

How to calculate a GPA

- Classes are divided into 4 quarters with the exception of trimester classes.
- A quarter lasts 9 weeks and a trimester 12 weeks.
- First quarter does not reflect any trimester grades since they are still in session.
- Second quarter will include the 1st trimester grade, third quarter will include the 2nd trimester grade, fourth quarter will include the 3rd trimester grade.

Steps to calculate:

1. Give each quarter grade a point value. Honors Geometry is the only class at the MS with the Honors point value. *See chart below for point values.*
2. Multiply point value by credit attempted (0.25 OR 0.33 if a trimester class) for each course which will = GPA Points
3. Add total number of GPA points together. Add total number of credits attempted together.
4. You will then divide the GPA points TOTAL by credits attempted TOTAL.

<u>Grade</u>	<u>Range</u>	<u>Regular</u>	<u>Honors</u>
A	92-100	4.0	4.5
A-	90-91.9	3.7	4.2
B+	87-89.9	3.3	3.8
B	83-86.9	3.0	3.5
B-	80-82.9	2.7	3.2
C+	77-79.9	2.3	2.8
C	73-76.9	2.0	2.5
C-	70-72.9	1.7	2.2
D+	67-69.9	1.3	1.3
D	64-66.9	1.0	1.0
D-	60-63.9	0.7	0.7
F	<59.9	0.0	0.0

EXAMPLE

<u>Course</u>	<u>Grade</u>	<u>Point Value</u>	<u>Credit Attempted</u>	<u>GPA Points</u> <u>(Point Value X Credit Attempted)</u>
Language Arts	A	4.0	.25	1.0
Math	B	3.0	.25	0.75
Social Studies	C+	2.3	.25	0.575
Health	D	1.0	.25	0.25
7th grade specials (Trimester)	A	4.0	.33	1.32

Added Total: 1.33

3.895

TOTAL: Total GPA Points (3.895) divided by Total Credits Attempted (1.33) = 2.92 GPA
