Respect – Grade 1

Dear Families/Caregivers,

We are learning about the ways people can show respect.

Supporting Your Child in Showing Respect to Others

- Help your child understand that people can show respect in different ways. Talk with your child about the ways respect is viewed in your family.
- Encourage your child to treat people the way they want to be treated.
- Invite your child to ask questions to help them better understand different views on respect.

Thank you for your support.
