Page Last Modified: 05/31/2024

Executive Summary

HARRISON CSD - 660501060000

The New York State Education Department (NYSED) has developed the online *2024-25 Consolidated Application for ESSA-Funded Programs* to support the timely administration of programs funded by the Every Student Succeeds Act (ESSA) to local educational agencies (LEAs) across the state. The application is streamlined to focus on the required assurances from Section 8306 of ESSA, as well as fiscal and programmatic information that staff have determined is necessary to properly administer each program. The additional information requested in the application will allow NYSED reviewers to ensure that all LEAs are fully prepared to effectively address key provisions of ESSA regulations. For example, the application includes a significant focus on consultation with required constituent groups in the design of ESSA-supported programs. Even though LEAs will provide assurances that consultation has occurred, NYSED has determined that evidence of that consultation should be provided as part of the application process. Toward that end, documentation of the constituent groups included in consultation, along with an *LEA Affirmation of Private School Consultation* form, will be required as part of the initial application.

The online format dramatically improves NYSED's capacity to collect and analyze district-provided data in a timely manner, and then utilize that data to provide targeted support to LEAs as part of shared continuous improvement efforts. For example, the format will allow NYSED to quickly review LEA-determined per pupil amounts for Title I, Part A programs to confirm that funds for services are appropriately distributed among eligible public and non-public schools. For LEAs whose calculation methodologies are not clear or are not consistent with ESSA requirements, NYSED program staff will be able to provide immediate technical assistance to ensure the proper distribution of funds.

The online application also supports better coordination among NYSED program offices – furthering the Department's capacity to support continuous improvement through technical assistance. For example, consultation forms and other data related to equitable services to private school students and teachers will be shared with the Ombudsman to help coordinate technical assistance and monitoring efforts between the Office of ESSA Funded Programs and the State Office of Religious and Independent Schools. Similarly, data about an LEA's use of Title II, Part A funds will be easily shared with District and School Review Teams from the Office of Accountability and the Office of Educator Quality and Professional Development to help LEAs maximize the use of evidence-based professional development strategies in identified schools.

- Yes, the LEA evaluated the progress made toward achieving the goals from the previous school year.
- No, the LEA did not evaluate the progress made toward achieving the goals from the previous school year.

1B. To what degree did the LEA make progress toward achieving the Title I, Part A goals from the previous school year?

- The LEA exceeded the goals it set for the previous school year.
- The LEA met the goals it set for the previous school year.

2. In the space provided below, please describe (1) the specific student needs that impact academic achievement, and (2) how your Title I, Part A program is designed to address those needs. The needs should be identified through a recent needs assessment, include homeless and/or neglected youth as applicable, and provide the basis for coordinated efforts on the part of the LEA to address them.

HCS D is committed to supporting teachers and building principals in their work to improve overall instruction and ensure equity of educational opportunity for all students.

HCS D Title I program targets eligible students (based upon free or reduced lunch) in Title I schools who are at-risk for not meeting NYS standards. Title I eligible schools are Preston Elementary School and Parsons Elementary School. The funds are used to support supplemental literacy services provided by reading teachers in Title I buildings. The district's needs analysis utilizes multiple measures of student performance as the basis for program development targeting at-risk students through a Response to Intervention (RTI) model including: (1) scores from NYS mathematics, ELA and science exams in grades 3-5; (2) percentile scores from ELA and mathematics Measures of Academic Progress (MAP) in grades K-5; (3) Fountas & Pinell reading levels in grades K-5; (4) classroom grades and/or ELA and mathematics proficiency scales; and, (5) RTI team recommendations.

Harrison's needs analysis indicates that FRL status is negatively correlated with student achievement. the lowest performing of K-5 students identified in Title I eligible schools are provided with RTI Tier 3 ELA intervention services (targeted, research-based literacy interventions in phonics, academic language, comprehension strategies) in push-in or pull-out classes serviced by certified reading teachers and interventionists. The focus of this instruction is to develop pre-reading strategies, vocabulary, comprehension strategies and metacognitive skills.

