Minnesota Language Survey

Minnesota is home to speakers of more than 100 different languages. The ability to speak and understand multiple languages is valued. The information you provide will be used by the school district to see if your student is multilingual. In Minnesota, students who are multilingual may qualify for a Multilingual Seal upon further assessment. Additionally, the information you provide will determine if your student should take an English proficiency test. Based upon the results of the test, your student may be entitled to English language development instruction. **Access to instruction is required by federal and state law. As a parent or guardian, you have the right to decline English Learner instruction at any time.** Every enrolling student must be provided with the Minnesota Language Survey during enrollment. Information requested on this form is important to us to be able to serve your student. Your assistance in completing the Minnesota Language Survey is greatly appreciated.

Potassium Iodide

Reason for Taking Potassium Iodide

In the case of an accident at a nuclear power plant or what is known as a radiological emergency, radioactive iodine will be released into the air. This material may be inhaled or ingested and enter the thyroid gland where it can cause cancer and/or disease. Children and infants are the most vulnerable to this occurrence. When taken by pill or liquid, potassium iodide (KI) floods the thyroid with non-radioactive iodine and prevents the thyroid from absorbing the radioactive material. Potassium iodide needs to be given before or shortly after exposure to radiation. Potassium iodide works only to prevent the thyroid from absorbing radioactive iodine.

Potential Side Effects of Potassium Iodide

It is possible to experience **any or all** of the following side effects when taking Potassium Iodide:

- ◆ Upset stomach
- ◆ Allergic reaction
- ◆ Rash

Risks of Taking Potassium Iodide

Taking Potassium Iodide is safe for most people. Potassium Iodide **should not be taken** if someone:

- ◆ Is allergic to iodine
- ◆ Has any other thyroid illness
- ◆ Has Graves Disease
- ◆ Takes thyroid medication

Administration of Potassium Iodide

Potassium Iodide will **only be given**:

- ◆ In the case of a radiological emergency
- ◆ If the School District is directed to administer by Minnesota State Public Health Officials
- ◆ If a parent/guardian signs a consent form for a child
