## **104 SCHOOL DISTRICT MISSION STATEMENT**

### **I. PURPOSE**

The purpose of this policy is to establish a clear statement of the purpose for which the school district exists.

### **II. GENERAL STATEMENT OF POLICY**

The school board believes that a mission statement should be adopted. The mission statement should be based on the beliefs and values of the community, should direct any change effort and should be the basis on which decisions are made. The school board, on behalf of and with extensive participation by the community, should develop a consensus among its members regarding the nature of the enterprise the school board governs, the purposes it serves, the constituencies it should consider, including student representation, and the results it intends to produce.

### **III. MISSION STATEMENT**

Creating worlds of opportunity for each and every learner “*All Belong, All Succeed*”

### **IV. REVIEW**

The school board will review the school district’s mission every two years, especially when members of the board change. The school board will conduct a comprehensive review of the mission during the Strategic planning process, including the beliefs and values of the community, at least every five to seven years.

**[Note: Columbia Heights Public Schools approved a new strategic plan for the 2024-25 school year. During the strategic planning process, the School Board discussed the mission statement and did not change, modify or revise the district’s mission.]**
