

# **2025-26** High School Course Catalog

# HILLSBORO SCHOOL DISTRICT

# MESSAGE FROM THE DISTRICT

Dear HSD students and parents,

The faculty and staff of all HSD high schools are committed to providing our students with a rich, challenging and meaningful educational experience. Academic programs are designed to offer every student the opportunity to excel and to build a strong foundation for success after high school.

This course guide is an essential tool for making the important educational decisions that lie ahead for you. Please review the guide so that you are informed of graduation requirements, college admission standards, and course descriptions and requirements. Carefully consider the course selections and program decisions that you will be making. These decisions will shape the foundation you build for your future.

We encourage you to seek the advice of counselors and teachers as you work through your course selection process. We look forward to partnering with you during your high school career.

Julie Kasper, Principal Century High School

Claudia Ruf, Principal Glencoe High School

Cary Meier, Principal Hillsboro High School

Dennis Joule, Principal Liberty High School

Shannon Freudenthal, K-12 Administrator Hillsboro Online Academy

Amy Torres, Principal Oak Street Campus

HSD is the first K-12 school district in Oregon to receive full systems (districtwide) accreditation by Cognia, a non-profit, non-partisan, international organization of education quality assurance professionals.

The Hillsboro School District recognizes the diversity and worth of all individuals and groups. It is the policy of the Hillsboro School District that there will be no discrimination or harassment of individuals or groups based on race, color, religion, gender, sexual orientation, gender identity, gender expression, national origin, marital status, age, veterans' status, genetic information or disability in any program, service, or activity for which the District is responsible. The District will comply with the requirements of state and federal law concerning non-discrimination and will strive by its action to enhance the dignity and worth of all persons.

# General Information

Take the time to carefully read the contents of this catalog. Be sure to review minimum requirements for all HSD diplomas, including the Chancellor's diploma, Career and College Pathway requirements, and other essential information that will help you plan and request your schedule for the 2025-26 school year.

# **Using This Catalog**

This course catalog is designed to help you make wise selections from the courses offered at Hillsboro School District high schools. Take the time to review the catalog carefully. As your student prepares to select courses for 2025-26 coursework, it is important to review the minimum requirements for all Hillsboro diplomas on page 2. Please note the Essential Skill proficiency requirements in reading, writing and mathematics.

When selecting courses for next year, students and parents should keep the following in mind:

- All courses and programs offered are contingent upon adequate funding.
- All courses offered are dependent on enrollment. If an insufficient number of students request a course, it will not be taught.

Courses are divided into two types: required and elective. Required courses are those a student must pass to meet the state of Oregon and Hillsboro School District requirements for graduation. *Elective* courses are designed to build skills in areas of study that meet the student's need for vocational and college admission, as well as the pursuit of individual interests. Students are required to pass some elective courses as well.

Not all courses are offered at every high school.

Courses are organized by subject categories within this catalog. Each course description provides the following information:

# **Understanding a Course** Description

Course(s) required to be successfully completed Grades: 10-12 (CHS, GHS, HHS, LHS) before student is eligible to take this course  $\bigcirc$ 

#### Course title 0

Grade level of students that may enroll in this course (schools that offer this course)

#### 0 ART 2

### Prerequisite: Art 1

**1.0 credit** Credit earned by passing this course

Building upon the skills established in Art 1, this second Course content and expectations year foundation course concentrates on enhancing the student's creative energy. The course will include development of visual awareness, problem-solving, creativity, and perspective. Students will be introduced to elements of design, life drawing, illustration, and color theory through the mediums of paint, pen and ink, and pastel.

Symbols that may appear are:

AP for Advanced Placement

for International Baccalaureate

# 2025-26 High School Course Catalog

6

# HILLSBORO SCHOOL DISTRICT

# **Weighted Grades**

Not all courses are offered at every high school. A student's unweighted GPA is calculated using two factors: credits earned and the "grade points" that are awarded to letter grades (A = 4 points, B = 3 points, C = 2 points, D = 1 point).

Weighted grades add a "bonus" to the regular letter grade points. Only Advanced Placement (AP) and International Baccalaureate (IB) courses will be weighted. Grades A, B, and C earned in these classes will receive an extra grade point, which will increase the GPA that students earn in these courses: an "A" that is earned in a weighted class will yield 5 grade points (4 points for the "A" and 1 additional point as a weighted bonus), a "B" will yield 4 grade points, and a "C" will yield 3 grade points.

### **Examples:**

### Unweighted GPA Calculation

	Class 1	Class 2	Class 3	Class 4
Letter Grade	А	В	А	С
AP or IB Class?	У	n	n	у
Grade Points	4	3	4	2

unweighted GPA = (4 + 3 + 4 + 2) / number of classes = 13 / 4 = 3.25

### Weighted GPA Calculation

	Class 1	Class 2	Class 3	Class 4
Letter Grade	А	В	А	С
AP or IB Class?	У	n	n	У
Grade Points	5	3	4	3

weighted GPA = (5 + 3 + 4 + 3) / number of classes = 15 / 4 = 3.75

The transcripts of students who graduate from Hillsboro School District will include both a unweighted GPA and class rank, and a weighted GPA and class rank.

A student's class rank is based on their GPA. A student with a class rank of 43, for example, has the 43rd-highest GPA in their graduating class. Providing both the unweighted and weighted GPA and class rank information will benefit students whose applications are reviewed by college entrance and scholarship committees that make use of either system. This dual reporting system benefits students by providing additional information about their academic records.

# **Graduation Honors**

Students who earn a Chancellor's Diploma may be eligible for graduation honors. All honors designations are based on unweighted GPA. This information is defined in Hillsboro School District Policy IKF.

### **Chancellor's Diploma**

The Chancellor's Diploma will be awarded to students who have demonstrated their commitment to a rigorous course of study during high school in order to prepare for college and career success. The Chancellor's Diploma includes classes and requirements that promote critical thinking skills and an enriched learning experience. These requirements are aligned with general Oregon university admissions, but do not guarantee automatic acceptance. Students who earn a Chancellor's Diploma demonstrate the experience that is desired for every student in the Hillsboro School District. All students earning a Chancellor's Diploma will be recognized with a Chancellor's Diploma Recognition during the graduation ceremony.

### Valedictorian

Students earning a Chancellor's Diploma and receiving an unweighted GPA of 4.0 for all classes taken will be recognized as valedictorians. In the event that no students receive a 4.0 GPA, but earn a Chancellor's Diploma, the student(s) with the highest GPA will be recognized as the valedictorian(s). More than one person may be recognized as the valedictorian(s).

### Salutatorian

Student(s) who earn a Chancellor's Diploma and have the second highest unweighted GPA will be recognized as the salutatorian(s). More than one person may be recognized as the salutatorian(s).

### **Honors Graduate**

The students who earn a Chancellor's Diploma and maintain a 3.75 unweighted GPA will be recognized as honors graduates.

While each university or college determines their own admissions requirements, the following can be used as a guide for most public institutions in Oregon. These are general admission requirements; additional requirements may apply for scholarships and honors college, as well as the NCAA's requirements for athletic eligibility. Please reference the admission requirements for each postsecondary institution for specific requirements including GPA, test scores and other requirements. As a result of the COVID-19 global pandemic, many universities and colleges have adjusted admissions requirements. Be sure to reference the most up to date admissions information on each university/college website.

# Common Admission Requirements for Oregon Public Universities

# Common Admission Requirements for Oregon Public Universities

(Continued)

SAT or ACT scores are required for admission to some four-year colleges. C- or greater must be awarded in each college-preparatory subject course for automatic admissions.

# Freshman GPA Admission Requirements for Oregon Public University System

	UofO	OSU	PSU	EOU	OIT	SOU	WOU
High school GPA	C or better**	3.00	2.5	2.75*	3.00	2.5	2.75*

\* Minimum test scores are not set, but test results must be submitted and may be used during additional campus review processes.

\*\* C or better in Core/2nd Language

Oregon community colleges have an open-door admission policy. At a community college, students can complete a certificate program, a two-year associate program, or prepare to transfer to a four-year college. Placement testing at community colleges is required prior to registering any courses. Students are not required to take the SAT or ACT for community college admission.

Students may want to consider private colleges and universities. These institutions have their own entrance requirements. Consult your counselor and research the individual college/university's requirements in the Counseling Center or online, or speak to an admissions representative.

The NCAA has additional requirements for athletic eligibility, which may be found at **www.ncaa.org/student-athletes/future**. If you are planning on pursuing participation in an NCAA sport, please contact your school's athletic office as soon as possible.

Note that the NCAA states that it is the student-athlete's responsibility to ensure they are taking the correct courses to be NCAA-eligible.

Be sure to check the admission requirements of your potential colleges or universities to determine if they have a preference for the SAT or ACT for admission. Note that test scores are only part of a student's review for admission; coursework, grades, and activities also weigh into the evaluation. Students/families are responsible for registering themselves for any test dates. Information can be found in the College and Career Center in each high school. Qualified students may be eligible for testing fee assistance.

# PSAT/NMSQT

The Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT) is a standardized test administered by the College Board and co-sponsored by the National Merit Scholarship Corporation. Upcoming dates:

October 1-31, 2025

# SAT

The Scholastic Aptitude Test, or SAT, is published by the College Board and is used to assess college readiness. The SAT comprises testing in critical reading, mathematics, and an optional essay writing section. Anticipated test dates:

August 23, 2025	November 8, 2025	March 14, 2026	June 6, 2026
October 4, 2025	December 6, 2025	May 2, 2026	

Community College Requirements

Private Colleges and Universities

**NCAA Athletic Eligibility** 

Testing Dates for 2025-26 School Year **Testing Dates for** 

(Continued)

2025-26 School Year

# ACT

The American College Testing, or ACT, college readiness assessment is a composite, standardized test in four skill areas: English, mathematics, reading, and science. The optional writing test has students plan and write a short essay. Anticipated test dates:

September 6, 2025 October 25, 2025 December 6, 2025 February 6, 2026 April 10, 2026 June 6, 2026 July 11, 2026

· Individual and small group planning

Counseling websites

· Family nights

Students should investigate when SAT/ACT scores are expected at the colleges they are interested in. They should backward-map to the test date to ensure they will meet timelines. Additionally, please be aware that many colleges have adjusted SAT/ACT requirements over the past few years. Be sure to reference the most up to date information on the college website.

# **Course Selection/Planning**

Students are advised to plan ahead and select carefully. A significant amount of time and effort is devoted to giving students their first-choice electives (or alternates). The offering and staffing of courses will be dependent on the requests made during spring course selection. Students are expected to take and complete the classes they have requested.

Students will receive guidance on course planning throughout the school year, including:

- Classroom guidance
- Four-year course planning (Xello)
- Course Selection presentations
- Career & College Pathways

# **Things to Remember**

- *PLEASE CHOOSE CAREFULLY*. Your schedule is created based on your course requests and course availability.
- If you are participating in an OSAA activity, you need to be enrolled in a minimum of five credited classes in both the current semester and prior semester.
- Students who do not complete their course selection sheet will have classes chosen for them based on class availability.
- It is the expectation of the State of Oregon and our district that students engage in a full and complete educational experience. New legislation has required our district to ensure most students are taking a full day of classes each day. Students should work with their counselor for work experience, internships, and other off campus experiences as applicable.

# **Schedule Correction Procedures**

Schedule corrections will only be considered for the following reasons:

- Student needs to take a required course for graduation
- Student was placed in an inappropriate course/skill level
- Student has a "see counselor" note or incomplete schedule
- Student was not placed in an elective that is part of their Career and College Pathway

### Schedule corrections will not be made for:

Lunch requests Teacher requests

- Dropping AP/IB courses
- Changing unwanted electivesEarly release/late arrival

- Peer requests
- · Changing unwanted core class(es), such as a fourth year of math or science
- Athletics/Activities

It is possible that a student may have received electives for which he/she did not request. This is due to limited space in classes or a schedule conflict making it impossible to fill a schedule hole with a requested class.

# **Course Corrections and Changes**

The master schedule, including how many sections of each course is offered, is based on the course requests made during the spring of the previous school year. Due to this,

# **Counseling Procedures**

See also the Career and College Pathways section, starting on page 21, to view other counseling activities performed throughout the year.

# **Counseling Procedures**

(Continued)

# 9th Grade Academy

(Liberty High School)

schedule and course corrections are difficult to make because often there are not available spaces in the course. Because students and families are able to view course selection choices through Synergy StudentVue and ParentVue, and request changes in the spring, course corrections will rarely be considered in the fall once school has begun.

Ultimately, all course corrections are subject to review and approval by an administrator. After three weeks, course changes could result in a Withdraw Fail (WF) grade on the student's transcript. A WF will calculate into the cumulative GPA as an F.

### **Accessing Course Options Beyond Home High School**

We believe that the coursework within our HSD comprehensive high schools offers a robust variety of opportunities for our students to meet Oregon Diploma requirements. There may be instances in which a student or their family believe coursework outside of their home school may be appropriate, for example meeting a student's academic rate and level. Hillsboro School District is not always able to meet these requests from students and families. Please connect with your counselor if you have questions.

### **Expanded Options Program**

Hillsboro School District offers the Expanded Options Program (EOP) to 11th and 12th grade students who have utilized all options of course opportunities provided by their local school. In partnership with Portland Community College, students have access to college level courses in order to further their educational experience. If students are interested in learning more about EOP, they should contact their school counselor no later than course selection for the following school year.

### **Early Graduation**

A student who wishes to graduate from high school in less time than the ordinary grade 9-12 sequence may request permission to complete graduation requirements on an altered schedule. This should take place during the 10th grade course selection process. The student and their parents/guardians will consult with high school guidance personnel to develop a graduation plan. Their intention to accomplish this plan will be stated in writing to the Superintendent or designee. More information about early graduation can be found in Hillsboro School District School Board Policy IKF.

### **Ninth Grade Academy**

The Liberty Ninth Grade Academy opened in fall 2007 with the goal of making a smooth transition from middle to high school for ninth-grade students. By providing a smaller, more efficient learning environment, we are able to present students with an intensive academic experience.

### **Instructional Program**

Ninth grade students are required to complete the curriculum prescribed by the Hillsboro School District, comprising language arts, mathematics, science, social science, physical education, and one or two electives.

### **School Counseling Program Services**

The ninth grade counselor and the ninth grade AVID counselor are dedicated to assisting students in the areas of personal and social skills, career pathways, academic development,

# **Dual Language Program**

(Century High School, Glencoe High School, Hillsboro High School, Liberty High School) and community involvement. Parents will be informed of school counseling activities through the school newsletter and website.

# **Dual Language Program**

All four of our comprehensive high schools offer dual language learning opportunities in English and Spanish. As Hillsboro School District's dual language program has grown from elementary school to middle school to high school, course offerings have been designed to best meet the needs of our students.

Hillsboro High School offers a specialized four-year course sequence in dual language completing the PK-12 program and focusing on developing fluency and Spanish language interdisciplinary studies. Century High School, Glencoe High School, and Liberty High School began their Dual Language program expansion in 2020 and 2021 offering a specialized four-year course sequence completing the PK-12 program for their feeders.

All four schools are committed to offer at least two core courses in Spanish based on staffing. One of these courses is Spanish Language Arts aligned to the Language Arts Oregon State Standards. These courses look very much like an English language arts class, but are taught in Spanish using authentic Spanish literature. Additionally, this course offers students the opportunity to earn Language Arts Credits or World Language Credits.

In addition to aligning to state standards, all courses center themes from the Three Pillars of Dual Language Program: Bilingualism and Biliteracy, Academic Achievement and Socio-Cultural Competence.

Native Spanish students, Heritage Spanish students and/or students who were previously in a dual language program who wish to enter the program at the high school level are encouraged to meet with their counselor to determine if they meet the entry criteria.

# **Dual Language Program Goals**

The goals of the program are:

- Develop high levels of proficiency in Spanish and English
- Develop bilingualism, biliteracy and biculturalism
- · Develop positive cross-culture attitudes and behaviors
- · Provide authentic opportunities for service in Spanish-speaking communities in the region
- Provide students with the cognitive skills required to excel in high school, college and the workplace.

Students enrolled in the Dual Language Program at Century High School, Glencoe High School, Hillsboro High School, and Liberty High School are eligible for the State Seal of Biliteracy and Multileracy. In order to earn the State Seal, students need to demonstrate a score of at least high intermediate levels (6 or higher on the ACTFL rubric) in reading, writing, speaking, and listening in two or more languages. Students may demonstrate this through a state approved assessment (AP, IB, STAMP, WorldSpeak, etc.) or via a student work portfolio. Please note that the State Seal of Biliteracy and Multileracy available to any district student who meets the state requirements.

Students who finish a four-year sequence of the Dual Language Program instruction are eligible for HSD Bilingual recognition at graduation if they score intermediate proficiency in at least two domains.

K-8: 7201 SE Kinnaman St Hillsboro, OR 97123

9-12: 440 SE Oak St Hillsboro, OR 97123

# **Empowering Learning in the Virtual World**

At Hillsboro Online Academy, we are committed to redefining education in the digital age. Our mission is to provide a flexible and innovative K-12 hybrid-online program that nurtures a love for learning and prepares students for success in a dynamic, virtual world.

### **Our Story**

We were established in 2012 as the first online public school in Oregon, with a vision to embrace the potential of online education to meet the ever-changing diverse learning needs of students. Hillsboro Online Academy has been a pioneer in delivering high-quality virtual and hybrid learning experiences.

# **Educational Philosophy**

At the core of our academy is a dedication to fostering a positive and engaging learning environment. We believe in the power of personalized education, where students can thrive academically and develop essential skills for the future. We are committed to giving our students a safe learning environment with more access to 1:1 teacher support, while still offering social opportunities online and in-person.

# **Hybrid Learning Model**

Recognizing the importance of a well-rounded education, our hybrid learning model seamlessly blends virtual and in-person elements. This unique approach allows students to benefit from the flexibility of online learning while enjoying the advantages of face-to-face interactions. Our K-6 students have the opportunity to come in person on Mondays and Wednesdays for STEM, Art, Music, PE and classroom lessons. Our 9-12 students have multiple opportunities throughout the week to come in person and work 1:1 with their core teachers during drop-in hours. At each grade level we offer various clubs and "Social" times online and in person throughout the month that include fun, food and games.

# **Student Support**

Personalized Support Services: We understand that each student is unique. Our program provides a Wellness Support Counselor, two Academic Counselors, Graduation Coach, Hispanic Family Liaison, Special Education case managers and an ELD teacher. We strive to ensure that every student receives the attention they need to succeed.

### **Full-time or Concurrent Enrollment**

Hillsboro School District students may enroll in Hillsboro Online Academy as a fulltime student, or as a concurrent student while enrolled in a comprehensive district high school. Full-time HOA high school students complete all State of Oregon graduation requirements and, upon completion, will be awarded a Hillsboro School District diploma. Prospective students and their parents/guardians can visit https://hillonline.hsd.k12. or.us/about-us/how-to-enroll-at-hoa for information on our enrollment process.

Hillsboro Online Academy is accredited through Cognia, and core academic courses are NCAAapproved.

# **Oak Street Campus**

hsd.k12.or.us/oakstreet 440 SE Oak Street Hillsboro, OR 97123

# The Oak Street Campus supports HSD students through age 21 to:

Oak Street Campus is home to students from all of our HSD high schools who seek a smaller and more individualized educational environment. At OSC we want students to explore careers and options to find their own path to success. OSC provides programming that is housed within The David Hill and Pathways Center buildings that is accessible to district students. OSC provides a variety of experiences, services, and supports through a continuity of care model.

Oak Street Campus provides option programs and opportunities for Hillsboro School District students. Students can enroll in specific programs:

- David Hill Building Hillsboro Big Picture, 9th Grade Interval, Teen Parent Program.
- Pathways Center Early College, GED, Career Action Lab, Diploma Completion for 12+
- Also on OSC, Stan Miller Community Center, and Hillsboro Community Garden

Our goal is that through intentional collaboration with both HSD and out of district schools and programs we will ensure students transitions are free of systemic barriers with multiple access points to achieve their goals. Please reach out to your school counselor to discuss alternative options in Hillsboro.

# **Hillsboro Early College**

The Hillsboro School District Early College program allows students to begin earning college credits as a full-time student at Portland Community College while still in high school. College credits earned apply to both the high school diploma and college studies. Students will have the opportunity to take 12 credits per term (fall, winter, spring) during the school year in which they are enrolled in HSD Early College. Students who enroll at the start of their 11th grade year will have the opportunity to participate in up to 6 terms of HSD Early College, while students entering at the start of 12th grade may participate in up to 3 terms. Students accepted to HSD Early College will not be able to enroll in courses at their home high school, however they *may* be able to participate in OSAA activities and athletics.

Selection Criteria:

Hillsboro School District seeks to enroll a diverse and representative group of students into the Early College program. Criteria for selection includes:

- Incoming high school 11th & 12th graders who are, or are mostly, on track for timely graduation
- Students who are ready to attend PCC full time for the remainder of high school measured by college readiness survey and student interview.
- Students whose attendance, academic performance, or other circumstances indicate lack of engagement or interest in their home high school as measured by school records.
- Students who may be considering alternative graduation options but are academically capable of college coursework as measured by PCC placement exams and high school coursework.
- Students whose individual circumstances may create barriers to college matriculation after high school as reported in application essay and interview process.
- Students who are motivated toward a specific career pathway and would benefit from attending PCC courses in this career area as reported in application essay and interview process.

\*\*\*HSD Early College Seeks to admit a student cohort that is representative of the demographics of the Hillsboro School District. Every effort will be made to ensure a diverse and representative application pool and HSD Early College may conduct additional outreach if the applicant pool does not meet this goal.

HSD Early College Admission Qualifications:

- Applicant resides in the Hillsboro School District catchment area
- Acceptable high school grade/credit attainment to date: 14 high school credits by the end of 10th grade 18 credits by the end of 11th grade
- Completion of PCC College Placement Testing, with scores placing the Early College candidate into Writing 115 or above, Reading 115 or above, and Math 60 or above.

Selection Process:

1.) Completes online PCC Application

2.) Complete PCC Math Placement Test

- 3.) Complete Online HSD Early College Application
- 4.) Selection process will follow

5.) If necessary, the District level team may choose to conduct additional outreach and selection in order to ensure a representative and diverse student cohort

\*\*Students who elect to take dual credit should consider how the course will align with their post-secondary goals. Students and parents/guardians should talk to their high school counselor about the benefits and potential costs of enrolling in college level courses.

(Please see course catalogue section on Dual Credit for more information and considerations)

# **Senior Project and Portfolio** Each Hillsboro School District high school senior is required to complete a senior project in order to graduate. The requirement for these projects is set by the District and the Oregon Department of Education. Students completing a Career and College Pathway will have the opportunity to complete their senior project requirements through the advanced-level capstone course. Capstone courses are identified in the capstone column of the Career and College Pathway will complete their senior project through a Senior Seminar course (see page 103 for course information).

Senior-level Career and College Pathway courses and Senior Seminar provide students the opportunity and support to design and implement their senior project. The project will represent the interests, knowledge, and skills they have gained in high school and their visions for their future education and work.

Senior portfolios include:

- Educational plan and profile
- Evidence of extended application (requires a research or reflection paper)
- Project documents and evaluations
- Exhibition documents
- 15-hour minimum career related learning experience\*
- \* Cord eligibility may require additional hours, please see School-to-Career Specialist.

# College Level Opportunities

Each Hillsboro School District high school provides opportunities for students to access college level learning opportunities through either Advanced Placement courses, International Baccalaureate courses, or dual credit opportunities in partnership with area colleges and universities. These programs and courses allow students to experience rigorous learning opportunities at the college level within the supportive environment of their high school, reducing gaps in college access and academic achievement. This can help students with a smoother transition into post-secondary schooling by enabling them to earn college credit and prepare for college level expectations. These college level opportunities can often result in college credit that can be transferred towards the post-secondary degree or certificate.

Additional information and resources about college level opportunities and transferability can be found at the Higher Education Coordinating Commissions website: <u>https://www.oregon.gov/highered/policy-collaboration/Pages/college-credit-high-school.aspx.</u>

Read on about AP, IB, and dual credit offerings in HSD.

# **Advanced Placement**

(Century, Glencoe, and Liberty High Schools)

Advanced Placement (AP) is a program created by the College Board, which offers college-level studies and rigorous exams to high school students. AP courses are offered at Century, Glencoe and Liberty High Schools, and subject to enrollment and staffing; however, not every course is available at each high school—Students who take the AP exam may earn credit and/or advanced placement for college. Please refer to the course descriptions in this catalog to see whether an AP course is right for you and your post-high school plans. Students are responsible for verifying college credit eligibility with each post-secondary institution based on their post-secondary plan. AP courses are offered at high schools as follows:

Course	Century	Glencoe	НОА	Liberty
AP Art History		Y		
AP Biology	Y	Y	Y	Y
AP Calculus AB	Y	Y		Y
AP Calculus BC		Y		Y
AP Chemistry	Y			Y
AP Computer Science A				Y
AP Computer Science Principles	Y			Y
AP Economics	Y			
AP English Language & Composition	Y	Y		Y
AP English Literature & Composition	Y	Y		Y
AP Environmental Science		Y		
AP European History	Y			
AP Human Geography	Y	Y		Y
AP Music Theory	Y	Y		Y
AP Physics 1	Y			Y
AP Physics C		Y		Y
AP Psychology	Y	Y	Y	Y
AP Spanish Language	Y	Y		Y
AP Spanish Literature	Y			
AP Statistics	Y	Y		Y
AP Studio Art	Y	Y		Y
AP U.S. Government	Y	Y		Y
AP U.S. History	Y	Y		Y
AP World History	Y	Y		

# International Baccalaureate Program

(Hillsboro High School)

The International Baccalaureate (IB) Diploma Programme is offered only at Hillsboro High School. IB is an internationally-recognized program which offers students an opportunity to experience a rigorous, interdisciplinary course of study in grades 11-12. This program is recognized as the finest college-preparatory program offered to students.

The common philosophy of IB World Schools is to deliver a rigorous educational experience that helps students develop the skills necessary to excel in an increasingly competitive, global society. The IB Programme places the student at the center of the educational experience and seeks to develop thoughtful students who strive to be:

Inquirers Open-minded Caring Knowledgeable Thinkers Risk-takers Balanced Communicators Principled Reflective

### International Baccalaureate Diploma Programme

All IB courses are open to all Hilhi students, whether or not students choose to pursue the IB Diploma. If a student chooses to pursue the IB Diploma or the Honors CCP, please see the IB Coordinator and appropriate counselor to ensure that the requirements are known and understood. Students may choose to complete the IB Diploma or individual courses. The IB courses offered at Hilhi are represented in the graphic on page 10.

- **HL** = higher level two-year course
- **SL** = standard level one-year course
- **SL\*** = standard level two-year course

CURRICULUM: The IB Diploma requires students to complete advanced, college-level courses in six curriculum areas, including English language arts, language acquisition, social studies, mathematics, experimental science, and arts/electives. At least three, but not more than four, courses are taken at Higher Level (HL) and the others at Standard Level (SL). In addition, students complete the Theory of Knowledge (TOK) course. EXTENDED ESSAY: IB Diploma students write an approximately 4,000-word essay on a topic of interest. The completion of this essay is supported by the IB Coordinator and staff advisors.

CREATIVITY, ACTIVITY & SERVICE (CAS): IB Diploma and Honors CCP students complete service-learning experiences over the course of their junior and senior years, culminating in a four - six week CAS Project.

DIPLOMA PROGRAM: The International Baccalaureate Diploma Program (IB DP) is a rigorous pre-university course of study meets the needs of highly motivated students. It is open to any interested student on campus. Designed as a comprehensive twoyear curriculum, the Diploma Program challenges students to develop strong reading, writing, and analytical skills across the curriculum that will serve them well at the university level. This program also prepares students for the world after high school by emphasizing curriculum that is taught globally. Students who complete IB courses may choose to take examinations which may lead to college credit.

