

# CAREER & TECHNICAL EDUCATION

## DIGITAL COMMUNICATIONS

Students interested in Communications or Marketing careers will gain exposure to creativity needed for communications success. Students who enjoy designing, producing, exhibiting, performing, writing, music editing, publishing multimedia or video content will want to pursue courses in Digital Communications. Our H100 Media Studio helps provide exposure and skills applicable to students for the innovative world of digital content and media creation.

Students will be responsible for producing media programs and maintaining a website. Student produce their portfolio pagel, which they can utilize for acceptance to various colleges, trade schools, and internships.
