

To parents and guardians,

At Campbell City Schools, we use Google Workspace for Education. Google Workspace for Education is a set of education productivity tools from Google including Gmail, Calendar, Docs, Classroom, and more used by tens of millions of students and teachers around the world. At Campbell City Schools, students will use their Google Workspace for Education accounts to complete assignments, communicate with their teachers, sign into Chromebooks, and learn 21st century digital citizenship skills.

All students have access to Google Workspace for Education by default. However, you have the option to opt them out of non-core services referred to as “additional services” if desired. To opt-out, please sign below and return this form to your child’s school.

Students who do not have access to Google additional services may need to use alternative software to complete assignments, communicate with teachers, and collaborate with peers. This may result in a different classroom experience, as many instructional activities and resources are integrated with Google Workspace for Education.

For detailed information about “additional services” please visit this link:

<https://www.campbell.k12.oh.us/parents/google-workspace-for-education-notice>

I do not permit Campbell City School District to provide my child access to “additional” non-core services and I understand that my child’s classroom experience may be different than other students.

Thank you,  
Administration
