PLAN CREATION AND REVIEW

This Comprehensive School Safety Plan (referred to as “CSSP”) was developed in conjunction with our local fire department as well as our local law enforcement partners March 2022). The current plan is updated annually and reviewed by this site’s Safety Planning Committee (referred to as “the Group”) under advisement and with assistance from the Folsom Cordova Unified Safe Schools Team. This plan may be evaluated and amended as needed but shall be reviewed by the Group no less than annually and updated as required per CA Education Code (Sections 32280-32288).

Consistent with CA Education Code Section 32281, the Plan Review Group minimally includes the site Principal (or designated administrator), 1 teacher representative, 1 classified employee representative, and 1 parent of a student that is currently enrolled. The Group also includes an identified Safe Schools’ Safety Specialist. Additional members are included as necessary as recommended by the CDE such as students, mental health specialists, nurses, athletic coaches, multilingual liaisons, and other stakeholders. The Group is comprised of the following members:

Allen Sims, Principal

Suzanne Borth, Assistant Principal

Christine Anderson, Administrative Assistant

Janie Munson, Teacher

Norman De La Pena, School Resource Officer

Fire Department Personnel

Coordinator of Safe Schools D. T. Martin (Review date 12/13/24)

In accordance with guidance from the California Department of Education, the Group shall ensure the final reviewed and approved plan is completed, submitted to the District Safe School’s Office and available to the public for inspection upon request no later than March 1 of each calendar year.

Where practical, The Group consulted and coordinated with local law enforcement, fire districts, other school sites, district safety planning teams and student support service teams to improve district-wide consistency in planning, response, and resource availability to increase campus safety and create a culture and environment that promotes positive student behavior and academic success.

A public meeting was held on 9/24/24 at Kinney High and Prospect Community Day School open to the school community to review the plan and receive input.

This plan has been approved by the Group on 9/24/24 and submitted to the Coordinator of the Folsom Cordova Unified Safe Schools Program on 12/13/24 for review.

- Once approved by the Coordinator of Safe Schools, this plan will be posted and available for review at 2710 Kilgore Road, or online at <https://www.fcusd.org/khs> and <https://www.fcusd.org/pcds> training schedule has been identified to utilize this plan as an instructional tool with site staff in response to

safety and emergency incidents as well as identify policies, efforts and programs used to improve site climate.

Final plan approved by the Safe Schools Coordinator on: 12/13/2024

DATA ASSESSMENT

The Group reviewed a variety of data sources related to school climate, culture and safety. Data sources reviewed in developing this plan consist of:

- CA Healthy Kids Survey
- Panorama Parent/Student/Staff Surveys
- Attendance Rates / SARB Data
- Suspension / Expulsion Data
- SPSA
- SWIS data
- PowerSchool Incidents
- BSA behavior data collection
- Other Means of correction data
- COST referrals

The Group identified the following observations and findings and have incorporated the below planned actions to improve the campus culture and environment:

Findings and outcomes from the data should reflect this plan's goals in reducing violations and improving school safety climate.

- The CSSP must minimally contain information demonstrating comparative statistics for the previous two years and addressing
 - Crimes occurring on campus and at school events
 - Incidents of suspension and expulsion
 - Incident rates of bullying, harassment and hate motivated or biased acts
 - Any other significant information you believe should be addressed to demonstrate areas that need improvement or demonstrate successes in developing a culture and environment of safety
- Finding #1 – Cyberbullying is an ongoing concern that is being addressed through homeroom activities, other means of correction plans for offenders, and ongoing Social Emotional Skill development for students.
- Finding #2 – Catapult training is ongoing with new staff, and routine practice for all to better enable programs to many uses in a consistent and functional way.

- Finding #3 - Leaving campus students choice to leave campus without permission is being curtailed by immediate conversation with families, skill-building around anxiety and perseverance for those who leave early, and clear expectations for students including understanding they will be searched if they leave in order to maintain a safe and drug-free school environment
- Finding #4 - Bathrooms continue to be the place of choice for breaking school safety rules such as vaping and congregating to avoid class. Better accountability for student movement has helped to monitor usage.

Section 1

SITE SAFETY

Safety is Our Priority

Kinney High and Prospect Community Day School students and staff promote a positive school climate, safety and student achievement. We have a robust PBIS program that clearly identifies expected behaviors and consequences for breaking those norms. Our Mental Health Specialists have trained several teachers and staff on Trauma-Informed practices to help redirect behaviors based on past trauma and best practice in using restorative conversation to call students back into positive behaviors and community.

We use BASE education to support the growth and development of Social-emotional skills. And use “alternative to suspension” reflective practices and restorative justice programs to enhance skills rather than simply punishing inappropriate behaviors. Students have access to tobacco, drug and alcohol counseling by staff and self-referral in order to lessen use amongst our community.

We have staff trained in all of the following:

- Strategies the site uses to reduce the likelihood of violence occurring on the campus
 - Staff training to identify students who may be at risk to themselves or others
 - Anonymous tip reporting (WeTip/Catapult supported anonymous tips)
 - Social media monitoring or educational resources provided to students / families
 - Site / District based access to mental health resources, social workers, nurses, and counselors
 - Use of Behavioral Threat Assessments with an identified / coordinated group
 - Admin, Counselor, Psychologist, Safe School CSS and including or referred to law enforcement as appropriate
- Restorative & Transformational Justice
- Intervention Services
- Counselling, Mental Health and Juvenile Suicide Prevention
- Bullying Prevention
- Use of alternative safety strategies such as No Contact Contracts, Behavior Agreements or other
- Substance Abuse Prevention
- PBIS

Safe and Orderly Environment

This site implements practices and procedures to improve safety for students, staff, parents and guests while present on campus. Behavior or safety incidents occurring off campus may be addressed as appropriate when determined to have a clear nexus to school or student safety.

- Our sites have a regular practice of restorative communication that builds understanding between students before a safety incident arises. We have Behavior Support Assistants that have trained and supported teachers to redirect unsafe behaviors and focus students' reflection on overcoming their frustrations.

School Safety and Homicide Threats

EC 49390, 49391, 49392; BP and AR 0450

The Governing Board recognizes that students and staff have the right to a safe and secure campus where they are free from physical and psychological harm and fully committed to maximizing school safety and to creating a positive learning environment that includes strategies for violence prevention and high expectations for student conduct, responsible behavior, and respect for others. The Superintendent or designee shall consult with local law enforcement and other appropriate individuals and agencies to address the security of school campuses and provide a safe environment for students, staff, and visitors on campus.

If a District employee observes or suspects that any unauthorized person is in possession of a firearm on or near school grounds or at a school activity, or any writing or action of a pupil that creates a reasonable suspicion that the pupil is preparing to commit a homicidal act related to school or school activity the employee shall immediately notify the principal or designee and law enforcement. This may include possession, use or depictions of firearms, ammunition, shooting, or targets in association with infliction of physical harm, destruction, or death in a social media post, journal, class note, or other media associated with the pupil. It may also include a warning by a parent, pupil or other individual. After the initial report, the District shall immediately investigate any threat or perceived threat (e.g., threat assessment).

Board Policy 3515: Threats of Homicide at School (Senate Bill 906)

On or before July 1, 2023, the State Department of Education, in consultation with relevant local educational agencies, civil rights groups, and the Department of Justice, to develop model content that includes, at a minimum, content that informs parents or guardians of California's child access prevention laws and laws relating to the safe storage of firearms. The bill would require, commencing with the 2023–24 school year, local educational agencies maintaining kindergarten or any of grades 1 to 12, inclusive, to, informed by the model content, include information related to the safe storage of firearms in an annual notification provided to the parents or guardians of pupils.

“School official” means any certificated or classified employee of a local educational agency or member of the school district governing board, county board of education, or governing body of a charter school whose official duties bring the individual in contact with pupils in any of grades 6 to 12, inclusive, as part of a middle school or high school, on a regular basis.

This bill requires, on or before July 1, 2023, the State Department of Education, in consultation with relevant local educational agencies, civil rights groups, and the Department of Justice, to develop model content that includes, at a minimum, content that informs parents or guardians of California's child access prevention laws and laws relating to the safe storage of firearms. The bill would require, commencing with the 2023–24

school year, local educational agencies maintaining kindergarten or any of grades 1 to 12, inclusive, to, informed by the model content, include information related to the safe storage of firearms in an annual notification provided to the parents or guardians of pupils.

The bill would require a school official whose duties involve regular contact with pupils in any of grades 6 to 12, inclusive, as part of a middle school or high school, and who is alerted to or observes any threat or perceived threat to immediately report the threat or perceived threat to law enforcement, as provided. The bill would require, with the support of the local educational agency, the local law enforcement agency or school site police, as applicable, to immediately conduct an investigation and threat assessment, as specified. The bill would require the investigation and threat assessment to include a review of the firearm registry of the Department of Justice and, if justified by a reasonable suspicion that it would produce evidence related to the threat or perceived threat, a school site search. By imposing additional duties on local educational agencies, the bill would impose a state-mandated local program. Under the bill, a local educational agency serving pupils in kindergarten or any of grades 1 to 12, inclusive, and a school of a local educational agency, is immune from civil liability for any damages allegedly caused by, arising out of, or relating to these provisions.

“Threat or perceived threat” means any writing or action of a pupil that creates a reasonable suspicion that the pupil is preparing to commit a homicidal act related to school or a school activity. This may include possession, use, or depictions of firearms, ammunition, shootings, or targets in association with infliction of physical harm, destruction, or death in a social media post, journal, class note, or other media associated with the pupil. It may also include a warning by a parent, pupil, or other individual.49393. (a) A school official who is alerted to or observes any threat or perceived threat, as described in subdivision (e) of Section 49390, shall immediately report the threat or perceived threat to law enforcement. The report shall include copies of any documentary or other evidence associated with the threat or perceived threat.

When two or more school officials jointly have an obligation to report pursuant to subdivision (a), and when there is agreement among them, the report required by this section may be made by any of them in a single report. A school official who has knowledge that the designated reporting school official has failed to make the single report shall thereafter make the report.

Board Policy 5142 – Safety

The Governing Board recognizes the importance of providing a safe school environment that is conducive to learning and promotes student safety and well-being. (cf. 3530 - Risk Management/Insurance)

In arranging for appropriate supervision on playgrounds, the principal or designee shall:

1. Where playground supervision is not otherwise provided, provide for employees to supervise the conduct and safety, and direct the play, of students who are on school grounds before and after school and during recess and other intermissions (5 CCR 5552)

2. Clearly identify supervision zones on the playground and require all playground supervisors to remain outside at a location from which they can observe their entire zone of supervision

3. Consider the size of the playground area, the number of areas that are not immediately visible, and the age of the students to determine the ratio of playground supervisors to students

Safe Storage of Firearms and School Safety

California Educ. Code 49392

Folsom Cordova Unified School District is required by law to inform and to remind parents and legal guardians of all students in the District of their responsibility for keeping firearms out of the hands of children as required by California law. There have been many news reports of children bringing firearms to school. In many instances, the child obtained the firearm(s) from their home. These incidents can be easily prevented by storing firearms in a safe and secure manner, keeping them locked up when not in use and storing them separately from ammunition.

To help everyone understand their legal responsibilities, below is a summary of California law regarding the storage of firearms. Please take some time to review this information and evaluate your own personal practices to assure that you and your family are in compliance with California law.

- With very limited exceptions, California makes a person criminally liable for keeping any firearm, loaded or unloaded, within any premises that are under their custody and control where that person knows or reasonably should know that a child is likely to gain access to the firearm without the permission of the child's parent or legal guardian, and the child obtains access to the firearm and thereby (1) causes death or injury to the child or any other person; (2) carries the firearm off the premises or to a public place, including to any preschool or school grades kindergarten through twelfth grade, or to any school-sponsored event, activity, or performance; or (3) unlawfully brandishes the firearm at others.

