

EMPOWERING TOMORROW'S LEADERS: INSIDE OUR STUDENT LEADERSHIP COUNCIL

By OAE Staff

You've probably heard about student councils at the high school level, but Adult & Higher Education Institutions are adopting this programming as a way to incubate the next generation of leaders, innovators & changemakers who can impact programming at a foundational level while integrating into the wider community.

Owatonna Adult Education built a council with grant dollars & the impact on programming can be seen daily. By giving students a voice at their educational institution, these student leadership councils foster critical skills like communication, collaboration, & problem-solving while bringing a transformative element of belonging & connection to the Owatonna community.

Our council members network with local industry, volunteer with local organizations, advocate for our student population & are waiting to hear about your leadership opportunities! Connect with us to find out how to partner! Make sure to save-the-date for their annual end-of-the-year student celebration!

Save-the-date: Student Success Celebration!

Thursday, May 29, 5:30-7:30pm, Roosevelt School

COMMUNITY CORNER
