

Riverwood CTAE Healthcare Science Pathways

The CTAE Healthcare Science Pathways at Riverwood provide students with hands-on learning, industry-recognized credentials, and preparation for high-demand healthcare careers. Courses are taught by instructors Tawanna Minter-Cummings, Ed.S., RT(R)(CT) and Amandeep Chann, M.D., B.S., CPhT, covering the essential elements of healthcare.

Students can earn valuable certifications, including Certified Clinical Medical Assistant (CCMA) from the NHA, BLS & Heartsavers/CPR Certification (AHA), FEMA Certification, Exercise Science/Sports Medicine Certification (YouScience), and ExCPhT (Certified Pharmacy Technician) from the NHA. These credentials prepare students for careers in Allied Health, Sports Medicine, and Pharmacy, and can give them a competitive edge when applying to medical programs or entering the healthcare workforce.

In addition to coursework, students benefit from networking opportunities through HOSA - Future Health Professionals, hands-on experience in clinical and simulated lab settings, and participation in service projects. Field trips to technical schools and universities provide insight into career pathways and further educational opportunities.

The program equips students with essential skills and knowledge, ensuring they are workforce-ready or prepared for further studies.

For more information, contact Riverwood International Charter School's CTAE Healthcare Science Department!
