

Possin Farms is offering the
“Forever Farming” Memorial Scholarship
In honor of Brent T Possin

From a young age, Brent always knew he would be a farmer. Along with his family, he became the third generation of Possin Farms in 1994 when he built his first hog barn. His love of the land and farming was evident. He was involved in FFA and received multiple awards as an adult including Young Farmer of the Year, Family Farmer of the Year, & Conservation Farmer of the Year.

To honor Brent’s legacy, Possin Farms is awarding our second annual ““Forever Farming” Memorial Scholarship”, in the amount of \$500. There will be one scholarship offered to a NRHEG senior that wants to inspire the future of farming. Applicants must be attending a higher education institution pursuing a degree in Agriculture. This deserving senior must demonstrate their passion for farming and agriculture. In a short essay, they will also explain why they are passionate about agriculture and how they would shape the future of farming, as Brent truly loved the innovation behind the farming community.

Applications will be available through the school’s counseling office.