Students at Hilhi can participate in IB by taking one or more IB courses, or by choosing one of the following options :

IB DIPLOMA: Students will take and test in six IB DP courses (three SL and three HL) across content areas, complete TOK 1 and 2, the Extended Essay, and CAS.

HONORS CCP (meets senior project requirement and earns honor cord at graduation): Students will take a minimum of three IB courses, complete Theory of Knowledge (TOK) 1 and 2, and fulfill CAS requirements.

# International Baccalaureate Program (Continued)

(Hillsboro High School)

# **Dual Credit Opportunities**

Dual credit is the opportunity for high school students to earn college credit while still in high school. A qualified instructor provides rigorous content aligned with college coursework through regional post-secondary institutions and partnerships such as Central Oregon Community College, Oregon Institute of Technology, Portland Community College, Portland State University, Western Oregon University, and Willamette Promise. Upon completion of the course, students can earn both high school credit as well as college credit that is reflected in a transcript from the postsecondary institution.

Because of the nature of post-secondary partnership agreements, qualifications of instructors, and staffing, in some circumstances we might not be able to offer dual credit aligned with high school courses. It should be known that when students enroll in a high school dual credit-articulated course, it is not guaranteed they will receive college credit.

Current dual credit opportunities are shown on the following pages. Please contact your instructor for dual credit requirements for each course.

Students who elect to take dual credit should consider how the course will align with their post-secondary goals. Students should look for credits that fit into the degree or certificate pathways that interest them. Unsatisfactory and/or failing grades can have a negative impact on a student's financial aid opportunities and potential OSAA eligibility. Additionally, credits earned in high school count toward the 90 credit maximum for the Oregon Promise grant. Students enrolled in dual credit are protected by The Family Educational Rights and Privacy Act (FERPA). Due to this, parents/guardians will not have access to student specific information including enrollment, grading, and transcript information. Evidence of college credit will not be reflected on the high school transcript. Records of college credits earned may be obtained by contacting the registrar's office at the individual post-secondary institution. Students and parents/guardians should talk about the benefits and potential costs of enrolling in college level courses.

# **HILLSBORO SCHOOL DISTRICT**

# Dual Credit Courses

The number of credits earned and institution may change. Associated courses and credits are based on 2024-25 offerings.

# Aware, Eligible and Prepared

Graduation may seem far away, but it is never too early to get on the right track. Through the Career and College Pathways (CCP) program, Hillsboro School District is committed to ensuring all students are aware of their career and college options, eligible for those options, and prepared for success in their post-secondary choices.

**Becoming aware** involves early exposure to careers and colleges, interest mapping, guidance lessons, and the completion of national standardized tests. In addition, students need to understand high school graduation requirements and the requirements for entering certain vocations, two-year community colleges, four-year public and private colleges, and even the military.

**Becoming eligible** involves students completing the necessary steps to engage in the post-secondary option of their choosing. This includes meeting the requirements of college entrance, developing a plan that details the steps needed to reach their future goal, planning for how to pay college tuition or support themselves with gainful employment, and applying to at least one post-secondary institution or job consistent with application requirements and deadlines.

**Becoming prepared** involves not only learning academic subjects, but also the development of "habits of mind" that lead to success in post-secondary learning or employment. Students will need to have foundational understanding in a wide array of disciplines, study and work habits necessary for school and workplace performance,

and a pattern of life skills that will ensure readiness for independent living.

# **Career Development Credit**

The School-to-Career Specialist grants the 0.5 credit in career development required for graduation. This is not a course students take, but rather a list of activities students complete through Xello, career-related learning experiences, and counselor guidance. Xello is a web-based resource that encourages and supports post-high school career and college planning. The annual Xello and counselor guidance activities include:

# 9th Grade Year:

Career and College Xello Lesson

**10th Grade Year:** Career and College Xello Lesson

**11th Grade Year:** Career-Related Learning Experience Resume

**12th Grade Year:** Senior Exit Survey

All HSD high schools are members of the Western Washington County School-to-Career Consortium, which is operated through the Hillsboro Chamber of Commerce. Students have access to career-related learning experiences (CRLE) with businesses in the tri-county

area. Career-related learning experiences provide opportunities for students to connect classroom learning with life experiences in the community, workplace, or school. School-to-career opportunities are coordinated through the career and college centers at each of the high schools.

# **CCP Coursework**

# What is a Career and College Pathway?

High school is an important part of a student's preparation for life, a time of transitions to post-secondary education, careers and adult responsibilities. Career and College Pathways can help students to clarify their career and college goals and to select courses that match their goals.

Related level courses are suggested additional courses within the same CCP or a related CCP. Students interested in exploring beyond the required courses are encouraged to consider courses in the related column. Required classes provide a fundamental understanding of each area of study. Capstone courses provide an opportunity for students to extend their knowledge and pursue their individual interests. Students will complete a senior project in a capstone course.

CCP career learning areas available are:

- · Agriculture, Food and Natural Resource Systems
- Arts, Information and Communication
- Business and Management
- Health Sciences
- Human Resources
- Industrial and Engineering Systems

# Why enroll in a CCP?

- Each student will be able to:
- Pursue personal, academic and career interests
- Establish post-high school goals
- · Actively engage in educational planning and take responsibility for learning
- Apply high-level academic and career-related knowledge and skills in relevant and meaningful learning experiences
- Receive support from school, parents and the community.

### How will I earn a CCP Cord at graduation?

To earn a CCP graduation cord, students will need to:

- Pass required foundation and advanced application courses with a B or better
- Complete program-specific requirements which may include service learning and/or an internship
- Complete a senior project/portfolio as required in the CCP, through the capstone course.

Information about Career and College Pathways, including information about CCP shuttle accessible pathways, work-based learning opportunities, course selection resources, and more is available on the District website: www.hsd.k12.or.us/ccp.

HSD provides transportation to students across the comprehensive high schools for a selection of CCPs. For the latest information on programs available through the CCP Shuttle, please visit https://www.hsd.k12.or.us//programs/career-college-pathways/ ccp-shuttle. Students may request a CCP Shuttle program and the associated courses through their building's course selection process. The CLA pathways chart indicates programs currently served by the CCP shuttle with a bus icon.

One-Page flyers are available for every pathway. To access the full library of career and college pathways, visit **www.hsd.k12.or.us/ccponepagers**

# Course Descriptions

Courses are divided into required (for graduation) and elective types. Be sure to read the course descriptions and the prerequisites needed. Courses are offered contingent upon adequate funding, staffing and sufficient enrollment. Consult your counselor to assist you with appropriate placement and recommendations for courses.

The Advanced Manufacturing Career Cluster blends innovative technologies and practices to enhance design and production. It covers areas such as engineering, research and development, automation and artificial intelligence, equipment maintenance, safety protocols, and quality control. This Cluster aims to increase efficiency, reduce waste, ensure safety, and produce high-quality goods, driving the industry's growth and adapting to modern demands.

# ENGINEERING & ELECTRONICS

### PRINCIPLES OF ENGINEERING Grades: 10-11 (GHS) 10-12 (LHS)

Prerequisite: (LHS) Geometry 1.0 credit This course helps students understand field of engineering/engineering the technology. Exploring various technology systems and manufacturing processes help students learn how engineers and technicians use math, science, and technology in an engineering problemsolving process to benefit people. The course also includes concerns about social and political consequences of technological change. This course is part of the Project Lead the Way engineering program at Glencoe.

# INTRODUCTION TO DIGITAL TECHNOLOGIES Grades: 9-10 (CHS)

Prerequisite: None 0.5 credit This course introduces students to all the opportunities offered within the digital technologies department. Topics covered include laser cutting, 3-D printing, programming, and computer-aided drafting and design, and web design.

### DIGITAL ELECTRONICS 1 Grades: 10-12 (GHS, HHS) Prerequisite:Electronic Technology

0.5 credit

How does a computer chip do what it does? In this course, students will design and construct digital logic circuits like those used in computer and graphics CPU and GPU chips. Students will use binary numbers and logic circuits, such as AND/ OR/NOT gates, to build circuits that solve real world problems. Students will read and draw logic schematics, optimize circuits, simulate circuits online, construct physical circuits on breadboards, and learn to debug malfunctioning circuits. Students will learn to use a variety of electronic tools to assist in their design testing.

\*Glencoe engineering students will follow the curriculum provided by Project Lead the Way. Hilhi Electronics & Engineering Pathway students will follow PCC curriculum.

# **DIGITAL ELECTRONICS 2**

Grades: 11-12 (GHS, HHS)

**Prerequisite: Electronic Technology 0.5 credit** How does your microwave cook your popcorn? How does the elevator remember what floors to stop on? How does the vending machine remember how much money you put in? How does a robotic assembly line know how to build a car? In this projectbased course, students will apply their basic logic design skills to create larger digital control systems using a variety of industry design tools and techniques. Students may draw schematic state machines, or synthesize hardware from computer code, or program robotic controllers, to create a new digital electronic device.

## ELECTRONIC TECHNOLOGY 1 Grades: 9-12 (HHS) 9-11 (GHS) 10-12 (LHS) Prerequisite: None 0.5 credit

This course explores direct current electronics and electricity. The use of electronic test equipment, simple circuit building techniques, and analysis are explored. Students will learn to solder electrical components. Students will perform hands-on problem solving activities and will explore career options in electronics and engineering.

# ELECTRONIC TECHNOLOGY 2 Grades: 9-12 (HHS) 11-12 (GHS) Prerequisite: Electronic Technology 1

0.5 credit

This course explores alternating current circuits, and provides a deeper study of direct current electronics, circuit analysis, use of electronic test equipment, and circuit building techniques. Soldering and simple circuit assembly techniques are explored. Students who wish to pursue a career in engineering or go into a technical field should take this course.

### ROBOTICS 1 Grades: 9-12 (GHS, HHS, LHS) Prerequisite: None

Prerequisite: None 0.5 credit Students will solve a variety of engineering challenges, working with mechanical and sensor components to design, build, and test robotic solutions. Various robotic challenges are presented. Students solve problems individually and in teams. Robot construction and programming may explore engineering concepts, such as: design reliability, external sensor inputs, conditional branch decisions, procedural programming, and effective output. There will be a heavy emphasis on problemsolving and engineering design cycle.

# ROBOTICS 2 Grades: 9-12 (GHS, HHS, LHS) Prerequisite: Robotics 1

### 0.5 credit

This course expands students' understanding of robotics by improving programming and mechanical skills. More activities and complex tasks requiring critical problemsolving are provided. Students learn how to build robots using a variety of robotics building systems. Students will program these robots using several programming language systems. Students participate in or help with a robotics contest.

### ENGINEERING SYSTEMS LAB Grades: 11 (CHS) Prerequisite: Drafting 2

1.0 credit

A skills based course providing students with the opportunity to learn and apply basic components of engineering in an industrial setting. Computer-based exploration of topics including: mechanics, electronics. pneumatics, hydraulics, CNC machining, quality control, material handling, and programmable logic controls.

### **ENGINEERING PREP**

Grades: 12 (CHS, HHS) Prerequisite: None

**0.5 credit (HHS) 1.0 credit (CHS)** Engineering Prep introduces careers in various areas of engineering coordinated with coursework that may include electronics, microelectronics, and civil engineering topics. Students are expected to design and complete required projects, and to participate in a variety of design challenge activities that may lead to competitions.

# ENGINEERING DESIGN & DEVELOPMENT

Grade: 12 (GHS)

### Prerequisite: 2.0 credits in Engineering Pathway 1.0 credit

This is an engineering research course in which students work in teams to research, design and construct a solution to an open-ended engineering problem. Students apply principles developed in preceding engineering courses and are guided by a community mentor. They must present progress reports, submit a final written report and defend their solutions to a panel of outside reviewers at the end of the school year. This course is part of the Project Lead the Way engineering program at Glencoe.

# **RESEARCH and DEVELOPMENT**

### Grade: 12 (CHS, GHS, HHS, LHS) Prerequisite: None

This course provides structured guidance for students completing their senior exhibition in a physical science, engineering, or technology. The curriculum is designed for scientific inquiry and is made flexible enough to appeal to a variety of student interests. Students will learn advanced research skills necessary to prepare their senior project in scientific research or technological design. The course combines hands-on activities, demonstrations, group challenge problems, and a long-term student project.

# DRAFTING

### **DRAFTING 1**

Grades: 9-12 (GHS, HHS) 0.5-1.0 credit (GHS) Prerequisite: None 0.5 credit (HHS) Drafting 1 is an introductory course in Computer Aided Design (CAD). Students will learn the basic concepts of mechanical drafting, and will learn to use industrystandard CAD software to create engineering drawings of many types. Students will learn how to use industry equipment, such as printers, plotters, vinyl cutters, heat press, and laser cutters, and will use their own design drawings to manufacture their projects. At the conclusion of the course, each student will have a portfolio of their drafting assignments. \*PCC credit offered at GHS

# DRAFTING 2 Grades: 9-12 (HHS) Prerequisite: Drafting 1 0.5 (HHS)

Drafting 2 is an intermediate course in Computer Aided Design (CAD). Students will expand their CAD experience by using industrystandard CAD software to design, develop, and manufacture of 3D models. Students will learn how to prepare 3D models for 3D printing, using 3D slicing software. Students may also learn to use industry CNC lathe/mill machines. Students will tackle complex design challenges to solve real-world design problems using their CAD and manufacturing skills with available lab equipment. At the conclusion of the course, each student will have a portfolio of their drafting assignments.

# DRAFTING 3 Grades: 10-12 (HHS)

0.5 credit

**Prerequisite: Drafting 2 0.5 credit** Drafting 3 is an advanced course in Computer Aided Design (CAD). Students will expand and refine their 2D and 3D CAD modeling skills while using industry standard CAD software. Students will design solutions to challenging real-world design problems. Projects will blend use of manufacturing techniques and equipment and will require special manufacturing considerations. At the conclusion of the course, each student will have a portfolio of his/her drafting assignments.

### **DRAFTING TECHNOLOGY 1**

Grades: 9-12 (CHS) 9-12 (LHS)

Prerequisite: None

In this course, students will learn how to make various objects using one or more of the following methods: geometric constructions, multiview drawings, sectioning, isometric, oblique, perspective and developments. How to dimension a drawing and how to letter properly will be included. Shop processes and occupational information will be included in this class.

### DRAFTING TECHNOLOGY 2 Grades: 10-12 (CHS, LHS) 1.0 credit Prereguisite: Drafting Technology 1

Students desiring to follow a career in engineering or drafting should register for this course. Entry-level skills will be obtained for employment in the field. The course of instruction will include advanced multi-view projections, sectioning, pictorial drawings and developments, dimensioning, intersections, gears, welding drawings and symbols, auxiliary views, threads and fastenings, assembly drawings, and lettering

# **METAL PROCESSING**

### METAL PROCESSING 1 Grades: 9-12 (GHS)

Prerequisite: None

Bus transportation is available from other high schools in grades 10-12.

This course provides students with a foundational understanding of essential machine tool operations, including lathes, mills, and drill presses. Students will gain hands-on experience in safe, accurate

operation and setup of tools, with a primary focus on safety and best practices. Coursework emphasizes basic welding techniques, specifically Shielded Metal Arc Welding (SMAW), as well as an introduction to CNC processes. Students will also engage in milling, lathe work, and layout/sheet metal projects, focusing on smaller, skill-building tasks that reinforce precise measurement and attention to detail.

This program introduces students to the fundamentals of metalworking, preparing them for advanced study or practical application in machine and fabrication shops. *WLD 111 Shielded Metal Arc Welding (PCC)* 

### METAL PROCESSING 2 Grades: 10-12 (GHS)

1.0 credit

0.5 credit

Prerequisite: Machine Welding 1 or Metal Processing 1 1.0 credit

Bus transportation is available from other high schools.

This advanced course builds on the foundational skills from Metal Processing 1, equipping students with an in-depth understanding of CNC operations and advanced machine tool applications. Students will focus on practical skills in wire feed welding, machining, and fabrication techniques. Larger-scale projects, such as designing and constructing trailers, allow students to apply their skills in real-world scenarios, enhancing both precision and problem-solving abilities.

This course offers an opportunity to earn dual credit through Portland Community College's WLD 111 (Shielded Metal Arc Welding), enabling students to begin their college-level welding education. With a focus on preparing students for careers in manufacturing, machining, and fabrication, Metal Processing 2 combines technical skills with hands-on project experience.

# **METAL PROCESSING 3**

#### Grades: 11-12 (GHS) Prerequisite: Machine Welding 2/

Metal Processing 2 1.0 credit Bus transportation is available from other high schools.

As the capstone course in the Metal Processing pathway, Metal Processing 3 enables students to bring together the knowledge and skills developed in Metal Processing 1 and 2. This course focuses on the entire production cycle of metal projects—from concept to final product—emphasizing real-world applications in design, planning, material selection, pricing, and fabrication.

and project experi

Students will work collaboratively to research and select a product, create a prototype, and ultimately prepare it for sale. This handson experience allows students to refine their machining and welding skills while learning valuable entrepreneurial and project management skills. By the end of the course, students will understand how to turn an idea into a marketable product, gaining practical insight into the manufacturing industry.

The Agriculture Career Cluster concentrates on scientific advancement of agriscience, cultivation, processing, and distribution of agricultural products, employing advanced technologies and sustainable practices to optimize global food systems. This Cluster also supports other plant- and animal-based industries including regenerative agriculture, sustainable logging, and fisheries. This Cluster has meaningful connections with the Energy and Natural Resources Cluster, highlighting a symbiotic relationship that emphasizes stewardship and resilient communities.

# AGRICULTURE

#### INTRODUCTION TO HORTICULTURE TECHNOLOGY & DESIGN Grades: 9-12 (LHS)

#### Prerequisite: None 0.5 credit

This class is designed to provide the beginning student with basic knowledge of plant anatomy, physiology and classification. The effects of the environment on plant growth and development are explored. Material is presented by lecture, visual aids and hands-on laboratory experiences.

#### INTRODUCTION TO AGRICULTURE Grades: 9-12 (HHS, HOA) Prereguisite: None 0.5 credit

This is an introductory course designed to expose students to different facets of The National Future Farmers of America (FFA) Organization and the agriculture industry. Students will gain know-ledge in animal science, plant science, leadership skills, public speaking, FFA opportunities, and food science. Instruction and student learning will be through hands-on experiences, inquiry-based activities, scientific laboratory experiments, guest speakers, and FFA career development events.

#### AGRISCIENCE 1 Grades: 9-12 (HOA) Prereguisite: None

1.0 credit

This course explores how agriscientists play key roles in improving agriculture, food production, and the conservation of natural resources along with the technologies used to keep the field thriving.

#### **AGRISCIENCE 2**

#### Grades: 12 (HOA) Prereguisite: Agriscience 1 0.5 credit

Science and technology are revolutionizing many areas of our lives – and agriculture is no exception! Delve deeper into important agri-areas such as soil science and weed management; explore research on plant and animal diseases as well as the insects and other pests that can impact agricultural enterprises and natural resources.

#### INTRODUCTION TO FORESTRY & NATURAL RESOURCES

Grades: 9-12 (HOA)

#### Prerequisite: None

0.5 credit

Forests and other natural resources play an important role in our world, from providing lumber and paper products to providing habitat for birds and animals. In the Introduction to Forestry and Natural Resources course, you'll learn more about forest ecology, management, and conservation. You'll explore topics such as environmental policy, land use, water resources, and wildlife management. Finally, you'll learn more about forestry- related careers and important issues facing forestry professionals today.

#### SUSTAINABLE AGRICULTURE 1 Grades: 10-12 (LHS)

Prerequisite: Introduction to Horticulture or Discovering Natural Resources 1.0 credit This class is focused on learning essential gardening and farming methods that do not harm the soil, air, or water for future generations. Students will plan, plant, compost, save seeds, use garden tools/ equipment and develop a variety of growing techniques in the school garden. In addition, students will investigate factors that affect plant health, growth, and reproduction by designing and conducting experiments in the garden. Students will use prior knowledge, new know-ledge, and experience in the class to think critically about how our current food system operates to develop real solutions to change social and environmental problems.

#### SUSTAINABLE AGRICULTURE 2 Grades: 11-12 (LHS) Prerequisite: Sustainable Agriculture 1 1.0 credit

This class is the capstone course for the sustainable agriculture program of study. Students will complete their senior project and manage the Falcon Farm. Students will demonstrate their knowledge of the three main goals of sustainable agriculture: environmental health, economic profitability, and social and economic equity.

# **VETERINARY SCIENCE**

# INTRODUCTION TO VETERINARY SCIENCE

Grade: 9-12 (HHS, HOA)

Prerequisite: None

0.5 credit

Bus transportation is available from other high schools.

This course is an introductory course designed to explore careers working with animals, as well as covering scientific classification and the history of animals. Units covered include personal and workplace safety (including animal behavior & handling), careers working with animals, ethics and welfare, scientific classification and the animal cell, history of animals, breeds of animals, and industry terminology.

#### **ANIMAL NUTRITION**

#### Grade: 9-12 (HHS) Prerequisite: Introduction to Veterinary Science 0.5 credit

Bus transportation is available from other high schools.

Introduces various types of nutrients, the basic principles of nutrition as applied to small and large animals, various feeding practices and their economic importance, and important nutritionally-caused diseases. Covers care and handling of orphaned animals and special prescription diets.

#### VETERINARY SCIENCE 1 Grade: 10-12 (HHS)

.

Prerequisite: Animal Nutrition, Introduction to Veterinary Science 1.0 credit

Bus transportation is available from other high schools.

Provides an overview of all body systems including parts, functions and common diseases and disorders and the importance of homeostasis. Teaches clinical/surgical procedures, nursing techniques and principles of restraint of small and large animals. Emphasizes techniques to maximize the safety aspect of both the handler and the animal patient.

#### VETERINARY SCIENCE 2 Grade: 12 (HHS)

**Prerequisite: Veterinary Science 1 1.0 credit** *Bus transportation is available from other high schools.* 

Covers clinically important diseases and disease processes occurring in small animals

and large animals. Includes the causes, pathogenesis, clinical signs, treatment and prevention of each disease. This is the capstone course for the Veterinary Science Career and College Pathway.

#### DISCOVERING NATURAL RESOURCES Grades: 9-12 (LHS) Prerequisite: None 0.5 credit

This course is designed to help students develop an awareness of renewable and nonrenewable natural resources. Students will be exposed to a variety of activities and labs that provide hands-on learning and the application of scientific principles. This course is an introduction to further studies in the natural resources field.

# INTRODUCTION TO RENEWABLE TECHNOLOGIES

Grades: 9-12 (HOA) Prerequisite: None

0.5 credit

Renewable Technologies are becoming increasingly important as concerns about climate change, the use of fossil fuels, and population growth become foremost in the public eye. So, how do we address the world's growing concerns about energy sources? Uncover the development of new energy technologies and explore how recent approaches to renewable technologies unlock the solution needed for a safer, cleaner, and more enduring world.

#### **ANIMAL CARE LAB 1**

#### Grade: 10-12 (HHS) Prerequisite: Introduction to Veterinary Science 1.0 credit

This course is a student-run business with hands-on lab experience that will help students grow their basic knowledge and skills necessary for further study or entrylevel positions in animal science and related fields. In Animal Care Lab 1, students will learn the basic operations of animal grooming business, the skills necessary to perform all job responsibilities within an animal grooming workplace. Students will practice and demonstrate their ability to perform these hands-on skills prior to working directly with animals.

#### ANIMAL CARE LAB 2

#### Grade: 11-12 (HHS)

**Prerequisite: Animal Care Lab 1 1.0 credit** This course is a student-run business with hands-on lab experience that will help students grow their basic knowledge and skills necessary for further study or entry-level positions in animal science and related fields. In Animal Care Lab 2, students will apply the skills learned in Animal Care Lab 1 to the student run enterprise setting. Students will be responsible for the daily operations of the grooming lab and will have the opportunity to advance their skillsets. Prerequisites: Must be 11-12 grade students who have taken Animal Care Lab 1.

The Arts, Entertainment, & Design Career Cluster combines creative roles in visual and performing arts, film, journalism, fashion, interior design, and creative technologies. This Cluster focuses on creating, producing, and sharing artistic and design work across multiple platforms, aiming to entertain, inform, beautify, and inspire.

# **VISUAL ARTS**

#### ART 1

Grades: 9-12 (CHS, GHS, HHS, HOA, LHS) Prerequisite: None

#### 0.5 credit (HHS, HOA, LHS) 1.0 credit (CHS, GHS)

Art 1 is an exploratory course in Fine Arts. Students will work intensively in drawing, painting, composition, color, and design. This course gives the beginning student the visual awareness and technical skills to translate the 3-D world into a 2-D form. Art history and vocabulary are important aspects of Art 1.

#### ART 2

#### Grades: 10-12 (CHS, GHS, HHS, LHS) Prerequisite: Art 1 1.0 credit

Building upon the skills established in Art 1, this second year foundation course concentrates on enhancing the student's creative energy. The course will include development of visual awareness, problemsolving, creativity, and perspective. Students will be introduced to elements of design, life drawing, illustration, and color theory through the mediums of paint, pen and ink, and pastel.

#### ART 3

#### Grades: 11-12 (CHS, GHS, HHS, LHS) Prerequisite: Art 2 1.0 credit

This course is for the student to exceed in their art making ability using art elements and principles of design. Students will concentrate on the technical aspects of seeing an artwork through from the initial idea to a polished gallery-ready presentation. Students should be able to back up their decisions in their art utilizing formal evaluation strategies. The emergence of the student's creative voice is encouraged at this level. This course is for those who are independent workers, selfmotivated, and have a connection to their art. Visual risk-taking is a must in this course.

#### ART 4

#### Grades: 11-12 (GHS) 12 (CHS) Prerequisite: Art 3

1.0 credit

Art 4 is a studio class that involves in depth experiences in drawing, painting and mixed media, and printmaking. Students are exposed to art schools, museums, galleries, art history, and contemporary art issues and portfolio development. Students will focus on a chosen concentration theme while building up a body of artwork.

## **3-D ART 1** Grades: 9-12 (CHS) Prerequisite: None

1.0 credit

1.0 credit

1.0 credit

1.0 credit

This introductory course to three-dimensional art includes the exploration of sculpture through a variety of media, with an emphasis on ceramics. Students focus on concept design, generating and refining ideas for their artwork through various methods. In addition to designing and creating art, students will also explore art history, complete artist statements, and practice necessary vocabulary to support their art making.

#### 3-D ART 2 Grades: 10-12 (CHS) Prerequisite: 3-D Art 1

This class builds upon the foundation of technical skills built in 3D Art 1 and continues to develop critical thinking and concept design. This class has an emphasis on ceramics in the first semester, with some time spent on the pottery wheel, and then a variety of sculptural media in the second semester. In addition to designing and creating art, students will use artist research to inform projects, take part in critiques, craft artist statements, and continue to learn the necessary vocabulary to support their art making.

#### 3-D ART 3 Grades: 11-12 (CHS) Prerequisite: 3-D Art 2

This class offers an advanced look into the world of 3D visual art, building upon the foundation of technical skill established in the 1 & 2 levels. We will work with a variety of sculptural materials, developing abilities in critical thinking and the process of developing and creating projects based around themes. Students will also explore art history, complete artist research, take part in critiques, complete artist statements, and practice necessary vocabulary to support their art making. This class will help prepare students for 3D Art 4, where students can complete a senior project.

#### 3-D ART 4 Grade: 12 (CHS) Prerequisite: 3-D Art 3

This course is an advanced class in the Visual Arts Pathway and can serve as the Senior Project class for those in the 3D Art pathway. Students will design projects around

a theme of their choice, and create work with a variety of traditional 3D art mediums. Art history, artist research, critique, and reflection are important aspects in 3D Art 4 as well as completing sketchbook work, and generating ideas. Students can expect to leave this class with a portfolio of work based on a theme that they generated through research and observation.

