December 1, 2010

To the Citizens of
Rock Hill School District Three

We are pleased to submit to you the Comprehensive Annual Financial Report (CAFR) of Rock Hill School District Three (the School District) for the fiscal year ended June 30, 2010. The responsibility for both the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the School District. To the best of our knowledge and belief, the enclosed data are accurate in all material respects and are reported in a manner designed to present fairly the financial position and results of operations of the School District.

The CAFR is presented in four sections: Introductory, Financial, Statistical, and Single Audit. The Introductory Section includes this transmittal letter, the School District's organizational chart, and a list of principal officials. The Financial Section includes Management's Discussion and Analysis, the basic financial statements, notes to the basic financial statements, as well as the independent auditors' report on the financial statements. Also included in the Financial Section is a Supplemental Subsection containing additional supplemental financial schedules (with account numbers) required statutorily by the South Carolina Department of Education. The Statistical Section presents selected financial, economic, and demographic trend data, generally, over the past ten years. The Single Audit section contains schedules and auditors' reports required for the School District to comply with the Revised Single Audit Act of 1996 and U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*.

The information presented in this letter of transmittal should be read in conjunction with Management's Discussion and Analysis, which can be found immediately following the report of the independent auditors.

PROFILE OF THE SCHOOL DISTRICT

The School District was created in March 1953, through the merger of four former school districts. The School District encompasses a land area of 228 square miles, or almost one third of the land area of York County (the County), which is on the border between North Carolina and South Carolina, just south of Charlotte, North Carolina. The School District includes within its boundaries the entire City of Rock Hill, the sixth largest city in the State, as well as considerable surrounding territory.

The School District currently operates 17 elementary schools (grades K-5), a four year old child development center, five middle schools (grades 6-8), and three senior high schools (grades 9-12) to serve 18,023 students. The School District also has a vocational center, an adult education center, an alternative center, and a special instructional TV center. All schools in the School District and the School District itself are accredited by the South Carolina Department of Education and the School District is fully accredited by the Southern Association of Colleges and Schools (SACS).

REPORTING ENTITY

In August 2004, a charter school, The Children's Attention Home, was opened and is operating as an entity in York County School District Three. The School District has reviewed its operating entity definition in order to insure conformance with the Governmental Accounting Standards Board (GASB) Statement 14, *The Financial Reporting Entity* and GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units* and is presenting the Charter School Financial Information in the accompanying statements as a component unit. The School District is not included in any other "reporting entity" as defined by GASB Statements 14 and 39.

ECONOMIC CONDITION AND OUTLOOK

Rock Hill School District Three is located in York County, with the entire city of Rock Hill being encompassed by the School District. Rock Hill is located in the north-central area of South Carolina approximately 20 miles south of Charlotte, NC along the I-77 corridor. Rock Hill is a growing community of 69,000+ residents. The City encompasses over 31.8 square miles. While not the County seat, Rock Hill is the largest city in York County, SC, the fourth largest city in South Carolina and premier “Ring City” in the Charlotte Metropolitan Statistical Area (MSA).

The diversity and strength of the business community continually supports growth even during challenging economic times. With three high-amenity business parks, Waterford, TechPark and Antrim, and three industrial parks, Southway Industrial Park, Airport Industrial Park and Rock Hill Industrial Park, Rock Hill offers sites and existing facilities to numerous businesses. The City’s close proximity to both I-77, which runs through Rock Hill, and I-85 gives businesses easy access to major transportation routes. Charlotte/Douglas International Airport is 25 minutes north of Rock Hill via I-77. The airport serves more than 34 million passengers annually and is the ninth largest major airline hub in the nation. It is a hub for US Airways, has eight major carriers, and averages 620 flights daily with direct non-stop service to more than 140 destinations. Rock Hill was selected by *Business Week* magazine as one of the “best places in America to raise a family”.

According to the 2005 South Carolina Statistical Abstract, the County had the seventh largest labor force, eighth largest number of business establishments and seventh largest number of manufacturing companies in the State. York County’s population grew by more than 4 % between 2007 and 2008 solidifying its place among the nation’s fastest growing counties. However, the growth rate has slowed a bit, down from 4.8% last year to 3.3% between 2008 and 2009. The County is now beginning to move away from its textile roots and is luring more financial, distribution and service companies. The School District, the largest of four school districts within the County, is located in the southeastern portion of the County about 25 miles south of Charlotte. This area contains several of the County’s major companies, including Abitibi Bowater, Inc., a paper mill and Comporium Communications, a telecommunications provider. Rock Hill is also home to the global headquarters of 3D Systems Corp., a rapid prototyping company.

In February 2001, seven partners, one of whom was the School District, joined together to oversee the creation of the Old Town Renaissance Master Plan. This plan included six strategies for redevelopment: Downtown, College Town, Hometown (neighborhoods), Trolley Town (transportation), Textile Town (former textile mills), and Technology Town. Downtown revitalization continues to be a priority for the City of Rock Hill and the Rock Hill Economic Development Corporation. The focus of this plan is the development of a Downtown area with a unique blend of residential, retail restaurants and office space that embodies the concepts of smart-growth, neotraditional design and new urbanism.

Adopted in December of 2003 the Textile Corridor Master Plan, redevelopment of the former textile manufacturing area in downtown, is well into its final implementation. The area is comprised of approximately 250 acres within the urban core and with the completion of the historic Rock Hill Cotton Factory in the summer of 2007, the Plan’s vision of a pedestrian-friendly, mixed-use urban village is beginning to transpire.

In March 2007 the city entered into a memorandum of understanding with its development partners to create Riverwalk with three miles of frontage on the Catawba River. Riverwalk will become a mixed-use pedestrian-friendly community and will include the East Coast’s only bicycle racing track, a BMX course and other sports-tourism-related attractions. Upon completion, the project is expected to produce \$600 million in private investment, increase property taxes by \$4 million annually and generate 4,000 new jobs for Rock Hill.

MAJOR INITIATIVES

The School District is currently operating under its strategic plan for the years 2009-2014. The strategic plan includes a mission statement and motto and serves as the basis for school improvement and accountability. It also includes the School District’s beliefs, strategic directions, and system priorities. Every school uses the School District’s strategic plan to involve parents, teachers, principals and community in the development, annual review, and revision of each school’s plan and activities.

Motto & Mission

“Engaging Students for Successful Futures”

The Rock Hill Climb represents the 2009-2014 Strategic Plan. Reaching the summit will indicate our success in providing all students with work that authentically engages them in the learning process. To get to the top of the Rock Hill Climb, the summit, our schools must travel four pathways which represent what we must provide for all students:

- Shared Vision and Beliefs
- Future Focus
- A Nurturing Environment
- Quality Work Design and Delivery

Primary Accomplishments for FY 2009-2010 were as follows:

- District dropout rate decreased from 4.4% in September 2009 to 2.2% in January 2010.
- The Children’s School at Sylvia Circle was among the top five finalists for the top School Improvement Council.
- India Hook Elementary School, Mount Holly Elementary School, Northwestern High School, Old Pointe Elementary School, and the Children’s School were selected for the Palmetto Gold Award. Bellevue Elementary School, Ebenezer Avenue Elementary School, Rosewood Elementary School and South Pointe High School were selected for the Palmetto Silver Award.
- Adult Education won awards in six categories in state competitions.
- The Adult Education Center was chosen as one of five GED testing sites.
- Ebinport Elementary School, Mount Holly Elementary School and Sullivan Middle School were selected by the South Carolina Department of Education as “Red Carpet” invitational schools.
- All elementary schools and the Applied Technology Center met Adequate Yearly Progress (AYP) requirements.
- Scholarship totals for the Class of 2010 came in at \$25,019,586.
- Model UN Teams at Northwestern High School won top awards at both the Clemson University and Winthrop University Model UN competition.
- The Rock Hill High School Model UN team was selected for one of the top three awards at the regional Model UN competition.
- Twenty-two teachers received National Board Certification.
- The Children’s School at Sylvia Circle was one of five finalists for the top State School Improvement Council Award.
- Northwestern High School Varsity Football Team was runner-up in the state football championship.
- Northwestern Varsity Cheerleaders were Upper State Champions and runner-up to the state Champion.

- Rock Hill High School Wrestling Team won the Upper State Championship for the third consecutive year
- Northwestern High School Boys' Soccer Team won the 4-A state championship for the third consecutive year.
- Northwestern High School's Purple Regiment placed second in the 4A state marching band championship.
- Rock Hill High School's Band of Distinction placed third in the 5A state marching band competition.
- South Pointe High School's Band of Thunder placed fourth in the 3A state marching band competition.
- Al Leonard, Principal of South Pointe High School was selected by Journalism Education and National Scholarship Press Association as the 2009 National Administrator of the Year.
- Dr. Cyndie Smith (Brattonsville Academy), Bud Cope (Dutchman Creek Middle School) and Cathy Griffin (Northwestern High School) were selected by the South Carolina Council for the Social Studies as 2009 Social Studies Educators of Distinction.
- Gene Baston (Independence Elementary School) was selected as a Distinguished Teacher of Reading by the Palmetto Reading Council of the International Reading Association.
- Chris Beard, Principal of Mount Holly Elementary School, was selected by the Palmetto Reading Council of the International Reading Association as the Administrator of the Year
- Melissa Kreitzer (Independence Elementary School) and Ian Young (Rock Hill High School) were selected as the Elementary and Secondary Beginning Teachers of the Year.
- Laney Burris (Administrative Services) was selected as the 2010 Risk Professional of the Year by the SC Public Risk Insurance Management Association.
- The District completed a successful voter registration campaign with 95.1% of all employees registered to vote.
- The district partnered with The Herald Newspaper to supply over 800 students with book bags.

FINANCIAL INFORMATION

The Rock Hill School District Three management is responsible for developing and maintaining internal controls designed to insure that the assets of the School District are protected from loss, theft, or misuse and to insure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

Budgetary Control

At the beginning of each fiscal year, the Board of Trustees (the Board) approves the annual budget for the General Fund. The purpose of the approval by the Board is to insure compliance with the legal provisions indicated in the Policies of the Board of Trustees, as well as State and Federal laws. The Board, through policy, has given the School District Superintendent the responsibility of managing the School District's budget.

Budget transfers between function levels may be requested by school principals and department heads and are approved by the finance department. Periodically, the Board is given interim financial reports which detail year-to-date expenditures and encumbrances versus budgetary appropriations.

