Highlights

We found our current marketing of food and beverage is right in line with what the current guidelines recommend. We will add more posters in the cafeteria that encourage healthy eating choices. These will be added as available. Our current student artwork displayed in the cafeteria gives an inviting atmosphere to our students and encourages their creativity throughout the day.

With the offering of after school activities such as dance, soccer and more, we have given options for our students to continue physical activities throughout the day. We continue to look for more options to offer throughout the school year.

Areas for Growth

Our school Wellness Committee does not meet as often as it should and we will be making a schedule for that.

We only have birthday celebrations once a month and offer classroom celebration ideas through our school superintendent and ideas are sent home to families. We will compile a list of healthy and fun party ideas to provide to families.

Even though we have a population that comes from different parts of the valley, we encourage walking or bike riding to school when possible.

We welcome staff, community, and students to give input on our policy. Please email the Food Service Manager or the school Superintendent with questions, comments and/or concerns regarding this policy at ccushing@challengecharterschool.net or wmiller@challengecharterschool.net. Or reach us at 602-938-5411.
