2023-2024 School Accountability Report Card  
(Published During the 2024-2025 School Year)

# General Information about the School Accountability Report Card (SARC)

## SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

## DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

## California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

## Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## Admission Requirements for the University of California (UC)

Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <https://admission.universityofcalifornia.edu/>.

## Admission Requirements for the California State University (CSU)

Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <https://www2.calstate.edu/>.

## 2024-25 School Description and Mission Statement

### Vision Statement

Mira Loma aims to develop internationally-minded people who create a better and more peaceful world.

### Mission Statement:

Embracing diversity and valuing excellence, Mira Loma High School's mission is to educate each student through rigorous, high-quality programs which involve dynamic activities in a collaborative, compassionate, and safe learning community.

### School Profile:

Built in 1960, Mira Loma High School is one of nine comprehensive high schools in the San Juan Unified School District located in Sacramento County. With one primary feeder school and strong academic and extra-curricular programs, Mira Loma is a school of choice for many students of San Juan as well as out-of-district students. The school is located in a suburban community, with students coming from a wide spectrum of socio-economic backgrounds. This diversity is a valuable asset that strengthens and enriches our community. Mira Loma is best known for its International Baccalaureate (IB) program - both diploma and middle years programs. The IB program is among the largest (700) students and most successful (by IB pass rate) in the nation. The Mira Loma IB program draws talented students from four counties. In addition to the IB program, Mira Loma

## 2024-25 School Description and Mission Statement

offers the International Studies (IS) program, a Career Technical Education (CTE) Pathway in Medical Assisting, and a CTE Pathway in computer science - cyber security, Special Education, and an English Language Learner program to an ethnically diverse student population. Notably, Newsweek Magazine recognized Mira Loma as one of the best high schools in the region and in the top 300 high schools in the nation for the last five years.

Mira Loma has partnered with many community organizations to directly benefit students including the San Juan Foundation, UC Davis, CSU Sacramento, Air Quality Resources Board, Intel Corporation Mentor Program, SMAC Cultural and Educational Foundation, River Cats, Raley's, and the International Baccalaureate Program.

Enrollment is favorably affected by students from outside Mira Loma's attendance area. These students choose to attend Mira Loma for its outstanding IB, MYP (Middle Year Program), and IS programs. From this pool, Mira Loma attracts approximately 350 inter-district students and 80 intra-district students.

### Principal's Message:

Mira Loma is a dynamic school with many positive academic programs for students, and we are recognized for excellence in many areas. Our population continues to change. We have had a slight decline in out-of-district enrollments, but our local English Language Learner population has continued to grow. However, the staff realizes that we still have improvements to make and our School Plan for Student Achievement, Western Association of Schools and Colleges (WASC) action plans, and IB 5-year review goals are all written to address these areas of professional development, and work towards a better school community and climate for student growth and achievement. One of our goals is to increase access to advanced courses for all students and provide support to promote success for all.

The students enjoy our new Science building with 10 labs, an outdoor learning classroom, a community meeting room, and student small group study spaces, air conditioning in our gyms and fresh paint, and classroom space for every teacher to have their own room. This past summer, our blacktop, tennis courts and student parking lot received a refresh. In 2021-22, students and staff worked extremely hard to reestablish the "Matador" culture. We've adjusted and adapted many of our traditions to provide safe opportunities to celebrate culture and create opportunities to build community on campus.

In 2022-23, Mira Loma High School developed a student and staff mentoring program called ML Connect to help all freshman get connected. Totalling 96 student mentors and 40 teachers, student members of this group, along with staff, volunteer their time to build community and support our freshman throughout the year.

Beginning in 2023-24, and continuing in the 2024-25 school year, Mira Loma has created new programs and opportunities for students. We added a new Career and Technical Education (CTE) pathway, Aviation. In addition, Mira Loma has added another International Baccalaureate (IB) program, known as the IB: Career Program that allows students to complete a CTE pathway and earn an IB certificate. These programs are designed to give students more opportunities and increase the percentage of students that graduate high school college and career ready.

Sincerely,

Kaden Bahner  
Principal  
Mira Loma High School

### A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

## 2024-25 Quality, Currency, Availability of Textbooks and Other Instructional Materials

### General

The Board of Education and the Superintendent's policy is to ensure that all students are provided with a safe and well-maintained learning environment. The board approved resolutions in 1998 and 2002 to adequately fund maintenance activities and preserve the repairs and improvements funded by two facility bond measures. District maintenance staff ensure repairs necessary to keep the school in good repair and working order are completed in a timely manner. A computer automated work order process is used to ensure efficient service and that emergency repairs and health and safety repairs are given the highest priority. The Board of Education has adopted cleaning standards and custodial staffing requirements for all schools in the district. This school meets the Board's standards for custodial staffing and cleanliness. The school's custodians are trained in the proper use of cleaning chemicals and Integrated Pest Management techniques. They are managed day to day by the principal with assistance from the district's maintenance department. The district participates in the State School Deferred Maintenance Program, with funding allocated for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and floor systems. Annually the district budgets \$2 million dollars for deferred maintenance activities. This school contains 71 classrooms, and 21 other student or administrative spaces as well as 2 pools.