# AP AP STUDIO ART - 2D or 3D Grades: 11-12 (GHS, LHS), 12 (CHS) Prerequisite: Art 3, 3-D Art 3 (CHS), Art 3 (GHS) 1.0 credit

The AP Studio Art Program consists of three portfolio exams—2-D Design, 3-D Design, and Drawing—corresponding to the college foundation courses. Portfolios allow flexibility of coursework while guiding students to produce college-level quality, artistic investigation, and breadth of work. Students' portfolios demonstrate skills and ideas developed, refined, and applied throughout the course to produce visual compositions. Students may choose to submit any or all of the portfolios. Portfolios are evaluated based on standardized scoring descriptors aligned with skills and understanding developed in college foundation courses.

\*AP Studio Art is a vehicle in which seniors can complete their Senior Project (GHS).

## **IB DP VISUAL ARTS SL** Grades: 11-12 (HHS) Prereguisite: Art 2

1.0 credit

The IB Diploma Programme Visual Arts course encourages students to challenge their own creative and cultural expectations and boundaries. It is a thought-provoking course in which students develop analytical skills in problem-solving and divergent thinking, while working towards technical proficiency and confidence as art-makers. In addition to exploring and comparing visual arts from different perspectives and in different contexts, students are expected to engage in, experiment with and critically reflect upon a wide range of contemporary practices and media. The course is designed for students who want to go on to study visual arts in higher education as well as those who are seeking lifelong enrichment through visual arts.

#### **GRAPHIC DESIGN 1**

#### Grades: 9-12 (CHS, GHS, HHS, LHS) Prerequisite: None 0.5 credit

Students explore graphic design areas including illustration, product design, poster design, logo design and more. Students will learn to use programs from the Adobe Creative Suites. All projects involve creative problem-solving through typography and letterforms, color theory, aesthetics and criticism. Students will learn to use the design process, and the steps to creating a refined finished design. Graphic Design is a gateway to many career options in commercial art and design.

#### **GRAPHIC DESIGN 2**

Grades: 9-12 (CHS) 10-12 (GHS, HHS, LHS) Prerequisite: Graphic Design 1 0.5 credit Graphic Design 2 continues the exploration of real world design through work-based/ simulated learning projects and issues using traditional and nontraditional media, and Adobe Creative Suite.

#### **GRAPHIC DESIGN 3**

**Grades: 10-12** (CHS) **11-12** (GHS, HHS, LHS) **Prerequisite: Graphic Design 1&2 1.0 credit** This course is designed as the 3rd step in the graphic design pathway program. This course will focus on elevating skills from graphic design 1- 2 while students collaborate on projects with building and District clients. Students will integrate the various Adobe Programs while creating authentic projects for building and district needs. Students will begin building relationships with industry professionals.

#### ADV. GRAPHIC ARTS STUDIO Grades: 12 (CHS, GHS, HHS,LHS) Prerequisite: Graphic Design 3 or Digital Photo 3 (HHS)

Advanced Graphic Arts Studio is the capstone course for the Graphic Arts pathway. This course will focus on advancing skills from graphic design 1- 3 while students collaborate on projects with real life clients. Students will build a portfolio of work and a resume that will allow them to apply to jobs directly post graduation. Students will establish mentorships with industry professional. Students will work with groups in the community to connect with real life clients who have projects they want to create. Students will use the design process while meeting with their clients, determining their client needs and then creating designs

1.0 credit

for them. The will receive feedback about their designs and make revisions to satisfy the clients needs.

#### CARTOONING & DRAWING 1 Grades: 9-12 (GHS) 10-12 (HHS) Prerequisite: HHS - Art 1 0.5 credit GHS - No prerequisite

In this in-depth study of the art of cartooning, students focus on the development of drawing skills (human anatomy, shading and perspective), effective storytelling, and character creation. Significant time is spent drawing the figure from observation as well as on building first-hand experience with the many genres of comics. Projects including "how-to" comics, autobiographical comics, political cartoons and hero/villain cards allow students to gain valuable skills for careers in illustration, storyboarding, game design or animation.

## CARTOONING & DRAWING 2 Grades: 9-12 (GHS) 10-12 (HHS)

**Prerequisite: Cartooning 1** 0.5 credit This course continues the exploration of graphic narratives by approaching comics as the meeting of art, writing, and digital tools. When possible, this class will be offered in a computer lab to enhance hand-drawn comics. Students will pitch an idea for a new comic or cartoon, then begin work on that series. Students will also create daily comic strips with a consistent cast of characters, and will create a class anthology.

#### **DIGITAL PHOTOGRAPHY 1**

Grades: 9-12 (CHS, HHS, HOA, LHS) Prerequisite: None 0.5 credit (HOA 1.0) Students will be introduced to the field of digital photography. Students will learn the basic elements of composition in photography and how to compose quality artistic and commercial photographs in both black & white and color. Students will learn to enhance and manipulate their photographs through post-production work using graphic design software.

#### DIGITAL PHOTOGRAPHY 2 Grades: 9-12 (CHS) 10-12 (HHS) Prerequisite: Digital Photo 1 0.5 credit

Digital Photography 2 goes deeper into the social/career related aspects of photography. Projects may include photo-interview, photo essays, photojournalism and promotional posters. Photoshop is explored further as a

creative tool and students craft photo series that are presented in class and online.

## DIGITAL PHOTOGRAPHY 3 Grades: 10-12 (CHS, HHS)

**Prerequisite: Digital Photo 1 & 2 0.5 credit** Students will choose and explore a conceptual theme or idea that will guide and inspire their final presentation. Students will spend the semester working on completing that presentation through photography, post-production and self-reflection. Students will present a final project of 12 strong images and an artist' statement that clearly support their conceptual theme or idea which will be presented on Senior Project night.

#### CERAMICS 1 Grades: 9-12 (LHS) Prerequisite: None

0.5 credit

This course is designed to introduce students to the tools and techniques used when working with clay through hand building. Students will learn techniques including scoring and slipping, slab building, and coil making. A focus on design is used to guide students through principles of form moving through space.

#### **CERAMICS 2**

#### Grades: 10-12 (LHS)

Prerequisite: Ceramics 1

#### 1.0 credit

Building upon the techniques taught in Ceramics 1, this second year focuses on a more detailed examination of ceramic design and concept.

#### CERAMICS 3 Grades: 11-12 (LHS)

Prerequisite: Ceramics 2

1.0 credit

Building on the techniques and skills practiced in Ceramics 1 and 2, students develop their own voice through designing a thematic series. This work is supported with planning and reflection with journals and writing from conception to completion of projects.

#### **INTERIOR DESIGN**

#### Grades: 9-12 (HOA) Prerequisite: None

#### 0.5 credit

Do you have a flair for designing and decorating? If so, then let's learn how to turn your interests and skills into a career. Explore color, texture, trends, and styles over time, how homes are built, and "green" options for homes and businesses. Interior designers do it all—from planning the color scheme to choosing furniture and light fixtures—with the end goal

46

of creating a space where people can live or work comfortably, safely, and happily.

# **PERFORMING ARTS**

#### **CONCERT BAND**

Grades: 9-12 (CHS, GHS, HHS, LHS) Prerequisite: None 1.0 credit

Incoming freshmen may enroll in Concert Band. Students will survey a variety of concert literature and work on development of ensemble blend, balance, intonation, sight-reading, and individual instrumental technique. Members will have the opportunity to study with professional clinicians to enhance personal improvement and aid in preparation of solo and ensemble repertoire. During the fall season, participation in the marching band is highly expected for all home football games, competitions, and parades. During the winter season, participation in the pep band is expected for home games. This class may include summer rehearsals and an annual Band Camp scheduled in August. At CHS, this is a non-audition group open to all grades including incoming 9th grade students.

#### SYMPHONIC BAND

## Grades: 9-12 (CHS, HHS)

# Prerequisite: teacher recommendation by audition 1.0 credit

This is the highest-level instrumental performing group in the school. Transfer students will be auditioned and placed according to the director's judgment. Students should have their own instrument. A few of the larger, more expensive instruments are provided by the school for a small yearly rental fee. This is a performing class with performances during and after school. Participa-tion in marching band is highly expected for students enrolled in this course. Conflicts which take a student away from the majority of after school rehearsals, practices or perform-ances should be discussed with the band director. This class includes summer rehearsals and an annual Band Camp scheduled in August. Auditions will be held in May.

#### **JAZZ ENSEMBLE**

#### Grades: 9-12 (CHS, GHS, HHS, LHS) Prerequisite: teacher recommendation by audition 1.0 credit

*This class meets during period 0.* Jazz Ensemble is an instrumental course designed to study and perform in many different styles including: Swing, Bebop, Latin, Rock, and many more. All musicians in jazz band must t be concurrently enrolled in a separate band or percussion class (Concert, Symphonic, Wind Ensemble). Piano Bass guitar, electric guitar may seek an exception at the directors discretion. The group rehearses four days a week. This is a performing course with performances during and after school. Conflicts which take a student away from the majority of after school rehearsals, practices or performances require band director approval before the student registers for the class. Auditions will be held in May.

#### WIND ENSEMBLE

Grades: 9-12 (CHS, GHS, LHS)

Prerequisite: Audition1.0 creditWind Ensemble is the highest-level band<br/>course offered at Century, Glencoe, and<br/>Liberty. Grade IV and V band literature will be<br/>a focus of the course. Required performances<br/>are part of the course and students are highly<br/>encouraged to participate in marching<br/>band and pep band. This class may include<br/>summer rehearsals and an annual Band Camp<br/>scheduled in August.

#### **MUSIC PERCUSSION**

#### Grades: 9-12 (CHS, GHS, HHS, LHS) Prerequisite: None

**1.0 credit (CHS, GHS, LHS) 0.5 credit (HHS)** This is a course for all those who play drums, or want to play drums. Students from all skill levels are encouraged to take this class. We will learn African Drums, drum set, marching drums, mallets, and all things percussion. This is a performing course with performances during and after school. All students taking this course should expect to attend MANDATORY performances and occasional rehearsals on evenings and/or weekends.

#### FOUNDATION CHOIR (SATB)\* Grades: 9-12 (CHS, LHS) Prerequisite: None

1.0 credit

All students with a basic ability to sing are welcome to register for this choir class. Emphasis is placed on teamwork and developing basic skills in vocal technique, sight reading, and music theory. A wide variety of choral music is studied and performed at required concerts, festivals, and special performances throughout the school year. Students interested in participating as a piano

Students interested in participating as a piano accompanist should contact the instructor or go through their counselor.

\*SATB: soprano, alto, tenor, bass

#### **GUITAR 1**

#### Grades: 9-12 (CHS, GHS, HHS, HOA, LHS) Prerequisite: None 0.5 credit

This course is for the beginning guitar student. Chord theory, note reading, basic strum patterns, picking patterns, lead patterns, and ensemble playing will be the focus. The basic knowledge and skill developed in this class will enable the student to begin to explore guitar music styles that interest them. There will be group class time when all students work together, and time for individual and small group project work. Guitars will be provided for students to play during class. It is recom-mended that students provide their own guitar for practice at home.

#### **GUITAR 2**

#### Grades: 9-12 (GHS, HHS, LHS)

**Prerequisite: Guitar 1 or proficiency 0.5 credit** This course is for all students who have completed Guitar 1. Advanced chord theory, note reading, strum and patterns, lead patterns and ensemble playing will be the focus. There will be both class work and individual work. Students will work as a class on PE 1 performance and skill projects to develop required skills. They will also work on individual performance and skill projects that focus on their own chosen guitar styles and interests. Guitars will be provided for students to play during class. It is recommended that students provide their own guitar for practice at home.

#### PIANO 1

#### Grades: 9-12 (GHS, LHS) Prerequisite: None

#### 0.5 credit

Piano 1 is designed for beginners and aspiring pianists who want to develop a foundation in piano playing. This course provides students an introduction to, and refines the fundamentals of, music and keyboard including literature and techniques such as scales, chords, and melodic lines and may offer instruction in more advanced techniques. Students will learn essential fundamentals, including proper posture, hand positioning, and finger exercises. The curriculum covers basic music theory, reading sheet music, and playing simple pieces from various genres. By the end of the course, students will be able to perform basic melodies and have the confidence to move towards more advanced classes in music. No prior experience is required.

Grades: 9-12 (CHS, GHS, HHS, LHS, HOA)

high schools for students in grades 10-12.

Bus transportation is available to HHS from other

Students in this course study music through

learning the fundamentals of playing an instrument and singing. Student evaluate, practice, and

perform mariachi, a traditional music of Mexico.

Emphasis is placed on development of note reading

## HILLSBORO SCHOOL DISTRICT

## **TENOR AND BASS CHORUS (TTBB)\*** Grades: 9-12 (CHS, GHS, HHS)

#### **Prerequisite: None**

1.0 credit

1.0 credit

1.0 credit

1.0 credit This chorus is for the vocal range of tenor 1, tenor 2, baritone, and bass. Emphasis is placed teamwork and developing skills in vocal technique, sight reading, and music theory. Numerous performing opportunities include required concerts, festivals, and special performances throughout the school year.

\*TTBB: tenor 1, tenor 2, bass 1 (baritone), bass 2

#### **CONCERT CHOIR (SATB)\***

#### Grades: 9-12 (CHS)10-12 (GHS, HHS, LHS) Prerequisite: Director approval/audition 1.0 credit

Concert Choir is the high school's premier chorus for experienced choral students who have well developed vocal technique, as well as sight reading and music theory knowledge. Emphasis is placed on teamwork and developing advanced vocal technique and musicianship. A wide variety of choral music is studied and performed at required concerts, festivals, and special performances throughout the school year.

\*SATB: soprano, alto, tenor, bass

#### **VOCAL ENSEMBLE**

Grades: 10-12 (CHS, GHS, HHS, LHS, HOA) Prerequisite: see below\* 1.0 credit

Vocal Ensemble is a performing ensemble for experienced choral musicians. Contemporary a cappella and advanced choral literature for the small ensemble is studied and performed at required concerts, festivals, and special performances for community organizations throughout the school year.

\*Director approval/audition, and concurrently enrolled in Concert Choir

# **THEATRE & FILM ARTS**

#### **THEATRE FOUNDATIONS**

Grades: 9-12 (CHS)

**Prerequisite: None** 

This introductory course exposes students to the fundamentals of theatrical production both onstage and backstage. Students will learn beginning acting techniques while also becoming acquainted with theatrical equipment and the basics of theatrical terminology, history and design. The student will participate in professional practice which may include auditioning or running crew for shows, and attending live performances.

#### **THEATRE 1** Grades: 9-12 (GHS, HHS, LHS) **Prerequisite: None**

1.0 credit

This introductory course assists in developing confidence and enjoyment while focusing on the fundamentals of acting. Class curriculum includes: pantomime, script writing, improvisation, character research and may include puppets and mask making, as well. Students learn about theatre production through written critique and script analysis.

#### **THEATRE 2**

#### Grades: 10-12 (CHS, GHS, HHS, LHS) Prerequisite: See Below 1.0 credit

Students will improve on the skills learned in Theatre 1 by engaging in more complex script work with attention to performance theory and historical contexts. This course has mandatory research, writing and performance curriculum.

GHS - Prerequisites include successful completion of Theatre 1, Film 1, or Communications

CHS - Prerequisites include successful completion of Theatre Foundations LHS & HHS - Prerequisites include Theatre 1

#### **THEATRE 3**

#### Grades: 11-12 (CHS, GHS, HHS, LHS) Prerequisite: Successful completion of Theatre 2 1.0 credit

Students will begin to use methods of acting that work best for them as individuals, with guided exercises grounded in ancient, classic and modern texts and performance theories. Directing theory, including advanced script analysis is incorporated as the student prepares more rigorously for performance. In some cases, the class will offer a production for a portion of their grade.

#### **THEATRE 4**

1.0 credit

#### Grade: 12 (CHS, GHS, HHS, LHS) Prerequisite: Successful completion of Theatre 3 1.0 credit

Students continue to study production, direction, acting theory and script analysis with a focus on critical analysis of theatre and its role in society. Student-directed and written one-acts are a significant unit at the advanced level.

This class is for experienced musicians who are interested in a more in-depth study of music theory, and ear training history. Advanced music knowledge will be developed

Grades: 10-12 (CHS) 11-12 (LHS, GHS)

through classroom lecture, individual projects, and computer technology. Students will compose, arrange, or transcribe a piece of music in the fall. Students will be prepared to take the AP Music Theory exam in the spring.

#### **SOUND ENGINEERING** Grades: 9-12 (GHS)

#### Prerequisite: None

Sound Engineering is an entry-level course that will teach students how to create digital compositions using modern music editing software. Students will learn the essential techniques for audio editing, mixing, music composition, and score production. Through hands-on projects and real-world applications, students will develop the skills needed to create audio for music, film, podcasts, and more. This practical approach to digital music will expose students to a career path in sound engineering.

#### **TREBLE CHORUS (SSAA)\*** Grade: 9-12 (GHS, HHS) Prerequisite: see below

#### 1.0 credit

This chorus is for the vocal range of soprano, secondsoprano (mezzo), and alto. Emphasis is placed teamwork and developing skills in vocal technique, sight reading, and music theory. Numerous performing opportunities include required concerts, festivals, and special performances throughout the school year.

\*SSAA: soprano 1, soprano 2, alto 1, alto 2 \*\*GHS - No prerequisite CHS, HHS- Director approval/audition

#### **TECHNICAL THEATRE PRODUCTION 1**

Grades: 9-12 (GHS,HHS) 10-12 (LHS) Prerequisite: None 1.0 credit This course offers a hands-on approach to becoming acquainted with theatrical equipment, basics of scene, light and sound design. The student will learn and participate in the fundamentals of technical theatre. This may include running crew for shows, set construction, shop and auditorium maintenance.

#### TECHNICAL THEATRE PRODUCTION 2 Grades: 10-12 (CHS\*, GHS, HHS) 11-12 (LHS) Prerequisite: Completion of Tech. Theatre 1 1.0 credit

This course builds on the student's skills and abilities learned in Technical Theatre 1. Heavy set construction as well as design is emphasized. Students may "crew" shows, and continue studies in design. Ability and willingness to work cooperatively and independently is expected.

\*CHS - Prerequisite includes successful completion of Theatre Foundations

#### TECHNICAL THEATRE PRODUCTION 3 Grades: 11-12 (CHS, HHS)

## Prerequisite: Completion of Tech. Theatre 2 1.0 credit

This course builds on the student's skills and abilities learned in Technical Theatre 2 and focuses on theatrical production, design and management. Learn and apply technical theatre skills by taking responsibility for stage management, business management, theatre marketing and public relations, sound design, lighting design, costume design, set design, and theatre marketing for department productions. Students will also investigate technical theatre careers and develop a plan for potential employment or further education.

#### MUSICAL THEATRE Grades: 9-12 (LHS) Prerequisite: Theatre 1 or any choir course 0.5 credit

This course integrates music, dance, and theatre to provide training in musical productions. Students learn how to create mood and character through effective use of words, music, dance, movement, and vocal styles. This course culminates in the production of a musical performed for the public.

## **IB DP THEATRE ARTS HL1** Grade: 11-12 (HHS)

Prerequisite: 2.0 credits of Theatre Arts courses or enrollment in Theatre 3 or Technical Theatre Production 2 1.0 credit each

IB Theatre Arts 1 emphasis is on the growth of the individual's understanding of theatre in all its forms and focuses. Students make theatre as well as understand it, not only with their minds, but with their senses, and emotions. Students understand the form theatre takes in cultures other than their own; and through this understanding they better understand themselves, their society, and their world. This course provides students with an opportunity to direct, design, create, and write, as well as to act. This course prepares students for the Higher Level IB portfolio.

# FILM

#### FILM 1

#### Grades: 10-12 (GHS, HHS) Prerequisite:

This course develops fundamental skills for filmmaking, appreciation of film as an art form, and use of technology for the creation of film. Students will watch and analyze films for impact and technique and will work to emulate those techniques using film equipment and editing software. By the end of the course, students will have the skills necessary for creating films and will have an understanding of film as a powerful and important art form.

1.0 credit

1.0 credit

#### FILM 2 Grades: 12 (GHS)

## Prerequisite: Film 1

This course builds on the skills learned in Film 1 as students create original films using industry standards for pre-production development, filming, and post-production editing. Students will develop story ideas, outlines, story pitches, loglines, character profiles, beat sheets, and screenplays. They will work in teams to complete the pre-production process, including location scouting, moodboards, shot sheets, storyboards, call-sheets, overheads, production design, and script breakdowns with the help of industry software and other tools. They will be a part of the production team for film shooting, alternang roles on set to experience every aspect of filmmaking. Then, they will complete post-production editing and markeng. Films will be shown in

a year-end film festival and may be submitted for film competitions.

# **COMMUNICATIONS**

#### COMMUNICATIONS

Grades: 9-12 (CHS)	1.0 credit
9-12 (HHS, LHS)	0.5 credit
Prerequisite: None	

This is an introductory course designed to help students develop confidence and competence in public speaking. Students will give impromptu, informative, persuasive, and interpretive speeches. Students will learn research skills and effective use of researched information in writing and speaking. Students will also explore and discuss current events. Students are encouraged, but not required, to compete in Speech and Debate tournaments.

#### **CREATIVE WRITING 1**

Grades: 9-12 (CHS, HOA), 10-12 (HHS, LHS) Prerequisite: None 0.5 credit

This course offers students the opportunity to produce various literary forms such as poetry, fiction, personal narratives, and journal writing. Students also learn how to edit and revise.

Does not meet English graduation requirement.

#### **CREATIVE WRITING 2**

Grades: 10-12 (CHS, HHS, LHS)

**Prerequisite: Creative Writing 1** 0.5 credit This course is for serious writers who wish to further develop their skills in a particular genre of writing. Independent projects will be student-driven, with a group workshop format to help students revise and revitalize their craft.

Does not meet English graduation requirement.

#### INTRODUCTION TO ARTS Grades: 9-10 (LHS) Prerequisite: None

#### 0.5 credit

This multidisciplinary, student-centered class is designed to encourage and provide students with the broadest opportunities to explore unexpected creative, intellectual and vocational pathways. The student constructs and demonstrates understanding through an art form (visual, music, dance, writing, performance) that connects two or more art forms and another subject area. The student will compose, choreograph, write and draw or paint, in addition to learning the historical and cultural contexts for these art forms.

#### INTRODUCTION TO JOURNALISM

#### Grades: 9-12 (CHS, HHS) Prerequisite: None

**Prerequisite: None 0.5 credit** In this course, students are taught the basics of journalism. Students will learn about the ethics of journalism, interview techniques, how to write factual, clear, and concise articles, basic video and audio editing techniques, script writing, speaking, use of technology, and production of videos. A strong emphasis will be placed on ethics and deadlines. All technology required for this class will be provided.

#### BROADCAST JOURNALISM Grades: 9-12 (LHS) Prerequisite: None

0.5 credit

In this course students develop a groundwork in different forms of media, including, writing, videography, broadcasting, and public speaking. Students are taught to develop and expand their reporting, production and storytelling skills in both audio and video. The course will emphasize news-gathering, writing, video recording, editing, and the study of mass media. Students will learn the basic elements of news value and vocabulary specific to broadcast writing. They will also identify various news sources and use interview skills to create stories using video and editing software.

#### **VIDEO PRODUCTION**

Grades: 9-12 (HHS) 10-12 (LHS) Prerequisite: Intro. to Journalism 1.0 credit

Video production students learn to write, direct and produce various forms of videos. Students will learn to produce public service announcements, short documentaries, movie trailers, video montages, music videos, news briefs, and many more types of videos. Students will also have the opportunity to produce videos for the school's live TV program. This course is for creative students who have the ability to work well in a team setting, as well as independently. Students are required to have open availability to attend and film extracurricular activities for video projects and news gathering purposes.

#### **STUDIO PRODUCTION**

Grades: 10-12 (CHS) 11-12 (HHS, LHS) Prerequisite: Video Prod. (HHS, LHS) 1.0 credit Students will lead, coordinate, manage, and

participate in live television broadcasts, using our in house studio. Students will work effectively as a team, demonstrating creativity and advanced production skills as they recognize, anticipate, and respond to customer needs. Students produce a regular news program.

#### YEARBOOK STAFF Grades: 9-12 (HHS, LHS) 10-12 (CHS, GHS) Prereguisite: see below\* 1.0 cre

**Prerequisite: see below\* 1.0 credit** This course produces the school's yearbook. In Design, Photoshop and other techniques of yearbook will be taught. Students participate in development of the book with design, writing copy, taking photos. They must be detail-oriented, go to sports events, clubs and other events in and around our school. The staff must be willing to meet deadlines, have a strong work ethic, and act as a responsible group member. All staff must be willing to spend time after school. Students will be responsible for their own transportation to after school events.

\* CHS: Journalism, Photography, Graphic Design, Art, or Marketing AND a teacher recommendation required.

*GHS*, *HHS*: application with teacher recommendation.

HHS & LHS: application with teacher recommendation required. May be on Yearbook staff all four years of high school, but must apply each year.

The Construction Career Cluster focuses on professions involved in designing, planning, managing, and executing projects in the built environment. It emphasizes sustainable building practices to ensure that structures are both environmentally responsible and resilient. Careers in this Cluster are pivotal in creating durable infrastructure that meets present needs without compromising future generations' ability to meet their own, covering a range of roles from architects and engineers to construction managers and skilled tradespeople.

# CONSTRUCTION & WOODWORKING

## CONSTRUCTION TECHNOLOGY

## Grades: 9-12 (LHS) Prerequisite: None 1.0 credit

Introductory inquiry course based on construction of small structures and basic woodworking projects. Topics may include basic site layout, building frame layout, building envelope, electricity, plumbing, and concrete. This course is intended to give students experience in a workplace like setting to allow for technical skill development. Students will manage small projects involving one or more of the topic areas. Projects will be done in an outdoor setting as well as in a shop. This course is a prerequisite for Sustainable Design 1.

#### **CONSTRUCTION 1**

#### Grades: 10-12 (GHS) Prerequisite: Woodworking Technology 1 suggested 1.0 credit

Construction 1 will use both the classroom setting and job site environment to give students an introduction to the high-demand field of construction and teach them the skills that are necessary to build a house. Over the course of the school year, students will be introduced to all phases of home construction from framing to floor and countertop installation. Students will learn how to safely utilize and operate a variety of tools. Another goal of this course is to embed math instruction into lessons so students understand the importance of the math they learn and the relevance in a real-world work environment. Students will be put in situations where they will have to collaborate and problem solve in order to complete projects. Different aspects of the course will be taught by industry professionals who have agreed to partner with GHS to provide this type of education for students. Students will learn professional skills like customer service, punctuality, bookkeeping, and construction management.

#### **CONSTRUCTION 2**

Grades: 11-12 (GHS) Prerequisite: Construction 1

**Prerequisite: Construction 1 1.0 credit** Students in this course will be putting to use what they have learned in prerequisite courses. Safety will be a top priority and students will enhance their understanding of the construction process and industry through constructing a home themselves. Their education will be supplemented by industry professionals who will demonstrate how to frame, insulate, sheetrock, plumb, wire, paint, finish, and landscape a home. They will meet with city and county inspectors, OSHA inspectors, Clean Water Services inspectors, land developers, and real estate agents to enhance their understanding of the many aspects that go into the industry of home construction. Another aspect of this advanced course is that students will gain firsthand knowledge of the skills required to be a construction manager.

#### CONSTRUCTION 3 Grades: 12 (GHS)

Prerequisite: Construction 2 1.0 credit This is the capstone level course for the construction pathway. Students will build on the knowledge and skills they have learned in Construction 1 and Construction 2. Students will gain knowledge of the skills required to be successful in the construction industry. Students will also have the opportunity to earn industry-recognized credentials that demonstrate their proficiency in construction math, construction drawings, employability skills, and material handling. In this course, students will plan to create and manage construction projects for different purposes and clients. Opportunities for career exploration and work based learning will be embedded in the course.

