Area Public School District Updates Automatic External Defibrillators (AEDs)
during American Heart Month**

Green Bay, WI-February 10, 2025- February is American Heart Month and a great time to recognize the Green Bay Area Public School Schools facilities department's efforts to ensure the well-being of students, staff, athletes, and visitors to our schools.

The District has purchased 66 of the Zoll AED 3[®] units to replace the current AED units in our schools, as well as additional dedicated units for athletic trainers. The new units have the following benefits:

- A 5-year life battery life
- Full-color rescue images
- The unit uses the same pads for a child or adult
- The digital display provides “Real CPR Help” which measures the depth and rate of compression.

“Over the years, the District has been fortunate to have AEDs in our buildings,” stated Safety and Security Manager Chris Collar. “The decision to replace all of our AEDs at one time allows the District to have uniformity in training of our staff and in purchasing replacement parts.”

Since 1963, February has been proclaimed American Heart Month to acknowledge the importance of the ongoing fight against cardiovascular disease.

Founded in 1856 with the opening of the Sale School, the Green Bay Area Public School District is more than 150 years old. A unified school district of 92 square miles, it covers the city of Green Bay, all of the village of Allouez, the village of Bellevue, the town of Scott, as well as part of the towns of Ledgeview, Eaton, Green Bay and Humboldt. For more information, visit the district website <http://www.gbaps.org>.
