## **School Overview**

GSIS is a rigorous International Baccalaureate (IB) Christian school that implements a vertically aligned PYP, MYP, and DP curriculum utilizing standards and benchmarks adopted from the best, research-based options from the United States and Canada. The school provides a holistic and balanced college preparatory program with the expectation that students will pursue and thrive in higher education. The school operates at a high-level within an energetic environment where history, culture, and cutting-edge technology are harmoniously combined.

# **Student Body**

The secondary school division is fully comprehensive, enrolling over 310 students from over 20 countries. The class of 2025 includes students from ten different countries.

# Curriculum

A rigorous, Christian, and IB curriculum creates a holistic and strong college preparatory program with the expectation that all students will pursue higher education where they will continue to grow as life-long learners giving back to the global community. GSIS has been authorized by the IB to deliver the Diploma Program since 2009 and the Middle Years Program since 2012.

# **Co-Curricular Activities**

Having a school located near the key research institutes of Samsung Electronics and Hyundai/Kia Motors, the school is able to offer a plethora of club activities related to STEM/STEAM and innovation through technology. Notable clubs include STEM club, MakerSpace Club, and Robotics. The Astronomy Club, Starry Knights, partners with Chief Astronomer, Dr. Jay Cho at the Gwacheon National Science Museum. Student-Athletes compete in badminton, basketball, cheerleading, cross country, tennis, soccer, swimming, and volleyball. There are local and international mission and service trips, Model United Nations, National Honor Society, Praise Team, Student Council Association, and Yearbook. GSIS students have competed and traveled to various countries where they have received awards for their endeavors and service through these programs. A graduation requirement for all juniors and seniors is active participation, logging, and journaling to complete the IB Creativity, Activity, and Service (CAS) requirement. Students have the opportunity to partner with SAM Hospital for internships and students regularly seek out independent voluntary service opportunities.

# **Reporting System**

Achievement levels are recorded on student transcripts at the end of each course. Credits from previous schools attended are included on the transcript. Cumulative GPA, based on a 4.0 scale, is calculated for achievement levels earned only at GSIS. IB DP Higher Level (HL) courses receive an additional 0.5 weighting in the calculation of GPA, and MYP and IB DP Standard Level (SL) courses are weighted 0.25. Students who are taking online courses under a teacher's supervision at GSIS that is considered a Language Support course, a required online course, a School Supported Self Taught (SSST) in the Diploma Program, Theory of Knowledge (TOK), and transfer students receive a "P (Pass)" or "F (Fail)". GSIS awards a modified diploma for students who have an IEP where curriculum is modified. Students who utilize a modified curriculum receive an "S (Satisfactory)" or "U (Unsatisfactory)".

## **University Research Experience**

Every student in the Diploma Program engages in student-led academic research culminating in the Extended Essay or Internal Assessment. Through these projects students experience the excitement of intellectual discovery. The following are example research topics from the Class of 2025:

#### **English Language Arts**

An exploration of fractured identity in the Asian-American population through the literary works, *The Joy Luck Club* and *Crazy Rich Asians*. The student examined the internal and external conflicts that arise in the characters as a result of assimilation into a new culture and the tension caused by the clashing of traditional and modern cultural values.

#### Science

Evaluation of the degree of bacteria inhibition in different types of mouthwash using E. coli as a substrate.

#### **Economics**

Evaluation of an economic policy adopted in the last five years using primary and secondary data. The student studied how local currency stimulated small businesses and traditional markets in Korea.