#### SUSTAINABLE DESIGN 1 Grade: 11-12 (LHS) Prerequisite: Construction Technology 1.0 credit

This course will focus on basic design processes, including planning, prototyping, fabricating, testing, and revising sustainable small structures and devices. Topics will include rationale for sustainable building, drafting, building science, sustainable materials, as well as water and energy efficiency. Sustainable building methods and systems will be introduced in preparation for the capstone course.

#### SUSTAINABLE DESIGN 2 Grades: 11-12 (LHS) Prerequisite: Sustainable Design 1 1.0 credit

This course will expand upon concepts explored in Sustainable Design 1, but will focus on the application of sustainable building concepts and further practical skill development. This is the capstone course for the Sustainable Design Program of Study.

#### WOODWORKING TECHNOLOGY 1 Grades: 9-12 (GHS) Prerequisite: None

0.5 credit

students This course introduces the basics of woodworking. to Introductory safety, measurement, machine processes, mass production, finishing methods, and furniture and cabinet making will be included. Students will be expected to pay for their personal projects.

#### WOODWORKING TECHNOLOGY 2 Grades: 9-12 (GHS) Prerequisite: Woodworking Technology 1 0.5 credit

This course will expand and refine learning of Woodworking 1 content. Students will design, develop, and manufacture individual projects. Emphasis will be placed on cabinetry and furniture manufacturing. Students will be expected to pay for their personal projects. An internship component and student project will be required for those students interested in completing their pathway in Manufacturing and Design Technology.

The Digital Technology Career Cluster focuses on developing digital systems for communication and data storage using critical technologies such as artificial intelligence (AI), data analytics, and cybersecurity. This Cluster builds skills necessary for all careers to navigate and lead in the constantly evolving tech landscape and drives innovation across all industries to tackle complex challenges and opportunities in communities and economies.

This Career Cluster is also a Cross-Cutting Cluster as the skills gained through this Career Clusters area are applicable across all Career Clusters.

# COMPUTING

#### FUNDAMENTALS OF CYBERSECURITY Grades: 10-12 (HHS)

**Prerequisite: Creative Computing 0.5 credit** Introduction to Cyber Security will be an intermediate course option for the Computer Science CCP. This course provides an overview of key concepts and practices in information security. This course covers foundational principles of cybersecurity, risk management, adversarial thinking, data and system security, as well as ethical and privacy considerations in a global society. Practical skills such as personal device protection and online safety are emphasized.

#### COMPUTER GAME DESIGN 1 Grades: 9-12 (HHS) 10-12 (CHS) Prereguisite: Creative Computing\* 0.5 credit

This class focuses on creating computer games through the use of a game engine, such as Game Maker. Students will learn basic computer coding and computational thinking through a drag-and-drop interface, allowing them to make a variety of different games. These will include platform games (like Mario Bros.), role playing games (like Legend of Zelda), maze games (like Pac-Man), and scrolling shooter games (like Asteroids). The level 1 course covers the basics of game design, and students are primarily working through a drag-and-drop environment with limited exposure to advanced techniques and scripting.

\*CHS - Creative Computing recommended but not required

#### COMPUTER GAME DESIGN 2 Grades: 10-12 (CHS, HHS) Prerequisite: Computer Game Design 1 0.5 credit

This class focuses on creating computer games through the use of a game engine, such as Game Maker. Students will learn basic computer coding and computational thinking through a drag-and-drop interface, allowing them to make a variety of different games. These will include platform games (like Mario Bros.), role playing games (like Legend of Zelda), maze games (like Pac-Man), and scrolling shooter games (like Asteroids). The level 2 course expands on concepts of data types and scripting. Students begin working in a 3D environment in the 2nd level course.

## **COMPUTER GAME DESIGN 3**

Grades: 11-12 (CHS) Prerequisite: Computer Game Design 2 0.5 credit

This class focuses on creating computer games through the use of a game engine, such as Game Maker. Students will learn basic computer coding and computational thinking through a drag-and-drop interface, allowing them to make a variety of different games. These will include platform games (like Mario Bros.), role playing games (like Legend of Zelda), maze games (like Pac-Man), and scrolling shooter games (like Asteroids). The level 3 course focuses on software engineering and collaboration. Students will work in teams to create a single complex video game using an industry-standard software. The project in this course may qualify for a senior project.

#### PROGRAMMING 1 Grades: 10-12 (CHS, GHS, HHS, LHS)

Prerequisite: None 1.0 credit

This course begins with developing understanding of concepts and skills. No programming experience is required. Students are encouraged to develop a professional approach to programming, which involves solving a problem through careful designing, coding, and documenting of programs. Topics will include variables, expressions, statements, functions, conditionals, recursion, loops, and sequences.

#### PROGRAMMING 2 Grades: 11-12 (CHS, GHS, HHS) Prerequisite: Programming 1 1.0 credit

In Programming 2, students will build on skills learned in Programming 1 to attack more advanced programming applications using an industry-standard language. Students will learn more advanced data types such as sequences and objects, and they will learn to apply various algorithms in new and interesting ways.

#### **PROGRAMMING 3**

Grades: 12 (CHS, GHS)Prerequisite:Programming2orAPComputer Science A1.0 creditThis course teaches advanced data types and<br/>algorithms. Students work on a project of

This course teaches advanced data types and algorithms. Students work on a project of their own choosing utilizing a professional IDE such as Eclipse or Net Beans.

## AP COMPUTER SCIENCE A Grades: 11-12 (GHS, LHS)

Prerequisite: Programming 1 1.0 credit The AP Computer Science A course is equivalent to a first-semester, college-level course in computer science. The course introduces students to computer science with fundamental topics that include problem-solving, design strategies and methodologies, organiz-ation of data (data structures), approaches to processing data (algorithms), analysis of potential solutions, and the ethical and social implications of computing. The course empha-sizes object-oriented and imperative problem-solving and design using the Java language. These techniques represent proven approaches for developing solutions that can scale up from small, simple problems to large, complex problems.

AP AP COMPUTER SCIENCE PRINCIPLES Grades: 10-12 (GHS, LHS) Prerequisite: Web Design 1, Creative Computing, or Applied Computing

1.0 credit

AP Computer Science Principles offers a multidisciplinary approach to teaching the underlying principles of computation. The course will introduce students to the creative aspects of programming, abstractions, algorithms, large data sets, the Internet, cybersecurity concerns, and computing impacts. AP Computer Science Principles also gives students the opportunity to use current technologies to create computational artifacts for both self-expression and problem solving. Together, these aspects of the course make up a rigorous and rich curriculum that aims to broaden participation in computer science.

#### WEB DESIGN 1 Grades: 9-12 (HHS) 10-12 (CHS)

## Prerequisite: None

0.5 credit

This course focuses on the creation and maintenance of web pages. Students will learn the essentials of HTML and CSS using a text editor and web graphics using Photoshop Creative Suite. Topics include website creation, web page elements, production tools, graphics, layout and design, and animation.

WEB DESIGN 2

Grades: 10-12 (CHS, HHS)Prerequisite: Web Design 10.5 creditWeb Design 2 builds upon concepts and skillslearned in Web Design 1.

#### APPLIED WEB DESIGN Grades: 11-12 (CHS) Prerequisite: Web Design 2

**Prerequisite: Web Design 2 0.5 credit** Applied Web Design will continue development of skills using authoring tools to design and maintain web sites. This course introduces the creation of sophisticated, dynamic, inter-active websites using modern JavaScript frameworks and advanced tools, concepts, and techniques. Students are also encouraged to drive their own learning by focusing on an independent project. Tools students will apply are Notepad++ and Adobe Creative Suite, among others.

#### **RESEARCH and DEVELOPMENT**

Grade: 12 (CHS, GHS, HHS, LHS) Prerequisite: None

 Prerequisite: None
 0.5 credit

 This course
 provides structured guidance for

students completing their senior exhibition in a physical science, engineering, or technology. The curriculum is designed for scientific inquiry and is made flexible enough to appeal to a variety of student interests. Students will learn advanced research skills necessary to prepare their senior project in scientific research or technological design. The course combines hands-on activities, demonstrations, group challenge problems, and a long-term student project.

# INFORMATION TECHNOLOGY

#### **CREATIVE COMPUTING**

Grades: 9-10 (CHS, GHS, HHS) Prerequisite: None

0.5 credit Creative Computing (based on the Exploring Computer Science (ECS) curriculum) is designed to introduce students to the breadth of the field of computer science through an exploration of engaging and accessible topics. The course is designed to focus on the conceptual ideas of computing and help students understand why certain tools or languages might be utilized to solve particular problems. The goal of Creative Computing is to develop in students the computational practices of algorithm development, problem solving and programming within the context of problems that are relevant to the lives of today's students. Students will be introduced to topics such as human and computer interaction, web design, programming, and artificial intelligence.

#### APPLIED COMPUTING Grades: 9-10 (GHS, HHS) Recommended: Creative Computing 0.5 credit

Applied Computing (based on the Exploring Computer Science (ECS) curriculum) is designed to introduce students to the breadth of the field of computer science through an exploration of engaging and accessible topics by expanding upon the topics of Creative Computing within the context of problems that are relevant to the lives of today's students. Students will be introduced to such topics as robotics, problem solving, and computing and data analysis.

The Education Career Cluster spans careers aimed at fostering learning from early childhood to adulthood, including teaching, instructional design, counseling services, community engagement, learner support, and educator training. This Cluster emphasizes quality education standards and lifelong learning, preparing individuals for success through all life stages by nurturing knowledge, skills, and critical thinking and encouraging personal and societal growth in a constantly evolving world.

# EARLY CHILDHOOD EDUCATION

#### **CHILD DEVELOPMENT 1**

#### Grades: 9-12 (CHS, GHS, HHS, LHS) Prerequisite: None 0.5 credit

Child Development 1 will focus on important aspects of human development from prenatal through the toddler years. All aspects of develop-ment will be explored including physical, social, emotional, language, and cognitive. Activities and projects will emphasize the understanding of the areas of development. Child Development assists students who are interested in the field of early childhood education, education, health, social services, and family law.

#### CHILD DEVELOPMENT 2 Grades: 9-12 (CHS, HHS, LHS) Prerequisite: Child Development 1

0.5 credit

This class has been developed as an introductory course for students who are interested in becoming educators, coaches, counselors, parents or other careers that focus on working closely with children. Focused on the preschool - elementary aged child, this course will explore developmental domains and stages and practices in early childhood education. Students will learn theories and techniques that will help them to plan for, interact, care for, and educate young children. Additionally, students will have handson practical experiences to directly relate, observe and use the concepts learned in class. The skills gained in this class are meant to lead them directly into Child Development 3.

#### CHILD DEVELOPMENT 3 Grades: 10-11 (\*\*CHS, GHS)

## 11-12 (CHS, HHS, LHS) Prerequisites: Child Development 2

#### 1.0 credit

This course is for students exploring careers in education, child care, or related social services. Child Development 3 is a yearlong course for students to gain the skills and knowledge necessary to work with children ages three to six. Students will play an integral part in running the onsite learning lab Early Childhood Education preschool program by planning lessons, preparing activities, performing observations, and developing introductory job skills related to education. \*\* Child Development 3 available on 10th grade with instructor approval only.

#### **CHILD DEVELOPMENT 4**

Grades: 11-12 (CHS, GHS) 12 (HHS, LHS)Prerequisite: see below\*1.0 credit

This class is for students interested in careers in education, child care, or related social services. In this year long course students will apply the skills learned in foundational courses including: classroom management, teaching and learning strategies, and lesson planning. Students take on more of an active teaching role while working in the preschool. \* Child Development 3, administrative approval

#### INTRODUCTION TO CDA Grades: 9-11 (LHS) Prerequisite: None

The Introduction to CDA (Child Development Associate certificate) course is to guide students in developing a professional portfolio that speaks fto all six of the competencies in early childhood education. This course will be for students who are determined to work in an early childhood setting. Members within our community will be utilized to offer authentic experiences beyond the onsite careertechnical preschool. Going off campus will be an integral part of the student's professional development as well as a way to obtain a summer internship.

#### CHILD DEVELOPMENT Grades: 9-12 (HOA) Prerequisite: None

This course explores the journey of childhood from the womb to adolescence, delving into developmental stages, nature versus nurture, and essential care practices. Advance your understanding by learning about boundary setting, stress management, supporting diverse needs, and preparing for a fulfilling career in working with children and teens.

#### EARLY CHILDHOOD EDUCATION Grades: 9-12 (HOA) Prerequisite: None

## 1.0 credit

1.0 credit

0.5 credit

This course dives into the rewarding world of Early Childhood Education, where you'll learn about child development stages, educational best practices, and the art of nurturing young minds through play. This course offers insights into creating engaging activities that foster literacy and math skills, understanding the caregiver-parent relationship, and equipping you for a successful career in childcare.

#### HUMAN GROWTH AND DEVELOPMENT Grades: 9-12 (HOA) Prerequisite: None 1.0 c

1.0 credit

This course embarks on a comprehensive exploration of Human Growth & Development, from infancy through adulthood, understanding physical, cognitive, social, and emotional changes at each stage. This course delves into developmental theories, milestones, health and safety strategies, and the dynamic transitions of adulthood, equipping you with essential knowledge for careers in education, social sciences, or medicine, and fostering personal and professional growth.

#### TEACHING & EDUCATION Grades: 9-12 (HOA) Prerequisite: None

#### 1.0 credit

This course starts your transformative journey in our teaching capstone, tailored for aspiring educators passionate about inspiring young minds. Explore the essentials of becoming a dynamic classroom teacher, understand the impact of school climate and educational policies, and learn strategies for engaging today's diverse, tech-savvy students. This course also equips you with essential workforce skills, including personal leadership, effective communication, and goal setting, culminating in a robust foundation for a successful teaching career.

#### COMMUNITY SERVICE LEARNING ELECTIVE: Early Education Grades: 10-12 (CHS, HHS)

#### Prerequisite: Application and teacher approval 0.5 credit\*

Students will be set up with an internship site relating to working with young children (elementary school, child care center, preschool program, or in-house internship at sponsored preschool). Students will earn credit based on hours served at their site, feedback from mentors, and weekly reflections. These seniors will also complete their senior capstone project in this class. ONLY students who have been pre-approved and completed the fast track requirements of completing Child Development 4 by the end of 11th grade should request this class.

Early Childhood Education: learn about the Western Oregon University Bilingual Teacher Scholars ("WOU Scholars") program at <u>bit.ly/2qy1kk8</u>

The Financial Services Career Cluster encompasses careers in managing and advising financial transactions, including banking, lending, corporate finance, debt management, accounting, insurance, and real estate. These careers contribute to economic stability and growth by supporting the financial health of individuals and organizations.

# **Healthcare & Human Services**

Supporting the Whole Health of Individuals, Families, and Communities

The Healthcare & Human Services Career Cluster promotes whole health in individuals and communities through a diverse array of services. This sector includes technical, mental, and therapeutic services and personal care, supported by medical and social sciences. By addressing social determinants of health and leveraging health data and science, this Cluster aims to enhance the overall health and resilience of individuals, families, and communities.

## INTRODUCTION TO HEALTH SCIENCE

Grades: 9-10 (LHS, HHS) 9-12 (CHS, GHS) Prerequisite: None 0.5 credit

This course provides students with the basics for high school success and the concepts leading to a greater understanding of health sciences as well as the professions of health sciences. Students explore concepts related to health care ethics, professions, basic skills of communication, and foundational physiological concepts. Content taught will also help students learn about pathways that lead to applied health occupations. Students will be exposed to careers in health sciences through speakers, job shadow opportunities, service work to better understand the health care needs of our diverse community, and field trips to community colleges, or universities. The course culminates in a health science leadership project and is part of the Health Science career learning area.

#### **HUMAN ANATOMY & PHYSIOLOGY**

Grades: 11 (LHS) 11-12 (CHS, GHS, HHS, HOA) Prerequisite: None 1.0 credit

Anatomy and Physiology is a lab-based study of human structure and function. It is designed for students interested in medical, health, or fitness related careers. The ana-tomy and physiology of each system is explored through labs, dissections, case studies, and other activities.

At CHS this course is blocked with Health Sciences 1.

#### HEALTH SCIENCES 1 Grades : 11 (LHS) 11-12 (CHS, GHS) Prereguisite: None 1.0 credit

Health Sciences 1 is designed for students interested in medical, health science, or fitness related careers. Curri-culum includes First Aid/CPR/AED certification and possible opportunities to explore health science careers through speakers, field trips, job shadows and hospital volunteering. A focus on professional skills is included in daily activities.

At CHS this course is blocked with Anatomy & Physiology.

#### **HEALTH SCIENCES 2**

#### Grade: 12 (CHS, GHS, LHS) Prerequisite: Health Sciences 1 & Anatomy & Physiology 1.0 credit

This class is for students interested in careers in edis the culmination course for the Health Sciences pathway. This course will focus in greater depth on the body systems and medical terminology. A focus on professional skills, bioethics of healthcare, and postsecondary preparation is included in daily activities. Students are required to complete an experiential learning opportunity in the health science field as well as a service project, a compilation of a body of evidence and a research paper.

#### FITNESS TRAINING & SPORTS MEDICINE Grades: 10-12 (CHS, HOA) Prerequisite: None 1.0 credit

This course is for students interested in pursuing careers in the Health Services field, including Sports Medicine and personal training. Topics of study include anatomy and physiology, kinesiology, exercise physiology, sports nutrition, injuries, assessment, and responding to emergencies.

#### HEALTH OCCUPATIONS: CERTIFIED CLINICAL MEDICAL ASSISTANT Grade: 12 (CHS, GHS)

Prerequisite: Health Science 1 & Anatomy & Physiology 1.0 credit

A certified clinical medical assistant (CCMA) is a medical assistant who has gone further in their career by qualifying for certification. Medical assistants fulfill both clinical and administrative tasks at hospitals, physicians' offices, and other medical settings. In comparison, CCMA responsibilities focus more on the clinical side of these tasks. These may include measuring patients' vital signs, recording their medical histories, preparing examination rooms, disinfecting medical instruments, drawing blood, giving injections, and administering medication. All of this is usually done under the supervision of a physician. You may also work closely with the physician and aid them during patient examinations by acting as another set of hands. Century Health Science is offering this as a one credit course. Students may complete a clinical rotation.

CHS: May be taken concurrently with Health Science 2.

*GHS: Must be taken concurrently with Health Science 2.* 

#### HEALTH OCCUPATIONS: DENTAL ASSISTANT Grade: 12 (GHS)

# Prerequisite: Health Sciences 1 & Anatomy & Physiology 1.0 credit

Dental assistants are essential team members in a dental practice. Working closely with the dentist and/or hygienist, dental assistants use their skills to provide quality dental care to diverse patients with a wide range of needs. Dental hygienists prepare instrument trays and sterilize instruments while practicing proper infection control. They may administer and process x-rays. Dental assistants also work with administrative staff in the business office scheduling appointments, maintaining dental records, and managing supplies.

During this course, students will complete clinical hours on a regular basis at community dental practices. Students will be preparing to take three credentialing exams to become an Expanded Functions Dental Assistant (EFDA).

It's recommended this course be taken concurrently with Health Science 2 so students can earn free dual credit for Medical Terminology through PCC.

Senior graduation capstone requirements will not be met in this course. Students must take this course concurrently with Health Sciences 2.

#### HEALTH OCCUPATIONS: PHARMACY TECHNICIAN Grade: 12 (CHS, GHS)

# Prerequisite: Health Sciences 1 & Anatomy & Physiology 1.0 credit

Pharmacy technicians work closely with pharmacists, doctors, and nurses to ensure patients are receiving correct and appropriate prescriptions. Pharmacy technicians prepare new prescriptions and refills by packaging and labeling medications while verifying provider orders and patient information. Pharmacy technicians may prepare compounded medications or use automated dispensing machines. Pharmacy technicians work with administrative staff to maintain medical records, process insurance claims, and track inventory.

During this course, students will complete clinical hours on a regular basis at community pharmacies. Students will be preparing to take a credential exam to become a certified pharmacy technician (CPhT).

Senior graduation capstone requirements will not be met in this course. Students must take this course concurrently with Health Sciences 2.

#### HEALTH OCCUPATIONS: PHLEBOTOMY TECHNICIAN Grade: 12 (CHS)

# Prerequisite: Health Sciences 1 & Anatomy & Physiology 1.0 credit

This course is specially designed to introduce students to the essential skills and knowledge required for entry-level phlebotomy. This program covers the basics of venipuncture, blood collection techniques, and proper handling of blood samples. Students will learn the importance of infection control, patient interaction, and ethical considerations in healthcare. The course includes handson training to develop proficiency in using phlebotomy equipment and emphasizes safety protocols. Students will also gain an understanding of medical terminology related to phlebotomy procedures. Successful completion of the course prepares students for a phlebotomy certification exam, opening opportunities for entry-level positions in healthcare settings.Senior graduation capstone requirements will not be met in this course. Students must take this course concurrently with Health Sciences 2 or Health Occupations: CCMA

#### **IB** DP SPORTS, EXERCISE, AND HEALTH SCIENCE SL1 & SL2 Grada: SL1 (11) SL2 (12) (UUS)

Grade: SL1 (11) SL2 (12) (HHS)

Prerequisite: None 1.0 credit each The IB DP Sports, Exercise and Health Science course at standard level (SL) involves the study of the science that underpins physical performance. The course incorporates the traditional disciplines of anatomy and physiology, biomechanics, psychology and nutrition. Students cover a range of topics and carry out practical (experimental) investigations in both laboratory and field settings. This provides an opportunity to acquire the knowledge and understanding necessary to apply scientific principles and critically analyse human performance. Where relevant, the course will address issues of international dimensions and ethics by considering sport, exercise and health relative to the individual in a global context.

#### INTRODUCTION TO BIOSCIENCE TECHNOLOGIES Grades: 9-12 (HHS)

- Prerequisite: None

## 1.0 credit

# Bus transportation is available from other high schools.

In Introduction to Bioscience Technologies, students will learn about and discuss the ethical and moral questions invoked by current biological research topics, and perform experiments in class that are used by scientists to learn more about the natural world and improve human health. An emphasis will be put on exposing students to the plethora of career opportunities in biotech. The class will also focus on the wonders of DNA and the experiments done by scientists that take advantage of its properties.

## BIOMANUFACTURING

Grades: 10-12 (HHS) Prerequisites: Introduction to Bioscience 1 & 2 1.0 credit

Bus transportation is available from other high schools.

Biomanufacturing has two central themes: lab, chemical, and biohazard safety and the development of protein-based pharmaceuticals. First students will conduct activities and projects that simulate those used in bioscience laboratories and manufacturing facilities to ensure a safe and effective environment for those that work in them, as well as their community and environment. Students will also conduct experiments simulating the development, production, purification, and purity assessment of a protein based pharmaceutical. Students will gain experience that can be directly transferred to careers in the local bioscience technologies industry for employment soon after graduation, or further education and skills development in local colleges and universities.

# MEDICAL LABORATORY TECHNOLOGY Grades: 10-12 (HHS)\*

Prerequisite: Introduction to Bioscience Technologies 1.0 credit

Bus transportation is available from other high schools.

Provides basic concepts and technical skills necessary in the clinical laboratory field including safety, quality control, laboratory testing, and communication. This course provides an introduction to the field of clinical laboratory science. The role of medical laboratory sciences will be presented in the context of providing quality patient health care. The proper use and care of the microscope, centrifuge, spectrophotometer, and other laboratory equipment and supplies will be discussed. The course will focus on the physical, chemical, and microscopic assessment of the urine; the structure, function, and identification of normal blood cells; the determination and interpretation of blood glucose level; the inheritance, structure, and identification of ABO and Rh blood groups; the basic morphology and gram stain of clinically significant bacteria; lab safety techniques; quality control and general terminology utilized in the clinical laboratory. \*Available to students at CHS, GHS, or LHS that have taken and passed a minimum of one other health science course at their school prior to enrollment.

#### ADVANCED BIOSCIENCE TECHNOLOGIES Grades: 10-12 (HHS) Prerequisites: Introduction to Bioscience 1 & 2

1.0 credit

Advanced Bioscience Technologies will serve as the capstone course for the Bioscience Technologies College and Career Pathway. One aspect of the course will provide an overview and analysis of various bioscience technology work environments including research, development, and manufacturing. Development of skills needed for identification and procurement of entrylevel positions, education, and training opportunities in the bioscience field will also be covered. including portfolio development and refinement of professionalism, resume writing, and interview skills. Students will conduct their experiential learning opportunity and prepare their senior project presentation as a part of the class, including an extensive research project connected to their internship.

The other aspect of the laboratory-intensive course will focus on the strategies and techniques used to modify DNA as students complete a project to develop a unique recombinant DNA construct in partnership with a local research laboratory.

The Hospitality, Events, & Tourism Career Cluster encompasses a broad range of services and experiences related to food and beverage, lodging, travel, events, and conferences. This Cluster focuses on delivering quality customer service, memorable experiences, and seamless logistics to cater to the needs and preferences of guests, tourists, and event participants. The Cluster is characterized by its diversity, including everything from luxury hotels and international travel to local dining, cultural events, and business conferences, aiming to enhance the overall experience of visitors and attendees.

# CULINARY ARTS AND HOSPITALITY

#### **INTRO TO CULINARY ARTS**

Grades: 9-12 (CHS, LHS) Prerequisite: None

Prerequisite: None0.5 creditThis is the exploratory course for the Culinary

Arts and Hospitality pathway. The key components of this introductory course include fundamental cooking skills, the preparation of a wide variety of foods, and nutrition-related issues. Students will compare foods of various nutritional values as well as prepare and study foods from each of the food groups.

CHS: Students will pass the Washington County food handlers test.

#### **GOURMET FOODS & HOSPITALITY**

Grades: 10-12 (CHS) 11-12 (LHS)

**Prerequisite: Intro to Culinary Arts 1.0 credit** This is the foundation course for the Culinary Arts and Hospitality pathway. Through hands-on labs, group projects, and minicatering events, students will gain experience and knowledge in the foodservice and hospitality industries. Students will gain skills in basic food preparation, cost planning and inventory control. Students are required to have a current Food Handlers Card in order to fully participate in the class.

#### ADVANCED CULINARY ARTS Grades: 11-12 (CHS, LHS) Prerequisites: Gourmet Foods & Hospitality 2.0 credits\*

This is the culmination course for the Culinary Arts and Hospitality pathway. In this course students will continue to practice food preparation and other skills for the foodservice and hospitality industries through hands-on labs. Special emphasis will be on the lodging industry, tourism, and marketing. Students are required to have a current Food Handlers Card in order to fully participate in the class. Experiences are gained by planning and catering events. Culinary competition and other work- related skill competition will be offered.

\*CHS students take year 1 (1.0) in 11th grade and year 2 (1.0) in 12th grade. LHS students take a 2.0 double blocked class in 12th grade.

#### **RESTAURANT MANAGEMENT**

Grades: 9-12 (HOA) Prerequisites: None

#### 0.5 credits

Explore exactly what's needed to run a successful restaurant, including ordering supplies, hiring quality workers, maintaining inventory, and managing a large staff. Understanding such concepts as food safety, hygiene, customer relations, marketing, and using a point-of-sale system are crucial to being an effective restaurateur. Whether you are hoping to operate a casual sit-down eatery, oversee a fine dining establishment, or buy a food franchise, this course is the perfect first step.

Driving Business Success Across All Industries

The Marketing & Sales Career Cluster focuses on promoting products, understanding consumer needs, engaging with communities, and driving sales. It integrates digital marketing, data analysis, brand promotion, customer relationship management, strategic communications, human-centered design, and retail strategies to build strong customer connections and support business growth. This Cluster is essential in all industries for creating value, effectively reaching and engaging target audiences, and achieving commercial success in a competitive marketplace.

