

Directions to Add Remind Widget to Canvas

The Remind widget allows you to show your Remind announcements on your Canvas page.

To Insert the Remind Widget into your Canvas Course

- Open the Canvas page you want to add the Widget to.
- Click View and <> HTML Editor.
- Put your cursor where you want the Remind Widget to go.
- Highlight and copy this code:

```
<p><iframe id="remind-widget-0" class="remind-messages" style="border: 0;" title="Remind messages" src="https://widgets.remind.com/widget?height=500&amp;join=false&amp;token=9bd2c2a0cba10139dbad0242ac110011" width="85%" height="300px"></iframe></p>
```

- Right click and choose paste or click ctrl + v to paste the code onto the Canvas page.
- Log into your Remind account.
- Click on your name in the upper left-hand corner.
- Click Account Settings.
- Click Widgets.
- Select a class from the class drop down list.
- Highlight and copy the 32-character numbers and text after token=

Step 1: Choose a class

Daniels Home Room 21-22

[Show advanced settings](#)

Step 2: Copy the code to your website

```
<script src="https://widgets.remind.com/iframe.js?token=9bd2c2a0cba10139dbad0242ac110011&height=500&join=true"></script>
```

- Paste the 32-character numbers and text in the highlighted part of the code that you copied to Canvas (see above).
- Click Save.

Your Remind announcement(s) should now display on your Canvas page and will automatically update anytime you make changes on the Remind site or in the Remind app.
