Values – Grade 4

Dear Families/Caregivers,

We are learning about how our values can impact the choices that we make. When students understand their values, it can help them make choices that align with those values.

Supporting Your Child Making Choices That Align With Their Values

- Discuss values with your child periodically. Talk about how they can change over time.
- Talk with your child about your family values, how they were formed, and how they helped you make decisions.
- Encourage your child to consider their values when making choices.
- Provide a space for your child to ask for advice when they have to make a choice, even if they may hold different values.

Thank you for your support.