All other budgets are reviewed and approved by either the Administration, or the governing body responsible for issuing the grant. Any funds allocated to the School District which do not require a budget are used to support the School District's educational program.

Debt Service expenditures are controlled by the bond issue requirements. Revenues to pay the debt service requirements are levied by the County Auditor. Each year the Board requests what it feels will be required in millage to be assessed by the County Auditor. However, the responsibility of maintaining an adequate cash balance in the debt service fund is legally that of the County Auditor.

Financial Condition

Property tax revenues decreased \$639 thousand or 1% from the prior year. This was largely due to a decrease in millage for debt service operations even though the Board increased millage for operations by 6 mills. Due to a State and National economic downturn, the State issued two budget cuts during the year and reduced the base student cost from \$2,034 at the beginning of the year to \$1,756 by the end of the year. Federal/State formula aid increased by only \$882 thousand or 3.8%. Actual revenues were less than expenditures by \$2.1 million for the fiscal year. The 2009-2010 budget included cost reductions for the elimination of over 30 general fund positions, a reduction in professional development, reduction in school and department allocations and a reduction in substitutes for absent employees. In addition the after school program was restructured, new guidelines for field trips were implemented as well as additional energy conservation practices.

The unreserved, undesignated fund balance in the general fund at year end was \$17,413,749. During the FY 2009-2010 budget process, the School District developed a financial crisis plan anticipating revenue reductions from the state and an unknown future economic condition.

The administration continues to analyze the projected fund balance need and continues to support the need to maintain at least the 12% minimum fund balance designated by the Board. Understanding that economic conditions may not immediately improve, the Board re-examined in 2009-2010 its previous 8%-10% fund balance policy and set the current target of 12%. Also the South Carolina General Assembly passed Act 388 in June 2006, which eliminates all school operating taxes on owner-occupied homes and replaced it with a potentially less stable funding source of an additional 1 percent general sales tax. The targeted fund balance will allow the School District not only to maintain its ability to handle any major shortfalls due to the economic decline but also to handle the increase in operating costs should the need arise for new facilities in the future.

The School District still feels a positive fund balance is sound financial management. A positive fund balance serves several purposes. The first is to ensure that the instructional process is not interrupted by unforeseen budgetary constraints such as state cuts or default of a tax payment by a major industry.

Secondly, the School District is able to reduce short term borrowing by having cash available in the later months of the year. Maintaining a positive fund balance, the School District has been able to meet its cash flow needs this year without short-term borrowing.

The third purpose is to maintain a positive bond rating. The Board has committed to focus toward technology, improving capital assets, and ensuring adequate facilities for our students. All of these items require issuing debt. Showing a continued commitment to maintaining an adequate fund balance will help to maintain and improve our current bond rating.

Cash Management

The School District invests all temporarily idle cash. These funds are invested in obligations collateralized by instruments issued or guaranteed by the United States Government or the State of South Carolina.

The School District uses several entities for investment of funds. Primarily this is through participation in the South Carolina Local Government Investment Pool operated by the Office of the State Treasurer. Funds held by the County Treasurer's office are sent to the SGLIP. The School District has access to all funds in the State Pool within 48 hours. The average interest earnings rate with the SGLIP 2009-2010 was .40% compared to .72% in the previous year. The School District also has an additional account at the State Pool whereby funds from the South Carolina Department of Education are deposited into the County Treasurer's account and immediately transferred into the School District's account.

Another investment tool is through treasury management services provided by Wachovia. The School District maintains several accounts with the bank and all excess funds are swept into an overnight investment account. General fund interest earned was \$97,449 compared to \$318,383 in the prior year. The School District has structured its banking contract for maximum earnings potential and the contract still provides the School District with a lower fee structure based on minimum average monthly deposits.

Risk Management

Rock Hill School District Three participates in the South Carolina School Boards' Insurance Trust Fund. The School Boards' Insurance Trust provides coverage for building and property, casualty and liability, and workers' compensation. The programs are directed toward minimizing costs through the integration of system design, risk control and claims management.

OTHER INFORMATION

Financial Reporting and Independent Audit

The financial report for the fiscal year ended June 30, 2010 has been prepared under the financial reporting model required by GASB 34, *Basic Financial Statements - and Management's Discussion and Analysis - for State and Local Governments*. The financial statements include government-wide financial statements as well as fund financial statements, which present information for individual major funds. As part of this reporting model, management is responsible for preparing a Management's Discussion and Analysis of the School District. This discussion is included in the front of the financial section of the report and provides an assessment of the School District's finances for FY 2010 and the outlook for the future.

State statutes require an annual audit by an independent certified public accountant. The accounting firm of Elliott Davis, LLC was selected by the Board of Trustees to perform this audit. In addition to meeting the requirements set forth in state statutes, the audit was designed to meet the requirements of the Single Audit Act Amendments of 1996 and related OMB Circular A-133. The auditors' report on the basic financial statements is included in the Financial Section of the CAFR. The auditors' reports related specifically to the single audit are included in the Single Audit Section.

Awards

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Rock Hill School District Three for its CAFR for the fiscal year ended June 30, 2009. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized CAFR. This report must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

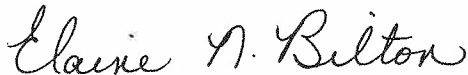

The Association of School Business Officials (ASBO) International awarded a Certificate of Excellence in Financial Reporting Award for excellence in the preparation and issuance of the fiscal year end 2009 school system CAFR to Rock Hill School District Three. The Certificate of Excellence in Financial Reporting Program was designed by ASBO International to enable school business officials to achieve a high standard of financial reporting. The award is only conferred to school systems that have met or exceeded the standards of the program. This award is also valid for a period of one year. We believe that our current CAFR continues to meet the program requirements, and we are submitting it to ASBO International to determine its eligibility for another certificate.

Acknowledgments

The successful completion of this CAFR would not have been possible without the commitment and hard work of many people. The entire finance staff has continued to maintain an exemplary level of performance without which this report would not be able to be completed. We would also like to thank the Instruction Department for their contributions in time and information. We would like to thank our audit firm Elliott Davis, LLC for their professional services in auditing the information contained within this document and their invaluable assistance with the compiling and printing of this financial report.

The management would also like to thank the Rock Hill School District Three Board of Trustees for their continued support and leadership. Without their help, we would not be able to maintain the exceptional staff needed to assure such a high level of competency.

Respectfully Submitted,

Elaine N. Bilton

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

The Honorable Chairman and
Members of the Board of Trustees
Rock Hill School District Three
Rock Hill, South Carolina

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Rock Hill School District Three (the School District) as of and for the year ended June 30, 2010, which collectively comprise the School District's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the School District's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the School District, as of June 30, 2010, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated December 1, 2010 on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Management's discussion and analysis on pages 17 through 25 and the budgetary comparison information on pages 55 through 63 (Schedule 1) are not required parts of the basic financial statements but are supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the School District's basic financial statements. The combining and individual fund financial statements and other schedules, listed in the table of contents as other supplementary information, are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments and Non-Profit Organizations*, and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

The introductory section and statistical tables, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. This information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on it.

ROCK HILL SCHOOL DISTRICT THREE
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE FISCAL YEAR ENDED JUNE 30, 2010

As management of Rock Hill School District Three (the School District), we offer readers of the Rock Hill School District Three's financial statements this narrative overview and analysis of the financial activities for the fiscal year ended June 30, 2010. Please read the information presented here in conjunction with additional information that we have furnished in our letter of transmittal at the front of this report and the School District's financial statements, which immediately follow this section.

FINANCIAL HIGHLIGHTS

- General revenues accounted for \$87.3 million in revenue or 50.1% of all revenues. Program specific revenues in the form of charges for sales and services, grants and contributions accounted for \$86.8 million or 49.9% of total revenues of \$174 million.
- The School District had \$167.5 million in expenses related to governmental activities; only \$79.6 million of these expenses were offset by program specific charges for services, grants or contributions. General revenues (primarily taxes and state funding) of \$86.8 million were not sufficient to provide for the remaining expenses, and net assets decreased by \$1.1 million.
- As of the close of the current fiscal year, the School District's governmental funds reported combined ending fund balances of \$28.8 million, a decrease of \$1 million in comparison with the prior year. The decrease was largely a decrease in the general fund due to state revenue reductions of approximately \$4 million and an increase in the debt service fund related to a refunding of general obligation bonds.
- The total assets of the Rock Hill School District Three's governmental activities exceeded its liabilities at the close of the most recent fiscal year by \$116.5 million. Of this amount, \$18.8 million (unrestricted net assets) may be used to meet the government's ongoing obligations to citizens and creditors.
- Among the major funds, the general fund had \$116.3 million in revenues and other financing sources and \$118.4 million in expenditures and other financing uses. Transfers in from other funds helped supplement the short-fall in revenues. The fund balance of the general fund decreased \$2.1 million from the prior fiscal year.
- At the end of the current fiscal year, unreserved fund balance for the general fund was \$17.4 million or 14.8% of the total general fund expenditures.
- The School District increased its outstanding long-term debt to \$176.9 million.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts: management's discussion and analysis (this section), the basic financial statements and required supplementary information. The discussion and analysis are intended to serve as an introduction to the School District's basic financial statements. The School District's basic financial statements consist of three parts: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the basic financial statements. This report also contains supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements - The government-wide financial statements (Statement of Net Assets and Statement of Activities) are designed to provide readers with a broad overview of the School District's finances in a manner similar to a private-sector business. Short-term and long-term information about the School District's overall financial status is provided in these statements. These statements include all assets and liabilities using the accrual basis of accounting used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

The Statement of Net Assets and Statement of Activities report the School District's net assets and changes in those assets. This change in net assets is important because it tells the reader for the School District as a whole, whether the financial position of the School District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the School District's property tax base, current property tax laws, facility conditions, required educational programs and other factors.

In the Statement of Net Assets and the Statement of Activities, the School District is divided into two distinct kinds of activities:

Governmental Activities - Most of the School District's programs and services are reported here including instruction, support services, operation and maintenance of plant, pupil transportation and extracurricular activities.

Business-Type Activities - These services are provided on a charge for goods or services basis to recover all of the expenses of the goods or services provided. The School District food service activities are reported as business activities.

The Statement of Net Assets presents information on all of the School District's assets and liabilities, with the difference between the two reported as net assets. Over time, increases and decreases in net assets may serve as a useful indicator of whether the financial position of the School District is improving or deteriorating.

The Statement of Activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (i.e. uncollected taxes and earned but unused vacation leave).