### Age of School Buildings

65 years--Built in 1960 but with modernizations and additions completed in subsequent years.

### Maintenance and Repair

LEA maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient services and that emergency repairs are given the highest priority. Emergency work orders are addressed in the first 24 hours. Routine work orders are addressed within 30 days.

### Cleaning Process and Schedule

The LEA governing board has adopted cleaning standards for all schools in the LEA. Each site has a day and evening custodial crew. Each crew member has a run sheet with assigned responsibilities. A copy of these run sheets is available at the school office or can be obtained from Maintenance and Operations Custodial Services. Custodial Area Supervisors oversee the cleaning of all district sites to ensure cleaning standards are met daily providing a clean and safe site.

### Deferred Maintenance Budget

The LEA participates in the State School Deferred maintenance Program, which provides state matching funds on a dollar-for-dollar basis to assist LEAs with expenditures for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting and floor systems. For the 2023-24 school year, the LEA has budgeted 2 million for the deferred maintenance program. This represents 3% of the LEA's general fund budget.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

#### Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

#### College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

### Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

## 2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

## 2023-24 Career Technical Education Programs

San Juan Unified defines their career paths following the strict criteria set within the Perkins Act and/or the California Partnership guidelines. The Career Technical Education (CTE) department collects data on the number of students moving through our local sequences. Some CTE courses, because of the time requirements, internship element and industry standards they meet, are defined as a sequence within themselves. Introductory CTE courses are found throughout our schools, concentrators are students who take a second level course within the same career path, and students are referred to as completers when they complete a sequence of courses leading to certification, employability, and/or further technical training. Capstone courses are defined as completer based on length of course, sequence, and skill development.

The CTE capstone course leads to a certificate/industry skill sheet or license if applicable. The program also provides the student with academic and technical knowledge and skill through integrated academic and technical instruction. The programs prepare students to enter current or emerging careers for further training within the career path for which there is gainful employment. All students are provided practical experiences to pursue post high school employment and gain course work that is A-G compliant.

San Juan Unified also provides students career preparation through enrollment in California Partnership Academies. We have four California Partnership Academies in the areas of: business-finance/entrepreneurship, construction, pre-engineering/product innovation, and patient care. Our schools have numerous career paths opportunities beyond the state funded California Partnership Academy.

## 2023-24 Career Technical Education Programs

Mira Loma offers the following CTE pathways and courses:

### Aviation Pathway

- Aviation
- Aviation Piloting (capstone completion course)

### Networking Pathway: Cybersecurity

- Exploring Computer Science
- Computer Science Principles
- Cybersecurity (capstone completion course)

### Patient Care Pathway: Medical Assistant

- Introduction to Medical Careers
- Medical Careers
- Medical Assistant: Administrative
- Medical Assistant: Clinical (capstone completion course)

CTE pathways held at various high schools within San Juan Unified open to Mira Loma students:

- Automotive
- Bakery Academy
- Broadcast and Video Production
- Construction Technology
- Culinary Arts
- Dental Careers
- Emergency Response
- Professional Theatre
- Public Safety Careers

How does this class support student achievement?

When students experience CTE courses they have the opportunity to see the relationship between applied academic standards and the real world. Students find purpose in their studies and are provided an opportunity to apply their academic and industry skills to every day problems.

How does the school address the needs of all students in career preparation?

Through the IEP process special education students may be scheduled into CTE courses. Students are provided the support and necessary curriculum modification as outlined in the IEP. CTE provides extended testing time, extra assignment time and support where appropriate. Since our CTE courses work to integrate and support the academic standards, the students will be exposed to “hands on” activities and participate in solving real life problems.

How are the courses evaluated for effectiveness?

The capacity to serve a “significant” number of students and the degree to which the program attains specific outcomes are assessed yearly. Completion rates and graduation rates along with completion of a sequence are all evaluated yearly. The number of completion certificates issued and the attainment of specific industry skills is analyzed. Data on attendance is also collected.

How are CTE industry sectors represented at the high schools?

The Director of College and Career Readiness, Brett Wolfe holds an annual advisory committee meeting representing every industry sector in Career Technical Education. The programs represented are Agriculture, Broadcast and Video Production; Building and Construction Trades; Business and Finance; Computer Science; Emergency Response; Engineering Design; Entrepreneurship; Health Science; Hospitality and Tourism; Information Technology; Public Safety; Performing Arts; Manufacturing; Networking, and Transportation. The advisory committee is composed of a variety of stakeholders including industry and labor, secondary and postsecondary leaders, faculty, parents, and students.

