

Know Before you Sign Up: ONLINE SUMMER COURSES

All students are encouraged to use their summer for healthy activities outside of school.

If a student chooses to take a summer course, please remember:

- Taking online courses could have a direct impact on subsequent scheduling and sequence of courses for students all throughout high school.
- Students are not guaranteed the next course in the sequence if they take a summer course.
- Rising 9th and 10th grade students (Class of 2028 and 2029) may only earn 1 credit (1.0 or .5/.5).
- Rising 9th and 10th grade students (Class of 2028 and 2029) may only earn credits from FVA or GAVS.

CTAE Online

Intro CTAE courses for rising 9th grade students: Students who take courses, like but not limited to, **Intro to Software Tech** or **Intro to Healthcare** will not likely be offered the second year CTAE course as freshmen. Priority scheduling is to 10th -12th grade students in the pathway. Students cannot take AP Computer Science Principles at LHS in 9th grade.

CTAE courses for rising 10th and 11th: Placement into the next sequence course in the pathway is not guaranteed. Students can not be added to the course until verification of successful completion in late summer. At this point many of the elective courses are full.

Math Online

GAVS Geometry A: Students will be placed in Geometry A support in fall and receive the Geometry B credit after successful completion of Geometry B in the spring. Students **will NOT be placed into Accel Adv. Algebra.**

Geometry AB (full course): Students will be placed in on-level Advanced Algebra (Algebra II), **NOT Honors Adv. Algebra (Alg. II). Note: Honors Adv. Algebra (Alg. II) is required for AP Precalculus**

Advanced Algebra (Alg. II): Students will be placed in Precalculus **NOT AP Pre-calculus.**

Precalculus: Students will be placed in Calculus **NOT AP Calculus AB.**

Science Online

Chemistry or Other Science: GAVS/ FVA does not offer Honors Chemistry or honors sciences in general, which are a pre-requisite courses to many of the AP Sciences. Rising 10th grade students may not take Chemistry online over the summer in an attempt to double up as rising 10th grade students or to add AP Sciences in 10th grade.

Lit & Social Studies Online

Lit & Comp II (10th Lit): Students will be placed in American Lit, **NOT AP Lang or AP Lit.**

Dual Enrollment Lit: Does not count as Lit & Comp II (10th Lit) and will not allow a student to move into AP Lang or AP Lit.

Economics: Must be taken in 11th or 12th grade to count for graduation credit, only Personal Finance & Economics, AP Macroeconomics, AP Microeconomics, or Dual Enrollment Econ 1101 counts for graduation credit
