The History of Shattuck-St. Mary's School

On June 3, 1858, in a small rented building in Faribault, Minnesota, The Rev. Dr. James Lloyd Breck established the Episcopal mission school and seminary from which Shattuck-St. Mary's School has developed and prospered. When the school first opened, there were 45 young girls and boys and six divinity students, both Native American and white.

About this time, the newly established Episcopal diocese of Minnesota selected Henry Benjamin Whipple as its first Bishop. Bishop Whipple established his home in Faribault and, in 1860, took over the reins of the school, changing Breck's ambitious plan for "Bishop Seabury University" into something more realistic—"an honest school."

In 1864, when Seabury Hall was completed, the school moved to its present site on the bluffs above the Straight River. With this change, the institution became a boarding school for young men and boys. In 1865, Tommy Crump, an English divinity student recently returned from the Civil War, started the boys drilling with sticks—and so began a military program that would last here for more than a century. Bishop Whipple, c. 1864

By 1866, more room was needed and, through the largess of Dr. George Cheyne Shattuck of Boston, Shattuck Hall was built specifically for the boys. Soon the grammar school became known as "Shattuck." That same year, Bishop Whipple opened a school for girls, St. Mary's Hall, in his home in downtown Faribault. The girls remained there until 1872 when the Bishop moved to a new house and St. Mary's Hall was turned over to a board of trustees. Also in 1872, the Chapel of the Good Shepherd was built through the generosity of Augusta Shumway of Chicago. Though she lost all her property in the great Chicago Fire, she kept her

promise to build a chapel for "the Bishop's boys' school" by sending Whipple her insurance checks. With its rare, all-stone spire, it became the focal point of the Shattuck campus.

By 1883, St. Mary's had outgrown its facilities, and a grand, ornate building, often referred to as "the Castle on the Rhine," was built on the bluffs, less than a half mile south of Shattuck. That unique building burned in 1924, and the limestone structure that stands today was built less than a year later.

Both schools saw rapid growth during the next few years. Dr. James Dobbin, who had succeeded Dr. Breck in 1866 and who served as Rector of Shattuck School until 1914, was responsible for the construction of many beautiful limestone buildings, including the first Whipple Hall and the present Shumway Hall. In 1901, Dr. Dobbin founded St. James School for younger boys about a half mile north of Shattuck. In 1932, Seabury Theological Seminary merged with Western Theological Seminary and moved to Evanston, Illinois.

In 1972, the three schools, Shattuck, St. Mary's and St. James, were joined into what is known today as Shattuck-St. Mary's School. In 1974, the military program was discontinued.

In 1988, the residential and academic programs were reconfigured so that the Middle School students (grades 6-8) were at the St. Mary's campus and the Upper School students (grades 9-12) were at the Shattuck Campus.

2003 marked the beginning of a period of growth and development for the School. The School campus physically changed with the addition of two ice arenas, the Dane Family Fieldhouse and outdoor turf field, a ropes course, a new athletic training facility, Fayfield Hall, and Kim Hall, as well as countless renovations of academic and residential buildings. Additionally, the School developed the unique Center of Excellence model that Shattuck-St. Mary's is now known for. There are currently nine Centers of Excellence spanning across academics, athletics, and the arts. This, combined with the School's innovative blended learning model and ScholarShift program, has made Shattuck-St. Mary's the prominent academic institution it is today.

Hail to St. Mary's

"Hail to Saint Mary's
Glad tribute we bring!
Loyalty's treasure,
Love in full measure;
Heart's true devoon
That grows with the years-
This be the song we sing.

"Sing of the lily,
Symbolic school flow'r;
We who have bowed
To that scepter's sweet power;
Sing of the shield
Thou has given to be
Borne nobly to honor thee.

"The past thou has given
We ever shall guard,
The future they daughters
Shall hold in dear ward.
And when 'neath this shelter
We no longer sing,
Sll deep in our hearts
Loving praises shall ring.

"Then sing we Saint Mary's
As daughters we bring
Loyalty's treasure,
Love in full measure,
Heart's true devoon
That grows with the years-
Ever this song we sing."

Shattuck Men

Shattuck Men, we've trod the paths together,
Sons of a Mother wise and true;
Now we're bound by ties we will not sever
All our whole lives through.

Shattuck brothers here we found
Friendships that will never die
Light to lead us in the shining future
To our purpose high.

Valiant sons who gave their full devotion
Dwelt 'neath thy ivy mantled tow'rs
Vanished now a far o'er boundless ocean
Still real those hours

On the fields their voices rang
In thy halls they served thee well
And though time and space
have come between them
Still thy glories tell

We have found that ever living glory
Where those same men ye knew of old
Wrote thy fame in legend and in story
Brighter far than gold.

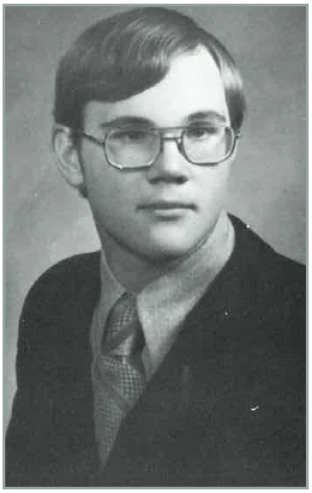

March together hand in hand
The time will come when we must part
Still The love of Shattuck days will linger
Ever in each heart.

Unfortunately, Danny didn't come back sophomore year and was a victim of the 1972 Rapid City Flood. RIP brother.
