

The Emery Babcock Outdoor Classroom at the Boston School Forest

Nature Bingo

1. Describe what a scavenger hunt is and tell the children that today they are going to be nature detectives.
2. Introduce the Nature Bingo handout. Review the objects on the Nature Bingo handout.
3. Discuss ways that we can use our senses to explore our surroundings including seeing, touching, smelling, and hearing.
4. Remind kids that we don't pick any living things but rather check it off the bingo card.
5. Have fun making discoveries!!

Extensions and Reflections:

1. Use the field guides to look for specific types of plants and animals.
 2. Make a drawing, sketch or rubbing of a nature object.
 3. Go around and make up a story that incorporates different objects on the Nature Bingo sheet.
 4. Compare the different seasons.
- What objects can you find in all seasons? Which can you find in 1?
