Your student will learn about different categories of Speech and Debate and have the opportunity to try them out:

Speech involves different public address and interpretation events like Declamation, Oratory, and more. Students will learn speech writing techniques and learn about persuasive speaking.

Debate involves students learning how to effectively convince someone that their side of a topic is more valid through events like Public Forum, Extemporaneous Debate, and more. Students will learn research and critical thinking skills.

Congress is a simulation of the real U.S. legislature. In this category, students will learn speechwriting, researching, and critical thinking skills. Students will write speeches, deliver speeches, and answer questions.

Friday Showcase - On Friday, students participate in a Speech and Debate Showcase where they will show off the skills they've learned over the course of the week!
