

# Testimonial

**Gateway is more than just a school that my child goes to... it's like an extended family he sees every day... and this family helps his needs and helps him to grow in every way possible. Our journey is coming to an end this year, but the milestones he has reached... and each staff member who has invested in my child will always be a family to us!!! They will forever be cherished for the role they played in his life and I'm forever grateful my child was able to be a part of this wonderful educational facility!!!**