The Management & Entrepreneurship Career Cluster involves skills and occupations that are essential across all industries, focusing on business administration, operations optimization, strategic planning, workforce management, and entrepreneurship. It merges key areas such as data management and analysis, human resources, general operations, administrative support, project management, and organizational leadership. This Cluster ensures that businesses across all industries efficiently meet their goals, adapt to market changes, and maintain competitive advantage. By emphasizing entrepreneurship, this Cluster supports the creation of new ventures, driving economic growth and innovation and making it a cornerstone of modern economies.

These Career Clusters are also Cross-Cutting Clusters as the skills gained through these Career Clusters are applicable across all Career Clusters.

# **BUSINESS** AND MARKETING

#### **BUSINESS COMMUNICATIONS**

Grades: 9-12 (HOA) **Prerequisite:** None

No matter what career you're planning professional pursue, excellent to communication will be key to your success. Upgrade your abilities in speaking, listening, writing, using and reading body language, and communicating in teams and groups. Discover how to plan, create, and deliver business presentations and communicate through graphics. In no time, you'll be communicating with confidence, stand out from your peers, and impress your employer.

#### **BUSINESS LAW**

Grades: 9-12 (HOA) **Prerequisite: None** 

1.0 credit

0.5 credit

Explore what it means to run an ethical business, how to keep intellectual property, technology, and e-commerce safe and protected, understand insurance and taxes, and how to have a healthy workplace environment. Keep the business safe and growing by following the law.Explore the differences between criminal and civil law. Examine how state and federal regulations work to protect consumer and employees' rights, protect society and the environment, and understand how business contracts can work to protect everyone.

#### **PERSONAL FINANCE**

Grades: 10-12 (CHS, GHS, HHS, HOA, LHS) Prerequisite: None 0.5 credit

The purpose of this course is to give the student a working knowledge of everyday business and consumer transactions. Major concepts explored include: employment and income, money management, budgeting, checking and savings accounts, investments, credit (financial planning), consumerism, insurance, and taxation.

#### **ACCOUNTING 1**

#### Grades: 9-12 (HHS) 10-12 (CHS, GHS, HOA) **Prerequisite: None**

0.5 credit (HHS) 1.0 credit (CHS, GHS, HOA) Accounting 1 introduces basic accounting principles and procedures, including the accounting cycle, profit and loss, asset management, payables and receivables, and payroll. Simulated projects give students

practice in accounting using an automated computer program. Corporate accounting and special journals are introduced. Career opportunities are explored.

#### **ACCOUNTING 2**

Grades: 9-12 (HHS) 0.5 credit (HHS, HOA) **11-12** (CHS, HOA) 1.0 credit (CHS) **Prerequisite: Accounting 1** 

Accounting 2 gives students a continuation of the basic accounting principles learned in Accounting 1 and the ability to apply these principles to a broader range of experiences. The student will use the computer as a tool for accounting processes, including an automated accounting program. Managerial accounting, cost accounting, and accounting for nonprofit organizations are introduced. This course will prepare students for college-level accounting courses as well as entry-level positions in business.

#### **MARKETING 1**

Grades: 9-12 (CHS, GHS, HHS, HOA, LHS) Prerequisite: None

> 0.5 credit (CHS, GHS, HHS, LHS) 1.0 credit (HOA)

This course offers students the opportunity to develop leadership skills and to plan for careers in marketing, merchandising, and retailing. Topics include success strategies, starting a business, advertising, promotion, merchandising, and business organization.

#### **MARKETING 2** Grades: 10-12 (CHS, GHS, HHS, HOA, LHS) Prerequisite: Marketing 1

0.5 credit (GHS, HHS, LHS) 1.0 credit (CHS, HOA)

Marketing 2 is an advanced study course using the application of concepts through projectbased learning activities. Topics include and entertainment marketing, sports functions, market research, marketing management functions, business organization, communications, advertising, and promotion.

#### **MARKETING LAB**

Grades: 10-12 (CHS) 11-12 (GHS, HOA, HHS, LHS)

Prerequisite: Marketing 1 0.5 credit The Marketing Lab offers a dynamic program of management functions. Students will participate in the management of a successful business.

#### **SPORTS, ENTERTAINMENT & EVENT MARKETING** Grades: 10-12 (CHS, GHS, HHS, HOA, LHS) **Prerequisite: Marketing 1**

#### 0.5 Credit (CHS) 1.0 credit (GHS, HHS, HOA, LHS)

This foundation level course gives students exposure to such areas as event planning, event promotions and advertising, and facility and event management. In this course, students will be given the authentic opportunity to plan their own events.

#### **LIBERTY MARKETING &** MANAGEMENT, INC. Grade: 12 (LHS) Prerequisite: see below\*

#### 1.0 credit

This is an advanced application course open to students who are completing Liberty's Media Marketing and Management pathway. Students will have the opportunity to apply skills and knowledge acquired in previous LHS courses to marketing and management opportunities at Liberty High School. Applied learning opportunities may involve operating Liberty's student store and plan, organize and promote LHS athletic, music, or festival events.

\*Sports, Entertainment & Event Marketing

#### **MANAGEMENT/BUSINESS SEMINAR** Grades: 11-12 (GHS, HOA) 12 (CHS)

Prerequisites: see below\* 1.0 credit This course introduces basic business management concepts, current management theory, and research regarding organizing and managing processes, resources, and people. Changes in management are included, recognizing that society and technology place new demands on business and public enterprises. Business Seminar is designed to guide the business student through the senior project and the completion of the student's portfolio needed for graduation.

\*CHS: Marketing 1, Marketing 2 GHS: Marketing 1

## **b** IB DP BUSINESS MANAGEMENT SL Grades: 11-12 (HHS) Prerequisite: None

#### 1.0 credit

The Business Management course is designed to develop students' knowledge and understanding of business management theories, as well as their ability to apply a range of tools and techniques. Students learn to analyse, discuss and evaluate business

activities at local, national and international levels. The course covers a range of organizations from all sectors, as well as the sociocultural and economic contexts in which those organizations operate. The course covers the key characteristics of business organization and environment, and the business functions of human resource management, finance and accounts, marketing and operations management. Links between the topics are central to the course.

The Public Service & Safety Career Cluster encompasses roles in local, state, and federal government; legal and justice systems; security; and military operations, all aimed at promoting civic responsibility and ensuring the well-being, security, functionality, and resilience of communities, states, and countries.

# **COMMUNITY SERVICE**

#### CIVIC & COMMUNITY SERVICES 1 Grade: 10-11 (LHS) 11 (CHS,GHS)

# Prerequisite: None 1.0 credit

This course is the foundation for the Human Resource pathway. Students will explore five career areas in depth: Education, Aging and the Elderly, Nursing, Service, Social Problems and Solutions. Students will identify and research current issues and participate in community-based projects which will emphasize workplace connections and career opportunities. This course also prepares students for CCS 2 in the senior year. *CHS: Must do 10 service hours outside of class.* 

1.0 credit

#### **CIVIC & COMMUNITY SERVICES 2**

Grade: 12 (CHS, GHS, LHS) Prerequisite: None

CCS II is the culmination of the Human Resources pathway. It will con-tinue CCS 1's goal of college and career readiness and will focus on community activism. Students will design and implement their senior project during this class. Senior projects could include: a campaign to get a new sidewalk installed near school, organizing a public forum on a voter initiative, or organizing a community service event. In addition, each student will complete an internship related to his or her career interest as well as attend one community meetings that will be completed outside of class. To be eligible for the Human Resources pathway cord, students must earn a B or higher in their CCS 1, CCS 2 and either You & the Law, AP Economics, AP Government, AP Psychology, AP US History, Ethnic Studies or Psychology/Sociology classes.

# **FIRE SCIENCE**

#### INTRODUCTION TO FIRE & EMERGENCY SERVICES Grades: 10-12 (LHS)

high schools.

 Prerequisite: None
 1.0 credits

 Bus transportation is available from other

Introduction to Fire & Emergency Services explores career opportunities and requirements for emergency services responders. Related topics include nomenclature, history, basic chemistry and physics of emergency situations, life safety initiatives, laws, and loss analysis. Students become acquainted with the history, traditions, terminology, organization, and operation of the fire and emergency services industry. Typical job and operation descriptions will provide insight into the inner working of the fire service. Also included is an introduction to fire protection systems, specific fire protection functions, organization and function of the public and private emergency services. This course is the prerequisite to Fire Science 1. It is recommended for students enroll in a weight training class to build and maintain physical strength and conditioning.

#### FIRE SCIENCE 1 Grades: 11-12 (LHS) Prerequisite: Introduction to Fire & Emergency Services 1

Bus transportation is available from other high schools.

1.0 credits

Students entering this class should have a strong desire for a career in firefighting or Emergency Medical Service. This course is designed to provide an introduction to a

career in today's fire service. Fire department personnel who share their real-life experiences teach this class. This program provides an in-depth look at the three main areas of today's fire service: structural firefighting, wildland firefighting and EMS. Students will learn by interactive lectures, group projects, facility tours and state of the art equipment demonstrations. Learn the key concepts of today's fire service and how they are impacted by society. This course will also cover recruitment and hiring processes, structural firefighting, emergency medical service, wildland firefighting and , history of fire, and complete their BLS certification. It is recommended for students be enroll in a weight training class to build and maintain physical strength and conditioning required of this class and the position of a firefighter. Students must successfully complete Fire

Science 1 in order to be eligible for Fire Science 2.

#### FIRE SCIENCE 2 Grade: 12 (LHS) Prerequisite: Fire Science 1

 Prerequisite: Fire Science 1
 2.0 credits\*

 Bus transportation is available from other high schools.
 6

Year 2 students must have successfully completed Fire Science 1 and interview with the instructor before continuing to the second level. Continuing students should be physically fit with the ability to carry, lift or drag up to 70 lbs., utilize a variety of hand tools, demonstrate skills utilizing ladders, fans, hose streams and SCBAs. Ability to function within a team is desirable. This course is designed to provide a hands-on introduction to a career in today's fire service. This course builds on skills mastered in Fire Science 1. Class will be held at the Hillsboro Fire Training Center most of the year with some topics being covered on campus at Liberty HS. This course studies basic fire fighter safety, equipment, and procedures that are used during fireground operations. Students will learn through interactive lecture, demonstrations, and practical application led by instructors/firefighters from Hillsboro Fire & Rescue. Other areas of study include: understand the importance of physical fitness; utilize a variety of hand tools; demonstrate skills utilizing ladders, fans, hose streams and SCBAs; demonstrate basic search and rescue, extrication, and rope rescue. It is recommended for students to enroll in a weight training class to build and maintain physical strength and conditioning. Dual credit will be offered for this course that is equivalent to the following PCC course: FP 133: Wildland Firefighter (3)

Learn more about the Fire Science Career and College Pathway by visiting http://tinyurl. com/bdthtedx or scanning the QR code:

# INTERPRETING AND TRANSLATION SERVICES

#### INTERPRETING AND TRANSLATION 1 Grade: 10-12 (CHS)

Prerequisite: Bilingual1.0 creditStudents will be introduced to the skills and<br/>techniques of interpreting and translation.<br/>This course will focus on proper positioning,<br/>the ethics of interpreting and vocabulary<br/>development.<br/>Students will practice<br/>interpreting and translation in English and<br/>another language in which they are proficient<br/>in the educational and medical settings.

#### INTERPRETING AND TRANSLATION 2 Grade: 11-12 (CHS)

#### Prerequisite: Interpreting and Translation 1 1.0 credit

Students will review the skills learned in Interpreting and Translation 1 and continue to develop their language skills and use of technology used for interpreting and translating. Additionally, they will complete post-secondary planning and preparation and build their skills by participating in community service/job experiences.

# **LEADERSHIP**

#### **LEADERSHIP 1**

Grades: 9-12 (CHS, GHS, HHS) 9 (LHS)

Prerequisite: None

This course is designed to instruct students in the various methods and techniques for planning, implementing, and evaluating projects related to school activities. Topics include committee organization, goal-setting, decision-making, time management, and all aspects of program planning. Students will focus on leadership skill-building. May be repeated.

#### LEADERSHIP 2 Grades: 10-12 (GHS, HHS, LHS) Prerequisite: Leadership 1\*

This course is designed to build upon leadership skills involving planning, implementing and evaluating projects related to school activities. Topics include leading committees, project management and organization, SMART goal setting, time and task management, and all aspects of project and program planning. Students will focus on advanced leadership skill building. May be repeated.

\*No Prerequisite for LHS

#### **STUDENT GOVERNMENT**

Grades: 9-12 (CHS, GHS, HHS, LHS) Prerequisite: see below\* 1.0 credit

This year-long course is mandatory for all elected and appointed Student Government members. Advanced leadership skills will be reinforced while students plan for, run, and evaluate most of the activities within the school. Community service and school improvement projects are also a part of this class.

\*Elected or appointed to a student government office. Required for elected and appointed officers.

# OTHER

0.5 credit

1.0 credit

0.5 credit

#### COSMETOLOGY Grades: 9-12 (HOA) Prerequisite: None

#### 0.5 credit

In Cosmetology, you will learn all about this entertaining field and how specialized equipment and technology are propelling our grooming into the next century. Just like all careers, cosmetology requires certain skills and characteristics, all of which will be thoroughly explored in this course. You will learn about various beauty regimes related to hair, nails, skin, and spa treatments and discover how to create your own business model quickly and efficiently while still looking fabulous, of course.

Students from any high school may request this online course.

#### **FASHION DESIGN**

Grades: 9-12 (HOA) Prerequisite: None

#### 0.5 credit

Learn what it takes to get started in the fashion industry, from the careers available to new technology and trends reshaping the industry every day.

#### TEEN PARENT SUPPORT SEMINAR Grades: 9-12 (CHS)

#### Prerequisite: see below\* 0.5 credit

This course is designed to assist the schoolaged mother or father and pregnant young women. Prenatal information, individual and group guidance, and parenting education are included. Full-time child care is provided on the Century campus.

\*Pregnant students or teen parents: required if teen parent's child is in the nursery.

The Supply Chain & Transportation Career Cluster encompasses the transfer, coordination, and management of goods from production to consumption, ensuring efficient movement across various modes of transportation including air, ground, and water, as well as maintenance of the respective transport modes. This Cluster integrates logistics and distribution networks to facilitate the seamless flow of materials and products, playing a crucial role in global commerce, economic development, and community health.

# AEROSPACE

#### INTRODUCTION TO AEROSPACE Grades: 10 (LHS)

#### 1.0 credit Bus transportation is available from other high schools.

This is an introductory course designed to give students a background in the aerospace industry from a multiplicity of cultural and career perspectives and offers students a wide overview of many possible career paths as well as a base of knowledge from which to build in later courses should they wish to continue with their aviation studies on either the Pilot Pathway or the Aviation Mechanic Pathway.

#### **MECHANIC 1: AIRCRAFT APPLIED SCIENCE**

#### Grade: 11 (LHS) 1.0 credit Prerequisite: Introduction to Aerospace

Bus transportation is available from other high schools.

This mechanics-based aerospace course covers aircraft weight and balance procedures and associated record keeping. Students will also learn and have hands-on experience with aircraft drawings, precision measuring tools and some basic principles of physics.

#### **MECHANIC 2: MATERIALS & PROCESSES AND AVIATION CFRs** 2.0 credit Grade: 12 (LHS)

Prerequisite: Introduction to Aerospace

Bus transportation is available from other high schools.

This mechanics-based aerospace course covers several general aircraft maintenance subjects including power tools, shop equipment, aircraft hardware, fluid lines and fittings, non-destructive testing methods, heat treatment, aircraft cleaning, and corrosion control.

#### **PILOT 1: AERODYNAMICS AND** SYSTEMS

#### Grade: 11 (LHS) 1.0 credit Prerequisite: Introduction to Aerospace

Bus transportation is available from other high schools.

introduces aerodynamics This course through hands-on learning, exploring various concepts & theories relevant to modern aviation, including the positive and negative effects of various aerodynamic forces and how pilots manipulate those forces to affect

the performance of various airborne and ground based vehicles. Students will look at the impact that weight distribution can have upon an airborne vehicle's aerodynamic controllability, and how atmospheric conditions affect the aerodynamic properties of objects. Students will explore the systems that make manned and unmanned aircraft work, including propulsion, fuel, electrical, landing gear, and environmental systems as well as the flight instruments associated with each system and how to identify and troubleshoot common problems.

#### **UAS OPERATIONS: DRONE PILOT -**PART 107 LICENSE

#### Grade: 11-12 (LHS) 1.0 credit Prerequisite: Introduction to Aerospace

Bus transportation is available from other high schools.

This course will cover small unmanned aircraft performance, ethics, human factors, aeronautical decision-making and judgment, safety protocols, weight and balance, maintenance, aviation weather sources and effects of weather (micro-meteorology) on small unmanned aircraft performance, small unmanned aircraft loading and performance, emergency procedures, crew resource management, and preflight inspection procedures. Students will be provided the opportunity to participate in multiple practice examinations. Students will be prepared to complete the Federal Aviation Administration's Part 107 Remote Pilot Knowledge Test upon completion of this course.

#### **PILOT 2: PRIVATE PILOT GROUND** Grade: 12 (LHS) 2.0 credit Prerequisite: Aircraft Systems & Performance

Bus transportation is available from other

high schools.

This pilot-based aerospace course covers fundamentals of flight, aeronautical publications, Federal Aviation Regulations, navigation, flight planning, radio procedures, and weather. Presents sufficient knowledge to prepare for the FAA Private Pilot Airplane knowledge test. This course is designed to meet the requirements of Federal Aviation Regulations - 14 CFR Parts 61.103(d) & 61.105(b) or 141 Appendix B (3)(b) for obtaining endorsement for taking the FAA Private Pilot Airplane knowledge test.

# AUTOMOTIVE **TECHNOLOGY**

#### **AUTOMOTIVE TECHNOLOGY 1** Grades: 9-12 (HHS) **Prerequisite: None**

0.5 credit

Bus transportation is available from other high schools.

This course is designed for the student who has a desire to learn more about operating and maintaining an automobile. The curriculum focuses on auto shop safety, basic hand tools, basic car maintenance (basic fluid checks, checking tire air pressure, changing a tire, and putting on chains). Students will also learn to change the oil, check and replace brakes, about the cooling system, and an overall understanding of how the vehicle works. Students will disassemble and reassemble an automotive engine to understand how it works. Students explore how to buy a car and shop for insurance. Girls are strongly encouraged to sign up for this course.

#### **AUTOMOTIVE TECHNOLOGY 2** Grades: 9-12 (HHS) Prerequisite: Auto Tech 1

0.5 credit

Bus transportation is available from other high schools. The course focuses on the auto's electrical system. Students diagnose and troubleshoot problems in the electrical system and disassemble and reassemble various components of the starting and charging systems. Students get their own volt ohm meter as part of the class. The class teaches how to use the volt ohm meter and apply it to trouble shooting of the vehicle. This course prepares students to take the Automotive Service Excellence Electrical Certification test.

#### **AUTOMOTIVE TECHNOLOGY 3** Grades: 10-12 (HHS)

Prerequisite: Auto Tech 2 0.5 credit Bus transportation is available from other high schools.

This course combines hands-on work with self-paced theory and focuses on engine repair that includes diagnosis techniques for internal engine problems. Students disassemble, completely inspect, and reassemble a small gas engine that has to run. This course also focuses on electrical troubleshooting and enhances student understanding of computerized engine controls. This course prepares the

student to take and pass the nationallyrecognized Automotive Service Excellence Engine Repair exam.

#### AUTOMOTIVE TECHNOLOGY 4 Grades: 10-12 (HHS) Prerequisite: Auto Tech 3

Bus transportation is available from other high schools.

This course prepares students to take the Automotive Service Excellence Steering and Suspension test. Students will disassemble and reassemble the front suspension of a vehicle then perform an alignment. Students will also disassemble and reassemble several other steering and suspension components.

#### AUTOMOTIVE TECHNOLOGY 5 Grades: 11-12 (HHS) Prerequisite: Auto Tech 4

1.0 credit

Bus transportation is available from other high schools.

This course allows students to extend their knowledge by learning transmission theory and operation. Students get an opportunity to disassemble/reassemble and study the operation of a manual transmission, as well as an automatic transmission.

# DIESEL SERVICE TECHNOLOGY

#### INTRODUCTION TO DIESEL SERVICE TECHNOLOGY

Grades: 9-12 (CHS, GHS, HHS, LHS)

**Prerequisite: None** 0.5 Credit Bus transportation is available from other high schools.

This introduction course to Gas and Diesel Engines includes the basics of careers, safety, basic metalworking, general engine maintenance, tool identification, engine systems/parts, electrical basics such as series/ parallel circuits and starter/charging systems.

DIESEL SERVICE TECHNOLOGY 1 Grades: 9-12 (CHS, GHS, HHS, LHS) Prerequisite: Intro to Diesel Service Technology 0.5 Credit

Bus transportation is available from other high schools.

This course provides students advanced instruction in engine theory and operation with focus on a diesel engine It provides opportunity to learn fundamentals, basic repair, preventative maintenance, and troubleshooting/diagnosis of common engine faults and concerns.

DIESEL SERVICE TECHNOLOGY 2 Grades: 11-12 (CHS, GHS, HHS, LHS) Prerequisite: Diesel Service Technology 1

1.0 Credit

Bus transportation is available from other high schools.

This course introduces students to the different fuel systems used on a variety of diesel powerplants. It includes basic diagnostics and troubleshooting of diesel performance concerns and preventative maintenance of them.

#### **DIESEL SERVICE TECHNOLOGY 3**

Grades: 12 (CHS, GHS, HHS, LHS) Prerequisite: Diesel Service Technology 2

Bus transportation is available from other high schools.

Covers basic and advanced electrical theory, electrical components, and proper electric diagnostic procedures. Introduces basic and advanced electrical systems, the use of diagnostic tools, and maintenance. Includes electronic engine controls and multiplexing found on engines by local industry manufacturers.

se to Gas

2.0 credits

#### **NEWCOMER ELD**

Grade: 9-12 (CHS, GHS, HHS, LHS) Prerequisite: see below\*

This course is designed to accelerate the acquisition of the English language for students newly arrived to the U.S. school system. Students who have minimal English language proficiency will learn school procedures, introductory vocabulary based on thematic units, and cultural orientation. Selected mainstream classroom content may be covered with supplementary use of the first language in order to clarify concepts and facilitate a rapid transition to English.

\*Meets ELPA placement or WMLS-R level 1 placement criteria

#### **ELD 1: BEGINNING**

Grade: 9-12 (CHS, GHS, HHS, LHS)
Prerequisite: see below\*

2.0 credits

This course is designed for Beginning to Early Intermediate English language learners. Students at this level are able to read and demonstrate comprehension of basic grade-level information with very limited fluency. Some students are able to read and demonstrate comprehension of simple or highly contextualized information with limited fluency. Students are able to speak and write using simple language with limited accuracy and fluency. This course incorporates content specific vocabulary in the teaching of the forms and functions of the English language at the student's proficiency level.

\*Meets ELPA placement or WMLS-R levels 1-2 placement criteria

#### ELD 2: EARLY INTERMEDIATE/INTERMEDIATE Grade: 9-12 (CHS, GHS, HHS, LHS)

Prerequisite: see below\*

1.0 credit

This course is designed for Intermediate English language learners. Students at this level require ongoing instructional support in all content area. They are able to read and demonstrate comprehension of limited grade-level information with significant support. They are able to speak using some complex language and write with simple academic language with some accuracy and fluency. This course incorporates content specific vocabulary in the teaching of the forms and functions of the English language at the student's proficiency level.

\*Meets ELPA placement or WMLS-R levels 2, 2.5 placement criteria

#### ELD 3: INTERMEDIATE/EARLY ADVANCED Grade: 9-12 (CHS, GHS, HHS, LHS)

Prerequisite: see below\*

1.0 credit

This course is designed for Early Advanced English language learners. Students at this level require additional instructional support. They are further developing literacy skills to demonstrate comprehension of some grade-level information with approaching grade-level fluency. They are able to speak with increasingly complex language, and write with some academic language with adequate accuracy and fluency. This course incorporates content specific vocabulary in the teaching of the forms and functions of the English language at the student's proficiency level.

\*Meets ELPA placement or WMLS-R levels 2.5, 3 placement criteria

#### ELD 4: EARLY ADVANCED/ADVANCED Grade: 9-12 (CHS, GHS, HHS, LHS) Prerequisite: see below\*

1.0 credit

This course is designed for Advanced English language learners. Students at this level require minimal instructional support. They are further developing literacy skills to demonstrate comprehension of a range of complex and abstract grade-level information. They are able to speak and write using an extensive range of complex language with level of accuracy and fluency that closely resembles native English speakers.

\*Meets ELPA placement or WMLS-R 4, 4.5 placement criteria

#### ELD 4: READING & WRITING ADVANCED Grade: 11-12 (CHS, GHS, HHS, LHS)

Prerequisite: 2+ Years of ELD 4

1.0 credit

This course is designed for Advanced English language learners who have been in ELD 4 for 2 or more years. Students at this level require minimal instructional support in Listening and Speaking. They are further developing literacy skills in reading and writing to demonstrate comprehension of a range of complex and abstract grade-level information. They are able to speak and write using an extensive range of complex language with a level of accuracy and fluency that closely resembles native English speakers. This course will also engage in topics connected to college and career readiness.

#### **ELD TUTORIAL**

Grade: 9-12 (GHS, HHS, HOA, LHS) Prerequisite: None

0.5 credit

The program provides the students with a set of guidelines, learning tools, and academic tutoring which will enable them to become independent learners and make a successful transition into mainstream courses.

#### 🗘 HEALTH

#### Grade: 10 (CHS, GHS, HHS, HOA, LHS) Prerequisite: None

1.0 credit

This course covers concepts and skills necessary for attaining and maintaining personal wellness (the combination of physical, mental/ emotional, and social health) throughout one's life. Emphasis is placed on healthpromoting behavior as the most effective measure for preventing premature death and disease and leading a fulfilling and productive life.

Concepts covered include: alcohol, tobacco, and other drug prevention; prevention and control of disease; promotion of environmental health; promotion of healthy eating; promotion of mental, social, and emotional health; promotion of physical activity; sexual health; unintentional injury prevention; and violence and suicide prevention.

Skills for accessing information, self management, analyzing influences, interpersonal communication, goal setting, decision-making, and advocacy are taught and/or practiced in a health context to promote lifelong wellness. This class meets the health requirement for both the state and the district, and is aligned to current state standards.

# Health

Students are required to take four credits of Language Arts. For those who intend to attend college, advanced courses in language arts are highly recommended to prepare for the rigor of college-level writing. College credit and/or placement beyond introductory coursework may be obtained by successfully completing and testing in an Advanced Placement English course (refer to your college's catalog to determine the test scores that may qualify for college credit).

IB courses are offered at Hilhi only. More information about Language Arts courses are on the following pages.

# Language Arts

# Crade: 9 (CHS, GHS, HHS, HOA, LHS)

Prerequisite: None 1.0 credit This course is a study of language and literature that explores poetry, prose, drama short fiction, and novels. Students will analyze informational text in relation to the study of literature. Standards-based instruction and assessment in reading, vocabulary, grammar, critical thinking, speaking, listening, and literary response skills, as well as an ,introduction to academic research, media literacy, and the evaluation of sources, will give students the ability to structure an academic response to a variety of prompts. Academic language and vocabulary is embedded in instruction and formative assessments.

#### DUAL LANGUAGE PROGRAM (DLP) SPANISH LANGUAGE ARTS 9

Grades: 9 (CHS, GHS, HHS, LHS)

Prerequisite: DLP student 1.0 credit DLP Spanish Language Arts 9 is a continuation of the Dual Language Program Spanish Language Development coursework. This is a course designed to develop and improve a student's reading, writing, speaking and listening skills. This course offers Spanishspeaking students an opportunity to study Spanish formally, in an academic setting, in the same way that English-speaking students study English Language Arts. The Spanish language arts courses will alternate between Latin American and Spanish literature. This will help students further develop their biliteracy language skills, increase academic language, gain exposure to important pieces of text and practice cultural awareness. It will expand their bilingual range and will move them beyond basic language development to a broader command of the language.

