# HEAVY METAL SUMMER EXPERIENCE

## 2025

<b>WHAT</b>	Heavy Metal Summer Experience (HMSE) is a free six-week summer career exploration camp where students will be exposed to the ins and outs of the unionized Piping and Sheet Metal Trades.
<b>WHO</b>	HMSE introduces high school students (ages 15-18) to careers in the building trades through hands-on projects, working alongside Danforth professionals, and discovering local apprenticeship training opportunities.
<b>WHERE</b>	This experience will take place on-site at Danforth's Buffalo location in the Piping and Sheet Metal shops. <b>Location Address: 300 Colvin Woods Parkway, Tonawanda NY</b>
<b>WHEN</b>	Every Tuesday & Thursday from July 8th – August 14th 2.5hrs per day   3:00pm-5:30pm
<b>WHY</b>	HMSE seeks to introduce young people to living-wage careers in the building trades. By normalizing skills-based apprenticeships as a post-secondary education option, HMSE hopes to create workforce diversity and entice the next generation of trades workers.

**John W. Danforth Company is a renowned mechanical contractor with a rich history spanning over 140 years. Our unwavering commitment to excellence has earned us the distinction of being the 4th largest mechanical contractor in the Northeast.**