- o NOTE: The criminal penalty may be significantly greater if someone dies or suffers great bodily injury as a result of the child gaining access to the firearm.

- With very limited exceptions, California also make it a crime for a person to negligently store or leave any firearm, loaded or unloaded, on their premises in a location where the person know or reasonably should know that a child is likely to gain access to it without the permission of the child's parent or legal guardian, unless reasonable action is taken to secure the firearm against access by the child, even where a minor never actually access the firearm.

- In addition to potential fines and terms of imprisonment, as of January 1, 2020, a gun owner found criminally liable under these California laws faces prohibitions from possessing, controlling, owning, receiving, or purchasing a firearm for 10 years.

- Finally, a parent or guardian may also be civilly liable for damages resulting from the discharge of a firearm by that person's child or ward.

NOTE: Your county or city may have additional restrictions regarding the safe storage of firearms.

Thank you for helping to keep our children and schools safe. Remember that the easiest and safest way to comply with the law is to keep firearms in a locked container or secured with a locking device that renders the firearm inoperable.

c. Disability discrimination based on a district requirement for a medical or psychological examination of a job applicant, or an inquiry into whether a job applicant has a mental or physical disability or a medical condition or as to the severity of any such disability or condition, without the showing of a job-related need or business necessity

(cf. 4119.41/4219.41/4319.41 - Employees with Infectious Disease)

d. Disability discrimination based on the district's failure to make reasonable accommodation for the known physical or mental disability of an employee or to engage in a timely, good faith, interactive process with an employee, to determine effective reasonable accommodations for the employee, when he/she has requested reasonable accommodation for a known physical or mental disability or medical condition

(cf. 4032 - Reasonable Accommodation)

The Board also prohibits retaliation against any district employee who opposes any discriminatory employment practice by the district or its employees, agents, or representatives or who complains, testifies, assists, or in any way participates in the district's complaint process pursuant to this policy. No employee who requests an accommodation for any protected characteristic listed in this policy shall be subjected to any punishment or sanction, regardless of whether the request was granted. (Government Code 12940)

Complaints concerning employment discrimination, harassment, or retaliation shall immediately be investigated in accordance with procedures specified in the accompanying administrative regulation.

Sexual Harassment

Board Policy 5145.7

The Governing Board is committed to maintaining a safe school environment that is free from harassment and discrimination. The Board prohibits, at school or at school-sponsored or school-related activities, sexual harassment targeted at any student by anyone. The Board also prohibits retaliatory behavior or action against any person who reports, files a complaint or testifies about, or otherwise supports a complainant in alleging sexual harassment.

The district strongly encourages any student who feel that they are being or have been sexually harassed on school grounds or at a school-sponsored or school-related activity by another student or an adult, or who has experienced off-campus sexual harassment that has a continuing effect on campus, to immediately contact their teacher, the principal, the district's Title IX Coordinator or any other available school employee. Any employee who receives a report or observes an incident of sexual harassment shall notify the Title IX Coordinator.

Once notified, the Title IX Coordinator shall ensure the complaint or allegation is addressed through AR 5145.71 – Title IX Sexual Harassment Complaint Procedures or BP/AR 1312.3 Uniform Complaint Procedures, as applicable. Because a complaint or allegation that is dismissed or denied under the Title IX complaint procedure may still be subject to consideration under state law, the Title IX Coordinator shall ensure that any implementation of AR 5145.71 AR concurrently meets the requirements of BP/AR 1312.3.

The Title IX Coordinator shall offer supportive measures to the complainant and respondent, as deemed appropriate under the circumstances.

The Superintendent or designee shall inform students and parents/guardians of the district's sexual harassment policy by disseminating it through parent/guardian notifications, publishing it on the district's website, and including it in student and staff handbooks. All district staff shall be trained regarding the policy.

Instruction/Information

The Superintendent or designee shall ensure that all district students receive age-appropriate information on sexual harassment. Such instruction and information shall include:

1. What acts and behavior constitute sexual harassment, including the fact that sexual harassment could occur between people of the same sex and could involve sexual violence
2. A clear message that students do not have to endure sexual harassment under any circumstance
3. Encouragement to report observed incidents of sexual harassment even where the alleged victim of the harassment has not complained
4. A clear message that student safety is the district's primary concern, and that any separate rule violation involving an alleged victim or any other person reporting a sexual harassment incident will be addressed separately and will not affect the manner in which the sexual harassment complaint will be received, investigated, or resolved
5. A clear message that, regardless of a complainant's noncompliance with the writing, timeline, or other formal filing requirements, every sexual harassment allegation that involves a student, whether as the

complainant, respondent, or victim of the harassment, shall be investigated and action shall be taken to respond to harassment, prevent recurrence, and address any continuing effect on students

6. Information about the district's procedure for investigating complaints and the person(s) to whom a report of sexual harassment should be made
 7. Information about the rights of students and parents/guardians to file a civil or criminal complaint, as applicable, including the right to file a civil or criminal complaint while the district investigation of a sexual harassment complaint continues
 8. A clear message that, when needed, the district will implement supportive measures to ensure a safe school environment for a student who is the complainant or victim of sexual harassment and/or other students during an investigation
- Disciplinary Actions

Upon completion of an investigation of a sexual harassment complaint, any student found to have engaged in sexual harassment or sexual violation of this policy shall be subject to disciplinary action. For students in grades 4-12, disciplinary action may include suspension and/or expulsion, provided that, in imposing such discipline, the entire circumstances of the incident(s) shall be taken into account.

Upon investigation of a sexual harassment complaint, any employee found to have engaged in sexual harassment or sexual violence toward any student shall be subject to disciplinary action, upon to and including dismissal, in accordance with law and the applicable collective bargaining agreement.

Record-Keeping

In accordance with law and district policies and regulations, the Superintendent or designee shall maintain a record of all reported cases of sexual harassment to enable the district to monitor, address, and prevent repetitive harassing behavior in district schools.

Board Policy 4119.11 - Sexual Harassment, Personnel

This administrative regulation shall apply to all allegations of sexual harassment involving employees, interns, volunteers, and job applicants, but shall not be used to resolve any complaint by or against a student.

Definitions

Prohibited sexual harassment includes, but is not limited to, unwelcome sexual advances, unwanted requests for sexual favors, or other unwanted verbal, visual, or physical conduct of a sexual nature made against another person of the same or opposite sex in the work or educational setting when: (Education Code 212.5; Government Code 12940; 2 CCR 11034)

1. Submission to the conduct is made explicitly or implicitly a term or condition of the individual's employment.
2. Submission to or rejection of the conduct is used as the basis for an employment decision affecting the individual.

3. Submission to or rejection of the conduct is used as the basis for any decision affecting the individual regarding benefits, services, honors, programs, or activities available at or through the district.

Prohibited sexual harassment also includes conduct which, regardless of whether or not it is motivated by sexual desire, is so severe or pervasive as to unreasonably interfere with the victim's work performance or create an intimidating, hostile, or offensive work environment.

Examples of actions that might constitute sexual harassment in the work or educational setting, whether committed by a supervisor, a co-worker, or a non-employee include, but are not limited to:

1. Unwelcome verbal conduct such as sexual flirtations or propositions; graphic comments about an individual's body; overly personal conversations or pressure for sexual activity; sexual jokes or stories; unwelcome sexual slurs, epithets, threats, innuendoes, derogatory comments, sexually degrading descriptions, or the spreading of sexual rumors
2. Unwelcome visual conduct such as drawings, pictures, graffiti, or gestures; sexually explicit emails; displaying sexually suggestive objects
3. Unwelcome physical conduct such as massaging, grabbing, fondling, stroking, or brushing the body; touching an individual's body or clothes in a sexual way; cornering, blocking, leaning over, or impeding normal movements

Training

Every two years, the Superintendent or designee shall ensure that supervisory employees receive at least two hours of classroom or other effective interactive training and education regarding sexual harassment. All newly hired or promoted supervisory employees shall receive training within six months of their assumption of the supervisory position. (Government Code 12950.1)

A supervisory employee is any employee having the authority, in the interest of the district to hire, transfer, suspend, lay off, promote, discharge, assign, reward, or discipline other employees, or the responsibility to direct them, adjust their grievances, or effectively recommend such action, when the exercise of the authority is not of a merely routine or clerical nature, but requires the use of independent judgment. (Government Code 12926)

(cf. 4300 - Administrative and Supervisory Personnel)

The district's sexual harassment training and education program for supervisory employees shall be aimed at assisting them in preventing and effectively responding to incidents of sexual harassment, as well as implementing mechanisms to promptly address and correct wrongful behavior. The training shall include, but is not limited to, the following: (Government Code 12950.1; 2 CCR 11024)

1. Information and practical guidance regarding federal and state laws on the prohibition, prevention, and correction of sexual harassment, the remedies available to sexual harassment victims in civil actions, and potential district and/or individual exposure or liability
2. The types of conduct that constitute sexual harassment and practical examples which illustrate sexual harassment, discrimination, and retaliation using training modalities such as role plays, case studies, and

group discussions, based on factual scenarios taken from case law, news and media accounts, and hypotheticals based on workplace situations and other sources

3. A supervisor's obligation to report sexual harassment, discrimination, and retaliation of which he/she becomes aware and what to do if the supervisor himself/herself is personally accused of harassment
4. Strategies for preventing harassment, discrimination, and retaliation and appropriate steps to ensure that remedial measures are taken to correct harassing behavior, including an effective process for investigation of a complaint
5. The essential elements of the district's anti-harassment policy, including the limited confidentiality of the complaint process and resources for victims of unlawful sexual harassment, such as to whom they should report any alleged sexual harassment, and how to use the policy if a harassment complaint is filed
6. A copy of the district's sexual harassment policy and administrative regulation, which each participant shall acknowledge in writing that he/she has received
7. The definition and prevention of abusive conduct that addresses the use of derogatory remarks, insults, or epithets, other verbal or physical conduct that a reasonable person would find threatening, intimidating, or humiliating, and the gratuitous sabotage or undermining of a person's work performance

The Superintendent or designee shall retain for at least two years the records of any training provided to supervisory employees. Such records shall include the names of trained employees, date of the training, the type of training, and the name of the training provider. (2 CCR 11024)

In addition, the Superintendent or designee shall ensure that all employees receive training regarding the district's sexual harassment policies when hired and periodically thereafter. The training shall include procedures for reporting and/or filing complaints involving an employee, employees' duty to use the district's complaint procedures, and employee obligations when a sexual harassment report involving a student is made to the employee.

(cf. 1312.3 - Uniform Complaint Procedures)
(cf. 4030 - Nondiscrimination in Employment)
(cf. 5145.7 - Sexual Harassment)

Notifications

A copy of the Board policy and this administrative regulation shall: (Education Code 231.5)

In addition, the district shall post, in a prominent and accessible location, DFEH's poster on discrimination in employment and the illegality of sexual harassment. (Government Code 12950)

Section 3

SCHOOL DISCIPLINE

Site Based Discipline Policies

At Kinney and Prospect we believe in a Positive Behavioral Support System where expectations are made clear and those who meet them receive access to additional activities and expanded learning opportunities. We take pride in working closely with Behavior support assistants and Mental health specialists to support the growth of social-emotional and communication skills. We use the Reflect, Instruct and Restore (RIR) model for other means of correction in lieu of suspension whenever possible. This includes time with a staff member to reflect on the behavior, instruction to help grow skills to achieve the wanted outcome in a different way then the opportunity to do a restorative discussion with the staff or peers involved before, when possible, returning to that setting.

