The JoAnn Sandra Weiland Lang Scholarship

In 1962, JoAnn Weiland was awarded her diploma as part of the second graduating class from Perkins High School. Although certainly talented enough to have furthered her education immediately after graduation, limited family resources and cultural factors prevented her from doing so.
The offering of this scholarship is intended as a tribute from those of us who were fortunate enough to have known and loved her. It is also our way of enabling today's young women with an opportunity that JoAnn did not have, and is a form of thanks to the many kind and devoted health care professionals who helped to ease the burdens of her life's final journey.

Qualifications

Our criteria is for the scholarship to go to a female student who intends to pursue a major for a in a health care related field. This could be anything from being a nurse's aide to high level research. We would like for potential applicants to maintain a cumulative high school grade point average of at least a 2.9 on a four point scale, with an average of at least a 3.125 at the time this scholarship would be awarded, along with taking mostly college prep courses.
We believe that part of being a health care professional involves personal initiative and leadership. Leadership to us means having the resolve to set a good example.

***Along with the questionnaire please attach your transcript and two letters of recommendation.**
Please turn in to Mrs. Schweinfurth by March 14th.

The JoAnn Sandra (Weiland) Lang Scholarship questionnaire