#### ADVANCED ENGLISH LANGUAGE ARTS 9 Grade: 9 (CHS)

Prerequisite: None

2.0 credits

The advanced course is designed to challenge freshmen in the areas of reading comprehension, analysis, and higher order thinking in English. Topics in English include: short story elements and analysis, the epic hero, Shakespearean drama various literary genres integrated with World Studies topics, informational text reading strategies, and the development of advanced essay writing skills. Students will explore the required topics in world history using advanced readings and will demonstrate their knowledge through advanced writing, research, discussion, debate, and other activities. Outside reading and writing are a requirement for this class.

#### C ENGLISH LANGUAGE ARTS 10 Grade: 10 (CHS, GHS, HHS, HOA, LHS) Prereguisite: None 1.0 credit

This course is a study of literature, both classical and contemporary. It builds upon the reading, analysis, critical thinking, listening, speaking, and writing skills taught in English Language Arts 9. Standards-based instruction and assessment will continue to develop students' ability to compare and contrast informational and literary text, and increase their competence with academic research, in order to support a claim or craft a high-level response in different written genres. Academic language and vocabulary is embedded in instruction and formative assessments. Summative assessments are based on the ability to apply this knowledge.

#### ADVANCED ENGLISH LANGUAGE ARTS 10 Grade: 10 (CHS)

Prerequisite: None

#### 1.0 credit

1.0 credit

*Fulfills English Language Arts 10 requirement.* This advanced course will be fast-paced and will cover topics in greater depth by incorporating higher-level literature and coursework as well as several additional texts. Students should be passionate about reading and willing to read and annotate challenging material outside of class, taking notes and rereading difficult passages if needed. Because of the intense focus on writing and rhetoric, student must enter the course able to write an essay longer than five paragraphs independently. Presentation and participation in small group and large group discussions are an essential part of the course.

#### DUAL LANGUAGE PROGRAM (DLP) SPANISH LANGUAGE ARTS 10

#### Grades:10 (CHS, GHS, HHS, LHS) Prerequisite: DLP student

DLP Spanish Language Arts 10 is a continuation of the Dual Language Program Spanish Language Devel-op-ment coursework. This is a course designed to develop and improve a student's reading, writing, speaking and listening skills. This course offers Spanish-speaking students an opportunity to study Spanish formally, in an academic setting, in the same way that English-speaking students study English Language Arts. The Spanish language arts courses will alternate between Latin

American and Spanish literature. This will help students further develop their biliteracy language skills, increase academic language, gain exposure to important pieces of text and practice cultural awareness. It will expand their bilingual range and will move them beyond basic language development to a broader command of the language.

## C ENGLISH LANGUAGE ARTS 11

Grade: 11 (CHS, GHS, HHS, HOA, LHS) Prerequisite: None 1.0 credit

Building on analysis, critical thinking, speaking, listening, and writing skills, students will continue to make evidencebased claims while comparing multiple pieces of literary, informational, and historical test. Attention will be given to author purpose and the strategies authors employ in their writing. Students will apply this understanding, in multiple genres, to demonstrate how a writer's style contributes to the effectiveness of a selection. Argumentative, expository, and research writing are key instructional areas which will prepare students for collegelevel writing requirements. Students will be expected to achieve proficiency levels in 11th grade reading and writing standards which expand on the 9-10 academic standard requirements.

#### DUAL LANGUAGE PROGRAM (DLP) SPANISH LANGUAGE ARTS 11 Grades:11 (HHS, LHS)

Prerequisite: DLP student

1.0 credit

DLP Spanish Language Arts 11 is a continuation of the Dual Language Program Spanish Language Development coursework. This is a course designed to develop and improve a student's reading, writing, speaking and listening skills. Attention will be given to author purpose and the strategies authors employ in their writing. Students will apply this understanding, in multiple genres, to demonstrate how a writer's style contributes to the effectiveness of a selection. Argumentative, expository, and research writing are key instructional areas which will prepare students for college-level writing requirements. Students will be expected to achieve proficiency levels in 11th grade reading and writing standards which expand on the 9-10 academic standard requirements. This will help students further develop their biliteracy skills, increase academic language, gain exposure to important pieces of text and practice cultural awareness.

#### **ADVANCED ENGLISH LANGUAGE ARTS 11**

Grade: 11 (CHS) **Prerequisite: None** 1.0 credit

Fulfills English Language Arts 11 requirement. This course includes a survey of American literature from the Civil War to the present. Students should be motivated readers and able to persist through challenging material (i.e., early american novels such as The Scarlet Letter, Huckleberry Finn) independently without the help of Sparknotes, rereading difficult passages as needed. Writing assignments are research based and require student to seek information on their own from credible sources and incorporate it using MLA style. Vocabulary work will be intensely focused on preparation for standardized college placement tests (SAT, etc.). Students will be expected to give presentations and actively participate in class discussions and activities. Students must be able to devote at least one hour of homework time for each class session.

#### ENGLISH LANGUAGE ARTS 12

Grade: 12 (CHS, GHS, HHS, HOA, LHS)

**Prerequisite:** None 1.0 credit This course is a study of literature, contemporary nonfiction, and historical documents. Students will analyze and multiple integrate source of information in diverse formats (including media) to make evidence-based claims. Analysis of the connection between literary style and author's purpose will be applied in multiple genres. Critical reading strategies, collaborative discussion skills, effective technology use, as well as argumentative, expository, and research writing, are tailored to create a successful bridge for students from high school to college and career.

Arts and Communication pathway students should enroll in Humanities in lieu of this class.

#### **DUAL LANGUAGE PROGRAM (DLP) SPANISH** LANGUAGE ARTS 12

Grade:12 (HHS, LHS)

Prerequisite: DLP student 1.0 credit

DLP Spanish Language Arts 12 is a continuation of the Dual Language Program Spanish Language Development coursework. This is a course designed to develop and improve a student's reading, writing, speaking and listening skills. Students will analyze and integrate multiple source of information in diverse formats (including media) to make evidence-based claims. Analysis of the connection between literary style and author's

purpose will be applied in multiple genres. Critical reading strategies, collaborative discussion skills, effective technology use, as well as argumentative, expository, and research writing, are tailored to create a successful bridge for students from high school to college and career. This will help students further develop their biliteracy language skills, increase academic language, gain exposure to important pieces of text and practice cultural awareness.

This course may serve as the DLP Capstone course for 12th grade students

#### **COLLEGE PREP ENGLISH** LANGUAGE ARTS

Grade: 12 (CHS, HOA) **Prerequisite: None** Fulfills English Language Arts 12 requirement.

1.0 credit

The areas of study include British and world literature, with some study in art, philosophy, and history. Instruction in college composition will be an integral part of the course, with emphasis in advanced writing skills in writing, literary analysis, oral communication, and critical reading. Speeches are required.

#### **HUMANITIES** Grade: 12 (CHS, HHS)

**Prerequisite: None** 

Fulfills English Language Arts 12 requirement. Humanities is a study of literature integrated with art, music, drama, culture and philosophy readings spanning the development of culture with readings from the Greco-Roman, Medieval. Renaissance. Revolutionary, Modern and Postmodern eras. Students demonstrate understanding through written assignments as well as performance and art. At the end of the course, students will have a strong cultural literacy which will serve them well in their future endeavors. Students can receive writing credit through Portland Community College and Western Oregon University on the basis of a portfolio demonstrating collegelevel writing skills.

#### **SENIOR INQUIRY**

Grade: 12 (LHS) Prerequisite: see below\* 2.0 credits\*\* Fee: approximately \$900

All fields of human endeavor change over time. Major changes in perspectiveparadigm shifts-can be brought about by technological and scientific advances, historical events and innovative people. Some of these shifts are felt only personally or within a specific discipline,

but many have repercussions across fields. As means of travel and communication have improved, cultures and ideas have shifted with increasing frequency.

In this course, we explore the precursors, context and consequences of paradigm shifts that occurred during the late 19th and early 20th centuries. Senior Inquiry requires students to construct their own knowledge and take an active role in their learning, mirroring their growing personal responsibilities outside the classroom. Senior Inquiry provides students with an early college experience in the supported and familiar structure of high school, empowering students to build the skills they need to succeed in the future.

The program is modeled on Portland State interdisciplinary University's acclaimed university studies program, so students who successfully complete the year-long course will earn:

\*\*1.0 Language Arts credit

\*\*0.5 People and Politics Credit

\*\*0.5 Economics Credit

\*\*15 quarter credits from PSU

The PSU credits transfer to most other colleges and universities.

\* By application and counselor approval.

#### AP ANGLISH LANGUAGE & COMPOSITION Grades: 11-12 (CHS, GHS, LHS) Prerequisite: None 1.0 credit

The AP English Language and Composition course aligns to an introductory collegelevel rhetoric and writing curriculum, which requires students to develop evidence-based analytic and argumentative essays that proceed through several stages or drafts. Students evaluate, synthesize, and cite research to support their arguments. Throughout the course, students develop a personal style by making appropriate grammatical choices. Additionally, students read and analyze the rhetorical elements and their effects in nonfiction texts, including graphic images as forms of text, from many disciplines and historical periods.

#### **AP ENGLISH LITERATURE** & COMPOSITION Grades: 11-12 (CHS, GHS, LHS) Prerequisite: None

1.0 credit

The AP English Literature and Composition course aligns to an introductory college-level literary analysis course. The course engages students in the close reading and critical analysis of imaginative literature to deepen their understanding of the ways writers use

language to provide both meaning and pleasure. As they read, students consider a works structure, style, and themes, as well as its use of figurative language, imagery, symbolism, and tone. Writing assignments include expository, analytical, and argumentative essays that require students to analyze and interpret literary works.

#### 👌 IB DP LANGUAGE & LITERATURE SL1 & SL2\*

#### Grade: 11-12 (HHS) Prerequisite: None

1.0 credit each

This language and literature course introduces the critical study and interpretation of written and spoken texts from a wide range of literary and non-literary genres. The formal analysis of texts is supplemented by awareness that meaning is not fixed but can change in respect to contexts of production and consumption.

The course is organized into four parts, each focused on the study of either literary or nonliterary texts. Together, the four parts of the course allow the student to explore the English language through its cultural development and use, its media forms and functions, and its literature. Students develop skills of literary and textual analysis, and also the ability to present their ideas effectively. A key aim is the development of critical literacy. Students study works at standard level (SL) from a representative selection of genres, periods and places.

This is a two-year course which meets the 11th and 12th grade English language arts credit requirements. Students who successfully complete SL 1 and SL 2 will earn two credits.

\*This course is offered in both English A and Spanish A. Spanish A is a capstone course option for students in the Dual Language Program.

#### 15 IB DP LANGUAGE & LITERATURE\* **HL1 & HL2** Grade: 11-12 (HHS) **Prerequisite: None**

#### 1.0 credit each

The language A: language and literature course introduces the critical study and interpretation of written and spoken texts from a wide range of literary and non literary genres. The formal analysis of texts is supplemented by awareness that meaning is not fixed but can change in respect to contexts of production and consumption.

The course is organized into four parts, each focused on the study of either literary or non-literary texts. Together, the four parts of the course allow the student to explore the

English language through its cultural development and use, its media forms and functions, and its literature. Students develop skills of literary and textual analysis, and also the ability to present their ideas effectively. A key aim is the development of critical literacy. Students study works at the higher level from a representative selection of genres, text types, periods and places.

This is a two-year course which meets the 11th and 12th grade English language arts credit requirements. Students who successfully complete HL 1 and HL 2 will earn two credits.

#### **CREATIVE WRITING 1** Grades: 9-12 (CHS, HOA)

10-12 (HHS, LHS)

Prerequisite: None

0.5 credit

This course offers students the opportunity to produce various literary forms such as poetry, fiction, personal narratives, and journal writing. Students also learn how to edit and revise.

Elective only: Does not meet English graduation reauirement.

#### **CREATIVE WRITING 2**

Grades: 10-12 (CHS, HHS, LHS)

Prerequisite: Creative Writing 1 0.5 credit This course is for serious writers who wish to further develop their skills in a particular genre of writing. Independent projects will be student-driven, with a group workshop format to help students revise and revitalize their craft.

Elective only: Does not meet English graduation requirement.

#### **MYTHOLOGY & FOLKLORE** Grades: 9-12 (HOA) Prerequisite: None

0.5 credit

Since the beginning of time, people have gathered around fires to tell stories of angry gods, harrowing journeys, cunning animals, horrible beasts, and the mighty heroes who vanquished them. Mythology and folklore have provided a way for these colorful stories to spring to life for thousands of years and helped humans make sense of the world. Explore how these compelling tales continue to shape society even today.

Every student must earn three or more math credits (Algebra 1 level or higher) to graduate and be college-eligible. As of Fall 2024 Oregon public universities no longer require Algebra 2 for admissions. All additional credit opportunities (as listed) satisfy admissions to Oregon public colleges and universities. However, requirements for private, out of state, and specific programs may have other requirements. Please verify with post-secondary institutions for their specific requirements.

There are multiple pathways available to students based on their post-high school plans. For those intending to attend college, advanced courses are highly recommended to prepare for the rigor of college mathematics.

Most math courses have recommended prerequisites to guide appropriate course selection. Students are advised to discuss their math options with their teacher or counselor to select the course(s) and paths that best fit their individual education goals and plans. College credit may be earned by taking AP or IB courses.

IB courses are offered at Hilhi only.

Mathematics

#### **ALGEBRA 1**

#### Grades: 9-10 (CHS, GHS, HHS, HOA, LHS) Prerequisite: None 1.0 credit

The fundamental purpose of this course is to formalize and extend the algebraic learning that started in the middle grades. Students will apply the Mathematical Practice Standards alongside the Oregon State High School Math Standards (2021) in meaningful ways so they see math as a coherent, useful, and logical subject that can support their development of critical thinking and problem solving skill sets. The content presented will primarily include exponential and quadratic function families, in addition to a review of linear functions and how they compare to other functions. Core areas of curricular focus include applying appropriate algebraic techniques, modeling, analyzing graphs and functions, and analyzing linear, exponential, and polynomial (quadratic) function families.

#### ALGEBRA 1 BLOCK (Everyday) Grades: 9-12 (CHS) Prerequisite: Teacher recommendation 2.0 credits\*

This is a full-year, double-credit Algebra 1 course covering all the same content and concepts listed in the course description for Algebra 1. Students meet everyday, rather than every other day, as part of this course allowing for additional time, support, and reteaching opportunities.

\* 1.0 mathematics credit, 1.0 elective credit

#### **DATA REASONING & GEOMETRY**

Grades: 9-10 (CHS, GHS, HHS, HOA, LHS) Prerequisite: None 1.0 credit

The fundamental purpose of this course is to formalize and extend past the geometric and data reasoning topics that have been presented throughout students' elementary and middle grades experience. Students will apply the Mathematical Practice Standards alongside the Oregon State High School Math Standards (2021) in meaningful ways so they see math as a coherent, useful, and logical subject that can support their development of critical thinking and problem solving skill sets. In Data Reasoning, students will collaboratively use models, graphs, measures of central tendency, regression, and probability to make meaningful arguments about data and the story it tells. In Geometry, students will be exposed to topics that are critical to their mathematical development, including right triangle geometry and trigonometry, transformations, polygons, and proof/justification.

#### DATA REASONING & GEOMETRY BLOCK (EVERYDAY) Grades: 9-10 (CHS)

#### Prerequisite:None

#### 2.0 credits\*

This course is a full-year, double-credit course of the three-year math sequence. Everyday Geometry is intended to help students meet current district and state standards. Students explore complex geometric situations and deepen their explanations of geometric moving towards relationships, formal mathematical arguments. The 6 critical areas of focus are: Congruence, proof, and constructions, Similarity, proof, and trigonometry, Extending to three dimensions, Connecting Algebra and Geometry through coordinates, Circles with and without coordinates, and Applications of probability. Topics are stressed in an overall environment of problem-solving through translation of problems into solvable equations. Algebraic concepts will be taught kinesthetically and abstractly, to help students understand algebra topics better. A scientific calculator is strongly recommended.

\* 1.0 mathematics credit, 1.0 elective credit

#### ADVANCED ALGEBRA WITH FINANCIAL APPLICATIONS Grades: 11-12 (CHS, HHS)

**Prerequisite: Algebra 1 + Geometry 1.0 credit** Financial Algebra is an algebra-based, applications-oriented, blended learning course that requires Algebra 1 and Geometry as a prerequisite. The course extends Algebra 1 concepts through the lens of real world financial applications. Students will use a variety of problem-solving skills and strategies.

#### DATA SCIENCE Grade: 10-12 (CHS, GHS, LHS)\* Prerequisite: Algebra 1+Geometry

1.0 credit

In this course, students will utilize industrystandard tools in the field of Data Science and Analysis to deepen their knowledge of basic statistics, analyze real world problems, draw conclusions, and communicate their thinking. These tools could include Tableau, Excel, Google Sheets, CODAP, and more. Completion of this course supports subsequent success in all math classes, but specifically scaffolds for success in AP Statistics and AP Computer Science Principles.

\*HHS offers Data Science within IB DP Mathematics: Application & Interpretation SL/HL

#### ALGEBRA 2

#### Grades: 10-12 (CHS, GHS, HHS, HOA, LHS) Prerequisite: Algebra 1+Geometry 1.0 credit

Building on their work with linear, quadratic, and exponential functions, students extend their repertoire of functions to include polynomial, rational, and radical functions. Students work closely with the expressions that define the functions, and continue to expand and hone their abilities to model situations and to solve equations, including solving quadratic equations over the set of complex numbers and solving exponential equations using the properties of logarithms. The three critical areas of focus are: polynomial, rational and radical relationships; modeling with functions; and inferences and conclusions from data. The Mathematical Practice Standards apply throughout the course and, together with the content standards, prescribe that students experience mathematics as a coherent, useful, and logical subject that makes use of their ability to make sense of problem situations. A scientific calculator is strongly recommended.

#### DATA SCIENCE/IB DP MATHEMATICS: APPLICATIONS & INTERPRETATION SL/HL Grades: 11-12 (HHS) Prerequisite: Geometry 1.0 credit

1.0 credit

IB DP Mathematics: Applications and Interpretation is designed for students who are interested in a higher-level mathematics course and who may be most interested in pursuing the social sciences, medicine, or business. Most colleges and universities view this course as a replacement for Algebra 2 in a student's schedule. Topics covered include: Algebraic sequences, functions, geometry and trigonometry, statistics and probability, and calculus. The same topics are covered in both SL and HL, and more time is spent on the geometry, functions, trigonometry, and statistics sections in the HL curriculum. Students complete a project based on personal research by collecting, analyzing, and interpreting data. Students may choose to take the IB exam for their respective level of the course in May of the second year. A Texas instruments graphing calculator is required and may be checked out from the school.

## IB DP MATHEMATICS: ANALYSIS & APPROACHES SL/HL Grades: 11-12 (HHS)

Prereguisite: Algebra 2 1.0 credit each

IB DP Mathematics: Analysis and Approaches is designed for students who are interested in a higher-level mathematics course and who wish to study mathematics as a subject in its own right or to pursue their interests in areas related to mathematics or engineering. It will appeal to students who are interested in exploring real and abstract applications of mathematical concepts. The course has a strong emphasis on the ability to construct, communicate, and justify correct mathematical arguments. Topics covered include number and algebra, functions, geometry and trigonometry, statistics and probability, and calculus. The same topics are covered in both SL and HL, and more time is spent on the geometry, trigonometry, and calculus sections in the HL curriculum. The HL version of the course encompasses much of the content taught in AP Calculus BC. Students complete a project based on personal research by investigating, problem-solving, and modeling an exploration of an area of mathematics. Students may choose to take the IB exam for their respective level of the course in May of the completing year. A Texas instruments graphing calculator is required and may be checked out from the school.

#### **PRE-CALCULUS**

#### Grades: 10-12 (CHS, GHS, LHS, HOA) Prereguisite: Algebra 2 1.0 credit

Pre-Calculus is a rigorous course which emphasizes a multimodal approach to mathematics with concepts, results, and problems being expressed graphically, numerically, analytically, and verbally. This course is focused on the skills and knowledge necessary for the student to successfully continue their mathematics education with Calculus. More specifically, this course will cover and strengthen advanced algebra concepts through greater problem complexity, with a later focus on trigonometry and trigonometric functions.

#### AP CALCULUS AB Grades: 10-12 (CHS, GHS, LHS)

#### Prerequisite: Pre-Calculus 1.0 credit

AP Calculus is devoted to topics in differential and integral calculus. The AP course covers topics in these areas, including concepts and skills of limits, derivatives, definite integrals, and the Fundamental Theorem of Calculus. The course teaches students to approach calculus concepts and problems when they are represented graphically, numerically, analytically, and verbally, and to make connections amongst these representations. Students learn how to use technology to help solve problems, experiment, interpret results, and support conclusions.

#### AP CALCULUS BC Grades: 11-12 (GHS, LHS) Prereguisite: AP Calculus AB or Pre-Calculus

with teacher approval 1.0 credit In this rigorous college-level course, students will advance their understanding of calculus by learning and applying concepts and functions graphically, numerically, analytically, and verbally. The course requirements established by The College Board will all be followed, with the ultimate goal being both success on the BC Calculus AP exam as well as a deeper and more enduring understanding of calculus. Topics of this course will include: functions, graphs, and limits; derivatives; integrals; calculus with parametric equations, polar equations, conic sections, and vectors; and polynomial approximations and series. Calculus 1 (AP Calculus AB) are reviewed and enriched, and AP Calculus BC-specific topics are fully covered by this course. A graphing calculator is required.

#### STATISTICS Grades: 11-12 (HOA) Prerequisite: None

#### 1.0 credit

This course is designed to provide students with an introduction to the basic essentials of statistics. Topics include finding measure of sentence and spread, creating graphs with one or two variable data sets, and probability concepts. Students will learn the course concepts through handson experimentation and investigation. Links between statistics and real-world applications will be demonstrated. A graphing calculator is recommended.

# AP AP STATISTICS

Grades: 10-12 (GHS) 11-12 (CHS, LHS) Prerequisite: Algebra 2 1.0 credit

The course introduces students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data. There are four themes in the AP Statistics course: exploring data, sampling and experimentation, anticipating patterns, and statistical inference. Students use technology, investigations, problem solving, and writing as they build conceptual understanding. A Texas Instruments graphing calculator is required.

#### MATH 105z: MATH IN SOCIETY Grades: 11-12 (GHS) Prerequisite: None

1.0 credit

This course is an exploration of relevant mathematics that allows the student to develop in areas that include quantitative reasoning, problem-solving strategies, probabilistic and statistical reasoning, and the application of financial algebra. In addition to content objectives, the student is supported in growing their ability to not only think mathematically, but also communicate mathematically, through collaboration and the application of the Math Practices. Concurrent to supporting mathematical development, this course provides access to the foundational math required for many degrees (non-STEM, non-business) offered around the state and may be taken as a dual credit course where available (Math 105z).

#### COMPACTED ALGEBRA 2 WITH PRECALCULUS Grades: 10-12 (CHS)

Prerequisite: Algebra 1+Geometry 1.0 credit Students have the opportunity to advance their learning through this accelerated course that blends topics taught in Algebra 2 and Precalculus. Given the timeline, the pace of this course will be similar to college coursework, and the topics will mirror what's covered in Math 95, Math 111z, and Math 112z at the Oregon university level. Students will build on their knowledge of Algebra to discover, model, and analyze function families, conics, trigonometry, and other concepts that will support the student in future coursework. This course is primarily designed for students who plan to study a STEM field in college and would benefit from early access to AP Calculus.

0.5 credit

#### **O PHYSICAL EDUCATION 1**

Grade: 9 (CHS, GHS, HHS, HOA, LHS) Prerequisite: None

This course stresses sportsmanship and desirable social habits. A wide range of activities are available to increase knowledge, skill, understanding, and appreciation of recreational activities and sports. Activities, both aerobic and anaerobic, promote physical fitness, flexibility, strength, and cardiovascular endurance. An academic curriculum content is included.

#### **O PHYSICAL EDUCATION 2**

#### Grades: 9-12 (CHS, GHS, HOA, HHS, LHS) Prerequisite: None 0.5 credit

Students are encouraged to develop positive personal fitness. Both aerobic and anaerobic activities are included. Students engage in various lifetime carry-over activities through participation in various team sport activities and dual/individual activities presenting opportunity for social development.

#### PHYSICAL EDUCATION 3 Grades: 10-12 (LHS) Prerequisite: None

0.5 credit

This course is for students interested in continuing to improve their personal skills and knowledge. An ongoing fitness program including aerobic and anaerobic conditioning will be incorporated into activities. *This course fulfills PE 1 or PE 2 requirements.* 

#### ELECTIVE PHYSICAL EDUCATION Grades: 9-12 (HOA) Prerequisite: None

0.5 credit

Elective PE may be strength training and conditioning, court sports, dance, aerobic fitness or team sports. *Elective PE does not fulfill the PE 1 or PE 2 requirements.* 

#### **STRENGTH TRAINING & CONDITIONING**

Grades: 9-12 (CHS\*, GHS, LHS\*\*) 10-12 (HHS) Prerequisite: None 0.5 credit

This course is recommended for self-motivated students who wish to achieve a high level of physical development through weight training, running, flexibility work, and conditioning. Throughout this course, students will be introduced to, and participate in, the basic elements of developing a weight training program and the proper form and techniques of various lifts. Students will use stretching exercises to increase flexibility speed, agility, and endurance. Students will learn basic anatomy and nutrition as they relate to fitness, and work towards personalized goals.

Does not fulfill the Phyiscal Education 1 or 2 requirements. \*CHS: completion of Physical Education 1 \*\* LUS: tagehen approach for 0th grade students

\*\* LHS: teacher approval for 9th-grade students

#### ADVANCED STRENGTH TRAINING

Grades: 9-12 (LHS) 10-12 (CHS, HHS) Prerequisite: see below\*

#### 0.5 credit

This course is a continuation of the Strength Training and Conditioning class. The Advanced class focuses on functional strength training movements and exercises for those students who want to improve their lateral and linear speed, jumping ability, strength, flexibility, and overall explosiveness.

Does not fulfill the Phyiscal Education 1 or 2 requirements.

\*CHS, HHS: completion of Strength Training & Conditioning

LHS: completion of Strength Training & Conditioning; teacher approval for 9th-grade students

#### **TEAM SPORTS**

#### Grades: 9-12 (GHS) 10-12 (CHSHHS, LHS) Prerequisite: None

#### 0.5 credit

This course is recommended for students who want to play a variety of team sports at a more competitive level. Activities may include: fleetball, basketball, volleyball, indoor soccer, team handball, etc. Advanced game skills and strategies, competitive tournaments and refereeing opportunities are provided.

Does not fulfill the Phyiscal Education 1 or 2 requirements.

#### COURT SPORTS Grades: 9-12 (CHS, LHS) Prerequisite: None

#### 0.5 credit

Court Sports is an elective fitness class which provides students with the opportunity to play sports with less physical contact. Students will participate in activities such as: badminton, volleyball, tennis, and pickleball, etc. Singles and doubles, league play, and tournament play for each sport will allow students an opportunity to explore their single strengths and interests.

Does not fulfill the Phyiscal Education 1 or 2 requirements.

#### AEROBICS/FITNESS FOR LIFE Grades: 10-12 (CHS, LHS) Prerequisite: None

#### 0.5 credit

This course is recommended to students who want to learn a variety of ways to exercise. This class teaches lifelong fitness through a variety of exercises including but not limited to circuit and aerobic training, introduction to weight training, Tae-bo, Pilates, Yoga, stress management/relaxation, and recreational games. This course will teach students how to assess their fitness, establish goals, and prescribe an exercise plan to reach their fitness goals by using training principles in all components of fitness.

Does not fulfill the Phyiscal Education 1 or 2 requirements.