The government-wide financial statements distinguish functions of the School District that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the School District include the general fund, special projects fund, Education Improvement Act fund, debt service fund and capital projects fund. The business-type activities of the School District include the food service fund.

The government-wide financial statements can be found on pages 26 and 27 of this report.

Fund Financial Statements - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the School District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds - Most of the School District's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. Consequently, the governmental funds statements provide a detailed short-term view that helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's education programs. The differences between governmental activities (in the Statement of Net Assets and the Statement of Activities) and governmental funds are reconciled in the financial statements.

Proprietary funds - Services for which the School District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the government-wide statements. The School District's food service fund is the only proprietary fund.

Fiduciary funds - The School District is the trustee, or fiduciary, for assets that belong to others. The School District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. The School District excludes these activities from the government-wide financial statements because it cannot use these assets to finance its operations. The School District's student activities fund is the only fiduciary fund.

Notes to the basic financial statements - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 35 to 54.

Supplemental information - In addition to the basic financial statements and accompanying notes, this report also presents certain required supplemental information that further supports the financial statements with a comparison of the School District's budget for the year and other supplementary information schedules required either by the State Department of Education or the certificate of excellence program of the Government Finance Officers Association.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT AS A WHOLE

The table below provides a summary of the School District's net assets as of June 30, 2010 compared to June 30, 2009:

Condensed Statement of Net Assets

	Governmental Activities		Business-type Activities		Total	
	2010	2009	2010	2009	2010	2009
Current assets	\$ 46,401,657	\$ 47,186,638	\$ 2,233,559	\$ 135,045	\$ 48,635,216	\$ 47,321,683
Capital assets	264,825,740	270,529,936	1,376,906	1,593,752	266,202,646	272,123,688
Total assets	<u>\$ 311,227,397</u>	<u>\$ 317,716,574</u>	<u>\$ 3,610,465</u>	<u>\$ 1,728,797</u>	<u>\$ 314,837,862</u>	<u>\$ 319,445,371</u>
Long-term debt outstanding	\$ 163,604,330	\$ 157,228,602	\$ -	\$ -	\$ 163,604,330	\$ 157,228,602
Other liabilities	31,169,084	42,904,447	-	(1,172,263)	31,169,084	41,732,184
Total liabilities	<u>194,773,414</u>	<u>200,133,049</u>	<u>-</u>	<u>(1,172,263)</u>	<u>194,773,414</u>	<u>198,960,786</u>
Net assets						
Invested in capital assets, net of related debt	88,224,652	87,780,196	1,376,906	1,593,752	89,601,558	89,373,948
Restricted	9,433,836	9,082,727	-	-	9,433,836	9,082,727
Unrestricted	<u>18,795,495</u>	<u>20,720,602</u>	<u>2,233,559</u>	<u>1,307,308</u>	<u>21,029,054</u>	<u>22,027,910</u>
Total net assets	<u>116,453,983</u>	<u>117,583,525</u>	<u>3,610,465</u>	<u>2,901,060</u>	<u>120,064,448</u>	<u>120,484,585</u>
Total liabilities and net assets	<u>\$ 311,227,397</u>	<u>\$ 317,716,574</u>	<u>\$ 3,610,465</u>	<u>\$ 1,728,797</u>	<u>\$ 314,837,862</u>	<u>\$ 319,445,371</u>

Total assets of the School District decreased overall \$4.6 million. Deposits with York County Treasurer in the capital projects fund decreased \$3.4 million largely due to expenditures relating to the opening of two new schools in 2008-2009 and renovation projects for all schools. During the current year general obligation bonds were issued in the amount of \$23.7 million. \$19 million were issued to defray the costs of capital improvements, to redeem series 2008 general obligation bond anticipation notes and to defray costs related to acquisition of technological equipment. The remaining \$4.7 million provided funds to refund the outstanding principal of general obligation bonds series 2000A.

Total liabilities decreased by \$4.2 million. While long-term debt outstanding accounted for an increase of \$6.5 million due to the issuance of general obligation bonds, the current obligation for bonds and notes payable decreased by \$12.7 million. The district repaid \$12.5 million in bond anticipation notes in 2009-2010 and issued \$6 million in tax anticipation notes.

Total net assets remained almost unchanged, decreasing only \$420 thousand. Unrestricted net assets decreased \$1 million and was mainly caused by reductions in state revenues and decreases in property tax collections due to debt service millage reductions.

Both governmental activities and business-type activities are reporting positive balances in all three categories of net assets. In the prior fiscal year, 2009, they also reported positive balances.

The table below shows the changes in net assets for fiscal year 2010 compared to 2009.

Changes in Net Assets						
	<u>Governmental Activities</u>		<u>Business-type Activities</u>		<u>Total</u>

NET ASSETS, JUNE 30, 2010	<u>\$ 116,453,983</u>	<u>\$ 117,583,525</u>	<u>\$ 3,610,465</u>	<u>\$ 2,901,060</u>	<u>\$ 120,064,448</u>	<u>\$ 120,484,585</u>

Property tax revenues decreased \$639 thousand or 1.0% from the prior year. This was largely due to a decrease in millage for debt service operations. Federal/state formula aid funding increased by \$982 thousand or 3.8%. While funding from state formula aid decreased due to budget cuts, state and federal legislation provided for an increase in funding in the form of State Fiscal Stabilization Funds (federal stimulus) as well as stimulus funding for federal programs.

Charges for sales/services decreased from the prior year. These governmental activities charges are largely from the School District's after school program called Challenger. It is operated in all 16 elementary schools and currently serves approximately 1,000 students. It is a curriculum based program which operates each day from the end of the regular school day until 6 pm. It is a special revenue fund which operates solely from tuition charges with a small amount of general fund assistance. During the fiscal year, tuition charges were not increased but the program was discontinued for the summer months which affected the collections for the months of July and August. The School District uses a mandatory draft program for tuition collection which has reduced uncollectible receivable balances.

The School District's expenditures are primarily related to instruction and support services. In FY 2010, the School District's instructional services accounted for 50.9% and support services accounted for 44.6% percent of total governmental activities costs compared to 57.1% and 38.7% respectively, in the prior fiscal year. The instructional costs are largely from salary and fringe benefits for teachers and other educational staff. The support costs are primarily custodial, maintenance, utilities and pupil transportation.

Total expenses surpassed revenues, decreasing net assets \$1.1 million from the prior year.

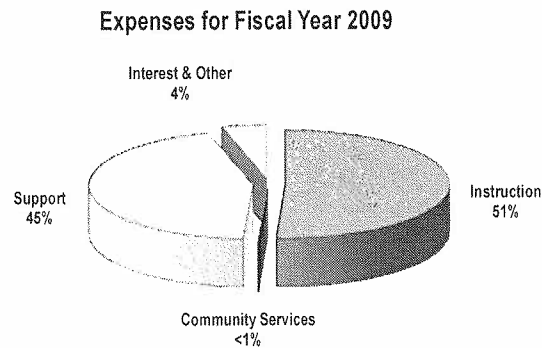

GOVERNMENTAL ACTIVITIES:

The source of revenue for governmental activities is almost equally divided between general revenues and grants and contributions. General revenues consist primarily of local property tax revenues.

Revenues by Source - Governmental Activities

The figure below represents the cost of four major School District activities: instruction, support services, community services, and interest and other.

Overall, the School District's financial position is stable. This stability can be credited to innovative management decisions when developing programs and policies. The rate of growth slowed during 2009-2010; however, the District's management aggressively began a program of cost reductions, anticipating the slowing economy.

BUSINESS-TYPE ACTIVITIES:

Business-type activities consist of the School District's food service operations. This operation receives no support from tax revenues. As demonstrated below, the revenue received is approximately 32% from local sources and slightly more than half from federal sources (68%). The remainder of less than 1% is from state sources.

During FY 2010, revenues of the School District's business-type activities decreased 2.3% to \$7.2 million. The decrease in revenue is due to several factors. Although the Federal reimbursement rate the School District received increased by \$.11 for each free/reduced lunch meal and \$.06 for each free/reduced breakfast meal, the total number of meals served decreased by 15,134. In addition, due to streamlining of processes and an effort to cut food costs, the a la carte sales and adult meal sales decreased by approximately \$130 thousand.

Salary and fringe expenses decreased as projected during FY 2010 due to an effort to reduce staff. Food and supply costs decreased due to decreases in fuel costs. Total expenses decreased by \$830 thousand.

Food Service operations in summary reflected a gain for the fiscal year of \$709 thousand which increased the net assets from \$2.9 million to \$3.6 million. Because of the gain in net assets and the increase in federal reimbursement rates, meal prices have not been increased for 2010-2011.

FINANCIAL ANALYSIS OF THE SCHOOL DISTRICT'S FUNDS

As the School District completed the year, its government funds reported combined fund balances of \$28.8 million, a net \$1 million decrease from last year's ending fund balances. The capital fund balance increased by \$289 thousand to \$2.9 million largely due to the issuance of general obligation bonds. The debt service fund balance increased as well by \$962 thousand. The general fund's fund balance decreased by \$2.1 million to \$17.4 million. This decrease resulted from a combination of a decrease in spending in anticipation of state budget reductions and a large decrease in revenue due to state budget reductions during the fiscal year.

GENERAL FUND BUDGETARY HIGHLIGHTS

For the fiscal year 2009-2010 budget, the School District compiled and submitted to the Board of Trustees a budget with expenditures exceeding revenues by \$2.4 million. Local revenues were projected to increase 2 percent over the preceding year and additional state revenues were anticipated due to an estimated increase in Act 388 funds from \$13,500,000 to \$16,000,000. The average daily membership of the School District was projected to increase by approximately 150 students for a total of 17,350. The Board of Trustees approved the operating budget with a net millage increase after appropriation of 6 mills for 2010. The total local revenue was estimated to increase \$1.4 million.

Budgeted expenditures included cost reductions for the elimination of over 30 general fund positions, a reduction in professional development, reduction in school and department allocations and reduction in substitutes for absent employees. In addition, the after school program was restructured, new guidelines for field trips were implemented as well as additional energy conservation practices.