Board Policy 5144 - Discipline

The Governing Board is committed to providing a safe, supportive, and positive school environment which is conducive to student learning and achievement and desires to prepare students for responsible citizenship by fostering self-discipline and personal responsibility. The Board believes that high expectations for student behavior, use of effective school and classroom management strategies, provision of appropriate intervention and support, and parent/guardian involvement can minimize the need for disciplinary measures that exclude students from instruction as a means for correcting student misbehavior.

(cf. 5113.1 - Chronic Absence and Truancy)

(cf. 5131 - Conduct)

(cf. 5131.1 - Bus Conduct)

(cf. 5131.2 - Bullying)

(cf. 5137 - Positive School Climate)

(cf. 5145.9 - Hate-Motivated Behavior)

(cf. 6020 - Parent Involvement)

The Superintendent or designee shall develop effective, age-appropriate strategies for maintaining a positive school climate and correcting student misbehavior at district schools. The strategies shall focus on providing students with needed support; communicating clear, appropriate, and consistent expectations and consequences for student conduct; and ensuring equity and continuous improvement in the implementation of district discipline policies and practices.

(cf. 5138 - Conflict Resolution/Peer Mediation)

(cf. 6164.2 - Guidance/Counseling Services)

In addition, the Superintendent or designee's strategies for correcting student misconduct shall reflect the Board's preference for the use of positive interventions and alternative disciplinary measures over exclusionary discipline measures.

Disciplinary measures that may result in loss of instructional time or cause students to be disengaged from school, such as detention, suspension, and expulsion, shall be imposed only when required or permitted by law or when other means of correction have been documented to have failed. (Education Code 48900.5)

(cf. 5020 - Parents Rights and Responsibilities)

(cf. 5144.1 - Suspension and Expulsion/Due Process)

(cf. 5144.2 - Suspension and Expulsion/Due Process (Students with Disabilities))

(cf. 6159.4 - Behavioral Interventions for Special Education Students)

(cf. 6164.5 - Student Success Team)

School personnel and volunteers shall not allow any disciplinary action taken against a student to result in the denial or delay of a school meal. (Education Code 49557.5)

(cf. 3550- Food Service/Child Nutrition Program)

(cf. 3551 - Food Service Operations/Cafeteria Fund)

(cf. 3553 - Free and Reduced Price Meals)

Seclusion and behavioral restraint are prohibited as a means of discipline and shall not be used to correct student behavior except as permitted pursuant to Education Code 49005.4 and in accordance with district regulations. (Education Code 49005.2)

(cf. 5131.41 - Use of Seclusion and Restraint)

The Superintendent or designee shall create a model discipline matrix that lists violations and the consequences for each as allowed by law.

The administrative staff at each school may develop disciplinary rules to meet the school's particular needs consistent with law, Board policy, and district regulations. The Board, at an open meeting, shall review the approved school discipline rules for consistency with Board policy and state law. Site-level disciplinary rules shall be included in the district's comprehensive safety plan. (Education Code 32282, 35291.5)

(cf. 0450 - Comprehensive Safety Plan)

(cf. 9320 - Meetings and Notices)

At all times, the safety of students and staff and the maintenance of an orderly school environment shall be priorities in determining appropriate discipline. When misconduct occurs, staff shall attempt to identify the causes of the student's behavior and implement appropriate discipline. When choosing between different disciplinary strategies, staff shall consider the effect of each option on the student's health, well-being, and opportunity to learn.

Staff shall enforce disciplinary rules fairly, consistently and in accordance with the district's nondiscrimination policies.

(cf. 0410 - Nondiscrimination in District Programs and Activities)

(cf. 0415 - Equity)

(cf. 5145.3 - Nondiscrimination/Harassment)

(cf. 5145.7 - Sexual Harassment)

The Superintendent or designee shall provide professional development as necessary to assist staff in developing the skills needed to effectively and equitably implement the disciplinary strategies adopted for

(cf. 0460 - Local Control and Accountability Plan)

(cf. 3100 - Budget)

At the beginning of each school year, the Superintendent or designee shall report to the Board regarding disciplinary strategies used in district schools in the immediately preceding school year and their effect on student learning.

Administrative Regulation 5144 – Discipline

Site-Level Rules

Site-Level rules shall be consistent with state law, and Board policies and administrative regulations. In developing site-level disciplinary rules, the principal or designee shall solicit the participation, views, and advice of one representative selected by each of the following groups: (Education Code 35291.5)

(cf. 0450 - Comprehensive Safety Plan)

(cf. 0460 - Local Control and Accountability Plan)

School rules shall be communicated to students clearly and in an age-appropriate manner.

It shall be the duty of each employee of the school to enforce the school rules on student discipline.
(Education Code 35291)

Disciplinary strategies

To the extent possible, staff shall use disciplinary strategies that keep students in school and participating in the instructional program. Except when students' presence causes a danger to themselves or others or they commit a single act of a grave nature or an offense for which suspension or expulsion is required by law, suspension or expulsion shall be used only when other means of correction have failed to bring about proper conduct. Disciplinary strategies may include, but are not limited to:

1. Discussion or conference between school staff and the student and parents/guardians

(cf. 5020 - Parent Rights and Responsibilities)
(cf. 6020 - Parent Involvement)

Senate Bill 291 – Pupil Rights: Recess

EC Section 49056

Recess Restriction:

Beginning in the 2024-25 school year, LEAs that offer recess will be required to offer at least 30 minutes on school days and at least 15 minutes on early release days. Recess time does not have to be offered in a single session and therefore may be offered via multiple sessions throughout the school day.

LEAs should note the following implementation requirements:

Recess time requirements do not apply to days on which there is a field trip or other entire-school sponsored educational program.

Recess shall be held outdoors whenever the weather and air quality permit.

Recess may be held indoors if outdoor space is not sufficient.

Recess must comply with students' Individual Education Programs or 504 Plans.

LEAs may provide a snack during recess.

Additionally, EC Section 49056 prohibits school staff members from restricting a student's recess unless there is an immediate threat to the physical safety of the student or the physical safety of one or more of the student's peers. If a student's recess period is denied, school staff members shall make all reasonable efforts to resolve such threats and minimize exclusion from recess (EC Section 49056(a))

The student's teacher shall inform the principal of any recess restrictions imposed.

Detention after School

Students may be detained for disciplinary reasons up to one hour after the close of the maximum school day, or until the departure of the school bus to which they have been assigned if applicable. (5 CCR 307, 353)

The student shall not be detained unless the principal or designee notifies the parent/guardian.

Students shall remain under the supervision of a certificated employee during the period of detention.

Students may be offered the choice of serving their detention on Saturday rather than after school.

(cf. 6176 - Weekend/Saturday Classes)

Community Service

As part of or instead of disciplinary action, the Board, Superintendent, principal or principal's designee may require a student to perform community service during nonschool hours on school grounds or, with written permission of the student's parent/guardian, off school grounds. Such service may include, but is not limited to, community or school outdoor beautification, community or campus betterment, and teacher, peer, or youth assistance programs. (Education Code 48900.6)

This community service option is not available for a student who has been suspended, pending expulsion, pursuant to Education Code 48915. However, if the recommended expulsion is not implemented or the expulsion itself is suspended, then a student may be required to perform community service for the resulting suspension. (Education Code 48900.6)

Notice to Parents/Guardians and Students

At the beginning of the school year, the Superintendent or designee shall notify parents/guardians, in writing, about the availability of district rules related to discipline. (Education Code 48980)

(cf. 5145.6 - Parental Notifications)

The Superintendent or designee shall also provide written notice of disciplinary rules to transfer students at the time of their enrollment in the district.

PART 1

Section 4

SEARCH & SEIZURE

Search & Seizure

Due to the nature of Prospect Community Day School, students turn in all their personal items, including but not limited to cell phones, wallet, backpacks, snacks and drinks, and money, to the front office before school. If there is reason to believe the student has any of these items on them, they will potentially be searched.

Both Kinney and Prospect reserve the right to search any student who has left campus and returned during or after the school day. This may include search of purse, backpack and person with or without a metal detecting wand.

Board Policy 5145.12 – Search and Seizure

As necessary to protect the health, safety, and welfare of students and staff, school officials may search students, their property, and/or district property under their control, and may seize illegal, unsafe, and prohibited items. The Governing Board requires that discretion, good judgment, and common sense be exercised in all cases of search and seizure.

Individual Searches

School officials may search individual students, their property, and district property under their control, when there is a reasonable suspicion that the search will uncover evidence that the student is violating the law, Board policy, administrative regulation, or other rules of the district or the school.

Employees shall not conduct strip searches or body cavity searches of any student. (Education Code 49050)

Searches of individual students shall be conducted in the presence of at least two district employees.

The principal or designee shall notify the parent/guardian of a student subjected to an individualized search as soon as possible after the search.

(cf. 5145.11 - Questioning and Apprehension)

When possible, staff may use a metal detector when searching an individual for weapons.

Student Lockers/Desks

The principal or designee may conduct a general inspection of school properties that are within the control of students, such as lockers and desks, on a regular, announced basis, with students standing by their assigned lockers or desks. Any items contained in a locker or desk shall be considered to be the property of the student to whom the locker or desk was assigned.

Because lockers and desks are under the joint control of the student and the district, school officials shall have the right and ability to open and inspect any school locker or desk without student permission or prior notice when they have reasonable suspicion that the search will uncover evidence of illegal possessions or activities or when odors, smoke, fire and/or other threats to health, welfare, or safety emanate from the locker or desk.

Use of Metal Detectors

The Board believes that the presence of weapons in the schools threatens the district's ability to provide the safe and orderly learning environment to which district students and staff are entitled. The Board also believes that metal detector searches offer a reasonable means to keep weapons out of the schools and mitigate the fears of students and staff.

The Superintendent or designee shall establish procedures that ensure that metal detector searches are conducted in a consistent manner that minimizes or eliminates arbitrary and capricious enforcement by school officials.

(cf. 0410 - Nondiscrimination in District Programs and Activities)

(cf. 0450 - Comprehensive Safety Plan)

(cf. 5131.7 - Weapons and Dangerous Instruments)

(cf. 5144.1 - Suspension and Expulsion/Due Process)

Use of Drug-Detection Dogs

Administrative Regulation 5145.12 – Search and Seizure

In an effort to keep the schools free of drugs, the district may use specially trained nonaggressive dogs to sniff out and alert staff to the presence of substances prohibited by law or Board policy. The dogs may sniff the air around lockers, desks, or vehicles on district property or at district-sponsored events as long as they are not allowed to sniff within the close proximity of any students.

(cf. 5131.6 - Alcohol and Other Drugs)

The above inspections shall be unannounced and may be made at the discretion of the Superintendent or designee.

Students and parents/guardians shall be informed of this policy at the beginning of each school year.

(cf. 5145.6 - Parental Notification)

Drug-detection dogs shall not be used in rooms occupied by persons except for demonstration purposes with the handler present. When used for demonstration purposes, the dog shall be separated from the students and not allowed to sniff any individual.

Only the dog's official handler shall determine what constitutes an alert by the dog. If the dog alerts on a particular item or place, if possible, the student having the use of that item or place, or responsibility for it, shall be called to witness the search. If a dog alerts on a locked vehicle, the student who brought the vehicle onto district property shall be asked to unlock it for inspection.