**Physical Education** 

#### UNIFIED PE Grades: 10-12 (CHS)

#### Prerequisite: None 0.5 credit

Unified Physical Education is a PE class made up of students with and without disabilities working together to build strong and healthy habits. This class focuses on lifelong fitness, healthy habits and creating respectful bonds with fellow students through active participation, cooperation and teamwork. Students earn .5 general education PE credit during the semester. The major objectives of this class include gross motor skill development, improved physical fitness and developing an understanding for various rules of different games and activities.

#### **ADAPTIVE PE**

Grades: 9-12 (CHS, GHS, HOA, HHS, LHS)

The Adapted PE class is for students on Individualized Education Plans (IEPs) who have cognitive, physical and/or behavioral disabilities that impact their ability to be successful in the general education PE class. This class focuses on building active and healthy lifestyles through a wide range of activities including soccer, basketball, baseball, Frisbee, bowling and various other games. Adapted PE stresses good sportsmanship, teamwork and lifelong healthy habits. In the Hillsboro School District, physics, chemistry and biology are required courses. Students may elect to take additional science classes for a fourth year of science.

IB courses are offered at Hilhi only.

More information about the courses is on the following pages.

\*Alternates fulfill course/graduation requirement

Science

# PHYSICS

#### **O** PHYSICS 1

Grade: 9 (CHS, GHS, HHS, HOA, LHS) Prerequisite: None 1.0 credit

This is a lab-based physics course (Patterns Physics) designed for freshmen based on the Next Generation Science Standards (NGSS). Using science and engineering practices and critical thinking students will discover and apply patterns in such major physics topics as motion, forces and momentum, energy, waves, and electromagnetism. Units include 1) Patterns, 2) Energy and Engineering, 3) Engineering a Shoe, 4) Waves and Technology, 5) Electricity, Power Production, and Climate Science, and 6) Space and the Universe. An important aim of the course is to develop and build students' mathematical and computational thinking, problem solving skills, scientific and technical literacy that will be useful in later science courses. The units also intentionally address career and college readiness. This course will address all Oregon Department of Education physics, inquiry, and engineering standards.

#### PHYSICS

Grades: 9-12 (CHS, GHS) Prerequisite: None

1.0 credit

Physics explores the laws of the universe, integrating concepts and observations with mathematical descriptions and models of phenomena. Topics include: interaction of forces, interactions of forces and matter, motion, energy, electricity, magnetism, waves, and electromagnetic radiation. Scientific inquiry, experimental design, and analysis through laboratory work are integral parts of this course. Scientific literacy through reading and writing in science are emphasized.

#### AP PHYSICS 1 Grades: 11-12 (CHS, LHS) Prerequisite: Algebra 2 recommended

1.0 credit

AP Physics is an algebra-based, introductory college-level physics course. Students cultivate their understanding of Physics through inquiry-based investigations as they explore topics such as Newtonian mechanics (including rotational motion); work, energy, power; and fluids.

# AP PHYSICS C

(Mechanics, Optional: Electricity & Magnetism) Grades: 11-12 (GHS, LHS)

Prerequisite: Pre-Calculus 1.0 credit This course is designed to provide a firm foundation in physics for students intending to emphasize science and engineering in their college or university education. The topics of mechanics, electricity, and magnetism will be studied in-depth. Laboratory work combines experimental work with mathematical analysis and technical writing. Laboratory experiments are used to both justify and verify mathematical relationships of physical laws. Calculus is utilized throughout the course to explain the workings of the physical universe. The course covers the skills and knowledge for the AP Physics: Mechanics test and the AP Physics: Electricity & Magnetism test.

#### **IB DP PHYSICS SL1** Grade: 11 (HHS) Prerequisite: Algebra 2 or with teacher approval 1.0 credit

This IB DP Standard Level physics course exposes students to this most fundamental experimental science. which seeks to explain the universe itself-from the very smallest particles to the vast distances between galaxies. Students develop traditional practical skills and techniques and increase facility in the use of mathematics, the language of physics. They also develop interpersonal skills as well as information and communication technology skills, which are essential in modern scientific endeavors and are important life-enhancing, transferable skills in their own right. Topics covered include kinematics, mechanics including force and motion, projectile and circular motion, gravity and energy. Lab is an essential part of the course.

This course is the first of two courses leading to the Standard Level IB exam.

#### **IB DP PHYSICS SL2** Grade: 12 (HHS)

Prerequisite: IB Physics SL1 1.0 credit IB DP Physics SL2 completes the IB Physics DP SL course. Additional topics include laboratory IB Internal Assessment, error analysis, waves, sound, light, electrostatics, electric circuits, atomic physics, quantum and nuclear physics, and one extended area of study in astrophysics or engineering physics. The Group Four project, "integrating physics with other sciences," will be completed. Students

completing the appropriate laboratory activities and the two years of the program requirements are eligible to take the IB Physics SL exam.

#### ASTRONOMY Grades: 11-12 (HOA) Prerequisite: None

1.0 credit

Astronomy is the scientific study of the contents of the Universe and all that is in it. This course provides an overview of the main concepts in astronomy and an opportunity to correct common astronomical misconceptions. The content includes, but is not limited to, ancient and modern astronomy, the celestial sphere, light and gravity as astronomical tools, the earth/moon system, the solar system, the life cycles of stars and galaxies. Student will have an opportunity to dig deeper into their individual astronomy-related interests.

*Elective course: does not fulfill the laboratory science requirement.* 

# **CHEMISTRY**

#### CHEMISTRY

Grade: 10 (CHS, GHS, HHS, HOA, LHS)

Prerequisite: None

1.0 credit

This is a lab-based chemistry course (Patterns Chemistry) designed for 10th grade students based on the Next Generation Science Standards (NGSS). Using science and engineering practices, students will explore the interactions among different forms of energy and matter. Topics covered include: physical properties and changes, Kinetic Molecular Theory and gas laws, periodic table and atoms, nuclear chemistry, bonding, chemical reactions, thermodynamics, kinetics, and equilibrium. An emphasis will be placed on the application of mathematical and computational thinking within the context of chemistry. This course will address all of the Oregon Department of Education chemistry, inquiry and engineering standards. This course is also available in Spanish as a Dual Language Program course at HHS.

#### ACCELERATED CHEMISTRY Grade: 10 (CHS, GHS) Prerequisite: None

1.0 credit

This course is a college-preparatory course for students interested in engineering, scientific, or medical careers or those who desire a challenging science course. Accelerated Chemistry deals with many of the modern theories of chemistry, including quantum theory, bonding theory, kinetic theory, and acid- base theories. The unifying thread of the course is the development of the atomic model. An approach to solving problems is developed at the beginning of the year and then utilized in different situations throughout the year. This approach is useful in other areas of study and vital in college science studies Descriptive chemistry is taught through laboratory work and demonstrations.

#### AP CHEMISTRY Grades: 11-12 (CHS, GHS, LHS) Prerequisite: Chemistry and Algebra 2 recommended 1.0 credit

The AP Chemistry course provides students with a college-level foundation to support future advanced coursework in chemistry. Students cultivate their understanding of chemistry through inquiry-based investigations, as they explore topics such as: atomic structure, intermolecular forces and bonding, chemical reactions, kinetics, thermodynamics, and equilibrium. Created by the AP Chemistry Development Committee, the course curriculum is compatible with many chemistry courses in colleges and universities.

# **BIOLOGICAL SCIENCES**

#### **BIOLOGY**

#### Grade: 11 (CHS, GHS, HHS, HOA, LHS) Prerequisite: None 1.0 credit

This is a lab-based Biology course (Patterns Biology)designed for 11th grade students based on the Next Generation Science Standards (NGSS). This course integrates science and engineering practices, multidisciplinary concepts and the following core ideas: 1) Biodiversity, 2) Biomolecules, 3) Cells to Organisms, 4) Genomics, 5) Evolution, and 6) Matter, Energy, and Climate Change. Throughout the course, students will focus on patterns, processes, and relationships of living systems. Interactions and interdependence of living systems will be explored through observations, investigations, models, and technology. Scientific and technical literacy is integrated throughout the course.

*This course is also available in Spanish as a Dual Language Program course at HHS.* 

#### AP BIOLOGY Grades: 11-12 (CHS, GHS, LHS) Recommended: Biology, Chemistry

#### 1.0 credit

AP Biology is an introductory college-level biology course. Students cultivate their understanding of biology through inquiry-based investigations as they explore the following topics: evolution, cellular processes energy and communication, genetics, information transfer, ecology, and interactions.

#### **IB DP BIOLOGY SL** Grades: 11-12 (HHS)

Prerequisite: Chemistry

1.0 credit

This course is a broad and rigorous study of biological concepts. Topics studied include cells, biochemistry, genetics and heredity, evolution, ecology, and human and plant physiology. Laboratory activities are inquirybased and assist students in developing their skills in designing experiments and analyzing data. Students who successfully complete this course are eligible to take the IB DP Biology SL examinations.

#### **IB DP BIOLOGY HL1** Grade: 11 (HHS)

**Prerequisite: Chemistry 1.0 credit** This course is an even broader and more rigorous, in-depth study of biological concepts. Topics studied include cells, biochemistry, genetics and heredity. Laboratory activities are inquiry-based and assist students in developing their skills for designing original experiments and analyzing data. This course is the first of two courses leading to the Higher Level IB exam.

#### **IB DP BIOLOGY HL 2** Grade: **12** (HHS)

**Prerequisite: IB DP Biology HL1 1.0 credit** This course completes the IB DP Biology HL curriculum. Topics studied in this course include cell energy, human and plant physiology, and ecology. Laboratory activities continue to be inquiry-based and further develop student skills in designing original experiments and analyzing data. Students who successfully complete this course are eligible to take the IB DP Biology HL examinations. Completion of IB DP Biology HL 1 and 2 can yield up to 12 credits at PCC, which will transfer to the Oregon University System.

# **INTEGRATED SCIENCES**

#### **ENVIRONMENTAL SCIENCE**

Grades: 9-12 (LHS) 11-12 (HOA) Prerequisite: None

1.0 credit

Environmental Science is an interdisciplinary course focused on the connections between the physical, chemical, and biological systems on earth. Understanding the natural cycling of water, nutrients, and energy is a primary focus of this course. The impact of human behavior as it applies to interactions with the natural world will be explored in detail. Concepts of sustainable and resilient human communities will be integrated into investigations of earth's systems and cycles.

#### AP AP ENVIRONMENTAL SCIENCE Grades: 10-12 (GHS) Prerequisite: Biology, Chemistry 1.0 credit and Algebra 1

The AP Environmental Science course is the equivalent of a one-semester, introductory college course in environmental science, through which students engage with the scientific principles, concepts, and methodologies required to understand the interrelationships of the natural world. The course requires that students identify and analyze natural and human-made environmental problems, evaluate the relative risks associated with these problems, and examine alternative solutions for resolving or preventing them. Environmental science is interdisciplinary, embracing topics from geology, biology, environmental studies, environmental science, chemistry, and geography.

#### **IB DP ENVIRONMENTAL SYSTEMS &** SOCIETIES SL Grades: 11-12 (HHS)

Prerequisite: None

#### 1.0 credit

IB Environmental Systems and Society is a complex course, requiring a diverse set of skills. It is firmly grounded in both a scientific exploration of environmental systems in their structure and function and in the exploration of cultural, economic, ethical, political, and social interactions of societies with the environment. As a result of studying this course, students will become equipped with the ability to recognize and evaluate the impact of our complex system of societies on the natural world. The course requires a systems approach to environmental understanding and problemsolving, and promotes holistic thinking about environmental issues, culminating with a project that encourages students to develop solutions from a personal to a community and to a global scale.

#### **FORENSIC SCIENCE**

Grades: 11-12 (CHS, HOA) Prerequisite: None

1.0 credit

Forensic Science looks at the variety of scientific techniques used in the exploration and establishment of facts or evidence from a crime or investigation. This multidisciplinary perspective utilizes skills from many fields of science such as chemistry, biology, geology, criminology, molecular biology, and anthropology. In this course students will learn techniques of collection and analysis to aid in the evaluation of a crime scene or investigation that can include violent crime, environmental hazards, accidents, and/or the establishment of identity and paternity.

*Elective course: does not fulfill the laboratory science requirement.* 

#### **MARINE SCIENCE**

Grades: 10-12 (HOA) Prerequisite: None

#### 0.5 credit

Examine the essential nature of water and how its special properties support all life on earth. Through the lens of the Scientific Method, you will engage with scientific inquiry to study aquatic ecosystems and how water, land, and weather all work together to create unique living environments. You will also learn about scientists who were critical to aquatic science and how to form valid and reliable conclusions from your study of water like they did.

*Elective course: does not fulfill the laboratory science requirement.* 

Every student must earn three or more credits in Social Sciences to graduate, including one credit each in World Studies and U.S. History, and 0.5 credit each in People & Politics and Economics (or their AP or IB course alternatives).

IB courses are offered at Hilhi only. More information about the courses is on the following pages.

indicates a required class

#### **WORLD STUDIES**

Grade: 9 (CHS, GHS, HOA, LHS) **Prerequisite: None** 

This full-year freshman course is designed to better acquaint students with the study of major world developments, increasing their knowledge of geography and history and how these studies relate to the world today. World Studies will also focus on the development of specific skills such as summarizing, categorizing, synthesizing, and analyzing various types of information. These skills will help students to increase their field-specific reading and writing ability. Students will also be encouraged to develop their speaking skills during informal discussions and formal presentations. This class is structured in a format that will include analysis of primary sources and discussion of this material.

1.0 credit

This course is also available in Spanish as a Dual Language Program course at CHS

### **AP** AP HUMAN GEOGRAPHY

Grades: 9 (CHS) 9-12 (GHS) 10-12 (LHS) Prerequisite: None 1.0 credit This course can fulfill the World Studies requirement for graduation.

The AP Human Geography course is equivalent to an introductory college-level course in human geography. The course introduces students to the systematic study of patterns and processes that have shaped human understanding, use, and alteration of Earth's surface. Students employ spatial concepts and landscape analysis to examine socioeconomic organization and its environmental consequences. They also learn about the methods and tools geographers use in their research and applications. The curriculum reflects the goals of the National Geography Standards (2012).

#### 🗘 U.S. HISTORY

Grades: 9 (HHS) 11 (CHS, GHS, HOA, LHS) **Prerequisite: None** 

1.0 credit This course examines the major themes, events, and people that have influenced American history from 1864 to the present. Events related to the political, economic, and social development of America will be covered in depth throughout the year, with special attention paid to identifying linkages between past and current events. Students in this course will analyze and discuss a broad variety of problems that have influenced the development of American history, with an emphasis on

how evolving norms have influenced the way that we study history. The major goals of this course are to encourage the ongoing development of the skills of historical analysis, synthesis and critical thinking. This course is also available in Spanish as a Dual Language Program course at HHS.

#### Æ **AP U.S. HISTORY** Grades: 11-12 (CHS, GHS, LHS) Prerequisite: None 1.0 credit This course fulfills the U.S. History requirement for graduation.

The U.S. AP History course focuses on developing students' understanding of American history from approximately 1491 to the present. The course has students investigate the content of U.S. history for significant events, individuals, developments, and processes in nine historical periods, and develop and use the same thinking skills and methods employed by historians when they study the past. The course offers six historical thinking skills and three reasoning processes to guide students to make connections from past to present in preparation for the AP exam.

\*CHS: Dual Credit opportunity with OIT.

#### 

Grades: 10-11 (HHS) 12 (CHS, GHS, HOA, LHS)

0.5 credit

**Prerequisite: None** This course examines the principles and concepts of micro and macroeconomics, explores comparative economic systems, and the world economy. Economics also includes a personal finance unit with the goal of individual financial literacy.

#### AP ECONOMICS Grade: 12 (CHS) **Prerequisite: None**

1.0 credit

AP Economics addresses both micro- and macroeconomics. AP Microeconomics is the stsudy of how individuals, households, business, and government make economic decisions. Content focuses on the fundamentals of economics: scarcity, opportunity cost, supply and demand, market structures, firms' cost curves, and factor markets. The purpose of AP Macroeconomics is to give students a thorough understanding of the principles of economics that apply to economic systems as a whole. This course places particular emphasis on the study of national income, fiscal and monetary policy, economic performance

measures, economic growth, and international economics. Students are required to complete the entire course to receive the required credit. requirements: Credit toward graduation 0.5 Economics + 0.5 Elective

#### C PEOPLE & POLITICS

Grades: 10 (HHS) 12 (CHS, GHS, HHS, HOA, LHS)

#### **Prerequisite: None**

0.5 credit

People and Politics focuses on how people are involved in the American political process. It examines the historical foundations of the United States, how government is organized and how it functions. Topics include citizen participation, individual rights, political parties, campaigns, and local, state, and national government. Student participation in a variety of classroom and political activities are a strong emphasis of this course.

#### **AP** AP U.S. GOVERNMENT Grade: 12 (CHS, GHS, LHS) Prerequisite: None

1.0 credit\*

This is a highly-advanced course for accelerated college-bound seniors. The course will explore in depth the institutions, people, and laws that make up the American government. Specific topics will include the three branches of government, political ideology, voting and voting behavior, campaigns, the role that the media plays in a democratic society, and the government's role in the U.S. economy. Extensive reading from a college text and selected historic works will be required. Outside research and writing will be ongoing. Expect thorough discussions, detailed analysis, and complete examination of the U.S. Government from a historical and contemporary point of view. Students who pass the AP exam may receive college credit for the course. The entire course must be completed to receive credit for the People and Politics graduation requirement.

\*Credit toward graduation requirements: 0.5 People & Politics+0.5 Elective

#### **SENIOR INQUIRY** Grade: 12 (LHS)

#### Prerequisite: see below\*\* Fee: approximately \$900

2.0 credits\*

All fields of human endeavor change over time. Major changes in perspectiveparadigm shifts-can be brought about by technological and scientific advances, historical events and innovative people. Some of these shifts are felt only personally

or within a specific discipline, but many have repercussions across fields. As means of travel and communication have improved, cultures and ideas have shifted with increasing frequency. In this course, we explore the precursors, context and consequences of paradigm shifts that occurred during the late nineteenth and early twentieth centuries. Senior Inquiry requires students to construct their own knowledge and take an active role in their learning, mirroring their growing personal responsibilities outside the classroom. Senior Inquiry provides students with an early college experience in the supported and familiar structure of high school, empowering students to build the skills they need to succeed in the future.

The program is modeled on Portland State University's acclaimed interdisciplinary university studies program, so students who successfully complete the year-long course will earn:

- \* 1.0 Language Arts credit
- \* 0.5 People and Politics credit
- \* 0.5 Economics credit
- \* 15 quarter credits from PSU

The PSU credits transfer to most other colleges and universities.

\*\*By application and counselor approval.

#### YOU & THE LAW Grades: 10-12 (HHS, LHS) Prerequisite: None

#### 0.5 credit

This course will explore the dimensions of civil and criminal laws, current legal trends, and constitutional interpretations as they apply to individual rights. In addition, students will discover how social class, race, gender, hierarchy, definitions of deviance, and classes of criminal and civil offenses influence what happens to people. Students will learn how people behave and how they relate to those institutions set up to service the public. Mock trials and applications of scientific methodology give this class a "hands-on" approach.

#### **IB DP HISTORY HL1** Grade: 11 (HHS) Prerequisite: None

1.0 credit

IB DP History HL1 is a comparative and integrated exploration of the relationship of the United States, Canadian, and Latin American histories. Emphasis is placed on a comparative analysis of social, political, and economic issues within the Western

Hemisphere with a primary focus on the 19th and 20th Century. The course emphasizes the importance of encouraging students to think historically and to develop historical skills as well as gaining factual knowledge as well as developing an understanding of multiple interpretations of history. It puts a premium on developing the skills of critical thinking. Topics include: Independence Movements in the Americas, the Mexican Revolution and Civil Rights and Social Movements in the Americas post 1945. Presentation of a formal, independent research project is required and internally assessed. This course is one of the two courses leading to examination in History at the Higher Level.

#### **IB DP HISTORY HL2** Grade: **12** (HHS)

Prerequisites: IB DP History HL1 1.0 credit This is one of the two courses designed to meet the requirements of the IB DP History curriculum and to prepare students for the three externally moderated exams. The course is a world history course based on a comparative and multi-perspective approach to history. It involves the study of a variety of types of history, including political, economic, social and cultural, and provides a balance of structure and flexibility. The course emphasizes developing an understanding of multiple interpretations of history. This course focuses on three major themes designated in the IB curriculum: Rights and Protests, Independence Movements, and Emergence and development of democratic states. The course employs case studies in order to have students explore the themes present in 19th and 20th Century history in Asia/Oceania, Africa/Middle East, Europe and the Americas. In addition, the course is specifically designed to build the skills of historians argumentative writing, original research, document analysis and historiography. Presentation of a formal, independent research project is required and internally assessed.

Completion of the two year course, IB DP History HL1 and HL2, fulfills graduation requirements in Economics and People and Politics.

#### **IB DP GLOBAL POLITICS SL** Grades: 11-12 (HHS) Prereguisite: None

#### 1.0 credit

The 21st century is characterized by rapid change and increasing interconnectedness, impacting people in unprecedented ways and creating complex global political challenges. The study of global politics enables students to critically engage with different and new perspectives and approaches to politics, in order to better make sense of this changing world and their role in it as active citizens. Global politics is an exciting dynamic subject which draws on a variety of disciplines in the social sciences and humanities, reflecting the complex nature of many contemporary political issues. The course explores fundamental political concepts such as power, equality, sustainability and peace, in a range of contexts. It allows students to develop an understanding of the local, national, international and global dimensions of political activity, as well as allowing them the opportunity to explore political issues affecting their own lives. The course helps students to understand abstract political concepts by grounding them in real world examples and case studies. Completion of IB DP Global Politics fulfills graduation requirements in People and Politics.

#### AP WORLD HISTORY Grades: 10-12 (CHS, GHS) Prerequisite: None

#### 1.0 credit

In this advanced year-long course, students will study the cultural, economic, political, and social developments that have shaped the world from c. 1200 CE to the present. Students will analyze texts, visual sources, and other historical evidence and write essays expressing historical arguments. Skills students will learn include evaluating primary and secondary sources, analyzing the claims, evidence, and reasoning you find in sources, putting historical developments in context and making connections between them, developing a claim or thesis and explaining/ supporting it in writing.

#### AP EUROPEAN HISTORY Grades: 10-12 (CHS)

Prerequisite: None

#### 1.0 credit

This advanced, year-long course, will provide students an opportunity to study European History from the late Middle Ages to the present. Students will study the politics and governments of the major countries and, also, philosophy, art, religion, and society across the ages. Students will be expected to read, write and participate in active discussions and projects. This course is recommended for self-directed and college bound students

1.0 credit

#### AP AP ART HISTORY Grades: 10-12 (GHS) **Prerequisite: None**

1.0 credit This course would be the equivalent of a college introductory level art history course covering art from around the world from 30,000 BCE to present day. The focus of the course is to help students cultivate their understanding of art history through analyzing works of art and placing them in historical context as they explore concepts like culture and cultural interactions, theories and interpretations of art, the impact of materials, processes, and techniques on art and art making, and understanding purpose and audience in art historical analysis.

#### **PSYCHOLOGY**

Prerequisite: None

Grades: 9-12 (GHS) 10-12 (HHS, LHS, HOA) 11-12 (CHS)

#### 0.5 credit

The emphasis in this course is on the study of human behavior. Why do we act or behave the way we do? The course explores such topics as learning, memory, personality, emotions, and mental illness.

At CHS and LHS, Psychology is blocked with Sociology.

#### **PSYCHOLOGY 2**

Grades: 10-12 (HHS, HOA) Prerequisite: Psychology

0.5 credit

Enrich the quality of your life by learning to understand the actions of others! Topics include the study of memory, intelligence, emotion, health, stress, and personality. This course offers exciting online psychology experiments about the world around us.

#### AP AP PSYCHOLOGY Grades: 10-12 (CHS, GHS, LHS, HOA) Prerequisite: None 1.0 credit

The APPsychology course introduces students to the systematic and scientific study of human behavior and mental processes. While considering the psychologists and studies that have shaped the field, students explore and apply psychological theories, key concepts, and phenomena associated with such topics as the biological bases of behavior, sensation and perception, learning and cognition, motivation, developmental psychology, testing and individual differences, treatment of abnormal behavior, and social psychology. Throughout the course, student employ psychological research methods, including ethical considerations, as they use the scientific method, analyze bias, evaluate claims and evidence, and effectively communicate ideas.

#### 10 IB DP PSYCHOLOGY SL Grades: 11-12 (HHS)

Prerequisite: None

Students study and critically evaluate the knowledge, concepts, theories and research that have developed the understanding in these fields. The interaction of these approaches to studying psychology forms the basis of a holistic and integrated approach to understanding mental processes and behavior as a complex, dynamic phenomenon, allowing students to appreciate the diversity as well as the commonality between their own behavior and that of others. The contribution and the interaction of the three approaches is understood through the four options in the course, focusing on areas of applied psychology: abnormal psychology, developmental psychology, health psychology, and the psychology of relationships. The options provide an opportunity to take what is learned from the study of the approaches to psychology and apply it to specific lines of inquiry. Psychologists employ a range of research methods, both qualitative and quantitative, to test their observations and hypotheses. IB DP Psychology promotes an understanding of the various approaches to research and how they are used to critically reflect on the evidence as well as assist in the design, implementation, analysis and evaluation of the students' own investigations. Surrounding the approaches and the options are the overarching themes of research and ethics.

#### SOCIOLOGY

#### Grades: 10-12 (GHS, HHS, HOA, LHS) 11-12 (CHS)

Prerequisite: None

0.5 credit

Sociology means the study of society. It is concerned with groups and with actions of individuals within groups. In this course, students pursue an analysis of the nature and structure of society. Students will study the way sociologists perceive society; the process of becoming a social being; the way society is organized; the nature and structure of social institutions; and the study of race relations and gender roles. As a result of this course, it is hoped students will see the need for an understanding of the forces within society and these influences on our behavior.

At CHS and LHS, Sociology is blocked with Psychology.

#### **SOCIOLOGY 2** Grades: 10-12 (HOA) Prerequisite: None

#### 0.5 credit

Discover how social institutions like families, religion, government, and education shape our world and how collective behavior and social movements can create change. Investigate how our lives are shaped by entertainment, social institutions, and social change.

#### 1 IB DP THEORY OF KNOWLEDGE (TOK) Grade: 11 (HHS)

#### **Prerequisite: None**

1.0 credit

This course is designed to "cap" the International Baccalaureate curriculum by providing students with an opportunity for reflection and intellectual growth. Students examine the philosophy, origins and validity of various forms of knowledge and epistemological problems endemic to the junior and senior level curriculum. The focus of the course is on inquiry and critical thinking and is designed to give students a personal perspective on the discovery and creation of knowledge. Support time for IB Diploma and Honors CCP students completing the Extended Essay and CAS is also embedded into the course.

#### **IB DP THEORY OF KNOWLEDGE** (TOK) **2** Grade: 12 (HHS) Prerequisite: TOK 1

#### 1.0 credit

TOK 2 explores the curriculum in TOK I in even greater depth and completes the foundational requirements for both the IB Diploma Core and Honors CCP. Support time for Diploma and Honors CCP students completing the Extended Essay and CAS is also embedded into the course.

#### HISTORICAL ISSUES: AFRICAN AMERICAN HISTORY

#### Grades: 10-12 (HOA)

#### **Prerequisite: None**

0.5 credit

This course traces African Americans' accomplishments and obstacles, beginning with the slave trade on up to the modern Civil Rights movement, Learn about the political, economic, social, religious, and cultural factors that have influence African American life, meet individuals who changes the course of history, ,and explore how African American Story still influences current events.

#### HISTORICAL ISSUES: CONFLICT AND PEACE Grades: 10-12 (CHS) Prerequisite: None 0.5 credit

This is an elective course that will examine issues from the 20th and 21st Century. This course is designed to help students evaluate history with a more thoughtful and worldly perspective. Students will evaluate primary sources and conflicting interpretations of history. The course will examine the causes and effects of conflict and war as well efforts to prevent war both past and present.