- Local property tax revenues were \$732 thousand less than budgeted only a 1% difference. The School District's total assessed value increased due to an expected growth in the tax base. A portion of the School District's local tax revenue is provided by a countywide millage allocated to the four school districts in York County based on average daily membership. Rock Hill School District's percentage decreased to 44.88% compared to 45.40% last year. Also, the School District continues to receive a fixed amount of State Local Property Tax Reimbursement dollars (\$5,991,205) based on tax year 1999 and receives no increased reimbursement for any growth in the tax base.
- State revenues were \$ 3.9 million lower than budgeted, or 5.5% due to reductions in state funds. The final state base student cost allocated and received was \$1,756 as a result of two budget reductions issued from the state.
- Overall, actual revenues were \$4.3 million lower than budgeted revenue. This was mainly due to the state budget reductions.
- Actual expenditures for the fiscal year were 3% under budget or approximately \$4 million. This difference was due to the cost saving measures implemented during the year in response to state revenue reductions. There were no unusual items to report.

During the budget process, the School District budgeted no increase in the South Carolina Retirement System employer contribution rate. The budget for the employer portion of health and dental costs was increased by approximately 2.5%. The School District, including principals and department heads, has continued to take a conservative approach to spending during the year as state funding was reduced. In addition to spending reductions, the District implemented after the beginning of the fiscal year, a furlough of two days for instructional staff and four days for administrative and support staff.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets - By the end of 2010, the School District had invested \$346.3 million in a broad range of capital assets, including school buildings, athletic facilities and various types of equipment necessary to operate the School District's 28 schools and administrative offices. This amount represents an increase of \$1.1 million from last year (more detailed information about capital assets can be found in Note 4 to the financial statements).

Capital Assets (Net of accumulated depreciation)

	<u>Governmental activities</u>		<u>Business-type activities</u>		<u>Total percent change</u>
	<u>2010</u>	<u>2009</u>	<u>2010</u>	<u>2009</u>	<u>2009-2010</u>
Land	\$ 10,433,629	\$ 10,433,629	\$ -	\$ -	0%
Buildings and improvements	250,589,689	255,361,939	-	-	(1.9%)
Furniture and equipment	<u>3,513,215</u>	<u>4,573,499</u>	<u>1,376,906</u>	<u>1,593,752</u>	<u>(23.2%)</u>
Total	<u>\$ 264,536,533</u>	<u>\$ 270,369,067</u>	<u>\$ 1,376,906</u>	<u>\$ 1,593,752</u>	<u>(2.2%)</u>

Additional information on the School District's capital assets can be found in Note 4 on pages 47 and 48 of this report.

Long-Term Debt - At year-end, the School District had \$164 million in general obligation bonds outstanding. This was an increase of approximately 4.1% from the prior year. The District issued \$4.7 million in general obligation refunding bonds and \$19 million in general obligation bonds. Debt repayment of \$17.3 million was for general obligation debt.

State statutes limit the amount of general obligation debt a governmental entity may issue to eight (8) percent of its total assessed valuation. The current debt limitation for the School District is \$21.5 million. Of the debt outstanding, none will be considered in the computation of the 8% limitation.

The School District maintains an "Aa1" rating from Moody's Investors Service, Inc. and an "AA" rating from Standard & Poor's Credit Market Services for general obligation debt.

Additional information on the School District's long-term debt can be found in Note 6 on pages 47 and 48 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

Rock Hill School District Three is located in York County (the County), with the entire city of Rock Hill being encompassed by the School District. York County is located in the northern piedmont portion of South Carolina and shares a common border with North Carolina. The County is an integral part of the Charlotte-Gastonia-Rock Hill Metropolitan Statistical Area and is one of the fastest growing areas of the State, which provides for some annual growth in our tax base.

This growth also brings an annual estimated increase in the School District's student population of about 100+ students. A state charter school is planned to open in 2010-2011 which could impact the number of students in the District and administration will continue to monitor the enrollment of that school in determining the 2010-11 budget. The School District's goal is to continue to provide the same level of educational programs and to continue to improve academic performance across the School District.

South Carolina's economic status continues to be a concern since school district operating funds are now more dependent on the collection of sales tax revenue at the state level. The School District has already experienced two state budget cuts in Education Finance Act and Education Improvement Act funds from the original allocations in preparing the FY 2010-11 budget. The total reductions to date for the School District are approximately \$4.1 million, which could be permanent reductions in funding for future years.

In preparing the 2010-11 budgets, the School District Administration continued to closely monitor the final changes to Act 388 which was passed by the South Carolina General Assembly in June 2006. Act 388 eliminates all school operating taxes on owner-occupied homes and replaces it with a potentially less stable funding source of an additional 1 percent general sales tax. Fiscal year 2007-08 was the base year for establishing future sales tax disbursements from the newly created State Trust Fund. The School District prepared its budget based on property tax revenue which would be received under the previous mechanism as instructed by the State. The School District also prepared its budget based on the full projected base student cost of \$2,034 per pupil and the Board approved an increase in local property tax millage by 6 mills. Due to the economic downturn in 2009-2010 and continuing into 2010-2011, the Federal Government awarded Stimulus Funds to all states. The revenue estimates in the 2010-2011 Budget also includes State Fiscal Stabilization Funds (Stimulus) which will be accounted for and reported as Federal Funds and are projected to end in 2011. Budgeted expenditures were sustained at the current level for 2010-2011.

With the passage of Act 388, the local School Board will be restricted in future years on its ability to raise the millage for general operating purposes to the prior year millage increased by the average twelve month Consumer Price Index plus the increase in population as determined by the Office of Research and Statistics of the State Budget and Control Board. We will continue to examine financial projections related to this significant change in funding source and also the State Budget and Control Board projections for 2010-11 as well as future years. We will plan carefully to provide the necessary resources to meet student and staff needs in the future and continue the successes of Rock Hill School District Three.

CONTACTING THE SCHOOL DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the School District's finances and to demonstrate the School District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact Elaine N. Bilton, Executive Director of Financial Services, Rock Hill School District Three, 660 N. Anderson Road, P.O. Drawer 10072, Rock Hill, South Carolina 29731.

Total liabilities and fund balances	\$ 35,652,367	\$ 3,365,887	\$ 622,722	\$ 8,843,199	\$ 5,489,788	\$ 53,973,963
Total governmental fund balances						\$ 28,788,399
Amounts reported for governmental activities in the statement of net assets are different because of the following:						
Capital assets used in governmental activities are not financial resources and therefore are not reported in governmental funds. The cost of assets is \$346,303,518 and the accumulated depreciation is \$81,766,985.						264,536,533
Property taxes receivable are not available to pay for current period expenditures and therefore are deferred in the funds.						2,150,706
Deferred charges are not reported in the funds because they are not current financial resources, but they are reported in the statement of net assets. Deferred charges of \$480,701 have been amortized by \$153,854.						326,847
Unearned bond premiums are deferred in the Statement of Net Assets. The premiums of \$4,549,676 have been amortized by \$1,712,017.						(2,837,659)
Some liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds.						
Bonds and notes payable						(163,990,000)
Capital lease obligations						(9,484,222)
Compensated absences						(548,920)
Accrued interest payable						(2,487,701)
Net assets of governmental activities						\$ 116,453,983

The accompanying notes are an integral part of these basic financial statements.

ROCK HILL SCHOOL DISTRICT THREE
RECONCILIATION OF STATEMENT OF REVENUES,
EXPENDITURES AND CHANGES IN FUND BALANCES
OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
For the fiscal year ended June 30, 2010

Exhibit 4
(Continued)

Total net change in fund balances - governmental funds (from Exhibit 4)	\$ (1,016,194)
Amounts reported for governmental activities in the statement of activities are different because of the following:	
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation expense (\$7,626,426) exceeds capital outlays, net (\$1,086,302).	(6,540,124)
Repayment of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.	
Capital lease payments	390,937
Bond anticipation notes retirement	12,500,000
Bond principal retirement	17,265,000
Bond proceeds provide current financial resources to governmental funds; however, issuing debt increases long-term liabilities in the statement of net assets. In the current period, proceeds were received from bonds issued.	(23,730,000)
Governmental funds report the effect of issuance costs, premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This is the amount that bond premiums (\$312,346) exceed deferred bond issuance costs (\$37,640) along with net amortization of bond premiums and deferred issuance costs, which totaled \$274,706 in the current period.	274,706
Because some property taxes will not be collected for several months after the District's fiscal year end, they are not considered "available" revenues and are deferred in the governmental funds. Deferred tax revenues increased by this amount this year.	(58,309)
In the statement of activities, certain operating expenses - compensated absences (vacation pay) - are measured by the amounts <i>earned</i> during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually <i>paid</i>). This year, the amount used exceeded the vacation earned.	(2,351)
Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.	(213,207)
Change in net assets of governmental activities (from Exhibit 2)	<u>\$ (1,129,542)</u>

ROCK HILL SCHOOL DISTRICT THREE NOTES TO BASIC FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Rock Hill School District Three (School District) is governed by a seven member elected Board of Trustees (Board). The School District provides regular and exceptional education for students in kindergarten through grade twelve.

The financial statements of the School District have been prepared in conformity with generally accepted accounting principles (GAAP) in the United States of America as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The School District also applies Financial Accounting Standards Board (FASB) statements and interpretations issued on or before November 30, 1989, to its governmental and business-type activities and to its proprietary funds provided they do not conflict with or contradict GASB pronouncements. The following is a summary of the more significant policies.

A. Reporting Entity

The School District's financial statements include all funds over which the Board is considered to be financially accountable. The School District receives funding from local, state and federal government sources and must comply with the requirements of these funding source entities. However, the School District is not included in any other governmental reporting entity because it does not meet the financial accountability criteria for inclusion established by governmental accounting standards. Board members have decision-making authority, the power to designate management, the ability to significantly influence operations and the primary accountability for fiscal matters. The School District invests funds and receives property tax revenues through its relationship with York County.

Component units are legally separate organizations for which the School District is financially accountable. Component units may also include organizations that are fiscally dependent on the School District in that the School District approves their budget, the issuance of their debt or the levying of their taxes. The School District has a charter school, Children's Attention Home Charter School, which is considered to be a component unit.

Discretely presented component unit – The Children's Attention Home Charter School is a public charter school, based on the guidelines of South Carolina Charter Schools Act of 1996. The charter school exclusively serves the School District and the charter school leadership terms remain under the jurisdiction of the School District's Board of Trustees and the School District Superintendent. Complete separately issued financial statement may be obtained from the administrative offices of Children's Attention Home Charter School, Post Office Box 2892, Rock Hill, South Carolina 29732.

In May 2002, the Governmental Accounting Standards Board issued GASB Statement No. 39, *Determining Whether Certain Organizations are Component Units*. This statement, effective in fiscal year 2004, provides additional guidance to determine whether certain organizations (such as parent-teacher organizations, foundations and athletic booster clubs) for which the School District is not financially accountable should be reported as component units based on the nature and significance of their relationship with the primary government. The School District has determined that there are no support entities that meet the requirements for inclusion as a discretely presented component unit under GASB No. 39.