(cf. 5131.6 - Alcohol and Other Drugs)

(cf. 5144 - Discipline)

(cf. 5144.1 - Suspension and Expulsion/Due Process)

Use of Metal Detectors

The following procedures shall be followed when making metal detector scans:

1. Before the walk-through, students shall be asked to empty their pockets of metallic objects.
2. If an initial activation occurs, students shall be asked to remove other metallic objects they may be wearing (e.g., belt and jewelry) and to walk through a second time.
3. If a second activation occurs, a hand-held metal detector shall be used.
4. If the activation is not eliminated or explained, staff shall escort the student to a private area.
5. In the Private area, an expanded search shall be conducted by a staff member of the same gender as the student, in the presence of another district employee.
6. The search shall be limited to the detection of weapons.

Notifications

At the beginning of each school year and whenever students are assigned lockers, desks, or other district property, the Superintendent or designee shall inform students and parents/guardians of the possibility of random searches of students, their belongings, and district properties under their control.

Upon enrollment and at the beginning of each school year, students and parents/guardians shall receive notice that the district uses metal detector scans as part of its program to promote safety and deter the presence of weapons. Signs shall be posted at all schools at which metal detectors are to be used to explain that anyone may be scanned by metal detector for guns, knives, or other illegal weapons when on campus or attending athletic or extracurricular events.

(cf. 5145.6 - Parental Notification)

Teacher Notification of Dangerous Pupils

Pursuant to Education Code 49079 Prospect and Kinney is committed to notifying teachers of dangerous pupils. The procedure is as follows:

1. Teachers will be notified at the beginning of each school year that the district is obligated to provide notice to them regarding students that have been suspended or expelled during the school year. The notification shall include the procedure for teachers to access Powerschool and, if requested, individual notices of student suspension.
2. Any information received by a teacher pursuant to EC49079 shall be received in confidence for the limited purpose of providing notice to the teacher and shall not be further disseminated.
3. Notices of student suspensions/expulsions will be made available to teachers daily. Teachers will be responsible for reviewing the suspension notice. The site administrators will remind teachers they should review the suspension report.
4. It is the school site's responsibility to establish a procedure to review the cumulative folders of incoming students for notice(s) of suspension and/or expulsion anytime during the current and/or previous three school years.
5. Because EC49079 requires that teachers be provided notice of student suspensions for the previous three years, it will not be necessary to transfer notices of suspension with the cumulative folder when the student transfers to a school outside the district. It is recommended that a copy of the student's discipline/intervention screen be printed and placed in the cumulative file prior to sending the records to the new school district.
6. If a student's behavior warrants (e.g., violent, or aggressive behavior), you may provide notice to teachers as soon as possible after a suspension or disciplinary action has occurred.

PART 1

Section 5

PROBLEM RESOLUTION AND COMPLAINT PROCEDURES

Problem Resolution

Complaints shall also be filled in accordance with the following rules, as applicable:

1. A complaint alleging district violation of applicable state or federal law or regulations governing the programs specified in the accompanying Board policy (item #1 of the section "Complaints Subject to UCP ") may be filed by any individual, public agency, or organization. (5 CCR 4630)
2. A complaint about a violation of the prohibition against the charging of unlawful student fees may be filed with the principal of the school or with the Superintendent or designee. However, any such complaint shall be filed no later than one year from the date the alleged violation occurred. (Education Code 49013, 52075; 5 CCR 4630)
3. A complaint alleging unlawful discrimination (such as discriminatory harassment, intimidation, or bullying) may be filed only by persons who allege that they have personally suffered unlawful discrimination or who believe that an individual or any specific class of individuals has been subjected to unlawful discrimination. The complaint shall be initiated no later than six months from the date the alleged unlawful

discrimination occurred, or six months from the date that the complainant first obtained knowledge of the facts of the alleged unlawful discrimination. The time for filing may be extended for up to 90 days by the Superintendent or designee for good cause upon written request by the complainant setting forth the reasons for the extension. (5 CCR 4630)

4. When a complaint alleging unlawful discrimination (such as discriminatory harassment, intimidation, or bullying) is filed anonymously, the compliance officer shall pursue an investigation or other response as appropriate, depending on the specificity and reliability of the information provided and the seriousness of the allegation.

5. When a complainant of unlawful discrimination (such as discriminatory harassment, intimidation, or bullying) or the alleged victim, when not the complainant, requests confidentiality, the compliance officer shall inform the complainant or victim that the request may limit the district's ability to investigate the conduct or take other necessary action. When honoring a request for confidentiality, the district shall nevertheless take all reasonable steps to investigate and resolve/respond to the complaint consistent with the request.

Mediation

Within three business days after the complaint, the compliance officer may informally discuss with all parties the possibility of using mediation. Mediation shall be offered to resolve complaints that involve more than one student and no adult. However, mediation shall not be offered or used to resolve any complaint involving an allegation of sexual assault or where there is a reasonable risk that a party to the mediation would feel compelled to participate. If the parties agree to mediation, the compliance officer shall make all arrangements for this process.

Before initiating the mediation of a complaint alleging retaliation or unlawful discrimination (such as discriminatory harassment, intimidation, or bullying), the compliance officer shall ensure that all parties agree to make the mediator a party to relevant confidential information. The compliance officer shall also notify parties of the right to end the informal process at any time.

If the mediation process does not resolve the problem within the parameters of law, the compliance officer shall proceed with an investigation of the complaint.

The use of mediation shall not exceed the district's timelines for investigating and resolving the complaint unless the complainant agrees in writing to such an extension of time. If mediation is successful and the complaint is withdrawn, the district shall take only the actions agreed upon through the mediation. If mediation is successful, the district shall then continue with the subsequent steps specified in this administrative regulation.

Investigation of Complaint

Within 10 business days after the compliance officer receives the complaint, the compliance officer shall

begin an investigation into the complaint.

Within one business day of initiating the investigation, the compliance officer shall provide the complainant and/or the complainant's representative with the opportunity to present the information contained in the complaint to the compliance officer and shall notify the complainant and/or complainant's representative of the opportunity to present the compliance officer with any evidence, or information leading to evidence, to support the allegations in the complaint. Such evidence or information may be presented at any time during the investigation.

In conducting the investigation, the compliance officer shall collect all available documents and review all available records, notes, or statements related to the complaint, including any additional evidence or information received from the parties during the course of the investigation. The compliance officer shall individually interview all available witnesses with information pertinent to the complaint and may visit any reasonably accessible location where the relevant actions are alleged to have taken place. At appropriate intervals, the compliance officer shall inform both parties of the status of the investigation.

To investigate a complaint alleging retaliation or unlawful discrimination (such as discriminatory harassment, intimidation, or bullying), the compliance officer shall interview the alleged victim(s), any alleged offenders, and other relevant witnesses privately, separately, and in a confidential manner. As necessary, additional staff or legal counsel may conduct or support the investigation.

A complainant's refusal to provide the district's investigator with documents or other evidence related to the allegations in the complaint, failure, or refusal to cooperate in the investigation, or engagement in any other obstruction of the investigation may result in the dismissal of the complaint because of a lack of evidence to support the allegation. Similarly, a respondent's refusal to provide the district's investigator with documents or other evidence related to the allegations in the complaint, failure or refusal to cooperate in the investigation, or engagement in any other obstruction of the investigation may result in a finding, based on evidence collected, that a violation has occurred and in the imposition of a remedy in favor of the complainant. (5 CCR 4631)

In accordance with law, the district shall provide the investigator with access to records and other information related to the allegation in the complaint and shall not in any way obstruct the investigation. Failure or refusal of the district to cooperate in the investigation may result in a finding based on evidence collected that a violation has occurred and in the imposition of a remedy in favor of the complainant. (5 CCR 4631)

Timeline for Final Decision

Unless extended by written agreement with the complainant, the compliance officer shall prepare and send to the complainant a written report, as described in the section "Final Written Decision" below, within 60 calendar days of the district's receipt of the complaint. (5 CCR 4631)

For any complaint alleging unlawful discrimination (such as discriminatory harassment, intimidation, and

bullying), the respondent shall be informed on any extension of the timeline agreed to by the complainant. The respondent also shall be sent the district's final written decision at the same time it is provided to the complainant.

If the Board hears the complaint, the compliance officer shall send the Board's decision to the complainant within 60 calendar days of the district's initial receipt of the complaint or within the time period that has been specified in a written agreement with the complainant. (5 CCR 4631)

For any complaint alleging unlawful discrimination (such as discriminatory harassment, intimidation, and bullying), the respondent shall be informed of any extension of the timeline agreed to by the complainant, shall be sent the district's final written decision, and in the same manner as to complainant, may file a complaint with the Board if dissatisfied with the decision.

5. Corrective action(s), including any actions that have been taken or will be taken to address the allegation in the complaint and including, with respect to a student fees complaint, a remedy that comports with Education Code 49013 and 5 CCR 4600

For complaints of unlawful discrimination (such as discriminatory harassment, intimidation, or bullying), the decision may, as required by law, include:

- a. The corrective actions imposed on the respondent
 - b. Individual remedies offered or provided to the complainant or another person who was the subject of the complaint, but this information should not be shared with the respondent
 - c. Systemic measures the school has taken to eliminate a hostile environment and prevent recurrence
6. Notice of the complainant's and respondent's right to appeal the district's decision to CDE with 15 calendar days, and procedures to be followed for initiating such an appeal

The decision may also include follow-up procedures to prevent recurrence or retaliation and for reporting any subsequent problems.

In consultation with district legal counsel, information about the relevant part of a decision may be communicated to a victim who is not the complainant and to other parties who may be involved in implementing the decision or are affected by the complaint, as long as the privacy of the parties is protected. In a complaint alleging unlawful discrimination (such as discriminatory harassment, intimidation, and bullying), notice of the district's decision to the alleged victim shall include information about any sanction to be imposed upon the respondent that relates directly to the alleged victim.

If the complaint involves a limited-English-proficient student or parent/guardian and the student involved is enrolled in a school at which 15 percent or more of the students speak a single primary language other than English, then the decision shall also be translated into that language pursuant to Education Code 48985. In

all other instances, the district shall ensure meaningful access to all relevant information for parents/guardians with limited English proficiency.

For complaints alleging unlawful discrimination based on state law (such as discriminatory harassment, intimidation, and bullying), the decision shall also include a notice to the complainant that:

1. The complainant may pursue available civil law remedies outside of the district's complaint procedures, including seeking assistance from mediation centers or public/private interest attorneys, 60 calendar days after the filing or an appeal with CDE. (Education Code 262.3)
2. The 60 days moratorium does not apply to complaints seeking injunctive relief in state courts or to discrimination complaints based on federal law. (Education Code 262.3)
3. Complaints alleging discrimination based on race, color, national origin, sex, gender, disability, or age may also be filed with the U.S. Department of Education, Office of Civil Rights at www.ed.gov/ocr within 180 days of the alleged discrimination.

Corrective Actions

When a complaint is found to have merit, the compliance officer shall adopt any appropriate corrective action permitted by law. Appropriate corrective actions that focus on the larger school or district environment may include, but not limited to, actions to reinforce district policies; training for faculty, staff, and students; updates to school policies; or school climate surveys.

