Action Item: Interview and Selection of Executive Search Firm for New Superintendent

anonymous

After hearing some of the previous questions/comments when reviewing the initial four executive search firms proposals the criteria to select a firm for LBUSD should not hinge on what organizations they belong to(Morgan) or what answers you get if you called another district that used them(Perry). That is getting caught in minutiae. What these firms need to know from the new majority is that all three of you have been clear that you want a superintendent that is a figure head and will do as the board majority commands. All the comments about previous board (s) delegating as allowed was said to be giving away board authority which makes it clear the intent going forward. So in the interest of professed need for transparency be open and clear when interviewing that is the type of superintendent you will hire. Additionally numerous comments have been made by Hills and Morgan that a person who is not already a superintendent as have been hired previously (Daem, Smith and Viloría) Hills and Morgan have portrayed as inadequate. Lastly, since Ms. Perry was part of the 5-0 hiring of Dr. Viloría perhaps it is time (in closed discussions of course) that you enlighten Hills and Morgan on which candidate you did not support.
