PREPARE TO MAKE A DIFFERENCE

PATHWAY TO: HEALTH SCIENCES /
ATHLETIC TRAINING CAREERS

Sports medicine is a fast-growing healthcare field that focuses on the prevention of and treatment of athletic injuries. In addition, sports medicine healthcare providers help athletes and other physically active patients improve well-being, strength, movement, and performance. The field of sports medicine encompasses a wide variety of career paths, including physical therapy, athletic training, and exercise physiology. Students interested in healthcare and sports may find a career in this industry highly rewarding!

FREE COLLEGE CREDITS

Our partnership with University of Northern Colorado creates opportunities for students to earn high school credit and college credit at the same time.

Concurrent Enrollment with University of Northern Colorado

- Biology: Atoms to Cells
- Introduction to Human Anatomy and Physiology

INDUSTRY CERTIFICATIONS

Students can earn nationally recognized certifications which prove they have the skills employers need and can lead to employment opportunities not otherwise available.

- CPR and First Aid
- FAST Level 1
