Pennridge School District
proudly presents...

Phase I of Full Day Kindergarten

Phase I will include one full-day kindergarten class at every elementary school where a randomized selection of up to 25 students will be the make-up of the class. The remainder of students will be included in a half day program.

For Kindergarten registration for the 2025-2026, there will be an option to choose a full-day or half-day program for your child. If you choose a full-day program your name will be added to a list that will be used to randomly select students for the full-day program. Since it is a random selection, you will be asked to choose either AM or PM sessions in the event your name isn't selected for the full-day session. You will be notified of your child's placement in either half day or full day Kindergarten by June 30, 2025.
