2023-2024 School Accountability Report Card (Published During the 2024-2025 School Year)

General Information about the School Accountability Report Card (SARC)

SARC Overview

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements and access to prior year reports, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or the LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

A hard copy of the School Accountability Report Card is available at your School Office, upon request.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

California School Dashboard

The California School Dashboard (Dashboard) <https://www.caschooldashboard.org/> reflects California's new accountability and continuous improvement system and provides information about how LEAs and schools are meeting the needs of California's diverse student population. The Dashboard contains reports that display the performance of LEAs, schools, and student groups on a set of state and local measures to assist in identifying strengths, challenges, and areas in need of improvement.

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

Admission Requirements for the University of California (UC)	Admission requirements for the UC follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state’s high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information website at https://admission.universityofcalifornia.edu/ .
Admission Requirements for the California State University (CSU)	Eligibility for admission to the CSU is determined by three factors: (1) Specific high school courses, (2) Grades in specified courses and test scores, and (3) Graduation from high school. Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information, see the CSU website at https://www2.calstate.edu/ .

2024-25 School Description and Mission Statement

Kennedy School is located in the southeast section of San Jose, at the north end of Franklin-McKinley School District (FMSD). Kennedy is one of 16 schools in the FMSD and currently serves approximately 350 preschool through sixth-grade students. Our mission at Kennedy is to foster a community of students, families, and staff committed to improving student outcomes. We strive to create an inclusive learning environment where students access the necessary academic and social skills to thrive in a world that has not yet been created. Because we believe it is our collective responsibility to impact and disrupt the systems that often marginalize our students, families, and community. This is accomplished by guaranteeing a safe, nurturing environment that inspires individual excellence and integrates the strength of our diverse community.

2024-25 School Description and Mission Statement

Part of a high-quality academic program includes activities that take place outside of the classroom and enhance the overall learning experience. At Kennedy School, students can access the following extracurricular activities: CORAL, San Jose Jazz Progressions, Little H.E.R.O.E.S., and Audacity Performing Arts. During the school day, students participate in enrichment opportunities weekly.

At the end of the 2018-2019 school year, Kennedy secured grant money that would be dispersed over the 2019-2020, 2020-2021, and 2021-2022 school years, from Silicon Schools fund. The purpose of the grant was to reimagine our school. Through this grant, we have been able to build a community garden, offer our students enrichment, offer all staff and parents training in Positive Discipline, delve deeper into standards-based instruction with the support of Instruction Partners, and have worked towards our mission of creating a learning environment that equips our students with the necessary academic and social skills to be productive members of our society. The three graduate aims we have chosen for our students are Ready for the Future World of Work, Kind and Thoughtful Community Members, and Academically Prepared.

Kennedy Elementary School Mission & Vision

Mission: Kennedy is a community of students, families, and staff who are committed to improving student opportunities by challenging the current model. We want to build a culture and community where students will be self-driven, have a sense of belonging, and own their work. Students' social and emotional goals will be met, and ultimately, teaching to the whole student, creating life-learners and leaders in their community who will advocate for themselves and others.

Vision: We strive to create an inclusive learning environment where students can access the necessary academic and social skills to thrive in a world that has not yet been created

A. Conditions of Learning **State Priority: Basic**

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

2024-25 Quality, Currency, Availability of Textbooks and Other Instructional Materials

Textbook and instructional Materials: The local governing board of the Franklin-McKinley School District has certified that each pupil in the District, in transitional kindergarten through eighth grade, has been provided with standards-aligned textbooks and/or instructional materials in each of the following areas: reading/language arts, mathematics, science and history/social studies. Health is included in the science curriculum. All District textbook adoptions are within the scope of the most recent State Board of Education adoptions and comply with California Education Code provisions.

In accordance with the California Education Code and the Williams Settlement mandates, procedures, monitoring processes and reporting practices by principals and District departments have ensured that all students have access to the current, standards-based textbooks and instructional materials.