ROCK HILL SCHOOL DISTRICT THREE
NOTES TO BASIC FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

B. Basis of Presentation

The statements of the School District are presented as follows:

Government-wide Financial Statements - The statement of net assets and the statement of activities display information about the School District as a whole. These statements include the financial activities of the School District, except for fiduciary funds. The effect of interfund activity has been removed from these statements except for interfund services provided and used. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues and other non-exchange transactions. Business-type activities are financed in part by fees charged to external parties.

The government-wide statements are prepared using the economic resources measurement focus. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements, therefore, include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the School District and for each function or program of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. There are no indirect expenses allocated to the direct expenses. Program revenues include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues, including taxes, which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements - Fund financial statements report detailed information about the School District. The focus of governmental and enterprise fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. The School District has no nonmajor funds. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources.

All proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net assets. The statement of changes in fund net assets presents increases (i.e., revenues) and decreases (i.e., expenses) in total net assets. The statement of cash flows provides information about how the School District finances and meets cash flow needs of its proprietary activities.

Cash Flow Statement - For purposes of the statement of cash flows, the proprietary fund considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

ROCK HILL SCHOOL DISTRICT THREE
NOTES TO BASIC FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

C. Measurement Focus and Basis of Accounting

Fund Accounting

The School District uses funds to maintain its financial records during the fiscal year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain School District functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The various funds of the School District are grouped into the categories governmental, proprietary and fiduciary.

Governmental Funds

Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is separated as fund balance. The following are the School District's major governmental funds:

General Fund - to account for all financial transactions not properly accounted for in another fund. The School District uses this fund to account for expenditures principally for administration, instruction, pupil services, operation and maintenance of plant and related fixed charges.

Special Revenue Funds - to account for the proceeds of specific revenue sources (other than debt service or major capital projects) requiring separate accounting because of legal or regulatory provisions or administrative action. The School District has two special revenue funds:

- (1) Special Projects Fund, a budgeted fund used to account for financial resources provided by federal, state and local projects and grants.
- (2) The Education Improvement Act (EIA) Fund, a budgeted fund used to account for the revenue from the Education Improvement Act of 1984 and legally required to be accounted for as a specific revenue source.

Capital Projects (Building) Fund - to account for the revenues and expenditures associated with building and site improvements.

Debt Service Fund - to account for annual payments of principal and interest on long-term general obligation debt and related costs.

Proprietary Funds

Proprietary funds are used to account for activities similar to those found in the private sector where the determination of net income is necessary or useful to provide sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies primarily within the government (internal service funds). The School District has no internal service funds. Non-operating revenues consist primarily of commodities and reimbursements received from the United States Department of Agriculture.

Within proprietary funds, operating revenues and expenses are presented in the Statement of Revenues, Expenses and Changes in Fund Net Assets. Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. Non-operating revenues consist primarily of commodities and reimbursements received from the United States Department of Agriculture. Sales for food service represent the operating revenues of the School District's proprietary fund. Operating expenses are necessary costs incurred to provide the goods or service that are the primary activity of the fund.

ROCK HILL SCHOOL DISTRICT THREE
NOTES TO BASIC FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

C. Measurement Focus and Basis of Accounting - (Continued)

Enterprise Funds - to account for operations (a) where the intent of the governing body is that costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or covered primarily through user charges or (b) where the governing body has decided that periodic determination of revenue earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes. The Food Service Fund is the School District's only enterprise fund and is used to account for the United States Department of Agriculture (USDA) approved school breakfast and lunch programs.

Fiduciary Funds

Fiduciary funds are used to account for assets held on behalf of outside parties, including other governments, or on behalf of other funds within the government. The School District's fiduciary funds consist of agency funds, which are custodial in nature, and do not involve measurement of results of operation. The agency funds are used to account for amounts held for student activity organizations.

Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting.

Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, are recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year-end.

The School District follows GASB Statement No. 33, *Accounting and Financial Reporting for Non-Exchange Transactions*, to account for non-exchange revenues. Nonexchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (see Note 2). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized. Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, income taxes, interest, tuition, grants, student fees and rentals.

ROCK HILL SCHOOL DISTRICT THREE
NOTES TO BASIC FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

C. Measurement Focus and Basis of Accounting - (Continued)

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Delinquent property taxes and property taxes for which there is an enforceable legal claim as of June 30, 2010, but which have not met the revenue recognition criteria, have been recorded as unearned revenue. Grants and entitlements received before the eligibility requirements are met are also recorded as unearned revenue. On governmental fund financial statements, receivables that will not be collected within the available period have also been reported as unearned revenue.

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The fair value of donated commodities used during the year is reported in the operating statement as an expense with a like amount reported as donated commodities revenue.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation, are not recognized in governmental funds.

D. Assets, Liabilities and Equity

Cash and Investments - South Carolina statutes authorize investments in certificates of deposit, savings accounts, repurchase agreements, the State Treasurer's Local Government Investment Pool (invested in government guaranteed securities), obligations of the U.S. Government and government agencies unconditionally guaranteed by the U.S. Government. Investments are recorded at fair value.

The York County Treasurer invests in authorized instruments on behalf of the School District. The York County Treasurer invests School District and other entity funds on a pooled basis with the Treasurer of the State of South Carolina. The State Treasurer invests in certificates of deposit, insured savings accounts, repurchase agreements, obligations of the United States government and government agencies guaranteed by the United States government.

Receivables and Payables - During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. On fund financial statements, these receivables and payables, if containing a balance at the end of the fiscal year, are classified as "due from other funds" or "due to other funds" on the balance sheet. These amounts are eliminated in the governmental and business-type activities columns of the statement of net assets, except for net residual amounts due between governmental and business-type activities, which are presented as internal balances.

The School District records its property tax receivables as levied net of an allowance for uncollectible amounts. The allowance for loss is 4% of property taxes receivable at fiscal year end.

Inventories - Under the system of accounting for inventory, materials and supplies are carried in an inventory account at cost, using the first-in, first-out method of accounting and are subsequently charged to expense when consumed. Inventory includes food, supplies and commodities. An amount for commodities received from the USDA, but not consumed as of June 30, 2010, has been recorded at fair market value as provided by the USDA and is included in purchased food inventory.

ROCK HILL SCHOOL DISTRICT THREE
NOTES TO BASIC FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

D. Assets, Liabilities and Equity - (Continued)

Capital Assets - General capital assets are those assets not specifically related to activities reported in the enterprise fund. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net assets but are not reported in the fund financial statements. Capital assets utilized by the enterprise fund are reported both in the business-type activities column of the government-wide statement of net assets and in the respective fund.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. The cost and accumulated depreciation of property sold or retired are removed from the accounts, and gains or losses, if any, are reflected in revenue or expenditures/expenses for the year. Donated fixed assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of \$100,000 for assets with lives of 15 or more years and \$5,000 for all other capital assets. The School District does not possess any infrastructure. Improvements are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are expensed.

In the enterprise fund, assets acquired or constructed by grants and shared revenues externally restricted for capital acquisitions and construction are reported as revenue in the period received in accordance with GASB Statement No. 33.

All reported capital assets other than land and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

<u>Description</u>	<u>Governmental Activities Estimated Lives</u>	<u>Business-Type Activities Estimated Lives</u>
Buildings and improvements	50 years	20 years
Furniture and equipment	3 - 7 years	3 - 12 years

Compensated Absences - The School District reports compensated absences in accordance with GASB Statement No. 16, *Accounting for Compensated Absences*. The School District's policy is to pay any salary-related payments, including accumulated vacation leave, upon termination up to 10 days. However, employees may accumulate vacation leave up to 20 days to be taken as time off. The entire compensated absence liability is reported on the government-wide financial statements. No liability is recorded for non-vesting accumulating rights to receive sick pay benefits.

ROCK HILL SCHOOL DISTRICT THREE
NOTES TO BASIC FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

D. Assets, Liabilities and Equity - (Continued)

Accrued Liabilities and Long-Term Obligations - All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements, and all payables, accrued liabilities and long-term obligations payable from proprietary funds are reported on the proprietary fund financial statements.

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. In general, payments made within sixty days after year end are considered to have been made with current available financial resources. Bonds and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements until due.

Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

For governmental funds, bond premiums and discounts, as well as issuance costs, are recognized during the current period. Bond proceeds are reported as an other financing source net of the applicable premium or discount. Issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

Fund Balances, Equity and Net Assets - Reservations of fund balance represent amounts that are not appropriated or are legally segregated for a specific purpose. Reservations of net assets, in the enterprise fund, are limited to outside third-party restrictions. Designations of fund balance represent tentative management plans that are subject to change.

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

The School District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Interfund Activity - Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Transfers between governmental funds and enterprise balances are eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

The government-wide statement of activities excludes the effects of internal activity, if any, between the funds.

ROCK HILL SCHOOL DISTRICT THREE
NOTES TO BASIC FINANCIAL STATEMENTS

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (Continued)

D. Assets, Liabilities and Equity - (Continued)

Operating Revenues and Expenses - Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the School District, those revenues consist of sales of breakfasts and lunches to students and teachers.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the School District's financial position and results of operations and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

Budgetary Accounting - State statutes require a budget for operations be approved before any expenditures are made. The Board will usually approve the operating budget in June for the fiscal year beginning July 1. A budget is adopted by July 1 of each fiscal year for the General Fund, on the same modified accrual basis used to reflect actual revenues and expenditures in the fund financial statements. The Board does not adopt a budget for the Special Revenue Fund. Special Revenue Fund budgets are controlled in conformance with the specific requirements of those funds (i.e., federal and state grant funds available are based on award amounts and the State EIA funds are based on the state appropriation). In addition, no budgets are prepared for the debt service and capital projects funds. A budget and actual comparison is presented in the accompanying fund financial statements for the general fund. The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts adopted in the original appropriations. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts in the final amended budget issued during the year ended June 30, 2010. This budget is prepared by function and object as dictated by the State-adopted Program Oriented Budgeting and Accounting System and for management control purposes. The School District's policies allow funds to be transferred between functions with administrative approval. The total budget cannot be increased beyond that level approved by the Board of Trustees originally and in supplementary action. The legal level of control is at the fund level.

