

Ill or Injured Student Driver Guidance

If it is necessary for a student to check out early due to illness or injury, the student should be assessed by the school nurse. If student meets the assessment criteria to be excused early, then parent/guardian must be notified.

If noted that the student has a vehicle on campus, then the recommendation is that the student be picked up and checked out by a parent/guardian. If parent/guardian requests that student be allowed to drive home, then the decision will be made between the parent/guardian and the student. The school nurse will document the parent/guardian decision to allow the student to drive home within the student's health office visit in Infinite Campus.

If the school nurse does *not* feel that it is safe for a student to drive home, after parent/guardian has requested for student to do so, then school administration will be notified and they will follow up with parent/guardian to address concern.
