Building a Legacy of Learning

ABOUT THE HART ROBINSON PRIMARY SCHOOL ENDOWMENT FUND

The Hart Robinson Primary School Endowment Fund is a permanent financial resource that supports St. John's Primary School's unrestricted operating budget. Donors have the unique opportunity to:

- Help sustain vital resources, programs, and support systems that meet the day-to-day needs of our Primary School.
- Create a legacy that reflects your passion for education and commitment to our students' success.

ABOUT PRIMARY SCHOOL AT ST. JOHN'S

Primary School at St. John's comprises preschool, prekindergarten, transitional kindergarten, and kindergarten. This program is designed to inspire children's natural curiosity and joy. Teachers create nurturing classroom environments where children feel secure to explore, engage, and learn.

- **Our youngest students are exposed to a wide variety of materials and hands-on activities to develop literacy and mathematical thinking.** Primary School students have regular time for science, Spanish, art, music, IDEA Lab, Godly Play, and library, which are critical to the integrated curriculum. Recess is a part of each school day, and students also enjoy physical education classes.
- **During these formative years, children learn about themselves through social interactions.** Our program provides many opportunities throughout the school day for children to interact with peers and adults. Through connections with classmates, children develop a more complex understanding of social relationships. They establish a sense of trust and well-being as they learn to share space, materials, friends, and teachers.
- **Play is an integral part the learning process for young children.** Through both self-directed and structured activities, teachers facilitate natural opportunities for children to practice literacy and math skills in meaningful and contextual ways. Play also serves as the means through which children develop higher-order thinking skills foundational to later academic success such as planning, organization, and problem-solving.
