Dear Angel Tormis,

This email is in response to the Public Records Request received in our office on December 29, 2024.

Regarding your request for any copies of all active leases/licenses or management contracts for cell towers, rooftop antennas, or other wireless installations on property owned or managed by the Emmett Independent School District, I am attaching the contracts associated with the wireless connection to one of our rural schools. The attachments include a contract and an amendment. The original contract was with TEK-HUT, which was then bought out by Fatbeam. ESD does not have any cell towers on school property.

We are in the process of verifying that we have no other antennas or wireless installations. With the approaching holidays, many of our employees have already left for their holiday break. To our current knowledge, the attached contracts are the only records to match your request. During the week of January 6, I will receive final confirmation and follow up with you by email.

In regards to your request for 24 months of associated payment histories, we are unfortunately unable to find an existing record with this sole expenditure. The record we possess includes this expense catalogued within other expenses paid for from this allocated fund. We are happy to provide that record to you. However, it includes far more information than the scope of this request and may prove tedious to locate and extract a few instances of the information you desire. Idaho code stipulates that the district is only required to produce the public records already in its files. There is no requirement to reformat and change any record. I want to let you know what records we have and confirm that this will meet the purpose of your request.

I will follow-up with a confirmation that this is the sole contact matching your requestion. Please let me know if you desire the existing record we have that includes 24 months of payment history within a larger scale of information.

Have a wonderful holiday season!

Amanda Weers

To: Records@steepsteelgov.com

Hello! I am following up regarding your public records request. I have confirmed that the information and contracts provided in my previous correspondence are the sole records we possess matching your request. Our school district has no additional antennas or wireless installations and no associated contracts.

Please let me know if I can help with anything else. Specifically, please let me know if you desire the existing record we have that includes 24 months of payment history related to the one contract within a larger scale of information.

Sincerely,

Amanda Weers
