### **Wildly Important Goal #1: 80% of Students Make One Year's Worth of Growth**

- Iready MOY Projection Data
- Iready Growth Data: [Math](#) and [Reading](#)

Helton shared the data and what growth trends look like so far for STAAR and school accountability. Grade 5 data does not match their performance on recent district assessments, which has been very high. 2nd grade and 3rd grade have highest performing students for math and reading.

- TIA Update- The district's application for TIA was approved.

- [Tier 1 Behavior Trends](#)-M. Spark

M. Spark shared data trends about morning meetings, reach and respond, and greetings she observed over a two week time period. Data is disaggregated by grade level. We need to

continue to work on implementation of Reach and Respond and Morning Meetings. J. Spark pointed out that some teachers do Morning Meeting at a different time than when she was observing which may be skewing some data.
