2023-2024 School Accountability Report Card (Published During the 2024-2025 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)

Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at <https://admission.universityofcalifornia.edu/>.

Admission Requirements for the California State University (CSU)

Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at <https://www2.calstate.edu/>.

2024-25 School Description and Mission Statement

Principal's Message:

Starr King TK-8 School is preparing students to be ready for college, career and citizenship in the twenty-first century. During the strategic planning process, Starr King developed a mission, objectives, and three tactics to guide our work. The following tactics each have several action plans:

- We will design and implement a safe and nurturing, cohesive TK-8 program as a collaborative community in which all members are active contributors for the success of our students.
- We will design and implement a well-rounded K-8 instructional program that includes language arts, math, social studies, science, and technology inspired through the arts, that guarantees all students the opportunity to excel by monitoring student progress.
- We will actively engage and build relationships with the Starr King K-8 families and the community as valued partners in the educational process.

Mission Statement:

The Mission of Starr King TK-8 school is to educate and empower every student to become inquisitive, resilient, and collaborative individuals through evidence-based academic and social-emotional curriculum, provided in a respectful, safe and

2024-25 School Description and Mission Statement

responsible community.

School Profile:

The curriculum provided at Starr King TK-8 School, a Title One School, is aligned to the California Common Core Standards, with a targeted focus on Universal Access for all student in ELA, foundational reading in K-1, writing, and English language development. The school supports cultural awareness and an awareness of students with special needs. In addition, on a regular basis, the teachers and school counselor provide character education using multiple resources including, but not limited to diverse literature selections, We Have Skills, Second Step, Mindfulness curriculum, Restorative Practices, special school activities, and connection with the Ralph Richardson Center. Starr King is in year seven of Positive Behavior Intervention and Support (PBIS) implementation with a school-wide focus of teaching, modeling, and positively reinforcing prosocial skills and behavior. We are working to create a positive culture and school climate with parent and community engagement as a focus. Starr King's programs reflect the interests and needs of its students and community.

Starr King has a dedicated staff with teachers who are highly qualified. In addition to classroom teachers, staff members include: an academic coach literacy, PBIS coach, math coach, refugee coordinator, six intervention teachers, six English Language Development teachers supporting the English Language Learner program, 2.6 counselors, a school psychologist, two vice principals, a campus monitor to provide extra safety, School Community Interventions Specialist, Behavior Support Specialist, and support for staff and students. Teachers are continuing to implement many strategies in their classroom to meet the needs of all our students. Teachers are also implementing both designated and integrated English Language Development (ELD) each day and are working on integrating Culturally and Linguistically Responsive Instruction to meet the needs of our diverse student population. Most teachers have been trained in Guided Language Acquisition Design (GLAD). GLAD is a model of professional development in the area of language acquisition and literacy. The strategies and model promote English language acquisition, academic achievement, and cross-cultural skills. Tied to the Common Core Standards and State Standards, the model trains teachers to provide access to core curriculum using local district guidelines and curriculum. Writings in the field of brain research and standards-based instruction reinforce that by integrating the content areas and direct teaching of metacognitive strategies, learning is made more relevant and meaningful, thus insuring more efficient and effective learning. The strategies and classroom implications foster a risk-free, cross-culturally sensitive environment within which students are able to acquire academic language and concepts. Although, as written, the GLAD model is intended for English language acquisition for English Language Learners, it is valuable for acquisition of language for all students. The structure, strategies, and classroom implications are invaluable in a multilingual setting.

Starr King has placed a strong emphasis on foundational reading skills in our TK-1 program. The Elementary and Secondary Education Act (ESEA) Section 1208(3) addresses the Essential Components of Reading Instruction: The term essential components of reading instruction means explicit and systematic instruction in

- (A) phonemic awareness
- (B) phonics
- (C) vocabulary development
- (D) reading fluency, including oral reading skills
- (E) reading comprehension strategies

In addition, Section 614(b)(4)(A) of IDEA (Individuals with Disabilities Education Act) states:

A child shall not be determined to be a child with a disability if the determinant factor is a lack of appropriate instruction in reading, including in the essential components of reading instruction as defined in Section 1208(3) of ESEA. With this in mind, we are providing professional learning for our K-1 teachers in assessment and data analysis, phonemic awareness and phonics instruction, and comprehension strategies. We are monitoring our students' progress and have set growth targets for all our K-1 students. At Starr King, our goal is to truly provide students with a balanced literacy approach in compliance with the national law.