For complaints involving retaliation or unlawful discrimination (such as discriminatory harassment, intimidation, or bullying), appropriate remedies that may be offered to the victim but not communicated to the respondent may include, but are not limited to, the following:

1. Counseling
2. Academic support
3. Health services
4. Assignment of an escort to allow the victim to move safely about campus
5. Information regarding available resources and how to report similar incidents or retaliation
6. Separation of the victim from any other individuals involved, provided the separation does not penalize the victim
7. Restorative justice

8. Follow-up inquiries to ensure that the conduct has stopped and there has been no retaliation

For complaints involving retaliation or unlawful discrimination (such as discriminatory harassment, intimidation, or bullying), appropriate corrective actions that focus on a student offender may include, but are not limited to, the following:

1. Transfer from a class or school as permitted by law
2. Parent/guardian conference
3. Education regarding the impact of the conduct on others
4. Positive behavior support
5. Referral to a student success team

(cf. 6145.5 – Student Success Teams)

6. Denial of participation in extracurricular or co curricular activities or other privileges as permitted by law

(cf. 6145 – Extracurricular and Cocurricular Activities)

7. Disciplinary action, such as suspension or expulsion, as permitted by law

When an employee is found to have committed retaliation or unlawful discrimination (such as discriminatory harassment, intimidation, or bullying), the district shall take appropriate disciplinary action, up to and including dismissal, in accordance with applicable law and collective bargaining agreement.

The district may also consider training and other interventions for the larger school community to ensure that students, staff, and parents/guardians understand the types of behavior that constitute unlawful discrimination (such as discriminatory harassment, intimidation, or bullying), that the district does not tolerate it, and how to respect and respond to it.

When a complaint is found to have merit, an appropriate remedy shall be provided to the complainant or other affected person.

However, if a complaint alleging noncompliance with the laws regarding student fee, deposits, and other charges, physical education instructional minutes, or any requirement related to the LCAP is found to have merit, the district shall provide a remedy to all affected students and parents/guardians subject to procedures established by regulation of the State Board of Education. (Education Code 49013, 51222, 51223, 52075)

For complaints alleging noncompliance with the laws regarding student fees, the district shall attempt in

good faith, by engaging in reasonable efforts, to identify and fully reimburse all affected students and parents/guardians who paid the unlawful student fees within one year prior to the filing of the complaint. (Education Code 49013; 5 CCR 4600)

Appeals to the California Department of Education

Any complainant who is dissatisfied with the district's final written decision on a complaint regarding any specified federal or state educational programs subject to UCP may file an appeal in writing with CDE within 15 calendar days of receiving the district's decision. (5 CCR 4632)

The complainant shall specify the basis for the appeal of the decision and how the facts of the district's decision are incorrect and/or the law has been misapplied. The appeal shall be sent to CDE with a copy of the original locally filed complaint and a copy of the district's decision in that complaint. (5 CCR 4632)

When a respondent in any complaint alleging unlawful discrimination (such as discriminatory harassment, intimidation, and bullying), is dissatisfied with the district's final written decision, the respondent, in the same manner as the complainant, may file an appeal with CDE.

Upon notification by CDE that the district's decision has been appealed, the Superintendent or designee shall forward the following documents to CDE: (5 CCR 4633)

1. A copy of the original complaint
2. A copy of the written decision
3. A summary of the nature and extent of the investigation conducted by the district, if not covered by the decision
4. A copy of the investigation file including, but not limited to, all notes, interviews, and documents submitted by the parties and gathered by the investigator
5. A report of any action taken to resolve the complaint
6. A copy of the district's UCP
7. Other relevant information requested by CDE

Health and Safety Complaints in California State Preschool Program

In each license-exempt CSPP classroom, a notice shall be posted notifying parents/guardians, students, and teachers of the health and safety requirements of Title 5 regulations that apply to CSPP programs pursuant to Health and Safety Code 1596.7925 and the location at which to obtain a form to file any complaint alleging noncompliance with those requirements. (Education Code 8235.5)

Any complaint regarding specified health or safety issues in a license-exempt CSPP program shall be filed with the preschool program administrator or designee, and may be filed anonymously. The complaint form shall specify the location for filing the complaint and shall contain a space to indicate whether the complainant desires a response to the complaint. If it is determined that the complaint is beyond the authority of the preschool program administrator, the matter shall be forwarded to the Superintendent or designee in a timely manner, not to exceed 10 working days, for resolution. (Education Code 8235.5)

The preschool administrator or designee shall remedy a valid complaint within a reasonable time period not to exceed 30 working days from the date the complaint was received. If the complainant has indicated on the complaint form a desire to receive a response to the complaint, the preschool administrator or Superintendent's designee shall report the resolution of the complaint to the complainant within 45 working days of the initial filing of the complaint. If the preschool administrator makes this report, the information shall be reported at the same time to the Superintendent or designee. If a complainant is not satisfied with the resolution of a complaint, the complainant has the right to describe the complaint to the Board at a regularly scheduled meeting. (Education Code 8235.5)

A complainant may file a written appeal of the district's decision to CDE in accordance with 5 CCR 4632. (Education Code 8235.5)

Any such appeal shall be filed within 30 days of receiving the decision.

Workplace Violence Prevention Plan

General Workplace Violence Prevention Plan Requirements:

Employers are required to adopt and implement a workplace violence prevention plan, which includes:

The names of the persons responsible for its implementation;

Procedures for accepting and responding to reports of workplace violence, including a prohibition on retaliation against the reporting employee;

Procedures for communicating about workplace violence matters;

Kinney High School and Prospect Community Day School 2024-2025 Comprehensive School Safety Plan

Procedures for investigating employee concerns;

Procedures for responding to actual or potential workplace violence emergencies; and

Procedures for post-incident response and investigation.

The plan must be in writing and “easily accessible” to employees. This means at a minimum, it must be available to the more curious employees upon request, but it does not necessarily need to be distributed to all employees. However, distributing it to employees or making it available on an internal document system does make the plan “easily available” and also helps fulfill requirements on training employees about the plan.

The plan must be “specific to the hazards and corrective measures for each work area and operation” – although for most architectural practices, one overall plan will be applicable for all work operations.

It can be a stand-alone plan or can be incorporated into an existing Injury and Illness Prevention Plan.

Types of Violence Under Labor Code Section 6401.9

The law requires an assessment of four major types of workplace violence:

Type 1: Criminal Violence – committed by a person who has no legitimate business at the worksite, including by those who enter the workplace or approach employees with the intent to commit a crime.

Type 2: Customer or Invitee violence – committed by individuals who were allowed in the workplace, like clients, students, contractors, or other allowed visitors. This would include violence on a jobsite by another party involved in construction.

Type 3: Employee violence – committed by a present or former employee, supervisor, or manager (potentially related to some kind of ‘revenge’ for what they perceive as unfair treatment in the workplace)

Type 4: Personal violence – committed by a person who has a personal relationship with an employee, but is not an employee (so a violent intrusion of an employee’s personal life into the work environment)

Training Requirements?

Covered employers are required to provide training to employees when they establish the workplace violence prevention plan, and to continue to provide training thereafter on an annual basis. Trainings must cover the following and include interactive components for questions and answers:

The employer’s workplace violence prevention plan and how employees can obtain a copy;

How employees can report workplace violence incidents without fear of retaliation;

Workplace violence hazards specific to the employees’ jobs and preventive measures;

The violent incident log and how employees can obtain records; and

Opportunities for interactive communications with a person knowledgeable about the employer’s workplace violence prevention plan.

After creating a plan, an employer can satisfy the initial training requirement by holding a meeting to discuss the key measures of the plan.

Recordkeeping Requirements

Covered employers are required to maintain the following records:

Training records for a minimum of one year;

Violent incident logs for a minimum of five years, which include: date, time and location of the incident; type of workplace violence; detailed description of the incident; classification of circumstances at the time of the incident; type of incident; and consequences of the incident (e.g., whether security or law enforcement was involved, actions to protect employees from a continuing threat); and information about the person completing the log;

Records of workplace violence hazard investigation, evaluation, and correction for a minimum of five years; and

Records of workplace violence incident investigation for a minimum of five years.

All employees are responsible for complying with the WVPP Program. To ensure a successful WVPP, prompt and accurate reporting of all violent incidents, whether or not physical injury has occurred, is required.

FCUSD will not discriminate against victims of workplace violence or anyone who reports a workplace violence incident.

PART 2

Section 1

EMERGENCY PROCEDURES AND PRACTICES

California Law Regarding Safe Storage of Firearms

California makes a person criminally liable for keeping any firearm, loaded or unloaded, within any premises that are under their custody and control where that person knows or reasonably should know that a child is likely to gain access to the firearm without the permission of the child's parent or legal guardian, and the child obtains access to the firearm and thereby (1) causes death or injury to the child or any other person; (2) carries the firearm off the premises or to a public place, including to any preschool or school grades kindergarten through twelfth grade, or to any school-sponsored event, activity, or performance; or (3) unlawfully brandishes the firearm to others.¹

Note: The criminal penalty may be significantly greater if someone dies or suffers great bodily injury as a result of the child gaining access to the firearm.

With very limited exceptions, California also makes it a crime for a person to negligently store or leave any firearm, loaded or unloaded, on their premises in a location where the person knows or reasonably should know that a child is likely to gain access to it without the permission of the child's parent or legal guardian, unless reasonable action is taken to secure the firearm against access by the child, even where a minor never actually accesses the firearm.

In addition to potential fines and terms of imprisonment, as of January 1, 2020, a gun owner found criminally liable under these California laws faces prohibitions from possessing, controlling, owning, receiving, or purchasing a firearm for 10 years.

Finally, a parent or guardian may also be civilly liable for damages resulting from the discharge of a firearm by that person's child or ward.

Emergency Drills, Training & Preparation

The safety of students, staff, guests, and community members is a top priority. The following safety and emergency procedures and practices are implemented to ensure the maintenance of a safe learning environment. These procedures have been reviewed by the Group. Regular appropriate training is provided to staff members and volunteers.

Pursuant to CA Education Code Section 32280, the following efforts will be implemented to train and prepare all students and staff:

- Staff will review and become familiar with this plan including all emergency response procedures, the supplemental Tactical Safety Plan and drill schedule each school year.
- The principal or designee will be responsible for ensuring all new staff members, including temporary or intermittent staff, review these materials.
- Teachers will review appropriate expectations with students for actions such as lockdown procedures, shelter-in-place procedures, active shooter, as well as fires and general evacuations in an age & grade appropriate manner at the start of each school year.

Kinney High School and Prospect Community Day School 2024-2025 Comprehensive School Safety Plan

- Students will practice the corresponding action through appropriate use of drills.
- The school will conduct the minimum number of drills as outlined here. Additional drills are encouraged and can be scheduled by the principal as appropriate.
 - Fire evacuation drills will be held:
 - Monthly at all elementary school sites
 - Two times each school year (once per semester) at all intermediate and secondary school sites
 - Lockdown drills will be held twice per year at all school sites:
 - First drill held within the first 30 days of the first day of the school year
 - Second drill held within 30 days of the first day of school in January
 - Earthquake drop and cover drills will be held:
 - Once per quarter at all elementary school sites
 - Two times each school year (once per semester) at all intermediate and secondary school sites
- Review and debrief sessions will be held with appropriate stakeholders after each drill as well as after any critical event.

Safety Response Actions - Terms & Definitions

The following actions may be used as a singular strategy or in any combination and may be transitioned between to protect the safety of students and staff on campus during an emergency. Additional information and/or confidential instructions related to the below actions may be found in the site's confidential tactical plan.

Shelter-In-Place

Generally used when there is a non-life-threatening safety concern on or directly adjacent to the school campus with a possibility of placing the students' and staff physical safety at risk if allowed to remain outside. This action eliminates all unnecessary outside activities, bringing students and staff into a more secure and safe indoor location. While sheltering-in-place, normal educational activities may continue to occur indoors. Limited outside activities, use of restrooms is not advised, but meals in the cafeteria may be allowed as appropriate and under direct supervision. During a shelter-in-place campus visitors are prohibited. This action is commonly used, but not limited to, in response to incidents such as:

- General law enforcement activity in the area
- Response to a non-active incident on campus to allow for the safe arrival of emergency responders
- Severe weather / poor air quality
- Aggressive animal on campus

Kinney High School and Prospect Community Day School 2024-2025 Comprehensive School Safety Plan

- Campus intruders
- Dangerous law enforcement activity on or directly adjacent to the campus involving weapons or violent persons
- Violent or Aggressive intruders on campus
- Active threat on campus (any person on campus, armed with a weapon and actively engaged in the attempt to harm others)

Confidential instructions related to the initiation, safety actions and release of a Shelter-in-Place are detailed in the CSSP-Tactical Plan.

