## **Santa Rosa City Schools Launches Attendance Boundary Drawing Tool Amid School Consolidation Discussions**

**SANTA ROSA, Calif.** – As part of the ongoing school consolidation process, the Santa Rosa City Schools Consolidation and Closure Advisory Committee will soon present their final recommendations to the Board of Education regarding which schools to consolidate and/or close. This is a critical step in addressing the district’s challenges while ensuring the best possible outcomes for students and families.

To engage the community in shaping the future of our schools, the district is launching a new web application that empowers parents, students, and community members to draw and submit their proposed attendance boundaries. This innovative tool provides an opportunity for everyone to actively participate in reimagining how schools serve the district.

All stakeholders are encouraged to use the tool to create and submit their proposed attendance boundaries. Submissions should be sent to **[new-boundaries@srcs.k12.ca.us](mailto:new-boundaries@srcs.k12.ca.us)** by **February 3rd**.

The web application is available at <https://www.srcschools.org/new-boundaries>.

“Our community’s input is essential as we navigate the school consolidation and closure process,” said Dr. Daisy Morales, Superintendent of Santa Rosa City Schools. “This web application allows us to continue working collaboratively, ensuring every voice is heard as we plan and restructure our district for a successful future.”

For more information on the school consolidation process, including upcoming meetings, visit <https://www.srcschools.org/school-consolidation/>.

Santa Rosa City Schools is the largest school district in Sonoma County, serving approximately 15,000 students in 24 schools.
