

SPRING CAMPS

2025 SPRING BREAK CAMPS

GRADES 1-3 • 9AM - 3PM, AFTER CARE 4PM
Register for the full week and save!

Are you looking for something fun and educational for your kids during their spring break? Look no further than the Putnam's Spring Camps! From March 17th to March 21st, we are offering exciting camps, now with an After Camp Care option available until 4pm! Grades 4-6 are on the other side.

Prep your child with STEM learning opportunities through building and engineering in cardboard, learning about and testing Iowa's environment, and deciphering codes and cultures of people in the past! Our skilled educators will be guiding them every step of the way with fun experiments and activities that teach something new as well.

MAYAN MYSTERY

Monday, March 17th

Get ready for an exciting day of archaeological adventure and experience the new traveling exhibit, Mystery of the Mayan Medallion. Investigate Mayan culture, animals, glyphs, and uncover the mystery of the treasured Mayan medallion!

CARDBOARD CREATIONS

Thursday, March 20th

Get crazy constructing, crafting, and making a masterpiece all with CARDBOARD! Reuse and realize your full building, engineering, and artistic potential in this camp that's bound to get you thinking outside of the box!

WACKY WEATHER

Tuesday, March 18th

Calling future Meteorologists and Storm Chasers for the season of weather change! In this camp we will learn about extreme weather, the science behind weather patterns, how climate change impacts us, and more!

SPELLBOUND SPRING

Friday, March 21st

Explore the wonder of Spring as we learn about the magical ways of nature! We will read classic spring-time fairytales and learn the ways of the guardians of the forest. We'll study animal tracks, find mysterious rocks and flowers, and so much more.

PLANT PARTY

Wednesday, March 19th

Welcome to Plant Party, where the wonders of spring come to life! This immersive day camp celebrates the beauty and growth of nature, with a special focus on native plants, seeds, and the incredible life cycles that unfold each spring.

TO SIGN UP VISIT

SEEDS TO SPROUTS

Wednesday, March 19th

Spring is the best time to discover the importance of farming in Iowa as we learn about the cycle from seeds to harvest. We will explore plant growth and soil, participate in farming activities, and hear from local farmers about sustainable farming.