Lockdown

Generally used when there is immediate or imminent threat of danger on or directly adjacent to the campus. When implemented all campus and classroom activities are immediately stopped. Students and staff are directed to quickly move to the nearest, safest indoor location. This action is commonly used, but not limited to, in response to dangerous incidents such as:

Confidential instructions related to the initiation, safety actions and release of a school-wide Lockdown are detailed in the CSSP-Tactical Plan.

Evacuation

Generally used anytime there is the need to exit a structure, a specific area of or the entire campus due to dangerous conditions or the threat of physical harm. Evacuations may be initiated school-wide or limited / controlled to specific areas based upon the type and location of the risk or threat.

Evacuation maps identifying pre-planned routes and rally locations must be placed by each exit, easily located and viewable.

Controlled evacuations are often used as a secondary component to another primary safety action such as Shelter-in-Place or Lockdown. Controlled evacuations are completed under the direction of the site Principal / designee or other Law Enforcement / Fire Department agent. Controlled evacuations will include specific instructions indicating the safest route and destination and may involve direct escort.

Evacuations are most used, but not limited to, in response to incidents such as:

- Fire / Smoke
- Flood
- Chemical / Gas leak
- Unsafe structure
- Active threat

Specific plans to aid students & staff who may need additional assistance to safely evacuate a room, location or the campus are addressed in this site's safety plan and may include:

- A list of students / staff that have specific temporary or long-term assistance needs
- A list of identified staff including both primary and backup persons responsible for aiding specific persons

- A list of required medical aid or assistive equipment
- A list of required life saving medication(s)

Duck and Cover

Duck and Cover may be used in response to various disaster or emergency incidents and is most commonly used when a threat of falling objects exists, such as:

- Earthquake
- Explosion
- Active threat

Active (Shooter) Threat / RUN-HIDE-DEFEND

An Active Threat is defined as an incident involving a violent person who is on campus, armed with a firearm or other serious weapon, and is actively engaged in harming or the attempt to indiscriminately harm others likely resulting in death or great bodily injury.

In addition to the use of other-directed safety strategies, the response to Active Threat scenarios may require decisions based upon individual knowledge of the incident and proximity to the threat.

RUN – The primary initiative is to flee the immediate area of danger as fast and far away as possible. Depending upon proximity to and location of the threat, it may be prudent to run off and away from the campus, or to the nearest securable room / building or to an immediate nearby place to hide and gain protection.

HIDE – If you are unable to run off and away from the campus or to a safe, securable room the next best option is to hide. Optimally a hiding place would provide concealment and some protection, but not limit further avenues of escape.

DEFEND – If at any time your immediate safety is at risk and there is no other option to RUN or HIDE you should take every action to DEFEND your life utilizing whatever means, objects, or instruments at hand.

**Confidential instructions related to the response to Active (Shooter) Threat Situations are detailed in the CSSP-Tactical Plan.

Reunification

In the event school activities are canceled after the start of school, parents / guardians will be notified to pick up their students. Reunification is the process of reuniting a student with their parent/guardian. Parent(s) / guardian(s) will be required to provide proof of identity and be named on the student's emergency contact list. Parent(s) / guardian(s) will receive specific instructions including the location, check in and identification requirements to expedite the process.

**Additional information regarding this site's specific reunification plan may be located in the confidential Tactical Plan section of this document.

Inclusive School Safety Planning: Accommodating Persons with Medical, Functional or Special Assistance Needs

Pursuant to CA Education Code section 32282(a) all emergency response actions shall be reviewed and adapted to accommodate students, staff or other persons with restrictive / functional disabilities or special assistance needs. This list should include, but not be limited to persons who may be:

- Are pregnant
- Have broken bones or other temporary injury
- Have PTSD
- Diagnosed with Autism or other social / sensory conditions
- Use specialized medical equipment – wheelchairs, crutches, braces, etc.
- Are visually or hearing impaired
- Require access to prescribed medication

Where practicable, individualized safety plans are drafted and contained within specific IEP / 504 documents. Staff associated with students meeting above or other special assistance needs are aware of and trained to address these needs in an emergency including adaptation to evacuation routes, procedures, and locations.

A confidential list identifying students and staff with temporary or permanent functional disabilities, medical or other special assistance needs including, but not limited to life saving medication has been created. The identification of persons requiring assistance and their respective assistance needs including a list of medications is confidential and shall not be included as a fixed component of this safety plan. The information shall be stored and maintained in a confidential manner.

The information is maintained and available through:

- Our ed specialist(s) reviewing and updating IEPs yearly
- assistant principal and counselor reviewing and updating 504s
- IEP and 504 goals and services shared yearly with staff responsible for meeting legal obligation via pdf emails
- Special education and 504 needs are also available through our SIS PowerSchool
- Medical plans and medication paperwork is maintained by our nurse and her assistant and shared with all necessary staff through pdf in email and our SIS PowerSchool.

Example - Confidential Special Need / Assistance List

This template is provided as a resource example only. To remain compliant with privacy laws, lists of individuals with health concerns or those requiring assistance due to a functional disability should not be kept directly within the tactical plan. The site administrator or designee should keep this list in a secured location they can access in case of a critical emergency and/or evacuation. For the CSSP simple state where this information can be found if needed.

Use of the Standardized Emergency Management System (SEMS)

As appropriate and when required, Folsom Cordova Unified will institute components of the Incident Command System (ICS) as required by the CA Standardized Emergency Management System.

Folsom Cordova Unified Schools has incorporated protocols of California's Standardized Emergency Management System (SEMS). The California Code of Regulations, Title 19, Division 2, Chapter 1, Sections 2400-2450 outlines the requirements of all special districts. These regulations establish the CA Standardized Emergency Management System (SEMS) and subsequent Incident Command System (ICS). SEMS is intended to standardize response organization, communication and authority in emergencies that are complex or involve multiple responding agencies. SEMS is intended to be flexible and adaptable to the needs of all emergency responders in California.

SEMS requires that emergency response agencies use basic principles and components of emergency management including:

- ICS (Incident Command System) - Organizational Leadership, Area of Responsibility, Accountability and Communication
- Multi-agency or inter-agency coordination - Unified Command
- Operational area concept, and
- Established mutual aid systems.

State agencies must use SEMS. Local governments and Local Education Administrations (LEA's) must use SEMS by December 1, 1996 in order to be eligible for state funding of response-related personnel costs pursuant to activities identified in California Code of Regulations, Title 19, §2920, §2925, and §2930.

Executive Order S-2-05 issued by the Governor of California directs the California Office of Emergency Services and Office of Homeland Security, in cooperation with the Standardized Emergency Management System Advisory Board, to develop a program to integrate the National Incident Management System, to the extent appropriate, into the state's emergency management system.

Incident Command System - Site Use:

When utilized, the Incident Command System allows for a scalable / expandable leadership response to manage an incident. Roles including specified positions such as the Incident Commander, Operations Coordinator, Logistics Coordinator, Planning Coordinator & Information / Communications Coordinator are clearly defined and identified as points of contact. Appropriate management organization allows for a delegation of work effort, minimizes unnecessary communication with the Incident Commander allowing for increased strategic decision effectiveness.

Use of the National Incident Management Systems (NIMS)

As appropriate and when required, Folsom Cordova Unified Schools will comply with all requirements of the National Incident Management Systems.

In 2004, the Department of Homeland Security released the National Incident Management System (NIMS) as required by Homeland Security Presidential Directive (HSPD) - Management of Domestic Incidents and HSPD-8 Preparedness. While most emergency situations are handled locally, when there is a major incident, help may be needed from other jurisdictions, the state and the federal government. NIMS was developed so responders from different jurisdictions and disciplines can better work together to respond to natural disasters and emergencies, including acts of terrorism. NIMS benefits include a unified approach to incident management; standard command and management structures; and emphasis on preparedness, mutual aid, and resource management.

HSPD-5 established and designated the NIMS Integration Center (NIC) as the lead federal entity to coordinate NIMS compliance. Its primary function is to ensure that NIMS remains an accurate and effective management tool through refining and adapting compliance requirements to address ongoing preparedness needs.

To accomplish this, the Compliance and Technical Assistance Branch relies on input from federal, state, local, tribal, multi-discipline, and private sector stakeholders to assure continuity and accuracy of ongoing implementation efforts. In this collaborative role, the NIC has worked with these partners to refine and implement improvements to NIMS, including the development of performance measurement systems for state, territorial, tribal, and local governments, based on lessons learned and best practices from across the nation.

NIMS plans include:

- Use of standardized terminology,
- Standardized organizational structures (ICS),
- Interoperable communications,
- Consolidated action plans,
- Unified command structures, when applicable,
- Uniform personnel qualifications standards,
- Uniform planning, training, and exercises,
- Comprehensive resource management, and
- Designated incident facilities.

Use of the Campus as Community Shelter

During a local or regional emergency, it may become necessary for the school campus to be used as an emergency shelter, operational center for first responders, or staging area for emergency services or first responder equipment.

To meet the needs of the community and non-government volunteer organizations such as the Red Cross, the Folsom Cordova Unified School District will work collaboratively with law enforcement, fire and other community or charitable emergency responders to support and provide locations for emergency operations.

All requests for the use of this facility will be forwarded to the facility dept. at (916) 294-9010. Facilities will coordinate with the office of safe schools and determine appropriate site access and security needs.

Site Safety Communications and Accountability - CatapultEMS

Folsom Cordova Unified has adopted the CatapultEMS (Emergency Management System) as a communication, incident management and accountability tool to assist sites during safety incidents.

All Folsom Cordova Unified staff have access to CatapultEMS via their district email account and/or cell phones. CatapultEMS is accessible by staff via any web browser capable device (desktop computer, laptop computer, tablet, smartphone) at www.catapultems.com or via the district’s portal.

In the event of a safety incident or emergency, site administration, site safety team members and district staff may use CatapultEMS to:

- Make notification of a safety incident or emergency
- Communicate emergency actions such as evacuation or lockdown directives
- Share safety information with site staff
- Prioritize emergency response efforts to those most vulnerable or in critical need of care
- Account for staff and student location and well being
- Document, manage and investigate safety incidents

The site principal is responsible to ensure all staff assigned, whether permanent or temporary, have received training in the use of CatapultEMS.

Staff rosters within CatapultEMS are updated at the beginning of each school year and periodically throughout to ensure system accuracy and accountability.

New staff, whether permanent or temporary, are instructed in the use of CatapultEMS and provided a link to online training.

To add new staff to the system or access online training, contact the site’s assigned administrator or the Risk Management Specialist.