In order to comply with the mandates to provide students with the most recent state-approved adoptions in the core areas of Reading/Language Arts, Mathematics, Science and History/Social Studies (Health is included in the Science curriculum), a textbook inventory was conducted at every school by September 2024. Each principal was responsible for ensuring that every student was provided with the necessary textbooks and instructional materials. In addition, the updated inventory count was also verified by each site for every classroom in September 2024. In addition, principals were responsible for the replenishment of needed textbooks at every grade level (TK-8). All ordering and delivery materials are through an established set of procedures with the District Service Center. As part of the monitoring of sufficiency of textbooks and instructional materials, principals submit a school wide and an individual classroom report to the Curriculum, Instruction, and Assessment Department annually.

As a result of the inventories, the Franklin-McKinley Board of Education certified that each student in grades TK-8, including English learners, have been furnished a complete set of core instructional materials and textbooks that meet the requirements of the California Education Code. A public hearing regarding the sufficiency of said materials that are consistent with state-adopted frameworks was held on September 24, 2024. A Resolution on Sufficiency of Materials, according to the Williams Act mandates, was passed at a public hearing on September 24, 2024.

School Facility Conditions and Planned Improvements

Robert F. Kennedy School has 29 classrooms, one multi -purpose room, a library, and one administration building. The main campus was built in 1970. The site has two 8-hour custodians and one (1) 4-hour custodian that cleans and disinfects the site on a daily basis.

In 2020 FMSD Bond Measure R was passed and funded several site improvements to the facilities including campus-wide exterior painting and installation of new interior and exterior signages (2021), installation of security cameras at all entrances and access gates (2021), roof repairs (2021), installation of ceiling-mounted projectors on most classrooms (2021), on-going maintenance and repair of all our HVAC systems, and replacement of rubberized surface under the solar arrays in the kindergarten area (2021),

ESSER funds were utilized to provide additional picnic tables for outdoor learning use (2021), and a designated Wellness Center was established to ensure students are provided with psychological and counseling services and a safe, healthy, and connected school environment (2021).

Office modernization was completed in 2024.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

Statewide Assessments

(i.e., California Assessment of Student Performance and Progress [CAASPP] System includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities).

The CAASPP System encompasses the following assessments and student participation requirements:

1. **Smarter Balanced Summative Assessments and CAAs for ELA** in grades three through eight and grade eleven.
2. **Smarter Balanced Summative Assessments and CAAs for mathematics** in grades three through eight and grade eleven.
3. **California Science Test (CAST) and CAAs for Science** in grades five, eight, and once in high school (i.e., grade ten, eleven, or twelve).

College and Career Ready

The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Percentage of Students Meeting or Exceeding the State Standard on CAASPP

This table displays CAASPP test results in ELA and mathematics for all students grades three through eight and grade eleven taking and completing a state-administered assessment.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

2023-24 CAASPP Test Results in ELA by Student Group

This table displays CAASPP test results in ELA by student group for students grades three through eight and grade eleven taking and completing a state-administered assessment.

ELA test results include the Smarter Balanced Summative Assessment and the CAA. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus

the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA divided by the total number of students who participated in both assessments.

To protect student privacy, double dashes (--) are used in the table when the cell size within a selected student population is ten or fewer.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

CAASPP Test Results in Science for All Students

This table displays the percentage of all students grades five, eight, and High School meeting or exceeding the State Standard.

Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated in a science assessment.

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8): Pupil outcomes in the subject area of physical education.

2023-24 California Physical Fitness Test Results

This table displays the percentage of students participating in each of the five fitness components of the California Physical Fitness Test Results. The administration of the PFT requires only participation results for these five fitness areas. Percentages are not calculated and double dashes (--) appear in the table when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3): Efforts the school district makes to seek parent input in making decisions regarding the school district and at each school site.

