

Cultivating Excellence at KDS DAR High School

Faculty and Staff,

Our chosen theme for this school year is Excellence. It is not merely a word but a guiding principle that should extend through every aspect of our educational practice. As educators, it is imperative that we not only model excellence but also to nurture an environment where it is expected and strived for by all.

Excellence is not a one-time achievement but rather a habit that we must cultivate. It is said that we are what we repeatedly do, and by instilling a culture of continuous improvement and striving for better, we set our students on a path of long-term success. Our role in schools goes beyond imparting knowledge; it is about empowering our students to achieve, perform, and excel in all their scholastic pursuits, both present and future.

Let us always bear in mind that our legacy is determined by how we finish, not how we start. Therefore, as we embark on this new school year, let us evaluate every action and decision through the lens of excellence. Will this lesson inspire excellence in our students? Will this field trip contribute meaningfully to their journey towards excellence?

I extend my utmost gratitude for your unwavering dedication and commitment to our students' success. Together, let us make this academic year a transformative and enriching experience for all members of the KDS DAR High School community.

KATE DUNCAN SMITH DAR SCHOOL
