

Take a deep dive into the world of medicine!

Cor Jesu's exciting Summer Medicine Experience (**SME**) is an experiential learning adventure designed for 20 rising juniors and seniors who are interested in pursuing a career in medicine.

A team of physicians from various specialties team together to offer students valuable information about the road to medical school and what lies beyond. Individual and small-group shadowing opportunities will provide hands-on learning and valuable personal engagement with professionals. This exciting week will include a Q&A with a panel of practitioners and time for one-on-one conversations over a group lunch.

FOR MORE INFORMATION