In a safe and nurturing environment, Starr King continues to implement innovative educational initiatives, providing students with the necessary skills to be successful in the twenty-first century. Starr King offers a variety of activities and support, enriching the learning environment. They include:

- Bridges After-School Program
- Common Core Aligned Math Program
- Title I Intervention Teachers, providing intervention for grades K-8
- Literacy Coaching for teachers
- Math Coaching for teachers
- PBIS Coaching for teachers
- English Language Development Teachers
- Positive Behavioral Intervention Supports System (PBIS)

2024-25 Quality, Currency, Availability of Textbooks and Other Instructional Materials

General

The Board of Education and the Superintendent's policy is to ensure that all students are provided with a safe and well-maintained learning environment. The board approved resolutions in 1998 and 2002 to adequately fund maintenance activities and preserve the repairs and improvements funded by two facility bond measures. District maintenance staff ensure repairs necessary to keep the school in good repair and working order are completed in a timely manner. A computer automated work order process is used to ensure efficient service and that emergency repairs and health and safety repairs are given the highest priority. The Board of Education has adopted cleaning standards and custodial staffing requirements for all schools in the district. This school meets the Board's standards for custodial staffing and cleanliness. The school's custodians are trained in the proper use of cleaning chemicals and Integrated Pest Management techniques. They are managed day to day by the principal with assistance from the district's maintenance department. The district participates in the State School Deferred Maintenance Program, with funding allocated for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting, and floor systems. Annually the district budgets \$2 million dollars for deferred maintenance activities. This school contains 32 classrooms, and 11 other student or administrative spaces as well as 4 playgrounds.

Age of School Buildings

69 years--Built in 1956 but with modernizations and additions completed in subsequent years.

Maintenance and Repair

LEA maintenance staff ensures that the repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient services and that emergency repairs are given the highest priority. Emergency work orders are addressed in the first 24 hours. Routine work orders are addressed within 30 days.

Cleaning Process and Schedule

The LEA governing board has adopted cleaning standards for all schools in the LEA. Each site has a day and evening custodial crew. Each crew member has a run sheet with assigned responsibilities. A copy of these run sheets is available at the school office or can be obtained from Maintenance and Operations Custodial Services. Custodial Area Supervisors oversee the cleaning of all district sites to ensure cleaning standards are met daily providing a clean and safe site.

Deferred Maintenance Budget

The LEA participates in the State School Deferred maintenance Program, which provides state matching funds on a dollar-for-dollar basis to assist LEAs with expenditures for major repair or replacement of existing school building components. Typically, this includes roofing, plumbing, heating, air conditioning, electrical systems, interior or exterior painting and floor systems. For the 2023-24 school year, the LEA has budgeted 2 million for the deferred maintenance program. This represents 3% of the LEA's general fund budget.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2023-24 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2024-25 Opportunities for Parental Involvement

PARENT INVOLVEMENT

The following activities are very successful because of the staff and parent commitment: Winter Wonderland, field trips, classroom activities, playground supervision, and family nights.

Parents of Starr King students are provided several opportunities for involvement including parent listening sessions, School Site Council, English Language Advisory Committee (ELAC), field trips, family events, classroom volunteering and more.

The Starr King TK-8 School Site Council serves as an advisory group to monitor the implementation and assess the effectiveness of the School-Based Coordination Program. Four parents serve as members of this group.

Parents are represented on the Starr King School Safety Committee that addresses issues relating to creating a safe physical and psychological environment which nurtures students.

Parents from Starr King serve as representatives on the Superintendent's Parent's Advisory Committee (SPAC), English Language Advisory Committee (ELAC), District Language Advisory Committee (DELAC) and District Advisory Committee

2024-25 Opportunities for Parental Involvement

(DAC).

