Wa-Hi Science

Minimum High School Graduation Requirement:

- 3 years of science
  - 2 Lab science + 1 more elective

Minimum College/Community College Success Requirement:

- 3 years of science with at least 1 year of Chemistry

Life Science + Physical Science + Env/Earth Science = Success

Physical Sciences:

- Physics
- CP Chemistry
- AP Physics
- AP Chemistry
- Physical Science in Agriculture

Life Sciences:

- Biology
- AP Biology
- Human Body Systems
- Plant Biology
- Animal Biology
- Biotechnology
- Exercise and Sports Science

Environmental and Earth Sciences

- AP Environmental Science
- CIHS Global Warming: Understanding the Issues

Wa-Hi Science

Minimum High School Graduation Requirement:
- 3 years of science
  - 2 Lab science + 1 more elective

Minimum College/Community College Success Requirement:
- 3 years of science with at least 1 year of Chemistry

2024/25 9th Grade Options

Biology:
- 1 year of Lab Science

Strongly recommended for 9th grade students

CP Chemistry:
- 1 year of Lab Science
- 1 year of Algebra-Based science

Only if you have already finished Algebra 1. STRONGLY recommended before enrolling in AP Science.

Human Body Systems:
- 1 year of Lab Science
- 1 year of CTE

Interested in the medical field? This is a good place to start! Open to 9-12th graders

Plant Bio OR Animal Bio:
- 1 year of Lab Science
- 1 year of CTE

If you want to participate in FFA

Wa-Hi Science

Minimum College/Community College Success Requirement:
- 3 years of science with at least 1 year of Chemistry

2024/25 AP/CIHS Options

AP Env Science:
- 1 year of Lab Science
- 1 year CTE

Grades 9-12. Only if you have already finished Algebra 1. Recommended prior completion of Chem. Eligible for FFA participation

AP Biology:
- 1 year of Lab Science

Grades 10-12. STRONGLY recommended prior completion of Chemistry

AP Chemistry:
- 1 year of Lab Science
- 1 year Alg-based science

Grades 10-12. STRONGLY recommended prior completion of Chemistry and Algebra 2.

AP Physics:
- 1 year of Lab Science
- 1 year Alg-based science

Grades 10-12. STRONGLY recommended prior completion of Chemistry and Algebra 2.

CIHS Global Warming: Understanding the Issues
- 1 year of Lab Science
- 5 University of WA Credits

Grades 11-12. Recommended prior completion of Chem and AP Env. Science

Wa-Hi Science

Minimum College/Community College Success Requirement:
- 3 years of science with at least 1 year of Chemistry

2024/25 Semester Courses

Exercise and Sports Science:

- 1 semester (½ credit) science elective
- 1 semester (½ credit) PE
- 1 semester (½ credit) CTE

Grades 9-12.

Wa-Hi Science

Minimum High School Graduation Requirement:

- 3 years of science
  - 2 Lab science + 1 more elective

Minimum College/Community College Success Requirement:

- 3 years of science with at least 1 year of Chemistry

Life Science + Physical Science + Env/Earth Science = Success

- AP Environmental Science
- CIHS Global Warming: Understanding the Issues

Wa-Hi Science

Minimum High School Graduation Requirement:
- 3 years of science
  - 2 Lab science + 1 more elective

Minimum College/Community College Success Requirement:
- 3 years of science with at least 1 year of Chemistry

2024/25 10th Grade Options

Physics:
- 1 year of Lab Science

Open to 10-12th grades

CP Chemistry:
- 1 year of Lab Science
- 1 year of Algebra-Based science

Only if you have already finished Algebra 1. STRONGLY recommended before enrolling in AP Science.

Human Body Systems:
- 1 year of Lab Science
- 1 year of CTE

Interested in the medical field? This is a good place to start! 9-12th grade

Plant Bio OR Animal Bio:
- 1 year of Lab Science
- 1 year of CTE

If you want to participate in FFA

Wa-Hi Science

Minimum College/Community College Success Requirement:
- 3 years of science with at least 1 year of Chemistry

2024/25 AP/CIHS Options

AP Env Science:
- 1 year of Lab Science
- 1 year CTE

Grades 9-12. Only if you have already finished Algebra 1. Recommended prior completion of Chem

AP Biology:
- 1 year of Lab Science

Grades 10-12. STRONGLY recommended prior completion of Chemistry

AP Chemistry:
- 1 year of Lab Science
- 1 year Alg-based science

Grades 10-12. STRONGLY recommended prior completion of Chemistry and Algebra 2.

AP Physics:
- 1 year of Lab Science
- 1 year Alg-based science

Grades 10-12. STRONGLY recommended prior completion of Chemistry and Algebra 2.

CIHS Global Warming: Understanding the Issues
- 1 year of Lab Science
- 5 University of WA Credits

Grades 11-12. Recommended prior completion of Chem and AP Env. Science

Wa-Hi Science

Minimum College/Community College Success Requirement:
- 3 years of science with at least 1 year of Chemistry

2024/25 Semester Courses

Exercise and Sports Science:

- 1 semester (½ credit) science elective
- 1 semester (½ credit) PE
- 1 semester (½ credit) CTE

Grades 9-12.