#### HISTORICAL ISSUES: HISTORY OF THE HOLOCAUST Grades: 10-12 (LHS, HOA) Prerequisite: None

Introduces the aftermath of World War I and the rise of the Nazis, the historical roots of anti-Semitism, the evolution of the Final Solution and its coordination in Nazioccupied Europe, the victims of Nazi policies, the camps, the perpetrators, bystanders, and the aftermath of the Holocaust.

0.5 credit

#### HISTORICAL ISSUES: HISTORY OF OREGON Grades: 10-12 (LHS) Prerequisite: None 0.5 credit

Examines the rich and diverse history of Oregon including the significance of Oregon's frontier heritage and Oregon's role in American history from pre-European contact to the modern era. Explores economic, political, social, and cultural factors in terms of race, ethnicity, gender, class, and religion.

#### HISTORICAL ISSUES: ETHNIC STUDIES Grades: 10-12 (GHS, HHS, LHS) Prerequisite: None 0.5 credit

The Ethnic Studies course is designed to give high school students an introduction to the experiences of ethnic communities that are rarely represented in textbooks. It is also a compelling way to examine race, ethnicity, nationality, and culture in the United States. The course equips students with a critical lens to see the world and their place in it by understanding systems and power at the root of American society and has as a goal to motivate students to actively engage in our democracy. Through the Ethnic Studies course, students are supported to discover and use their own power for the benefit of not only themselves, but also that of their community and society at large.

#### NATIONAL SECURITY

#### Grades: 10-12 (HOA) Prerequisite: None

0.5 credit

Do you know what it takes to keep an entire nation safe? Not only does this effort require knowledge on how to handle disasters, but it demands a cool head and tremendous leadership abilities. In National Security, you will have the opportunity to learn about the critical elements of the job, such as evaluating satellite information, analyzing training procedures, assessing military engagement, preparing intelligence reports, coordinating information with other security agencies, and applying appropriate actions to various threats. Put yourself in the position of the country's decisive leaders and develop your own knowledge base and skill set necessary to meet the requirements of our nation's most demanding career.

#### CAREERS IN CRIMINAL JUSTICE Grades: 9-12 (HOA) Prerequisite: None

The criminal justice system offers a wide range of career opportunities. In this course, students will explore different areas of the criminal justice system, including the trial process, the juvenile justice system, and the correctional system.

Students from any high school may request this online course.

#### CRIMINOLOGY Grades: 9-12 (HOA)

Prerequisite: None

#### 0.5 credit

1.0 credit

Students will be given the rare opportunity to climb inside the mind of a criminal and examine the ideas and motivations at work. The mental state of a criminal can be affected by many different aspects of life psychological, biological, sociological—all of which have differing perspectives and influences. Students will investigate how these variables affect the criminal mind and how the criminal justice system remains committed to upholding the law through diligence and an uncompromising process.

View a video about the City of Hillsboro's Youth Invasion, showcasing careers in public service, at <u>https://youtu.be/cdTOm8WegFc</u>

#### World Language Proficiency Exam

A student may take a district-approved world language proficiency assessment to receive world language credit. Students who wish to earn a letter grade for the courses passed on the test can take the next level course or complete a portfolio option. Additionally, passing scores of 6 or higher in each domain on the STAMP *or* WordSpeak assessment qualify the student to potentially earn the State Seal of Biliteracy upon graduation. Each school site offers opportunities during the school year for students to take the proficiency exams. For more information, a list of assessed languages, and/or to register for the world language proficiency-based exam, please see your counselor or world language teacher.

#### FRENCH 1 (CHS, HHS, LHS) MANDARIN 1 (CHS) offered every other year SPANISH 1 (CHS, GHS, HHS, HOA, LHS) Grades: 9-12

Prerequisite: None

Students will acquire basic language tools and vocabulary to talk about experiences in the present. Students will work toward a beginning level of language proficiency in speaking, listening, reading, and writing. Cross-cultural understanding is explored.

# **AP** AP SPANISH LANGUAGE

Grades: 9-12 (CHS) 10-12 (GHS, LHS) Prerequisite: Spanish 4, placement test 1.0 credit This course is designed to provide authentic real-world application of the Spanish language through speaking, reading, writing, and listening. Students completing this course will have the opportunity to take the Advanced Placement exam in May.

#### AP SPANISH LITERATURE Grades: 10-12 (CHS, GHS) Prerequisite: AP Spanish Language

1.0 credit

This course engages students in the reading and analysis of Spanish literature to deepen their understanding of the ways writers use language to provide both meaning and pleasure. Students will consider a work's structure, style, and themes, as well as its use of figurative language, imagery, symbolism, and tone. Writing assignments require students to analyze and interpret literary works. Students completing this course will have the opportunity to take the Advanced Placement exam in May.

This course may serve as the DLP Capstone course for 12th grade students

#### SPANISH LITERACY 1 Grades: 9-12 (HHS) Prerequisite: Meets placement criteria

**Prerequisite: Meets placement criteria 1.0 credit** Spanish-speaking students will be tested to determine their skill level in Spanish literacy. The class is designed for students who have not mastered reading and writing skills in Spanish. Students will read short stories, write in sentences and paragraphs, and reinforce their pride in culture.

#### **IB DP LANGUAGE ab initio SL** Grades: 11-12 (HHS) Prerequisite: None

#### 1.0 credit

Language ab initio is a language acquisition course designed for students with no prior experience of the target language, or for those students with very limited previous exposure. This course is offered at SL only, and is not accepted by colleges for credit. At the language ab initio level, a student develops receptive, productive and interactive communicative skills. Students learn to communicate in the target language in familiar and

#### FRENCH 2 (CHS, HHS, LHS) MANDARIN 2 (CHS) offered every other year SPANISH 2 (CHS, GHS, HHS, HOA, LHS) Grades: 9-12 Prerequisite: Demonstrate proficiency at level 1

1.0 credit

1.0 credit

Students will continue to develop their level of communicative proficiency to expand on past experiences and interests. Students will increase vocabulary and understanding of language structure. Cross-cultural understanding is explored.

#### FRENCH 3 (CHS, HHS, LHS) GERMAN 3 (LHS) SPANISH 3 (CHS, GHS, HHS, HOA, LHS) Grades: 9-12 Prerequisite: Demonstrate proficiency at level 2

1.0 credit

Students will continue to build reading and writing skills. Student proficiency will increase through oral conversations, skits and real-life simulations. Student will be able to communicate in multiple time frames. Crosscultural understanding is explored.

FRENCH 4 (CHS, LHS) GERMAN 4 (LHS) SPANISH 4 (CHS, LHS) Grades: 9-12 Prerequisite: Demonstrate proficiency at level 3 1.0 credit

Students will refine skills in reading, writing, listening, and speaking using real world experiences and authentic resources. unfamiliar contexts. The course will cover five prescribed themes: identities, experiences, human ingenuity, social organization, and sharing the planet. Within each theme, students will use personal, professional, and mass media texts to explore a variety of prescribed topics including eating and drinking, festivals and celebrations, media, social issues, and climate. The course culminates with an individual oral assessment.

IB DP SPANISH B SL IB DP FRENCH B SL

#### Grades: 11-12 (HHS) Prerequisite: successful completion of 3rd year 1.0 credit

This course prepares students for advanced testing at university levels. Students write coherent essays, interact with native speakers in conversation or taped lectures, and speak in a participatory manner. Speaking assignments require students to explain and defend opinions, discuss abstract and concrete topics, and hypothesize on possible future events. Topics vary and include art, politics, science, health, current events, history, and students' own past and present. They also read a variety of texts such as articles, short novels, plays, poetry, and short stories. The course is conducted entirely in the target language. Students taking this course are eligible for the IB DP Language B SL exam.

# ib dp spanish b HL1

#### Grade: 11 (HHS) Prerequisite: successful completion of 3rd year 1.0 credit

This demanding course prepares students for advanced testing at university levels. Students write cohesive essays, interact with native speakers in conversation or taped lectures, and speak in a participatory manner. Speaking assignments require students to explain and defend opinions, discuss abstract and concrete topics, and hypothesize on possible future events. Topics vary and include art, politics, science, health, current events, history, and students' own past and present. Students also read a variety of texts such as articles, short novels, plays, poetry, and short stories. The course is conducted entirely in the target language and requires students to be independent, highly motivated, and take initiative for their language goals. This course is the first of the two courses leading to examination in a Second Language at the Higher Level.

*IB DP Spanish B HL1 is one capstone option for students in the Dual Language Program.* 

#### **IB DP SPANISH B HL2** Grade: 12 (HHS) Prereguisite: IB Spanish B HL1 1.

1.0 credit This course prepares students for advanced testing at university levels. Students write cohesive essays, interact with native speakers in conversation or taped lectures, and speak in a participatory manner. Speaking assignments require students to explain and defend opinions, discuss abstract and concrete topics, and hypothesize on possible future events. Topics include art, politics, science, health, current events, history, and students' own past and present. Students also read a variety of texts such as articles, short novels, plays, poetry, and short stories. The course is conducted entirely in the target language and requires students to be independent, highly motivated, and take initiative for their language goals. Students taking this course will be eligible for the IB DP Language B HL exam.

*IB DP Spanish B HL2 is one capstone option for students in the Dual Language Program.* 

Specially-designed instruction related to students' Individual Education Programs (IEPs) occurs in Student Services classes and/or general education classes. While the district course catalog includes all course offerings, specific courses may not be offered across high schools. IEP teams will determine appropriate course placement based on course offerings at individual buildings. Placement criteria for all Student Services classes is by IEP team decision.

#### **ELA SUPPORT 9**

Grade: 9

Credit: 1.0 Elective Credit

This course is taken concurrently with ELA 9. Designed to pre-teach and reteach core standards in the general education classrooms.

#### **ELA SUPPORT 10**

Grade: 10

Credit: 1.0 Elective Credit This course is taken concurrently with ELA 10. Designed to pre-teach and reteach core standards in the general education classrooms.

#### **ELA SUPPORT 11-12**

Credit: 1.0 Elective Credit Grades: 11-12 This course is taken concurrently with ELA 11 and 12. Designed to pre-teach and reteach core standards in the general education classrooms.

#### **SUPPORT FOR CORE CONTENT 9**

Credit: 1.0 Elective credit Grade: 9 This course is designed to be taken concurrently with 9th grade general education courses like English language arts, social studies and science. The syllabus will be aligned with the concurrent standards-based general education course. Support, direct instruction, organizational strategies, and guided practice in the areas of writing, comprehension of informational and literary text, research, and technical writing will be provided.

#### **SUPPORT FOR CORE CONTENT 10**

Grade: 10 Credit: 1.0 Elective credit This course is designed to be taken concurrently with 10th grade general education courses like English language arts, social studies and science. The syllabus will be aligned with the concurrent standards-based general education course. Support, direct instruction, organizational strategies, and guided practice in the areas of writing, comprehension of informational and literary text, research, and technical writing will be provided.

#### **SUPPORT FOR CORE CONTENT 11**

Credit: 1.0 Elective credit Grade: 11 This course is designed to be taken concurrently with 11th grade general education courses like English language arts, social studies and science. The syllabus will be aligned with the concurrent standards-based general education course. Support, direct instruction, organizational strategies, and guided practice in the areas of writing, comprehension of informational and literary text, research, and technical writing will be provided.

#### **SUPPORT FOR CORE CONTENT 12** Credit: 1.0 Elective credit Grade: 12

This course is designed to be taken concurrently with 12th grade general education courses like English language arts, social studies and science. The syllabus will be aligned with the concurrent standards-based general education course. Support, direct instruction, organizational strategies, and guided practice in the areas of writing, comprehension of informational and literary text, research, and technical writing will be provided.

#### SUPPORT FOR ORGANIZING AND STUDYING

Grades: 9-12 Credit: 1.0 Elective credit This course is designed to teach and develop access skills needed for general education success. These may include but are not limited to: organization, note-taking, test preparation, academic discourse, critical thinking, close reading, self-advocacy, vocabulary development, interpersonal communication, and academic writing.

#### **MATH SUPPORT: ALGEBRA 1** Grades: 9-10

Credit: 1.0 Elective credit This course is designed as a support class to be taken concurrently with Algebra I. The syllabus will be aligned with the concurrent Algebra I course. It will provide additional direct instruction and guided practice with math concepts. Study skills relevant to math will be taught.

#### **MATH SUPPORT: GEOMETRY** Grades: 10-11

Credit: 1.0 Elective credit This course is designed as a support class to be taken concurrently with Geometry. The syllabus will be aligned with the concurrent Geometry course. It will provide additional direct instruction and guided practice with math concepts. Study skills relevant to math will be taught.

#### **MATH SUPPORT: ALGEBRA 2** Grades: 11-12

#### Credit: 1.0 Elective credit

This course is designed as a support class to be taken concurrently with an Algebra 2 course. The syllabus will be aligned with the concurrent Algebra 2 course. It will provide additional direct instruction and guided practice with math concepts. Study skills relevant to math will be taught.

tudent Services (placement by IEP team decision)

#### FOUNDATIONS FOR THE FUTURE

**Grades: 9-10 Credit: 0.5** Elective credit This course is designed for students who need to learn about problem-solving, selfadvocacy, goal setting and personal awareness to become more successful students. In the units, students will gain knowledge of their strengths and weaknesses, personal disability, and how to speak up for themselves in a school setting. Students will practice developing communication and decision making skills.

#### INTRODUCTION TO CAREERS

Grades: 10-11 (GHS, HHS) 11 (CHS) Credit: 0.5 Elective credit

This course is designed for students who need to assess skills and interests, explore career options, and learn how to develop a plan to achieve their post-high school goals. In the units, students will complete career interest inventories and explore careers and entry level requirements through a variety of activities.

#### CONNECTIONS TO COLLEGE Grades: 12 (GHS,HHS) 11-12 (CHS) Credit: 0.5 Elective credit

Students enrolled in this course will be pursuing post-secondary educational opportunities. They will learn about general and specific college requirements and processes, the differences between high school and college, how the law changes from high school to adult settings (IDEA vs. ADA), and how to access college disability services. Students will take a field trip to PCC.

#### **CONNECTIONS TO CAREERS**

**Grade: 12 Credit: 0.5** Elective credit This course is designed for students who need to develop knowledge and skills required for successful employment. Students will look how and where to find job openings and develop the skills necessary to get and keep a job.

#### **INDEPENDENT LIVING SKILLS**

**Grades: 9-12 Credit: 0.5** Elective credit This course is designed to teach students independent living skills which include: basic daily living skills, meal preparation/ cooking, time management, communication, self-determination, self-care, household management, task analysis, and laundry.

#### FUNCTIONAL ACADEMICS

**Grades: 9-12** Credit: 0.5 Elective credit This course is designed to teach foundational language arts and math skills to students.

#### **COMMUNITY LIVING**

**Grades: 9-12 Credit: 0.5** Elective credit This course is designed to teach students skills that are important for community involvement which include: communication, social interaction skills, safety, money management, budgeting, shopping, navigating the environment, and self-determination.

#### **STUDY SKILLS**

**Grades: 9-12 Credit: 0.5** Elective credit The Social Learning Center Study Skills Program is designed to provide students with a comprehensive support system aimed at enhancing both their academic performance and emotional well-being. This course focuses on equipping students with essential skills for becoming more effective learners, improving their organizational abilities, and fostering self-advocacy in their academic journey.

Through personalized support, students will gain strategies to manage stress, improve time management, and develop study techniques tailored to their learning style. The program also emphasizes building emotional resilience, helping students navigate challenges both in and outside the classroom. Students will learn how to advocate for their own needs, communicate effectively with educators, and utilize available resources to maximize their academic success.

In addition, the course will help students develop key organizational skills, such as note-taking, task prioritization, and goalsetting, which are essential for staying on track and achieving long-term academic goals. By the end of the program, students will not only feel more confident in their academic abilities but will also have a toolkit for self-advocacy and organization that will serve them throughout their education and beyond.

#### SOCIAL COMMUNICATION CENTER

Grades: 9-12 Credit: 0.5 Elective credit The Social Communication Center (SCC) is intended to provide a higher level of support than can typically be accomplished within a general education classroom in a sustainable manner. The goal of the program is to help students develop a deeper understanding of social relationships and social communication rules. Students will also understand more of their emotional and sensory needs, while accessing the core curriculum and general education setting to the maximum extent possible. Students who experience disabilities may need more assistance to become socially competent through direct instruction on how the social world works, and why specific skills are important in different contexts.

#### LIFE SKILLS CLASSROOM

**Grades: 9-12 Credit: 0.5** Elective credit This course is designed to help eligible students improve their independent living skills, functional academics, organizational skills and social communication. Students will be working toward class goals and personal goals collectively. There is a major focus on life skills (shopping, work experience, cooking, independence, and personal care) in order to improve the skills needed to be successful in high school and after graduation. Our class strives to mirror the community in all ways possible.

#### **WORK EXPERIENCE**

Grades: 10-12 (GHS, HHS, HOA, LHS)

**Credit: 0.5** Elective credit (repeatable) This course is designed for students who need a continuum of instruction in work-related skills. On and off-campus work experiences are designed to develop work habits and work communication skills. Students will learn what is expected in a work setting in a handson environment.

0.5 credit

#### SENIOR SEMINAR

Grade: 12 (CHS, GHS, HHS, HOA, LHS) Prerequisite: None

This course should only be taken if a student is not eligible for a CCP capstone course. CCP capstone courses are where students should ideally complete their senior project. Completing a senior project is an HSD graduation requirement and also supports students in meeting Oregon Diploma requirements. Senior Seminar provides students the opportunity and support to design and implement their senior project. The project will represent the interests, knowledge, and skills they have gained in high school and how those skills apply to their identified postsecondary plan. Students will complete an education plan and profile, a resume, an extended application project and paper that connects to their career plan, a career related experience, and participate in a senior showcase presentation.

#### COMMUNITY SERVICE LEARNING ELECTIVE: Local Business/Organization Grades: 9-12 (CHS, GHS, HHS, LHS) Prerequisite: Application and teacher approval

0.5 credit\*

This semester course is designed to engage our youth in a meaningful internship placement that closely parallels a student's career pathway interest. This course introduces students to many of the main tasks and functions of a particular career or organization. Working in conjunction with a local business, corporation or non-profit, students will support projects related to the agency's primary work. The course will serve the purpose of developing leadership, problemsolving and practical skills related to the world of work. The internship experience and skills gained in this course will benefit students by developing college and career readiness skills as well as developing their civic skills as citizens in their community working with local businesses and agencies. Students interested in taking this course must see counselor for application. Approval is required prior to enrollment. In order to earn the 0.5 credit, students must complete 65 hours. The course is Satisfactory/Unsatisfactory. \*Limit of 1.0 credit earned per year

#### COMMUNITY SERVICE LEARNING ELECTIVE: Sports Medicine/Physical Education

Grades: 9-12 (GHS, HHS, LHS) Prerequisite: Application and counselor approval

0.5 credit

This semester course will provide students an internship placement specific to K-12 physical education. The internship experience and skills gained in this course will benefit students by developing college and career readiness skills as well as developing their knowledge and skills in the field of physical education. Students interested in taking this course must see their counselor for an application. Approval is required prior to enrollment.

The course is Satisfactory/Unsatisfactory.

#### **WORK EXPERIENCE**

#### Grades: 10-12 (CHS, GHS, HHS, HOA, LHS) Prerequisite: Counselor approval

#### Credit: 0.5 credit (repeatable)

Off-campus work experiences are designed to develop employability skills. Students will learn what is expected in a work setting in a hands-on environment. This course offers elective credit for students who are self placed in a job, internship, or apprenticeship.

#### **TEACHER'S AIDE**

# Grades: 9-12 (CHS) 10-12 (GHS) 11-12 (HHS, LHS) Prerequisite: see below\* 0.5 credit Teacher's aides become involved in a variety of

learning experiences either on campus. Students may work with and assist teachers in a variety of ways, work in counseling, attendance and administration offices, assist in the library or bookstore, and in many other capacities on the campus.

Satisfactory/unsatisfactory grading.

\*One student aide course per semester, staff approval

#### AIDE/PEER TUTOR Grades: 11-12 (HHS) Prerequisite: None

#### 0.5 credit

Students may apply to be a student aide or mentor at a district elementary school or other district program. Specifics of the aide/mentor position will be determined by the administrations of HOA and of the school or program the student is placed in. Examples may include: academic assistance to struggling students, class assistant in a special needs classroom or playground/physical education assistant.

#### NAVIGATING ADULTHOOD Grades: 11-12 (GHS, LHS)

Prerequisite: None

#### 0.5 credit

This course will help students to prepare for life after high school by learning the things adults need to know to navigate life successfully. Topics will include financial responsibilities, professional skills, civic responsibility, understanding the diverse world we live in, interacting in a digital era, and balancing life responsibilities.

#### AVID

#### Grades: 9-12 (CHS, GHS, HHS, LHS) Prerequisite: see below\* 1.0 credit

AVID is an in-school academic support program for grades 9-12 that prepares students for four-year college and university eligibility and success. AVID targets students in the academic middle. AVID students must commit to enrollment in a rigorous college preparatory sequence of courses. Students will learn and apply study skills and learning strategies to improve performance in their other classes. Note taking, outlining, writing, speaking, reading, test strategies and self-awareness are stressed, including college research activities and SAT and ACT test preparation. Students will be coached individually and in study groups by specially trained tutors. AVID's systematic approach increases students' chance for success in fouryear colleges while supporting schoolwide and districtwide learning and performance goals.

\*Students must apply and be interviewed before being accepted to this course.

#### **AVID TUTOR**

Grades: 10-12 (CHS) 11-12 (GHS, HHS, LHS) Prerequisite: see below\* 0.5 credit

The AVID tutor takes an active part in developing the academic and personal strengths of students in the AVID Elective, a college preparatory course. AVID Tutors will be trained in WICOR (writing, inquiry, collaboration, organization, reading) strategies and the ten steps of the tutorial process. Tutors will facilitate small group tutorials where they need not be experts in all subjects, but instead be active learners. Additionally, tutors will assist AVID students with Cornell notes, binder checks, tutorial requests forms, planners, and the successful completion of college eligibility requirements under the supervision of the AVID elective teacher. AVID tutors are expected to serve as positive role models and mentors to students in the AVID elective. May be repeated.

\*Students must apply and be approved before enrolling in this course.

#### **PEER TUTOR**

Grades: 11-12 (GHS, HHS, LHS)

0.5-1.0 credit

Peer tutors are students who have demonstrated proficiency at high levels in or across subject areas. They work one-on-one or in groups with students in the classroom or during tutoring sessions. Peer tutors must be highly responsible and have a desire to help others learn.

#### **ACADEMIC OPTIONS**

#### Grades: 9-12 (CHS, GHS, HHS, LHS, HOA)\* Prerequisite: Counselor recommendation

Academic Options provides an opportunity for students to recover credit for a failed course that is required for graduation. This course uses an online learning program as a tool for individualized instruction to recoup learning standards not mastered in the original class. This program also offers academic support for students in their current course load outside of Academic Options.

\*12th-grade takes precedence if space is limited

# OFF-CAMPUS SUPPLEMENTAL OPPORTUNITIES

#### **EXPANDED OPTIONS** Grades: 10-12 Prerequisite: see below\*

credit varies

Expanded Options provides an opportunity to attend college level classes if a student needs a core/required course at a level not provided at their school or within the district while still in high school with tuition paid by the District. Additionally, Expanded Options could be utilized if a student is interested in a career and college pathway program that is not available to them within the district. There is a limit to the number of credits the District can provide and participation priority is given to students who qualify for the free and reduced-priced meal program. Students must be accepted by an eligible public postsecondary Oregon institution and follow a learning plan agreed upon by the student, staff, and parents to reflect the student's goals. Students must be 16 or older at the time they begin the course.

\*Appropriate HS prerequisites; parent, counselor and administrator approval. Space is subject to availability.

# Additional Information & Resources

#### **ACADEMIC & ACTIVITY FEES**

It is the philosophy of Hillsboro School District that no student be denied the opportunity to participate in any phase of the curriculum because of financial hardship. The district will provide necessary materials free of charge to any student whose parents indicate that the costs entailed would represent a financial hardship to the family.

*Arrangements should be worked out through the school's bookkeeper*, rather than the teacher or coach whose class or activity is involved

Description	CHS, GHS, HHS, LHS
Required Fees	
ASB (required for students involved in a school-sanctioned activity/ sport)	\$20
Activity fee* • Band - marching • Cheerleading • Color guard • Dance team	\$150*
Athletic participation fee*	\$200*
AP Exam Fees	Students do not have to register for AP exams to take AP courses, however if they do choose to take an exam there is an associated fee.
IB Exam Fees	Student do not have to register for the ex- ams to take the IB courses, however, IB exam fees are waived for all Hillsboro High School students due to the school's participation in the Community Eligibility Provision (CEP)
Parking permit	\$30 per year, fees for additional stickers
Yearbook	Varies

\* per student per sport/activity, up to a maximum of \$400 per student; maximum \$800 per family for level 1 sports. Level 1 sports include football, soccer, cross country, volleyball, swimming, basketball, wrestling, baseball, softball, and track and field. Level 2 and club sports fees may vary by school and do not count toward the cap. Please see your school's athletic secretary for more information.

Some courses are costly to offer due to materials required. If you would like to make a voluntary contribution to any of our classes, please see the school's bookkeeper.

#### **Course Planning**

HSD high schools use the online platform, Xello, to assist students in creating their four-year high school plans. As a guidance tool prior to the course selection process, students build their own course plans in order to create a sense of ownership over their paths through high school, and to ensure they are working toward meeting their post-secondary goals. Counselors and families can view student plans and provide informed suggestions and encouragement. This allows families to take a larger role in their student's future planning process.

# **Course Planning** (continued)

#### Century School-Based Health Center

#### **Login Information**

Students can access Xello through MyApps which is accessed using their district username and password

More information about Xello itself can be found at https://xello.world/en/middle-and-high-school/

Adolescents are reported to have the lowest access to health care of any age group and they are the least likely to seek care through a traditional doctor's office. The goal of the School-Based Health Center (SBHC) is to serve student health needs by providing a quality comprehensive health care facility located conveniently at Century High School that is open to all students and employees of the Hillsboro School District!

Located on the Century HS Campus: 1998 SE Century Blvd Hillsboro, OR 97123 Hours: M-F: 8:00 – 4:30 (closed 12:00 – 12:30 for lunch) More Info & Scheduling: 503-597-4580

#### **Questions & Answers**

Are there licensed medical providers on staff? Absolutely, the SBHC has a licensed Nurse Practitioner or Physician Assistant and a Mental Health Therapist on staff, plus a certified Drug & Alcohol counselor.

#### What about insurance?

The SBHC can bill most private health insurance plans and may collect a co-pay at the time of your visit. Oregon Health Plan (OHP) is also accepted, which does not require a co-pay. Contact your SBHC to see if they can take your insurance. No insurance? No problem. The SBHC will assess if you are eligible for a discounted fee, based on income. Families that earn less will pay less. No one will be turned away for their inability to pay.

#### Do I need an appointment?

Appointments are preferred, but if you have an urgent need, you can walk in. To make an appointment simply call the SBHC to schedule, or walk in and request a visit.

#### Is my appointment confidential?

Your privacy and safety are a priority at the SBHC. In general, adolescents have a right to privacy regarding some health information. If there is a safety concern, we are required to report by law. SBHC staff work with youth of all ages to involve parents/guardians in their care. If you have any questions about the confidentiality of your care, please ask our knowledgeable staff.

#### Some of the services you can access at the SBHC are:

- Physical exams
- Sports physicals
- Immunizations
- Urgent care
- Diagnosis and treatment of acute and chronic illness
- Specialist referrals
- Mental health therapy
- Substance abuse screenings
- IEP support
- LGBTQ+ safe zone
