Safe & Ethical Behavior – Grade 2

Dear Families/Caregivers,

We are learning about the adults who help us feel safe at school.

Supporting Your Child in Identifying Adults at School Who Help Them Feel Safe

- Talk with your child about what helps them feel safe at school.
- Encourage your child to think about the adults at school who help them feel cared for, included, and happy.
- Support your child with identifying a safe adult at school by building healthy relationships with your child's teachers and other adults your child interacts with at school.

Thank you for your support.
