If an outdoor application, 3 dates must be listed, in chronological order, on which the outdoor application may take place if the preceding date is canceled; and the time the application is scheduled to occur.

DATE / TIME _____ DATE / TIME _____ DATE / TIME _____

Description of the possible adverse effects of the pesticides as per the Material Safety Data Sheets for the pesticides to be used, if available:

Caution! Hazard to humans and domestic animals. Harmful if inhaled. Contact with product may result in transient tingling and reddening of the skin.

Pesticide product label instructions and precautions related to Public Safety.

Harmful if inhaled. Avoid breathing vapor or spray mist. Remove contaminated clothing and wash before eating, drinking, smoking, or using toilet. Do not breathe vapours or spray mist. reddening of the skin. Remove and wash contaminated clothing before re-use..

Note: as required by law, we are advising you of the following statement:

The Office of Pesticide Programs of the United States Environmental Protection Agency has stated:

"Where possible, persons who potentially are sensitive, such as pregnant women, infants, and children, should avoid any unnecessary pesticide exposure."

REMEMBER: Whenever a non-low impact pesticide is used on school property there is also a Restricted Entry Interval (REI) that begins when the pesticide application ends. This Restricted Entry Interval last for seven hours unless the product label uses NUMERIC LANGUAGE, e.g., 4hours or 12 hours; directing a longer or shorter period of time. If the product label does not discuss Restricted Entry the period of time defaults to seven (7) hours.