Communication During Emergencies - Inside the School / District

During an emergency or other safety event, effective communication is key to providing awareness, directing specific actions, and obtaining the necessary resources for the safety of the site, students and staff. Staff is trained to receive and effectively communicate information during an emergency.

in the event of an emergency the site may utilize any single or combination of the below methods to alert and share information internally amongst staff and students as appropriate:

- CatapultEMS
- PA – public address systems
- Handheld radios
- Telephone – Internal district office desk lines and/or cellular phones
- Email

Communication During Emergencies - Outside the School / District

Keeping parents, guardians and others informed during a school emergency is vital. Our priority will be to ensure the safety of students and staff on campus. We will work as quickly as possible to notify families of what is happening. Families can expect:

- An initial message sent using the District’s notification system (Blackboard Mass Notification). This message may not have a high level of detail as it is important that we maintain a focus on the immediate safety of students and staff and ensure only accurate information is distributed.
- Incremental updates to the situation may be posted to the school’s website. Major updates will be sent using the district’s notification system.
- If an evacuation is ordered or school is canceled prior to its scheduled time, families will be notified using the district’s notification system.
- At the conclusion of an incident, a follow-up message should be sent using the District’s notification system informing families of the outcome of the situation and appropriate details. Additional information may be shared as it becomes available in the hours, days and even weeks following a major incident.
- All messages sent using the District’s notification system will be sent as emergency messages. Emergency messages are distributed before other pending messages and are sent to every contact type on file for a parent/guardian.

To ensure parents/guardians receive notifications of an emergency, they must provide accurate contact information to the school office and are encouraged to periodically review their contact settings in the blackboard system. Instructions on how to update contact information and settings can be located on the district’s web site under the “Powerschool Portal”.

Parents/Guardians and staff can add extra contact methods to the notification system and determine which types of calls and messages are sent to each contact.

Melanie's Law: Protocols for Opioid/Fentanyl Overdose

Senate Bill (SB) 10 (Cortese, Statutes of 2023) requires school safety plans serving students in grades 7-12 to include a protocol for responding to an opioid overdose. For schools serving students in grades seven through 12, including charter schools, Melanie's Law requires their school safety plans to incorporate protocols for responding when a student suffers or is reasonably believed to be suffering from an opioid overdose. Language inserted here:

When available at the school site, the school nurse shall provide emergency naloxone hydrochloride or another opioid antagonist for emergency medical aid to any person exhibiting potentially life-threatening symptoms of an opioid overdose at school or a school activity. Other designated personnel who have volunteered and have received training may administer such medication when a school nurse physician is unavailable, and shall only administer the medication by nasal spray. At the same time or as soon as possible, parents, and first responders (including fire department/paramedics and law enforcement) SHALL be notified.

AB2887(Maienschein)- Sudden Cardiac Arrest Procedures:

****Procedures for Responding to Sudden Cardiac Arrest or Life-Threatening Medical Emergencies****

1. Immediate Response

Recognize the Emergency

Any staff member who identifies an individual (student, staff, or visitor) experiencing a sudden collapse, unresponsiveness, or signs of a life-threatening medical emergency (e.g., cardiac arrest, severe allergic reaction) should immediately assess the situation.

If the individual is unresponsive and not breathing normally, assume cardiac arrest and proceed with the steps below.

2. Alert Emergency Services:

- Call 911** immediately. Provide clear information, including the nature of the emergency, the exact location within the school, and any relevant medical history if known.

- Designate a specific individual to meet emergency responders at the school's main entrance and guide them to the location of the emergency.

3. Activate Emergency Response Plan:

- Initiate the school's internal emergency notification system to alert the school nurse, administrators, and trained staff members.

- Notify the school's Crisis Response Team to assist with the situation and manage crowd control.

4. Administer CPR

- If certified, begin CPR (Cardiopulmonary Resuscitation) immediately.

- Perform chest compressions at a rate of 100-120 per minute, ensuring they are deep and continuous. If trained, provide rescue breaths after every 30 compressions.

5. Use an AED:

- Retrieve the Automated External Defibrillator (AED) from the nearest location.

- Turn on the AED and follow its prompts. If no trained staff is present, the AED will provide step-by-step instructions for use.
- Continue CPR until the AED is ready to analyze the heart rhythm. Deliver a shock if advised by the AED, then resume CPR immediately.

6. Continue Care:

- Continue CPR and AED use until emergency medical services (EMS) arrive and take over, or the individual shows signs of life (e.g., normal breathing, responsiveness).

2. Post-Incident Procedures

1. Assist EMS:

- Provide EMS with any relevant medical information about the individual, including known health conditions, medications, and the details of the emergency response actions taken.
- Ensure a safe and clear path for EMS to transport the individual from the site to the ambulance.

2. Notify Family:

- The school administration should immediately contact the individual's emergency contact or family to inform them of the situation, the actions taken, and the hospital to which the individual is being transported. This information should be logged into a student's Powerschool.

3. Support Witnesses:

- Offer psychological first aid and counseling to students and staff who witnessed the emergency.
- Organize debriefing sessions to address emotional responses and provide support resources.

4. Document the Incident:

- Complete an incident report detailing the emergency, the response actions taken, the timeframes, and the outcome.
- Include information on the involvement of staff, the use of the AED, and any other relevant details.

These procedures aim to provide a swift, organized, and effective response to sudden cardiac arrest and other life-threatening medical emergencies, ensuring the safety and well-being of all individuals on school grounds.

Access and Use of Automated External Defibrillator

As part of our campus safety and medical emergency response plan, this school is equipped with one Automated External Defibrillator device (AED). Automated External Defibrillator devices are a key tool in response to a sudden cardiac event.

The AEDs are strategically placed and readily accessible to all trained AED users to maximize rapid use. The AEDs are available during school hours and after school during any activity or program organized by the school and supervised by a school employee.

Automated External Defibrillator (AED) are placed in the following locations:

LOCATION #1: Front office between Principal and AP office

This site's trained AED users are all teachers and staff on campus and any other person who has received AED training (American Heart Association, American Red Cross, or equivalent training).

Sudden cardiac arrest (SCA) is the result of a sudden, unexpected heart malfunction. During SCA, the heart's electrical impulses become chaotic and ineffective and blood flow to the brain ceases. The victim may die unless a normal heart rhythm is restored.

- These symptoms may indicate that SCA is about to happen:
 - Racing heart, palpitations, or irregular heartbeat
 - Dizziness or lightheadedness
 - Fainting or seizure, especially during or right after exercise
 - Fainting repeatedly or with excitement or startle
 - Chest pain or discomfort with exercise
 - Excessive, unexpected fatigue during or after exercise
 - Excessive shortness of breath during exercise

The following information regarding the use of an AED device is posted with each AED:

1. Instructions to immediately call 911 and instructions for emergency care.
2. Instructions for using an AED.

Instruction for using an AED:

1. If someone collapses – tap the victim and shout “Are you OK?”
2. If there is no response and the victim is not breathing or not breathing normally, call 911 and get the AED.
 - If someone else is present, send them to call 911 and get the AED.
3. Begin Hands Only CPR – Push hard and fast in the center of the chest.
4. Use the AED as soon as it arrives
 - a. Open the lid and turn on the AED
 - b. Follow the voice prompts
2. Expose the patient's chest –if wet, wipe dry
3. Apply the electrode pads to the patient's exposed chest, as shown in the pictures
4. Listen to the voice prompts – Clear (do not touch) the patient when instructed to do so
5. Press the SHOCK button, if instructed to do so
5. Restart compressions on chest when prompted
6. Continue to follow the voice prompts.

7. If the patient starts moving or breathing normally, stop compressions and place the patient in the recovery position (on left side).
8. KEEP AED ATTACHED UNTIL EMS ARRIVES

Fire Emergency Procedures

When the site's fire alarm is activated, the local fire department receives the alert and is automatically dispatched. When feasible, office staff will make a follow-up call to 9-1-1 to advise emergency personnel the details of the event, but only when and if the call can be made from a safe place.

As soon as practicable, administrative staff should make notification in catapult and the district notification.

Evacuations should begin immediately:

- Prior to exiting a room staff should ensure it is safe to exit and the pre identified evacuation route appears clear and safe to travel
- Staff leading a classroom should check to ensure all students have safely left the classroom before closing the door behind them –
 - Upon exit, all doors should be closed.
- Staff should lead students to the predetermined onsite evacuation area using the appropriate and assigned evacuation route
 - If the route is blocked or unsafe an alternate safe route to the evacuation area should be used
- Each class should move as quickly, orderly and safely as possible (walk quickly – don't run)
- Upon arrival at the evacuation location - staff will update administration with the status of their class and advise whether all students / staff are accounted for utilizing the CatapultEMS or other immediate method as directed by the site administrator.
- Staff will be responsible for the order and safety of the classroom they supervise while at the evacuation area
- Do not re-enter buildings until authorized by the fire department or the site administration.

Other recommended safety and response actions:

- Preidentified site safety team staff should immediately respond to predetermined, designated areas of the site to direct non-emergency related vehicle and pedestrian traffic away from danger and limit access to the site. Suggested locations include the parking lot entrance and other pedestrian ingress / egress points.
 - Staff who have development periods or are not directly engaged in supervising students should advise and report to the administration for possible reassignment to a safety position
 - Safety team members should be prepared to receive and direct emergency response personnel to the impacted area
- Use of fire extinguishers:

- Only trained personnel should operate fire extinguishers or other fire suppression equipment, and only after all students have been safely evacuated from the area

Earthquake Emergency Procedures

Earthquakes present a number of safety hazards. Injuries may result from falling debris, ruptured gas lines and other infrastructure or electrical failures.

Preparing for an Earthquake

It is the responsibility of all staff to identify potential safety hazards related to earthquakes within their normal or assigned areas. Teachers should examine their classrooms and ensure that heavy objects are not stored on high shelves, that all furniture or other equipment brought into the room is properly secured to prevent tipping and that adequate cover space exists for students and staff to shelter should an earthquake strike.

The custodian and site administrator should work collaboratively to review non-classroom spaces to minimize any risk of injury or damage from an earthquake.

If an Earthquake Strikes

The following steps should be taken in case of an earthquake:

1. Students and staff will immediately 'duck and cover':
 - a. take cover under desks, tables or other structures that provide protection from falling materials and debris.
 - b. face away from windows and cover or protect the head and face.
 - c. maintain duck and cover positions until the earthquake has stopped and motion can no longer be felt
 - i. It is recommended to hold this position for at least two minutes after the last shock felt if safe to remain in the immediate space
2. Once motion stops, students and staff should carefully assess their surroundings to identify any dangerous conditions
 - a. Evacuation should not be immediate.
 - b. Carefully assess the area, the exit and the evacuation route to ensure it is safe to get to the predetermined rally area
 - i. Look for any loose or damaged walls, ceiling materials or other items that could fall
 - ii. Look for any exposed electrical wiring, gas pipes or other hazards.
3. Identify and assist any person that may have been injured.
 - a. Notify site administration of any immediate injuries
 - b. If the area is unsafe and the person can be moved, quickly get them to the evacuation rally point.
 - c. If the person is trapped or cannot be moved, remain with the person until emergency responders arrive or as long as it is safe to do so.

4. When safe to do so, site administration should attempt to signal an evacuation
 - a. teachers and other staff supervising students should exit building as soon as it is safe to do so and proceed to identified evacuation rally area
 - i. be aware of possible hazards that may block or inhibit the use of normal evacuation routes
 - ii. be cautious of unsecured overhead objects that may fall
 - b. Staff members shall notify the principal or office staff of any injuries or damage that poses a potential safety threat. Call 9-1-1 if needed.
 - c. Depending upon the severity of the earthquake and observed damage, the site custodian or another staff member may be directed by the principal to disconnect all electrical service and turn off master valves for gas and water to the campus.
5. After surveying the campus and finding it to be safe, the principal will signal an all clear for students and staff to return to class.
6. If the campus is not safe to occupy, an off-site evacuation will commence.

Chemical or Hazardous Materials Emergency Procedures

Chemical or Hazardous Material Incident

If there is a major chemical spill on campus or at any nearby industrial site, students should remain inside.

