Charter Athletic Association Concussion Form

As mandated by Arizona Law, ARS §15-341 (24) (SB 1521)

The CAA recommends that each school should develop their own Concussion Training Completion Form that each student will sign. This form would be similar to a Student Physical form that schools shouldhave to protect the school from liability issues. This form would be the possession of the CAA member school.

Once the school has had its athletes complete the concussion training video and signed the school form, the Athletic needs to complete the CAA Concussion Form and email to the form to the league. As this will be an ongoing process throughout the year, Athletic Directors will need to send an updated CAA Concussion Form into the league whenever new athletes complete the process.

The CAA Concussion Form can be found on the CAA Website under the info tab.

The Student Athlete listed below has watched the Brainbook video for concussion training and awareness.

As the Athletic Director for a CAA member school, I am aware that it is my responsibility to insure that the student athletes listed below have completed this concussion training.

CAA Member School: _____

Athletic Director: _____

As Athletic Director, I verify that the following student athletes have watched the Brainbook Concussion training video.
