V Grades

- Students failing to complete a unit are awarded a V grade
- This means that unit will not count towards their final score
- This can have grave implications leading to non award of tertiary entrance
- As soon as student fails to complete an assessment task they must be warned of possible V Grade

Parents of _____

Dear Sir/Madam,

Subject: Warning of Possible V Grade Due to Non Completion of Assessment Item

I am writing to inform you that your child _____
has failed to complete the following assessment instrument

_____ within the time
permitted ie. four days after due date or requested extension time.

Under ACT regulations a student who fails to complete 70% of the assessment for a semester is given a V Grade. This means that the unit is voided and the student receives no credit for the unit, a student must complete 17 units to obtain a grade 12 certificate and 20 units to obtain a tertiary entrance. The missed assessment instrument was worth _____ % of the assessment.

This means that _____ has now missed _____ % of this unit's assessment.

If the assessment is completed before the end of the semester then your child will receive credit for it so that it will count to their total of units but will not receive a mark.

Yours faithfully,