Students who are outside should be taken inside as soon as possible – Shelter-in-Place

If notified by a local emergency services agency (law enforcement, fire department, utility company) the chemical spill is an immediate danger to students and staff of the school, the students and staff should begin evacuation procedures, being cautious to exit through doors on the side of the building opposite the spill if known.

- Standard fire drill procedures may be followed
- Ensure the evacuation location is safe and is uphill / upwind from any gasses, or fumes spreading from the spill.
- If the evacuation area is unsafe, direct students and staff to an appropriate alternate location

If a chemical spill occurs onsite and is localized or contained such as in a chemistry class, students in the immediate classroom and nearby or adjacent rooms should be evacuated.

- If safe to respond, appropriate immediate mitigation efforts may be used by trained instructors.
- If a fire occurs during a chemical spill, the fire alarms shall be activated, and fire emergency procedures shall be followed.

Notify 9-1-1 of the chemical or hazardous material incident.

- Advise of the type of spill / chemical if known
- Advise of any known injured persons or persons suffering difficulty breathing
- Provide immediate first aid to those in need
- Follow all instructions given by the fire department
- Identify a staff member to greet emergency response teams and direct to the impacted area.
- The principal or designee will notify the district of the incident.

Explosions / Aircraft Crash or Similar Event Emergency Procedures

Explosions, aircraft crashes, and similar incidents can result in widespread damage occurring from the immediate explosion or impact and through the dispersal of injurious debris.

IF INSIDE CLASSROOMS OR OTHER BUILDINGS:

1. Initiate the “duck and cover” procedure.
2. The fire alarm may or may not sound
 - a. Do not evacuate your location until determined safe or advised to do so
 - b. If no alarm is sounded assess the situation and evacuate everyone by a safe route to the pre designated evacuation location
3. Be aware of the possibility of secondary explosions and scattered, injurious debris

4. If the normal evacuation area is not safe or there is no apparent safe route to the area, evacuate to an alternate area, or utilize an alternate route to a location preferably upwind from the location of the incident.
 - a. Advise the administration of your location and map it within the CatapultEMS system.
5. Account for the students and other persons within your group and report through the CatapultEMS system when advised
6. Notify admin of any injured persons within your class or group
 - a. Initiate appropriate first-aid or other supportive care
7. Wait for further instructions.

IF OUTSIDE OF CLASSROOMS OR OTHER BUILDINGS:

1. Instruct everyone to lie flat on the ground.
2. Do not run toward or enter any buildings.
3. Assess the situation:
4. As soon as it is safe to do so, instruct everyone to proceed to the normal evacuation area.
5. If the normal evacuation area is not accessible or unsafe, proceed to an alternate assembly area, preferably upwind from the incident site.
 - a. Advise the administration of your location and map it within the CatapultEMS system.
6. Account for the students and other persons within your group and report through the CatapultEMS system when advised
7. Notify admin of any injured persons within your class or group
 - a. Initiate appropriate first-aid or other appropriate care
8. Wait for further instructions.

ADMINISTRATION:

1. Call 911 as soon as practicable (if appropriate)
2. Activate the site's emergency notification system
3. Notify the District Office
4. Initiate emergency communications / accountability through CatapultEMS
5. Assess the safety of the site
 - a. If the site is safe, may advise to return to classrooms
 - b. If the site is unsafe, initiate appropriate site evacuations and family reunification procedures.

Bomb Threats / Suspicious Packages & Letters

All bomb threats should be taken seriously, investigated fully to identify the potential level of threat, and reported to law enforcement. A bomb threat may be made in many ways: telephone calls, text messages, emails, anonymous online tips, voice messages, postal letters, etc. The goal of an effective bomb threat response plan is to provide for the safety of the site while minimizing interruptions.

Initial Considerations:

- Evaluate the threat –

- The more detailed and specific the threat and/or the more follow-up calls received regarding the threat, the more probably the threat may be credible
- Anytime a suspicious device is found after having received a report of a threat – the more likely the threat is to be real and immediate action should be initiated
- Special events and activities are often accompanied by false threats: rallies, assemblies, required testing

Administrator’s Response:

- Call 911 – advise law enforcement of the bomb threat. Be certain to advise if a suspicious item or device has also been found.
- Initiate a CatapultEMS Incident – You may initiate a safety alert or an action alert depending upon circumstances
 - Notify District personnel
 - If the location of the alleged device is not specifically designated, consider not disrupting existing student activities and allowing students to remain in the classroom
 - You may provide specific instruction to via Catapult messaging
- The decision to evacuate a room, building or school site is the responsibility of the site administrator but may be made in conjunction with or recommendation from law enforcement or fire authorities.
 - Evacuating a class, building or site for every reported bomb threat may seem appropriate, but can often result in unwanted copy-cat threats intended to disrupt learning activities.
- The decision to search a room, building or any other area is the responsibility of the site administrator, but may be made in conjunction with or recommendation from law enforcement or fire authorities.
 - If a search is necessary, advise staff to conduct a visual search of their immediate area / classroom for suspicious items.
 - Staff should be familiar with their work areas and items that are out of the ordinary should be easily spotted
 - Assign staff to specific areas of the campus to search outdoor areas or large spaces.
 - This is a cursory search and should be done visually only. Items of concern should not be moved, opened, or touched.
 - Suspicious items should be reported to administration
 - If a suspicious item is identified the room should be evacuated and the item left untouched and in place.
 - Staff and students should evacuate taking only their personal belongings
 - The door to the room should be locked after everyone has exited.
- Communicate with parents / guardians
 - If the event results in a school day disruption including, but not limited to a law enforcement response, a search of a room, building or site, any evacuation or other safety action i.e., shelter-in-place, a notice

should be sent to parents / guardians. Depending on circumstance, the notice may be sent as part of a primary safety message and/or an incident update after its conclusion.

- Special instructions
 - Depending upon the description of the suspicious item found or details provided by the person making the bomb threat, law enforcement may provide specific site instructions that may include:
 - Turning off cell phones with a specific distance of the item's location
 - Turning off site bell or intercom systems

Resuming Normal Activities

The decision to resume normal activities is the responsibility of the site administrator but may be made in conjunction with or recommendation from law enforcement or fire authorities.

Depending upon the level of action taken, advise the site via PA or staff through the Catapult system it is safe to return to normal activities.

MAINTENANCE STAFF ACTIONS:

1. Should assist with monitoring the exterior areas of the campus
2. When/if appropriate – shut off all utilities at main power and close the main gas and water valves prior to completing evacuation from site

Severe Windstorm / Tornado Emergency Procedures

The Sacramento / Central Valley regions are prone to high winds. While rare, tornado warnings and watches are occasionally broadcast within the region. Safety concerns, property damage and injuries may result in high wind events. Additional hazards may include downed trees and branches, downed power lines, and flying debris.

ADMINISTRATION & SUPPORT STAFF ACTIONS:

1. Advise the site staff of the event
 - a. Create a safety incident within the CatapultEMS system

Power Outages / Power Safety Power Shutoff (PSPS) Procedures

Power outages may be caused due to severe weather, site based or local area mechanical failure, or as part of a community power safety shutoff plan during high winds and elevated fire conditions.

Schools, along with general learning activities can remain open and operational even during a power outage for periods of time if relative conditions are cooperative. For example, if the weather is moderate, heating or air conditioning is not essential, and accommodations can be made for student nutritional needs and general safety.

This site does not have specific back-up power or a dedicated generator for use during power outages.

Response to an unplanned power outage:

In the event the power goes out prior to or anytime during the school day:

- Site administration should consider using the CatapultEMS application via their charged smartphone / tablet to notify staff of the incident, including any necessary action
 - Use of the “One Way Messaging” within the system can quickly notify all staff
- Site administration will notify the District Office as well as the Facilities and Maintenance team of the outage.
- Site administration will notify their assigned Director.
 - The decision to continue the learning day, modify the day or close the campus will be made by the executive team after consulting with the site administrator.
- If lunch or other meal service is interrupted, Nutritional Services will coordinate the preparation and delivery of bagged meals.
- Teaching staff may be directed to identify alternative student learning activities.
- The district Communications Team will assist site administration in notifying parents and guardians of the situation and any details related to continuing, modifying or ending the school day.

Response to a planned or long-term power outage:

- In the event of a power outage known to last a full school day or longer, site administration will coordinate with the district Superintendent to determine the need for school closure.
- The site and district Communications Team will notify parents and guardians of the closure or plan to continue operations along with any details related to alternative study, learning enrichment activities or modification to the school day.

Gas Leak Emergency Procedures

Gas leaks are most frequently detected through odor and/or the sound of ‘hissing’. Both natural gas and propane have an additive to give it a distinctive and noticeable odor similar to rotten eggs. If you suspect a natural gas or propane leak due to the presence of the distinctive rotten egg odor, whether accompanied or not by a ‘hissing’ sound the following actions should be taken:

1. If you can smell the odor of the gas, you are too close
2. Immediately evacuate the area to your site's predesignated evacuation location
 - a. Consider the safety of the primary evacuation location
 - b. The location should be upwind and uphill from the leak
 - c. If the location is compromised, consider use of the alternate evacuation location or an appropriate upwind and uphill location
3. If evacuating a room, leave the door open behind you to allow gasses to escape
4. Notify the office / administration of the possible leak
5. Account for student safety and check for any injuries
 - a. Respiratory difficulties or other medical conditions may result from over exposure to gas fumes
 - b. Advise the office / administration of any injuries
6. Administration / Office staff should call 911
 - a. Notify District Safety/Office
7. It is recommended the fire alarm not be used to signal an evacuation due to the low, but possible risk of spark-initiated fire
8. Utilize the CatapultEMS or other system to notify staff of the safety incident and need to evacuate.
9. Post appropriate personnel at the front of the school, near ingress/egress points and safely around the impacted area to ensure persons do not inappropriately enter
10. Remain outdoors until the leak has been addressed and the area deemed safe by appropriate Fire or PG&E personnel.

Air Quality - Pollution / Wildfire Smoke Emergency Procedures

Health & Safety warnings related to outdoor air quality resulting from pollutants or wildfire smoke are common within the Sacramento / Central Valley region. Poor air quality and impacts from wildfire smoke occur most frequently during wildfire season through the months of May to November.

During an air quality event, the school principal will collaborate with the district superintendent and directors of Teaching & Learning to make decisions about school activities including outdoor activities and events, school closures and meal distribution programs. The school principal and district communications team will be responsible for communicating information to parents and students related to the air quality event, school closures or other changes to school activities. School principals and supervisors of non-school worksites are also employers and are responsible for determining policies and working practices for outdoor and indoor employees during air quality events.

Adjustments to education and work schedules should take into consideration the indoor air quality of school buildings. Air quality events can impact indoor air quality. Schools should assess heating and cooling systems, filtration levels and the use of portable air cleaners to determine if air environments can be improved.

Final determination to cancel special events, significantly modify school activities or cancellation of classes, programs or events should be made only after approval from the Superintendent or designee.

Recommended Actions Based on AQI Levels

The following guidance sheet is provided to assist in determining appropriate activities for groups based on the Air Quality Index (AQI).

Any action taken to modify or cancel activities should be coordinated after consultation with the site’s Director of Teaching & Learning.

WILDFIRE SMOKE EVENTS: Recommended Actions for Schools Based on Air Quality Levels					
Air quality is an important consideration for schools, especially during extreme air quality events when poor air quality can be detrimental to student and staff health. The recommendations below were developed in consultation with state and local health and air quality officials and local school districts.

Tactical Plan

Confidential – Not for Public Distribution/Not Printed

Education Code 32281 provides a school the ability to develop tactical plans in response to criminal incidents as well as maintain the confidentiality of those plans. This tactical plan should not be distributed to anyone other than staff members and those charged with training and implementing the plan.