## B. Pupil Outcomes

### State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

## 2023-24 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

## 2024-25 Opportunities for Parental Involvement

Parents are integral partners in successful schools. At Mira Loma, parents actively contribute time, energy, and resources in support of all students and faculty by participating in the Boosters Association, IB (International Baccalaureate) Parent Organization, IS Student Parent Organization, Grad Night Committee, and EL (English learner) Advisory Committee. In 2023-24, Mira Loma merged their parent groups to be one unified group known as Mira Loma Parent Organization. The IBPO,

## 2024-25 Opportunities for Parental Involvement

Boosters, ISSPO are now subcommittees under the Mira Loma Parent Organization.

Parents also share in school-wide decision-making through the School Site Council and Safe Schools Committee. Parents are also kept informed by school personnel by receiving a Principal's Weekly Newsletter on Friday of each week with all the events, activities, and news for the week. Parents are also kept informed through progress reports and report cards mailed home regularly. Our parent organizations provide significant support for students and staff. Examples of their support include providing materials and equipment for academic programs and academic competition teams, funding multiple scholarships for students, and funding students to participate in activities. Parents of Special Education students are very involved in decision-making for individual transition planning and Individualized Education Plans (IEPs). Many parents volunteer for special projects and to help with school improvement activities, Please contact the school office for volunteer information at 916-971-7465.

## 2024-25 School Safety Plan

### School Safety Plan

San Juan Unified School District emphasizes school safety and understands its importance in helping to achieve the academic success of its students. In accordance with the California Education Code, each school site must complete and maintain a Comprehensive School Safety Plan, to be reviewed and updated annually. The plan includes a review of safety data for the campus, safety policies, critical incident response & management information as well as emergency procedure information including those pertaining to incidents involving fire, earthquakes, intruders and other dangers. The review and update of the plan is a collaborative process involving representatives from site administration, instructional staff, custodial & classified staff, safety personnel and parent representative who together comprise a site safety team. Finalized plans are posted to site webpages for public access and presented to staff during training and development days no later than March 1 of each year. A copy of the plan is available for review in each school site office.

Safety drills are held on a regular basis and in compliance with the California Education Code to include fire drills, earthquake drills and intruder drills. Drills are coordinated and monitored with the assistance of the trained district safety personnel.

Safety is a shared responsibility. Each school site is supported by the district's Safe Schools Team. The Safe Schools Team is comprised of personnel specifically trained to support and promote school safety, provide advice to matters involving student welfare, assist in the coordination of drills and provide safety training to students and staff. Safe Schools Team members, known as Community Safety Specialists, work collaboratively with site administrators and safety committee members to build and strengthen a culture of safety as well as address specific incident needs. The Safe Schools Team members are further supported through developed relationships with local law enforcement offices including the Sacramento County Sheriff's Department & Citrus Heights Police Department. As needed, San Juan Unified utilizes contracts with local law enforcement for the purpose of employing uniformed law enforcement officers to further enhance school site security for special events as

## Professional Development

Professional development is a key part of the continuous improvement process for educators. The goal of our quality professional development is to support the learning of teachers and paraprofessionals to positively impact student achievement. Annually, teachers and site administrators participate in professional development in a variety of opportunities. Seventy-five minutes per week are dedicated to staff collaboration and training planned by site leadership teams. The District also provides a cycle of continuous professional development for Administrators through Principal Networks as well as Leadership Academies.

## Professional Development

The District provides professional development opportunities for teachers and administrators that support the implementation of Common Core State Standards in English language arts, mathematics, science, social studies, and the ELA/ELD Framework. Specific professional development initiatives include: Culturally Responsive Practices, Critical Literacy, TK-2 Reading, Supporting Independence and Engagement through Reading and Writing, Math to the Core, Expository Reading and Writing Course, and ELD Foundations. District departments, Center for Teacher Support, grant-funded projects, and the San Juan Teacher's Association sponsor additional training opportunities. Professional development opportunities are voluntary for teachers and are provided throughout the year in a variety of formats: during the school day, after school, on Saturdays, and during summer and vacation breaks. Many teachers and administrators also take advantage of opportunities with Sacramento County Office of Education, California Department of Education, the college/university programs, state/national education organizations, and private educational institutes.

What grounds the professional development in the district is the District Strategic Plan and the Local Control Accountability Plan. Professional Development is further determined using one or more of the following: (a) student achievement data, (b) staff survey data, and (c) district-identified goals. Professional development addresses the Common Core State Standards, teaching strategies, curriculum, assessment, technology, classroom management, safety, and leadership. Administrator training accompanies professional development in district focus areas, providing implementation support for teachers on site. Content-area coaches are available at some schools. Additional classroom support is provided to new and struggling teachers by consulting teachers from the Center for Teacher Support.

Paraprofessionals are encouraged to participate in professional development at the district and site level, and there are specific opportunities designed for our paraprofessionals to attend and be compensated. Specifically designed training is also offered to non-instructional support staff such as clerical and custodial staff that includes both operational and instructional topics.