The following procedures are followed in establishing the budgetary data reflected in the financial statements:

1. In the winter, the School District sets its budget calendar for the preparation of the budget for the next succeeding fiscal year.
2. The finance department develops each schools' allocation based on a membership projection. Each principal uses this allocation to develop the individual school budgets.
3. The School District's Administrative Cabinet, consisting of the superintendent, associate superintendents and executive directors, reviews the requests and presents a proposed budget to the Board of Trustees.
4. After review and preliminary approval by the Board of Trustees, the proposed budget is presented at a public hearing. Following the public hearing, the Board adopts the budget.

The budget amounts in the financial statements are as amended and approved by the Board. No supplemental appropriations were necessary during the year.

ROCK HILL SCHOOL DISTRICT THREE
NOTES TO BASIC FINANCIAL STATEMENTS

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY - (Continued)

Encumbrances - The appropriations of the general fund of the School District lapse at June 30 each year and the outstanding purchase orders, contracts and other commitments must be renewed. Therefore, there are no reservations of the fund balances at year end for encumbrances.

III. DETAILED NOTES ON ALL FUNDS

NOTE 1 - DEPOSITS, AMOUNTS ON DEPOSIT WITH YORK COUNTY TREASURER AND INVESTMENTS

The School District is authorized by South Carolina state law to invest in the following types of investments:

1. Obligations of the United States and agencies thereof.
2. General obligations of the State of South Carolina or any of its political units.
3. Savings and loan associations to the extent they are guaranteed by the Federal Savings and Loans Insurance Corporation.
4. Deposits in certificates of deposit where the certificates are collaterally secured by securities of the type described in (1) and (2) above held by a third party as escrow agent or custodian, of a market value not less than the amount of the certificate of deposit so secured, including interest.
5. The State Treasurer's Local Government Investment Pool (monitored by the State Treasurer for investments invested in government-guaranteed securities in accordance with South Carolina State laws).
6. Repurchase agreements.

Custodial Credit Risk - Custodial credit risk is the risk that in the event of bank failure, the School District's cash equivalents and deposits may not be returned to the School District. At June 30, 2010, the School District had deposits with a carrying amount of \$3,816,483 and a bank balance of \$6,515,768. The bank balance was entirely covered by Federal depository insurance or by collateral held by the School District or the School District's agent in the School District's name. The School District has no custodial credit risk since there are no uncollateralized or uninsured and unregistered securities held by the counterparty, or by its trust department or agent but not in the School District's name. Information was not available regarding the custodial credit risk of deposits with the York County Treasurer of \$16,273,006.

At June 30, 2010, the School District had the following investments:

<u>Investment</u>	<u>Maturity</u>	<u>Fair Value</u>
Local government investment pool	Various	<u>\$ 19,100,025</u>

Credit Risk - South Carolina statutes authorize investments in certificates of deposit, savings accounts, repurchase agreements, the State Treasurer's Local Government Investment Pool, obligations of the U.S. Government and government agencies unconditionally guaranteed by the U.S. Government. The School District has no investment policy that would further restrict its choices.

The Local Government Investment Pool (LGIP) is not rated. The fair value of the School District's position in the LGIP approximates the same value of the School District's LGIP shares. Further information may be obtained from the LGIP's complete financial statements. These financial statements may be obtained by writing to the following address:

Office of the State Treasurer, Local Government Investment Pool
Post Office Box 11778, Columbia, South Carolina 29211

ROCK HILL SCHOOL DISTRICT THREE
NOTES TO BASIC FINANCIAL STATEMENTS

III. DETAILED NOTES ON ALL FUNDS - (Continued)

NOTE 1 - DEPOSITS, AMOUNTS ON DEPOSIT WITH YORK COUNTY TREASURER AND INVESTMENTS

- (Continued)

Interest Rate Risk - The School District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

NOTE 2 - PROPERTY TAXES

The School District's property tax is levied each October on the assessed value listed as of the prior December 31 for all real and business personal property located in the School District. The assessed value on the roll at December 31, 2008, upon which the levy for the 2009-2010 fiscal years was based, was \$368,221,886 (excluding vehicles valued at \$37,712,545). Taxes are delinquent on March 15, the collection date, following the October 1 levy date. Property taxes become a lien against the property as of March 15 of the calendar year following the levy date. A tax auction is held the first Monday in October on all delinquent property. The levy date for motor vehicles is the first day of the month in which the motor vehicle license expires. These taxes are due by the last day of the same month. Total tax collections, which include delinquent tax collections and penalties, equaled approximately 95% of the current tax levy for the year ended June 30, 2010.

South Carolina Code Section 12-37-251(A) provides a property tax exemption for property classified pursuant to Section 12-43-220(C) (homestead exemption) from property taxes levied for other than bonded indebtedness and payments pursuant to lease purchase agreements for capital construction. The exemption applies against millage imposed for school operations and the amount of fair market value of the homestead that is exempt from such millage must be set by the Department of Revenue and Taxation based on the amount available in the State Property Tax Relief Fund.

NOTE 3 - RECEIVABLES

Intergovernmental receivables at June 30, 2010 consisted of taxes, intergovernmental grants, reimbursements and interest. All intergovernmental receivables are considered collectible in full due to the stable condition of State programs and the current year guarantee of federal funds.

A summary of the principal items of intergovernmental receivables follows:

Due from federal government	
School Food Service	\$ 562,121
Special Projects	
Title I	580,357
Title I - ARRA	182,537
IDEA	380,049
IDEA - ARRA	389,440
IDEA preschool - ARRA	7,668
Occupational education	110,865
Drug free schools	7,941
Adult education	20,302
State fiscal stabilization	1,067,220
Other special revenue programs	<u>241,999</u>
Total due from federal government	<u>3,550,499</u>
Total intergovernmental receivables	<u><u>\$ 3,550,499</u></u>

ROCK HILL SCHOOL DISTRICT THREE
NOTES TO BASIC FINANCIAL STATEMENTS

III. DETAILED NOTES ON ALL FUNDS - (Continued)

NOTE 3 - RECEIVABLES, (Continued)

Receivables for property taxes are reported net of the allowance for uncollectible accounts. Taxes receivable of \$2,010,784 in the general fund and \$717,334 in the debt service fund are net of an allowance for uncollectibles of \$86,479 and \$33,027, respectively. Governmental funds report deferred revenues in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. At June 30, 2010, deferred revenue related to property taxes reported in the governmental funds totaled \$1,603,819 and \$546,887 in the general and debt service funds, respectively.

NOTE 4 - CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2010 was as follows:

	<u>Balance, July 1, 2009</u>	<u>Additions/ Transfers</u>	<u>Deletions/ Transfers</u>	<u>Balance, June 30, 2010</u>

NOTE 4 - CAPITAL ASSETS, (Continued)

	Balance, July 1, 2009	Additions/ Transfers	Deletions/ Transfers	Balance, June 30, 2010
Business-type activities				
Equipment	\$ 4,299,008	\$ 73,050	\$ -	\$ 4,372,058
Less accumulated depreciation				
Equipment	2,705,256	289,896	-	2,995,152
Business-type activities capital assets, net	\$ 1,593,752	\$ (216,846)	\$ -	\$ 1,376,906

Depreciation expense was charged to governmental functions as follows:

Instruction	\$ 4,826,548
Support services	2,799,878
Total depreciation expense	\$ 7,626,426

NOTE 5 - CAPITAL LEASE OBLIGATION (ENERGY MANAGEMENT EQUIPMENT)

On September 29, 2006, the School District entered into an agreement to finance the lease purchase of certain energy management equipment. The agreement requires principal payments currently totaling \$9,484,222 over the remaining term of the lease at an interest cost of 3.98%. The lease term ends on October 27, 2023. Under the agreement, the School District is required to make payments each year, as follows:

2011	\$ 796,302
2012	816,206
2013	836,609
2014	857,526
2015	878,962
2016 - 2020	4,734,905
2021 - 2025	3,494,609
	12,415,119
Less interest	(2,930,897)
Total principal payments	\$ 9,484,222

The lease is accompanied by a Guaranteed Energy Savings Contract Authorized by South Carolina General Statute 48-52-620, Article 6 which was approved on August 28, 2006. The term of the contract is 15 years under which the District is guaranteed to realize energy, operations and maintenance cost savings of at least \$14,885,852.

ROCK HILL SCHOOL DISTRICT THREE

III. DETAILED NOTES ON ALL FUNDS - (Continued)

NOTE 6 - LONG-TERM DEBT

Changes in long-term obligations for the year ended June 30, 2010 were as follows:

	Principal outstanding July 1, 2009	Additions	Reductions	Principal outstanding June 30, 2010	Amounts due in one year
Governmental activities					
General obligation bonds					
October 1, 2000	\$ 4,750,000	\$ -	\$ 4,750,000	\$ -	\$ -
November 1, 2001	28,600,000	-	100,000	28,500,000	100,000
September 1, 2003	32,500,000	-	3,500,000	29,000,000	3,500,000
November 15, 2005	21,200,000	-	680,000	20,520,000	710,000
November 15, 2005	8,415,000	-	3,980,000	4,435,000	4,435,000
March 14, 2007	62,060,000	-	2,720,000	59,340,000	1,655,000
September 23, 2009	-	19,000,000	-	19,000,000	365,000
September 23, 2009	-	4,730,000	1,535,000	3,195,000	1,490,000
Total general obligation bonds	157,525,000	23,730,000	17,265,000	163,990,000	12,255,000
Unamortized bond premiums	2,688,712	179,182	30,235	2,837,659	316,075
Total bonds and notes payable	160,213,712	23,909,182	17,295,235	166,827,659	12,571,075
Capital lease obligations	9,875,159	-	390,937	9,484,222	426,561
Compensated absences	546,569	243,308	240,957	548,920	258,835
Total governmental activities general long-term debt	<u>\$ 170,635,440</u>	<u>\$ 24,152,490</u>	<u>\$ 17,927,129</u>	<u>\$ 176,860,801</u>	<u>\$ 13,256,471</u>

Compensated absences will be paid from the fund where the employee's salary is paid. General obligation debt will be paid from the debt service fund.

