

School Council

2/27/2025

Members Present: J. McIntosh, K. Gleason-Hayes, J. Saulinskas, P. Gorges, G. Arronte, & A. Wiley

Members Not Present: T. Bird

Call to Order: 8:35am

Pledge of Allegiance:

Approval of Agenda:

1. **Outdoor Classroom** – Space is being used. We are so thankful to our PTA for their support in this endeavor!
2. **LED Lighting** – new lighting installed; dimmer switch in classrooms
3. Metro Atlanta STEM Collaboration hosted by **Defined Learning**-March 18th – helping as a host. Defined Learning has a lot of collaborative opportunities in math and science (game based using math skills) - Defined Learning is partnering with us to show how their program works in schools – they will be here for three hours – will do a tour of the building at the conclusion of the visit – other counties will be visiting -
4. **Job Fair** – event on Saturday, March 1st.
5. **GOSA Score:**

The Georgia Promise Scholarship Act (SB 233) requires the *Governor's Office of Student Achievement* (GOSA) to calculate the lowest 25th percentile of public schools. In order to do this, GOSA must calculate a single score (since GaDOE no longer does this as part of its CCRPI process). GOSA chose to use the CCRPI calculation formulas from 2019 in order to calculate these scores.

GOSA Single Score Added to CCRPI Reports

Championed by GOSA, HB 1122 requires GOSA to “establish and annually calculate individual school and school system ratings” as a single numerical score on a scale of 0-100, for each public school and school system in this state.” GaDOE is required to calculate and publish component scores as well as publish GOSA’s single score.

6. **Parent Survey** – Link has been shared with Knox parents
7. **Student Restrooms** – Discussion of installing guards in between urinals to increase privacy in boys RR down by the gym. Parent concern was brought up earlier in the year. The council agreed to move forward.
