San Elizario Early College High School (SEECHS)
Recruitment and Selection of Students

To secure the broadest applicant pool possible, the San Elizario Early College High School will recruit eighth grade students from Ann M. Garcia-Enriquez Middle School (GEMS).

This process will include the following activities:
a. Maintenance of a SEECHS web site that provides recruitment and admission information
b. Online distribution of recruitment/admission documents to GEMS students
c. Student/parent meetings at GEMS to explain the opportunities available and the commitment required of SEECHS students
d. Bilingual presentations of recruitment and admission information

Admission to the SEECHS will be open to up to 60 students for each cohort year from GEMS. Criteria for admission to the SEECHS will allow all interested 8th grade students to apply. The majority of the students accepted to the SEECHS will include those who are at risk, economically disadvantaged, English learner, students with disabilities, African American, Hispanic and male students. Should the number of qualified students wishing to attend exceed available spaces, admission will be done through a weighted lottery process from the students who meet the minimum qualifying criteria. All students who are not originally chosen from the criteria will be selected by the time stamp from their application submission to complete the cohort of 63 and establish a waiting list. If students from surrounding districts apply, they would be required to enroll at San Elizario ISD.

Students will also have the rights and responsibilities defined in the EPCC Student Code of Conduct, EPCC Catalog, EPCC Student Handbook, and the EPCC Board Policies and College Procedures.

Violation of San Elizario ISD Code of Conduct, or the EPCC Code of Conduct and/or violations of attendance, or any other state laws which are applicable to public school students may result in the loss of the privilege of attending SEECHS.
