*"A child can teach an adult three things:
To be happy for no reason
To always be curious
To fight tirelessly for something"* – Paulo Coelho

Children remind us of life's most profound lessons: to find joy in small things, to approach the world with wonder, and to stand firmly on what matters. Let's embrace these truths and let their boundless spirit guide us everyday.

A BIG REMINDER FOR PARENTS!

Just a reminder that 75% of the time you'll get to spend with your kids is over by the time they turn 12. 🤯

And 90% of your time with them is gone by the time they're 18.

So, SLOW DOWN. BE PRESENT. And enjoy these short, sweet years. They will be over soon.

The first two weeks of schooling in the Early Learning Village are foundational for setting routines, building relationships, and creating a sense of security and belonging for the children.

Our little learners are adjusting to their new world of fun and discovery!

"Exploring, learning and making new friends!
Discovering routines and embracing the joy of play in their first two weeks!"

Quote: The beautiful thing about learning is that no one can take it away from you (BB King)

It has been a great start this first term of school. "I feel so happy moving to grade three and being a continuing student from Boro" Christopher Leblanc stated, when asked about how he felt on his first day of school.

In 3LA, we are into our second week of exploring the importance of co-operation and task management as skills in achieving our learning goals. "It's fun in class" expressed Gideon Leka.

We are reminded of the school expectations of "Being a Respectful and a Responsible learner" which we practice daily through our routines and collaborative agreements here in school. Kristian shares "I feel great being on Koro site- the big school, it's not so different from Boro"

As we continue to work together unpacking the "Positive Behaviour(s) for Learning" in our school and classroom environment, we also reflect and set our smart goals (personal, academic and behavioural) that will gradually encourage and guide us towards reaching our full learning potential, becoming good "global" learners in different learning communities, whether it be at home or school.

We will continue to be reflective and promote our school Motto as life-long learners, "Being our own Best" in our learning journey here at KoroBoro!!

First Day of School in Grade 5BD

"The first day of school is not just a date on the calendar; it's a portal of possibilities, a chapter of beginnings, where each student steps into a realm of knowledge and friendships, forging the foundation for a journey that will shape their future."

...Anon

The first day of school is a mixture of excitement, nerves, and curiosity. Here are some common views 5BD students had:

When I first walked into the classroom I was nervous to meet my new friends. When I left to go home in the afternoon, I was happy to come to this class and should not have any reason to be nervous anymore.

Michelle Tom

On the first day I was nervous but when I checked that I was in 5BD, I was excited because I knew I was in one of the best classes.

Namei Hane-Nou

I felt excited to be back at Koroboro because I am in grade 5 in a new class with a new teacher and new classmates.

Josephine Kune

On my first day I felt very shy because I was new to the school. I felt I did not have any friends, but when the day ended I was so happy I made friends.

Kanango Ryan

I felt shy but a bit confident because it was welcoming when I noticed my friends in my class. This made me happy to start grade 5.

Elstan Bego

The first day of grade 5 I felt excited because I knew my friend would be in my class, however I was a little bit nervous as well to be starting a new grade.

Hollie Osborne

It was a bit challenging for me, but when I got home I was excited to tell my parents because I enjoyed my first day in grade 5.

Amari Narokobi

The first day made me feel nervous but at the same time happy and I will always remember my first day in grade 5.