General obligation bonds consist of the following at June 30, 2010:

Date of Issue	Interest Rates	Payment Dates	Maturity	Original Issue	Outstanding at June 30, 2010
November 1, 2001	3.00 - 5.00	Mar./Sept.	2017	\$ 32,500,000	\$ 28,500,000
September 1, 2003	4.25 - 5.00	Mar./Sept.	2016	42,500,000	29,000,000
November 15, 2005	4.00 - 5.00	Mar./Sept.	2025	23,000,000	20,520,000
November 15, 2005	4.00	Mar./Sept.	2011	23,015,000	4,435,000
March 14, 2007	3.25 - 5.00	Mar./Sept.	2023	63,000,000	59,340,000
September 23, 2009	2.00 - 5.00	Mar./Sept.	2029	19,000,000	19,000,000
September 23, 2009	2.00 - 3.00	Mar./Sept.	2012	4,730,000	3,195,000
				<u>\$ 207,745,000</u>	<u>\$ 163,990,000</u>

III. DETAILED NOTES ON ALL FUNDS - (Continued)

NOTE 6 - LONG-TERM DEBT, (Continued)

The annual requirements to amortize all general obligation bonds outstanding at June 30, 2010, including interest payments over the life of the debt, are as follows:

Year Ended June 30,	Principal	Interest	Total
2011	\$ 12,255,000	\$ 7,318,850	\$ 19,573,850
2012	12,145,000	6,799,300	18,944,300
2013	11,625,000	6,255,000	17,880,000
2014	12,280,000	5,701,000	17,981,000
2015	12,020,000	4,781,883	16,801,883
2016-2020	36,080,000	20,040,621	56,120,621
2021-2025	31,845,000	11,377,274	43,222,274
2026-2030	26,140,000	5,029,963	31,169,963
2031-2035	<u>9,600,000</u>	<u>486,000</u>	<u>10,086,000</u>
	<u>\$ 163,990,000</u>	<u>\$ 67,789,891</u>	<u>\$ 231,779,891</u>

The School District issued \$19,000,000 in general obligation bonds, Series 2009A on September 23, 2009. A portion of the bonds mature annually on March 1 of each year. The bond coupon rates range from 2.00% to 5.00%.

The School District issued \$4,730,000 in general obligation refunding bonds, Series 2009B on September 23, 2009 with an average interest rate range of 2.00% to 3.00% to advance refund the outstanding Series 2000A bond. The net proceeds of \$4,812,013 (after payment of \$42,391 in underwriting fees, insurance and other issuance costs) were used to refund outstanding debt. The economic gain resulting from the transaction totaled approximately \$186,000.

Article X, Section 15 of the Constitution of the State of South Carolina, as amended, empowers each school district of the State to incur general obligation debt in such manner and upon such terms and conditions as the General Assembly shall prescribe by law. After November 30, 1982, each school district may incur general obligation debt, without an election and upon such terms and conditions as the General Assembly may prescribe, in an amount not exceeding 8% of the assessed value of all taxable property of such school district.

Bonded indebtedness existing on November 30, 1982, and bonded indebtedness authorized by a majority vote of the qualified electors of the School District voting in a referendum will not be considered in the computation of the 8% limitation. As of June 30, 2010, the remaining debt margin available to the School District was \$21,474,754.

ROCK HILL SCHOOL DISTRICT THREE
NOTES TO BASIC FINANCIAL STATEMENTS

III. DETAILED NOTES ON ALL FUNDS - (Continued)

NOTE 7 - SHORT-TERM OBLIGATIONS, (Continued)

The School District issued \$6,021,000 in tax anticipation notes with an annual interest rate of 1.50% for the purposes of funding School District operations. The tax anticipation notes matured in February 2010 at which time they were repaid with general fund property tax revenues.

On November 18, 2008, the School District issued \$12,500,000 in general obligation bond anticipation notes. The bond anticipation notes matured on October 1, 2009 at which time they were repaid with proceeds from the issuance of the general obligation bonds (see Note 6).

NOTE 8 - FUND BALANCES AND NET ASSETS

The fund balances/net assets and other credits have been classified to reflect the limitations and restrictions placed on the respective funds as follows:

Governmental fund financial statements

Fund balances - Reserved - represents those portions of fund balances which are not available for expenditure or are legally segregated for a specific future use.

Fund balances - Designated - represents tentative management plans that are subject to change.

Fund balances - Undesignated - represents the remainder of the School District's equity in governmental funds.

Government-wide and proprietary fund financial statements

Invested in capital assets, net of related debt - represents the net cost less accumulated depreciation and outstanding debt less unexpended proceeds attributable to the organization of the capital assets.

Restricted net assets - represents net assets restricted externally by creditors, grantors, contributors or laws and regulations of other governments, or restrictions imposed by law through constitutional provisions or enabling legislation.

Unrestricted - represents the remainder of the School District's net assets in government-wide and business-type activities.

NOTE 9 - TRANSFERS IN/OUT AND INTERFUND RECEIVABLES/PAYABLES

During the course of normal operations, the School District has transactions between funds to provide services, construct assets, service debt, etc. These transactions are generally reflected as transfers. Funds are transferred into the general fund from other funds to cover Education Improvement Act raises for teachers, indirect costs for federal programs and the required Medicaid match. Funds are transferred from the general fund into special projects funds for future innovative board designated projects and staff development. Funds are transferred from the general fund to the capital projects and debt service fund for capital needs for each school. Funds are transferred from the general fund to the food service fund for reimbursement of fringe-related costs. Funds are transferred into the pupil activity fund from the general fund for support of student extra-curricular activities. Total transfers during the year ended June 30, 2010 consisted of the following individual fund amounts:

ROCK HILL SCHOOL DISTRICT THREE
NOTES TO BASIC FINANCIAL STATEMENTS

III. DETAILED NOTES ON ALL FUNDS - (Continued)

NOTE 9 - TRANSFERS IN/OUT AND INTERFUND RECEIVABLES/PAYABLES, (Continued)

	<u>Transfers In</u>	<u>Transfers Out</u>
General Fund	\$ 2,787,977	\$ 757,351
Education Improvement Act Fund	-	2,322,634
Debt Service Fund	4,812,013	-
Capital Projects Fund	-	4,812,013
Pupil Activity Fund	297,400	-

NOTE 10 - ARBITRAGE REBATE

In accordance with the provisions of Section 148(f) of the Internal Revenue Code of 1986, as amended, bonds must satisfy certain arbitrage rebate requirements. Positive arbitrage is the excess of (1) the amount earned on investments purchased with bond proceeds over (2) the amount that such investments would have earned had such investments been invested at a rate equal to the yield on the bond issue. In order to comply with the arbitrage rebate requirements, positive arbitrage must be paid to the U.S. Treasury at the end of each five year anniversary date of the bond issue. As of June 30, 2010, there were no amounts outstanding for arbitrage rebates.

ROCK HILL SCHOOL DISTRICT THREE
NOTES TO BASIC FINANCIAL STATEMENTS

IV. OTHER INFORMATION

NOTE 11 - RETIREMENT BENEFITS

Substantially all School District employees are members of the South Carolina Retirement System (SCRS), a cost-sharing, multiple-employer defined benefit pension plan administered by the Retirement Division of the State Budget and Control Board. The System provides retirement and disability benefits, cost of living adjustments on an ad hoc basis, life insurance benefits and survivor benefits. The Plan's provisions are established under Title 9 of the South Carolina Code of Laws. The System issues a publicly available Comprehensive Annual Financial Report that includes financial statements and required supplementary information for the South Carolina Retirement System. That report may be obtained by writing the South Carolina Retirement System, Post Office Box 11960, Columbia, South Carolina 29211-1960.

Both employees and employers are required to contribute to the Plan under authority of Title 9 of the South Carolina Code of Laws. Employees are required to contribute 6.50% of their annual covered salary, and the School District is required to contribute at an actuarially determined rate. The current rate is 9.24% of annual covered payroll. In addition, the School District contributes .15% of payroll to a group life insurance benefit for their participants and 3.50% for retiree health coverage. The School District's contributions to the System, including group life insurance and retiree health coverage, for the years ended June 30, 2010, 2009 and 2008 were \$8,523,394, \$8,669,114 and \$7,873,760, respectively, which are equal to the required contributions.

Effective January 1, 2001, Section 9-1-2210 of the South Carolina Code of Laws allows employees eligible for service retirement may participate in the Teacher and Employee Retention Incentive Program (TERI). TERI participants may retire and begin accumulating retirement benefits on a deferred basis without terminating employment for up to five years. Upon termination of employment or at the end of the TERI period, whichever is earlier, participants will begin receiving monthly service retirement benefits, which will include any cost of living adjustments granted during the TERI period. Because participants are considered retired during the TERI period, they do not make SCRS contributions, do not earn service credit and are ineligible to receive group life insurance benefits or disability retirement benefits. Effective July 1, 2006, TERI participants who entered the program before July 1, 2005 make no employee contributions while covered under the TERI program. No additional service credit is earned during this period and participants are ineligible for disability retirement benefits. TERI participants with retirement dates on or after July 1, 2005 make the same pre-tax contributions to the SCRS as active members. In addition, they are eligible to receive group life insurance benefits, but are ineligible to receive service credit or disability retirement benefits.

Certain School District employees may elect to participate in the Optional Retirement Program (ORP), a defined contribution plan. The ORP was established in 1987 under Title 9, Chapter 17, of the South Carolina Code of Laws. The ORP provides retirement and death benefits through the purchase of individual fixed or variable annuity contracts which are issued to, and become the property of, the participants. The School District assumes no liability for this plan other than for payment of contributions to designated insurance companies. To elect participation in the ORP, eligible employees must irrevocably waive SCRS membership within their first ninety days of employment.

Under State law, contributions to the ORP are required at the same rates as for the SCRS, 6.50% plus the retiree surcharge of 3.50% from the employer in fiscal year 2010.

Certain of the School District's employees have elected to be covered under optional retirement plans. Total contribution requirements (excluding the surcharge) for the years ended June 30, 2010, 2009 and 2008 to the ORP were \$323,493, \$286,007 and \$241,770, respectively, from the School District as employer. All amounts were remitted to the Retirement Division of the State Budget and Control Board for distribution to the respective annuity policy providers. The obligation for payment of benefits resides with the insurance companies.

ROCK HILL SCHOOL DISTRICT THREE
NOTES TO BASIC FINANCIAL STATEMENTS

IV. OTHER INFORMATION - (Continued)

NOTE 12 - POST-EMPLOYMENT BENEFITS OTHER THAN PENSIONS

Plan Description - In accordance with the South Carolina Code of Laws and the annual Appropriations Act, the State provides post-employment health and dental and long-term disability benefits to retired State and school district employees and their covered dependents. The District contributes to the Retiree Medical Plan (RMP) and the Long-term Disability Plan (LTDP), cost-sharing multiple-employer defined benefit postemployment healthcare and long-term disability plans administered by the Employee Insurance Program (EIP), a part of the State Budget and Control Board (SBCB). Generally, retirees are eligible for the health and dental benefits if they have established at least ten years of retirement service credit. For new hires May 2, 2008 and after, retirees are eligible for benefits if they have established twenty-five years of service for 100% employer funding and fifteen through twenty-four years of service for 50% employer funding. Benefits become effective when the former employee retires under a State retirement system. Basic long-term disability benefits (BLTD) are provided to active state, public school district and participating local government employees approved for disability.

