

HACIENDA LA PUENTE UNIFIED SCHOOL DISTRICT

BOARD INQUIRY

Date Received: February 26, 2025

Time: 11:37 AM

Board Member: Adriana Quiñones

Administrator: Manoj Roychowdhury

I. ESTIMATED RESPONSE TIME REQUIRED: 2 hours

II. INQUIRY/ISSUE DESCRIPTION:

1. under Issues/Analysis--sentence is incomplete. It reads: These upgrades do not the electrical repairs for the stadium lighting.
2. Can you please provide specific details about the work that will be completed?

III. ANALYSIS/FACT FINDING:

The WIHS DSA pre-requisite compliance project, listed as item 5.05c on tomorrow's agenda, includes the installation of lighting under the WIHS Stadium bleachers (home side) and ADA-compliant upgrades to the restrooms behind the gymnasium adjacent to the stadium. Currently, the bleachers lack adequate lighting underneath, and the restrooms do not meet ADA accessibility standards.

As you may be aware, the District is required to demolish and rebuild the WIHS Stadium press box, as it was originally constructed without DSA authorization. A rehabilitation plan has been submitted to DSA for approval. During the plan review, DSA mandated that the stadium lighting and adjacent restrooms be brought into compliance with code requirements. Addressing these issues is a prerequisite for DSA to proceed with reviewing the press box rehabilitation plan.

It is important to note that the under-bleacher lighting installation will not affect the existing stadium lighting system, which the District is currently assessing for repairs, as they operate on separate electrical circuits.