Starr King strives to maintain ongoing parent communication. A newsletter is distributed to all TK-8 students and posted on our website twice a month. School-to-home communication for all grades also occurs through a mid-trimester school-wide progress report, trimester report cards, and by individual and all teacher conferences. Parents may also view attendance, grades and assignments through teacher websites and on Q, our district's student information system.

CONTACT INFORMATION: For information on volunteer opportunities, please call the school office at (916) 971-7320. Parents or community members who wish to participate in leadership teams, school committees, school activities, or become a volunteer may contact Jennifer Hamilton at the Starr King school office at (916) 971-7318.

2024-25 School Safety Plan

School Safety Plan

San Juan Unified School District emphasizes school safety and understands its importance in helping to achieve the academic success of its students. In accordance with the California Education Code, each school site must complete and maintain a Comprehensive School Safety Plan, to be reviewed and updated annually. The plan includes a review of safety data for the campus, safety policies, critical incident response & management information as well as emergency procedure information including those pertaining to incidents involving fire, earthquakes, intruders and other dangers. The review and update of the plan is a collaborative process involving representatives from site administration, instructional staff, custodial & classified staff, safety personnel and parent representative who together comprise a site safety team. Finalized plans are posted to site webpages for public access and presented to staff during training and development days no later than March 1 of each year. A copy of the plan is available for review in each school site office.

Safety drills are held on a regular basis and in compliance with the California Education Code to include fire drills, earthquake drills and intruder drills. Drills are coordinated and monitored with the assistance of the trained district safety personnel.

Safety is a shared responsibility. Each school site is supported by the district's Safe Schools Team. The Safe Schools Team is comprised of personnel specifically trained to support and promote school safety, provide advice to matters involving student welfare, assist in the coordination of drills and provide safety training to students and staff. Safe Schools Team members, known as Community Safety Specialists, work collaboratively with site administrators and safety committee members to build and strengthen a culture of safety as well as address specific incident needs. The Safe Schools Team members are further supported through developed relationships with local law enforcement offices including the Sacramento County Sheriff's Department & Citrus Heights Police Department. As needed, San Juan Unified utilizes contracts with local law enforcement for the purpose of employing uniformed law enforcement officers to further enhance school site security for special events as

2024-25 School Safety Plan

well as in response to critical incidents and threats.

Professional Development

Professional development is a key part of the continuous improvement process for educators. The goal of our quality professional development is to support the learning of teachers and paraprofessionals to positively impact student achievement. Annually, teachers and site administrators participate in professional development in a variety of opportunities. Seventy-five minutes per week are dedicated to staff collaboration and training planned by site leadership teams. The District also provides a cycle of continuous professional development for Administrators through Principal Networks as well as Leadership Academies.

The District provides professional development opportunities for teachers and administrators that support the implementation of Common Core State Standards in English language arts, mathematics, science, social studies, and the ELA/ELD Framework. Specific professional development initiatives include: Culturally Responsive Practices, Critical Literacy, TK-2 Reading, Supporting Independence and Engagement through Reading and Writing, Math to the Core, Expository Reading and Writing Course, and ELD Foundations. District departments, Center for Teacher Support, grant-funded projects, and the San Juan Teacher's Association sponsor additional training opportunities. Professional development opportunities are voluntary for teachers and are provided throughout the year in a variety of formats: during the school day, after school, on Saturdays, and during summer and vacation breaks. Many teachers and administrators also take advantage of opportunities with Sacramento County Office of Education, California Department of Education, the college/university programs, state/national education organizations, and private educational institutes.

What grounds the professional development in the district is the District Strategic Plan and the Local Control Accountability Plan. Professional Development is further determined using one or more of the following: (a) student achievement data, (b) staff survey data, and (c) district-identified goals. Professional development addresses the Common Core State Standards, teaching strategies, curriculum, assessment, technology, classroom management, safety, and leadership. Administrator training accompanies professional development in district focus areas, providing implementation support for teachers on site. Content-area coaches are available at some schools. Additional classroom support is provided to new and struggling teachers by consulting teachers from the Center for Teacher Support.

Paraprofessionals are encouraged to participate in professional development at the district and site level, and there are specific opportunities designed for our paraprofessionals to attend and be compensated. Specifically designed training is also offered to non-instructional support staff such as clerical and custodial staff that includes both operational and instructional topics.