Funding Policies - Section 1-11-710 and 1-11-720 of the South Carolina Code of Laws of 1976, as amended, requires these postemployment healthcare and long-term disability benefits be funded through annual appropriations by the General Assembly for active employees to the EIP and participating retirees to the SBCB except the portion funded through the pension surcharge and provided from other applicable sources of the EIP for its active employees who are not funded by state general fund appropriations. Employers participating in the RMP are mandated by State statute to contribute at a rate assessed each year by the Office of the State Budget, 3.50% of annual covered payroll for 2010 and 2009. The EIP sets the employer contribution rate based on a pay-as-you-go basis. The District paid approximately \$3,500,477 and \$3,549,085 applicable to the surcharge included with the employer contribution for retirement benefits for the fiscal years ended June 30, 2010 and 2009, respectively. BLTD benefits are funded through a per person premium charged to State agencies, public school districts, and other participating local governments. The monthly premium per active employee paid to EIP was \$3.23 for the fiscal years ended June 30, 2010 and 2009.

Effective May 1, 2008, the State established two trust funds through Act 195 for the purpose of funding and accounting for the employer costs of retiree health and dental insurance benefits and long-term disability insurance benefits. The South Carolina Retiree Health Insurance Trust Fund is primarily funded through the payroll surcharge. Other sources of funding include additional State appropriated dollars, accumulated EIP reserves, and income generated from investments. The Long Term Disability Insurance Trust Fund is primarily funded through investment income and employer contributions.

One may obtain complete financial statements for the benefit plans and the trust funds from Employee Insurance program, 1201 Main Street, Suite 360, Columbia, South Carolina 29201.

NOTE 13 - DEFERRED COMPENSATION/SALARY DEFERRAL PLAN

The School District employees may participate in the 457 and/or 401(k) defined contribution deferred compensation plans available to state and local governmental employees through the state public employee retirement system. These programs are administered by a state approved nongovernmental third party. Contributions by employees under these plans totaled \$781,667 for the year ended June 30, 2010.

ROCK HILL SCHOOL DISTRICT THREE
NOTES TO BASIC FINANCIAL STATEMENTS

IV. OTHER INFORMATION - (Continued)

NOTE 14 - RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters for which the School District carries commercial insurance. During the year ended June 30, 2010, the School District obtained its general liability, workers' compensation, and property insurance through the South Carolina School Boards Insurance Trust (the "Trust") which represents South Carolina school districts joined together in a public entity risk pool. The School District pays an annual premium to the Trust for its general liability, workers' compensation and property insurance. The agreement for formation of the Trust provides that the Trust will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of \$100,000 for each insured event.

The School District obtains its employee health and life insurance through the South Carolina State Budget and Control Board, Office of Insurance Services, which represents all State agencies in South Carolina, joined together in a public entity risk pool. The School District pays monthly premiums based on participating employees.

Prior to July 1, 1978, school districts in South Carolina were exempt from unemployment taxes. Effective July 1, 1978, school districts were no longer exempted from these taxes. As a result, the School District established a limited risk management program for unemployment compensation. The School District reimburses the South Carolina Employment Security Commission for actual claims paid attributable to service in the employ of the School District. Claims paid during the year ended June 30, 2010 were \$94,937 and were reported in the General Fund. No separate liability for unemployment claims has been established due to the insignificant amounts of the expenditures.

The School District continues to carry commercial insurance for all other risks of loss. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years. Insurance coverage has remained stable since the prior fiscal year.

NOTE 15 - COMMITMENTS

The School District entered into a noncancellable operating lease for office equipment in March 2008. The lease requires a minimum monthly payment of \$17,772 for a term of 60 months expiring in February 2013. It is anticipated that similar leases will be continued when this lease expires. Lease expense for the year ended June 30, 2010 was \$230,606.

Annual lease commitments for the years ending June 30 are as follows:

2011	\$ 215,520
2012	215,520
2013	125,720

NOTE 16 - CONTINGENCIES

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the School District expects such amounts, if any, to be immaterial.

The School District is a defendant in lawsuits arising in the normal course of business. It is the opinion of the School District's management, after conferring with legal counsel, that the liability, if any, which might arise from these lawsuits would not have a material adverse effect on the School District's financial position.

ROCK HILL SCHOOL DISTRICT THREE
NOTES TO BASIC FINANCIAL STATEMENTS

IV. OTHER INFORMATION - (Continued)

NOTE 17 - SUBSEQUENT EVENTS

In October 2010, the School District issued \$5,000,000 in general obligation bonds, Series 2010A with an annual interest rate range of 3.00% to 4.00% that mature in 2015.

In October 2010, the School District issued \$23,180,000 in general obligation bonds, Series 2010B with an annual interest rate 5.00% that mature in 2017.

NOTE 18 - NEW ACCOUNTING PRONOUNCEMENTS AND OTHER MATTERS

GASB Statement No. 51, *Accounting and Financial Reporting for Intangible Assets*, is effective for the School District beginning with its year ended June 30, 2010. This Statement establishes accounting and financial reporting requirements for intangible assets including easements, water rights, timber rights, patents, trademarks, and computer software.

GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, will be effective for the School District beginning with its year ended June 30, 2011. This Statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds.

Required Supplementary Information

GENERAL FUND

To account for all financial resources except those required to be accounted for in another fund. All property taxes, intra-governmental revenues, and miscellaneous revenues are recorded in this fund except amounts which are specifically collected to service debt or for which the District collects other funds in a fiduciary capacity. Operational expenditures for general education, support services and other departments for the District are paid through the General Fund.

The following Budgetary Comparison Schedule for the General Fund has been prepared in the format mandated by the South Carolina Department of Education. The account numbers shown on the schedule are also mandated by the South Carolina Department of Education.

Combining and Individual Fund Schedules

SPECIAL PROJECTS FUNDS

To account for the operations of federal, state, or local projects which are required to be accounted for in separate funds.

Special Projects (excluding Education Improvement Act) - These funds are used to account for all federal, state, and local projects except for those subject to Education Improvement Act requirements.

Education Improvement Act - These funds are used to account for the District's expenditures as a result of receiving funds subject to the guidelines set by the State of South Carolina.

The following schedules for the Special Revenue Funds have been prepared in the format mandated by the South Carolina State Department of Education. The account numbers shown on the schedules are also mandated by the South Carolina Department of Education.

Statistical Section

STATISTICAL SECTION

(UNAUDITED)

This part of Rock Hill School District Three's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the School District's overall financial health.

Financial Trends

These schedules contain trend information to help the reader understand how the School District's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the School District's most significant local revenue source, the property tax.

Debt Capacity

These schedules present information to help the reader assess the affordability of the School District's current levels of outstanding debt and the School District's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within the School District's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the School District's financial report related to the services the city provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

			13.1%	15.9%	12.2%	11.3%	12.2%	11.4%	11.5%	13.0%

* Noncapital expenditures are total expenditures less capital outlay (to the extent capitalized for the government-wide statement of net assets) and expenditures for capitalized assets included within the functional expenditure categories. This formula adds "functional" and "principal" and divides them by the "total expenditures" minus the "capital outlay."

** GASB 34 was implemented in fiscal year 2003. Net asset information is not available prior to that fiscal year.

Assessed value		\$405,934,431								
Debt limit (8 % of assessed value)		32,474,754								
Debt applicable to limit:										
Total bonded debt		163,990,000								
Less: Bond issuances approved by referendum		152,990,000								
Total net debt applicable to limit		<u>11,000,000</u>								
Legal debt margin		<u>\$ 21,474,754</u>								

Notes:

The School District's borrowing power is restricted by amended Article X, Section 15, of the State Constitution. This section provides that a local unit cannot at any time have total debt outstanding in an amount that exceeds 8 percent of the assessed property value. Excluded from the limitation are: bonded indebtedness approved by the voters and issued within five years of the date of such referendum; special bonded indebtedness levies assessed on properties located in an area receiving special benefits from the taxes collected; and bonded indebtedness existing prior to December 1, 1982, the effective date of amendment of Article X of the Constitution of South Carolina pertaining to bonded debt. Assessed value used above is the tax base as of June 30, 2010.

Footnotes: The accounting policies of the School District conform to generally accepted accounting principles applicable to governments. The Governmental Accounting Standards Board is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. A summary of the more significant policies can be found in the notes to the financial statements of the School District's basic financial statements for the year ended June 30, 2010. All expenditures reported on the above Schedule of Expenditures of Federal Awards are reported on the modified accrual basis of accounting as applicable to governmental funds, except for the expenditures of programs under CFDA Numbers 10.553, 10.555 and 10.579, which are reported under the full accrual basis of accounting as applicable to enterprise funds.

The accounting system used by South Carolina LEA's does not allow for the segregation of expenditures by fund sources in the Food Service Fund. Total expenses of the Food Service Fund were \$6,937,690. The detailed schedule of food service may be found on "Schedule D-1" of this report.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

The Honorable Chairman and
Members of the Board of Trustees
Rock Hill School District Three
Rock Hill, South Carolina

We have audited the financial statements of Rock Hill School District Three as of and for the year ended June 30, 2010, and have issued our report thereon dated December 1, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the School District's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over financial reporting.

Our consideration of internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be significant deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. We did not identify any deficiencies in internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis.

A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This communication is intended solely for the information and use of the Board of Trustees, management and federal and state awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS
APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER
COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

The Honorable Chairman and
Members of the Board of Trustees
Rock Hill School District Three
Rock Hill, South Carolina

Compliance

We have audited the compliance of Rock Hill School District Three with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) Circular A-133, *Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2010. The School District's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the School District's management. Our responsibility is to express an opinion on the School District's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the School District's compliance with those requirements.

In our opinion, the School District complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2010.

Internal Control Over Compliance

The management of the School District is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the School District's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement on a timely basis.

A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

This communication is intended solely for the information and use of the Board of Trustees, management and federal and state awarding agencies and is not intended to be and should not be used by anyone other than these specified parties.