2024-25 Opportunities for Parental Involvement

Kennedy School welcomes parents to become involved in all areas of their child's social and academic experience. In the fall, all parents are invited to be a part of an Annual Title I meeting. They learned about the School Governance Committees (English Language Learner Advisory Committee-ELAC and the School Site Council-SSC) at that meeting. They were invited to nominate themselves to become members of one or both of those committees. Both of those committees meet a minimum of quarterly and have been well-attended. Members of these committees have the opportunity to provide input on school programs, budgets, and safety, as well as in many other areas. Meetings are also held at the beginning of the school year to inform parents of the California State Standards for each grade level as well as the various class options available to their children. We also have regular monthly meetings that take place in the mornings and evenings. We have also provided parent workshops by our school social worker and Middle Ground Parent, with the intention of supporting our community's social-emotional well-being.

We look forward to the day we can welcome parents to visit their child's classroom, volunteer as parents, attend our reading nights, and participate in our Cougar Parent Club. The Parent club is working on hosting a variety of events and fundraisers to enhance the academic experiences our students are receiving. Opportunities for parent involvement are virtual and in-person. For more information, contact Mariana Alvarez, Principal.

2024-25 School Safety Plan

All schools in the Franklin-McKinley School District has a very detailed, comprehensive safety plan designed to ensure both the health and security of all students and staff. The safety plan consists of a wide variety of site drills designed to meet a number of emergency situations that might arise. All school sites within Franklin-McKinley School District practice fire, drop and cover

2024-25 School Safety Plan

(earthquake), and intruder drills. There are established committees at all sites and levels to review safety procedures, correct any problems that may exist and expand FMSD's capacity to deliver services when and where needed. In addition, all required drills are calendared, completed, and evaluated with the results being communicated to all staff and parents in the medium of the school website and via email from an administrator. The School Safety Plan is reviewed, updated, and discussed with the school faculty and approved by the Board of Trustees each year before March 1.

Input for Safety Plan will be collected from parents and staff on December 11, 2024. A draft will be presented to the community in the last week of January 2024.

Professional Development

The primary areas of focus for our professional development in FMSD schools is training our staff to support the goals outlined in the district Local Control and Accountability Plan (LCAP).

FMSD provided teachers with professional development that emphasized the district focus, “Learning to Read” before students returned to school in August. Staff was provided with professional development opportunities that focused on the newly acquired supplemental phonics programs SIPPS and Sonday, along with sessions on the phonemic awareness program, Heggerty in grades K-2nd. Middle school staff was provided with workshops covering vocabulary instruction and morphology at the secondary level to ensure alignment to the FMSD Literacy Block. Additionally, staff participated in workshops that provided an overview on new adoptions; TCI, K-6 Social Studies and the TK Curriculum, Creative Curriculum for Transitional Kindergarten, California, as well as continued learning in Math, Science, and Writing instruction. New teachers were provided workshops orienting them to the district adopted curriculum and participated in Implicit Bias training. Special Education staff received training on facilitating and writing IEPs, and the requirements for Special Education instruction. Throughout the fall, optional professional development opportunities were provided monthly including topics such as Assessments including ESGI, NSGRA, FastBridge, Lexia, SIPPS, Sonday, Heggerty, and Orton-Gillingham foundational training.

In January 2024, teachers will participate in a full-day series of professional development. Workshops will align to the district focus, with professional development focused on Tier I instruction. Last school year, all staff were provided training in Implicit Bias from Collaborative Learning Solutions. This year, 2023-24, FMSD provided Implicit Bias training for all new staff and staff who were unable to attend training last year.

Ongoing Professional Learning Communities allow teachers to learn from each other and discuss best practices. All FMSD schools are participating in the implementation of a Multi-Tiered System of Support (MTSS) focused on Tier I instruction and universal access.

In August of 2018, Kennedy teachers were trained in Positive Discipline through Middle Ground Parenting. We have had ongoing training to maintain and improve practice with social-emotional learning. Any new staff are also on-boarded within their first year of being hired. We are also in a four-year contract with Instruction Partners to improve instructional practices in ELA and Math. The first year of this grant was in the 2021-2022 school year, and will end in the 2024-2025 school year. With this