Second grade AIS students will be provided with additional high interest, low level reading materials.

3. In the space below, please describe the specific goals and/or outcomes the LEA has identified based on the information provided above. The goals/outcomes should be measurable and aligned directly to the above identified needs impacting student achievement.

The goals of HCS D Title I program are: (1) to increase the number of students meeting grade level achievement levels by 15% based upon multiple measures of performance; (2) to meet 80% of ELA growth targets for individual students based upon MAP. Students will also learn to self-assess and teachers will monitor progress at regular intervals, conference with students and report to school/district

Teachers will be compensated with Title II funds for providing the in-service courses noted above.

Teachers will be selected for instructional coaching based upon analysis of observation report scores, prior student performance and principal recommendation. Teachers will collaborate with the instructional coach to establish targets for improvement.

The LEA anticipates student performance in K-12 and across content areas will demonstrate growth as a result of the effectiveness of instructional practices being maximized because of participation in professional development by teachers.

- The LEA did not meet the goals it set for the previous school year.

2. In the space provided below, please describe (1) the specific student needs that impact academic achievement, and (2) how your Title III, Part A - ELL program is designed to address those needs. The needs should be identified through a recent needs assessment, and should provide the basis for coordinated efforts on the part of the LEA to address them.

Upon analysis of data such as NYSESLAT scores, grade 3-8 assessments, Regents exams and local benchmarks, there is a need to provide additional supports for ELL students in the acquisition of expressive and receptive language skills. Many of our ELLs benefit from additional services after school to complete assignments by participating in a homework club that meets after school hours. Summer months provide an excellent opportunity to provide continuity of learning for our students. These two areas remain the primary focus for these funds. Teachers will be compensated to provide these supplemental services before and after school and during the summer months.

Funds are also dedicated to provide translation services, both written and in-person, for families that are not English-speaking. These services include translation of documents from school, assistance in communicating with teachers and administrators, translation of CSE meetings and documents and whatever other needs may present.

3. In the space below, please describe the specific goals and/or outcomes the LEA has identified for ELLs based on the information provided above. The goals/outcomes should be measurable and aligned directly to the above identified needs/obstacles impacting ELL student achievement.

The LEA intends to continue to fund our homework clubs at all school levels so students can receive support after school with content, language, and technology needs. Additionally, summer programs at the elementary, middle and high school levels will be conducted in person to help ELLs maintain and/or further develop language and literacy skills acquired during the school year. During the summer programs, students have access to enrichment activities that also give them practice in foundational skills.

Scores from NYSESLAT, grade 3-8 assessments, Regents exams, and local benchmarks will be compared from one test administration to the next to determine student growth. As a result of translation services. It is anticipated that more ELL families will participate in school events, and a stronger school-home connection will be fostered.

The needs should be identified through a recent needs assessment, and should provide the basis for coordinated efforts on the part of the LEA to address them. If an LEA is transferring 100% of its Title IV, Part A allocation, please identify the specific needs that informed the decision to transfer.

Upon examination of graduation cohort data, it was determined that students demonstrating high capabilities choose to attend 2 year colleges rather than 4 year colleges.

The increased rigor expected by Next Generation Learning Standards has created a need to provide professional development for teachers focusing on performance expectations, disciplinary core ideas, science and engineering practices, and cross cutting concepts.

The LEA has determined the following areas as needs:

- The need for support ensuring that all graduating seniors have a 4-year college option even if they ultimately decide a 2-year school or to pursue other post-secondary plans.
- The need for revised units of study for all grade levels.

2G. In the space provided below, please describe the goals, objectives and intended outcomes of the Well Rounded Educational Opportunities, Safe and Healthy Students, and/or Effective Use of Technology content areas of the Title IV, Part A program based on the results of a recent needs assessment.

- The goal is to provide first generation college students and students who are not actively pursuing a 4-year college option with the opportunity to visit a college and learn more about available opportunities. As a result, more students will apply to 4 year colleges.
- The goal is to deepen student knowledge and increase capacity for learning as a result of teachers participating
